

FORWARD LOOKING STATEMENTS

FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking information and forward-looking statements (together, "forward-looking statements") within the meaning of applicable Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995. All statements in this presentation, other than statements of historical fact, that address future events, developments or performance that Osisko expects to occur including management's expectations regarding Osisko's growth, results of operations, estimated future revenue, carrying value of assets, requirements for additional capital, production costs and revenue, business prospects and opportunities are forward-looking statements. In addition, statements relating to gold equivalent ounces ("GEOs") are forward-looking statements, as they involve implied assessment, based on certain estimates and assumptions, and no assurance can be given that the GEOs will be realized. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "is expected" "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential", "scheduled" and similar expressions or variations (including negative variations of such words and phrases), or may be identified by statements to the effect that certain actions, events or conditions "will", "would", "may", "could" or "should" occur including, without limitation, the performance of the assets of Osisko, the timely construction of and production from the Odyssey underground project, the timely development of the Cariboo project and Bonanza Ledge Phase 2 project and results from the exploration work, the timely development and construction of the San Antonio project, the continued ramp up of the Eagle Mine, the results from exploration work at the Windfall project, the timely release of a Preliminary Economic Assessment and of a Prefeasibility study by First Majestic and the positive outcome thereof, the results from exploration work at the Kirkland Lake property and positive results from optimization of the Hammond Reef project, and positive exploration results from other properties over which Osisko holds an interest, that significant value will be created within the accelerator group of companies and Osisko's ability to seize future opportunities. Although Osisko believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements involve known and unknown risks, uncertainties and other factors and are not guarantees of future performance and actual results may accordingly differ materially from those in forwardlooking statements. Factors that could cause the actual results deriving from Osisko's royalties, streams and other interests to differ materially from those in forward-looking statements include, without limitation: the impact of the COVID-19 pandemic on Osisko's business, influence of political or economic factors including fluctuations in the prices of the commodities and in value of the Canadian dollar relative to the U.S. dollar, continued availability of capital and financing and general economic, market or business conditions; regulations and regulatory changes in national and local government, including permitting and licensing regimes and taxation policies; whether or not Osisko is determined to have "passive foreign investment company" ("PFIC") status as defined in Section 1297 of the United States Internal Revenue Code of 1986, as amended; potential changes in Canadian tax treatments of offshore streams or other interests, litigation, title, permit or license disputes; risks and hazards associated with the business of exploring, development and mining on the properties in which Osisko holds a royalty, stream or other interest including, but not limited to development, permitting, infrastructure, operating or technical difficulties, unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, flooding and other natural disasters or civil unrest, rate, grade and timing of production differences from mineral resource estimates or production forecasts or other uninsured risks; risk related to business opportunities that become available to, or are pursued by Osisko and exercise of third party rights affecting proposed investments. The forward-looking statements contained in this presentation are based upon assumptions management believes to be reasonable, including, without limitation: the ongoing operation of the properties in which Osisko holds a royalty, stream or other interest by the owners or operators of such properties in a manner consistent with past practice; the accuracy of public statements and disclosures made by the owners or operators of such underlying properties; no material adverse change in the market price of the commodities that underlie the asset portfolio: Osisko's ongoing income and assets relating to the determination of its PFIC status, no material changes to existing tax treatments; no adverse development in respect of any significant property in which Osisko holds a royalty, stream or other interest; the accuracy of publicly disclosed expectations for the development of underlying properties that are not vet in production; and the absence of any other factors that could cause actions, events or results to differ from those anticipated. estimated or intended. However, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Investors are cautioned that forward-looking statements are not guarantees of future performance. Osisko cannot assure investors that actual results will be consistent with these forward-looking statements and investors should not place undue reliance on forward-looking statements due to the inherent uncertainty

For additional information with respect to these and other factors and assumptions underlying the forward-looking statements made in this presentation, see the section entitled "Risk Factors" in the most recent Annual Information Form of Osisko which is filed with the Canadian securities commissions and available electronically under Osisko's issuer profile on SEDAR at www.sedar.com and with the U.S. Securities and Exchange Commission on EDGAR at www.sec.gov. The forward-looking information set forth herein reflects Osisko's expectations as at the date of this presentation and is subject to change after such date. Osisko disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, other than as required by law.

SAFE HARBOUR STATEMENT

This presentation has been prepared for informational purposes only in order to assist prospective investors in evaluating an investment in Osisko Gold Royalties Ltd. Inquiries regarding this confidential presentation can be made to the senior management of the Corporation.

CAUTIONARY NOTE TO U.S. INVESTORS REGARDING MINERAL RESERVE AND MINERAL RESOURCE ESTIMATES

Osisko is subject to the reporting requirements of the applicable Canadian securities laws, and as a result, reports its mineral resources and reserves according to Canadian standards. Canadian reporting requirements for disclosure of mineral properties are governed by National Instrument 43-101 ("NI 43-101"). The definitions of NI 43-101 are adopted from those given by the Canadian Institute of Mining, Metallurgy and Petroleum ("CIM"). U.S. reporting requirements are governed by the Industry Guide 7 ("Guide 7") of the Security and Exchange Commission ("SEC"). This presentation includes estimates of mineral reserves and efficient approaches and definitions. For example, under Guide 7, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. Consequently, the definitions of "Proven Mineral Reserves" and "Probable Mineral Reserves" under CIM standards differ in certain respects from the standards of the SEC. Osisko also reports estimates of "mineral resources" in accordance with NI 43-101. While the terms "Mineral Resource," "Measured Mineral Resource," "Indicated Mineral Resource" are recognized by NI 43-101, they are not defined terms under standards of the SEC. As and "Inferred Mineral Resource" are recognized by NI 43-101, they are not defined terms under standards of the SEC. As such, certain information contained in this presentation concerning descriptions of mineral resources or Indicated Mineral Resource for inferred Mineral Resource or Indicated Mineral Resource and as to its existence and a higher category. Under Canadian rules, estimates of Inferred Mineral Resources may not form the basis of feasibility or other economic stu

Mr. Guy Desharnais, PhD., P.Geo., is the qualified person for this presentation as defined by National Instrument 43-101 – Standards of Disclosure for Mineral Projects and has reviewed and verified the technical information contained herein. Mr. Luc Lessard is an employee of Osisko Gold Royalties and is non-independent.

OSISKO BUSINESS MODEL

ROYALTY MODEL

BENEFITS

- → Highly efficient business model (+90% cash margin, sustainable dividend, small team with low G&A, scaleable business)
- ◆ No capital cost requirements
- ◆ Predictable operating costs
- ◆ Free upside to additional ounces found
- → High leverage to gold
- ◆ Significantly higher asset and cash flow diversification versus comparable intermediate mining companies
- ◆ Accelerator model provides higher returns through small, early-stage investments

COMMITTED TO MANAGING RISK – FOCUS ON ESG

OUR APPROACH

- ◆ ESG due diligence fully integrated into project evaluations
- ♦ Much like investment community, we use ESG evaluations to price risk
- ◆ Promote best-in-class practices
- ◆ Evolving contract structures to ensure risks are efficiently managed
- ♦ ESG committee responsible for policies and practices

OUR PEOPLE

- ◆ Actively pursuing diversity across the organization
 - 55% of employees are female
 - 4 out of 11 board members are female or in a minority group
 - Significant board refreshment in 2020 (with four new members) while adding different perspectives and expertise

OUR PORTFOLIO

- ★ Largely newer mines in established mining jurisdictions
- ◆ Quality operators with track records managing mining and ESG risks
- ♦ Newer royalty/streaming contracts where we have strong rights and protections
- ◆ Production mostly derived from primary gold mines smaller carbon footprint

TOP QUARTILE "A" ESG RATING

FROM MSCI AS AT OCTOBER 8, 2020

RANKED # 5 OUT OF 112PRECIOUS METALS COMPANIES

BY SUSTAINALYTICS AS AT OCTOBER 7, 2020

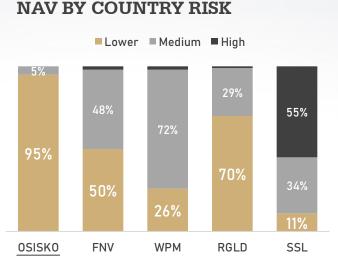

MORE THAN SIMPLY RANKINGS AND COMMITMENTS:

ESG IS IN OSISKO'S DNA

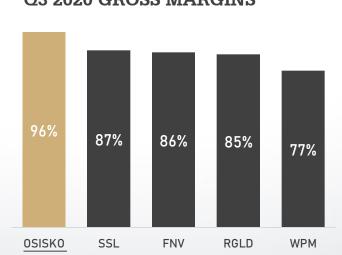

A QUALITY ROYALTY PORTFOLIO

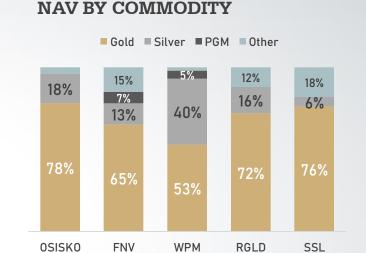

- Over 140 royalties, streams and precious metals offtakes
- Diversified cash flow from 17 producing assets (primarily on gold mines)
- Lowest geopolitical risk profile
- Highest gold weighting
- 94% gross margins¹ for Q4 2020
- Partnered with high quality operators (Agnico, Yamana, Newmont, Victoria Gold, Alamos, SSR, Eldorado, etc)
- Highest development weighting in peer group maturing at the right time

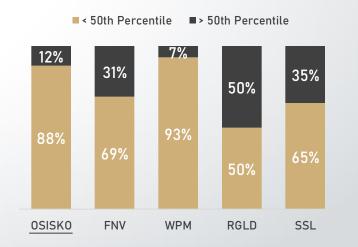

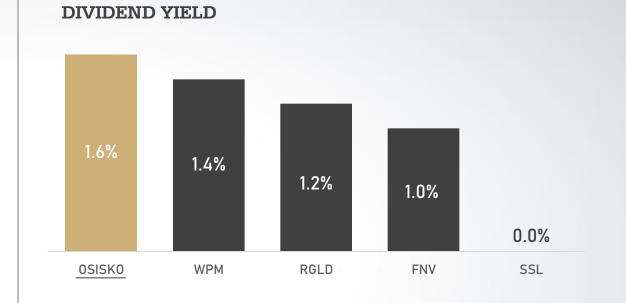

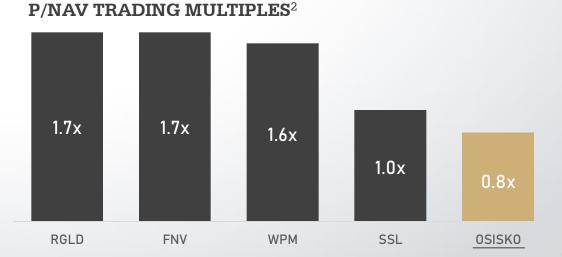

OSISKO

A QUALITY INVESTMENT TSX | NYSE: OR

- → Highest dividend yield in royalty peer group
- → High trading liquidity (on average \$20.9M per day over the last three months)
- ◆ Strong balance sheet and significant financial capacity
- → Diversified, supportive shareholder base
- Significantly undervalued with opportunity for re-rate

osisko

SPIN-OUT TRANSACTION – DISTINCT COMPANIES

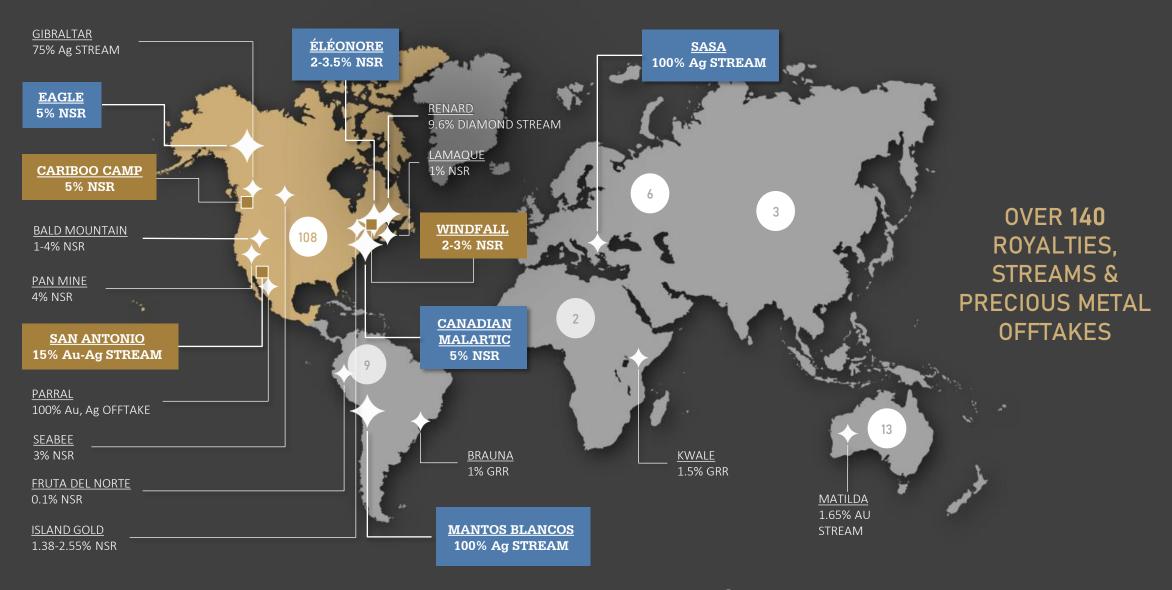

- Streamlined royalty company
- Significant re-rate opportunity
- ◆ Added 5% NSR on Cariboo camp and 15% stream on San Antonio project
- ◆ In production, ODV will contribute ~20koz GEOs per annum
- → ~75% equity ownership in ODV (current value of over \$794 million)
- Disciplined but proactive approach to reducing ownership

- ♦ North American intermediate in the making
- ♦ Well funded with ~\$250 million raised since RTO
- ◆ Cariboo camp
 - ♦ 5.9Moz Au in British Columbia
 - ◆ Exploration potential over 83km strike length
 - Early satellite production in 2021
- ◆ San Antonio
 - → High grade, 1.1Moz heap leach Mexican asset
 - Large underexplored land package

TIER-1 ROYALTY PORTFOLIO

OSISKO

A CATALYST RICH PHASE

EXISTING PRODUCING ASSETS OUTPERFORMING

- ◆ Operators replacing production, extending mine lives and in certain cases announcing significant expansions
- → Malartic Underground Odyssey discovery represents a new flagship royalty
- ◆ Continued Eagle ramp up and Mantos expansion provide high quality growth in 2021/2022

DEVELOPMENT ASSETS MATURING AT AN IDEAL TIME

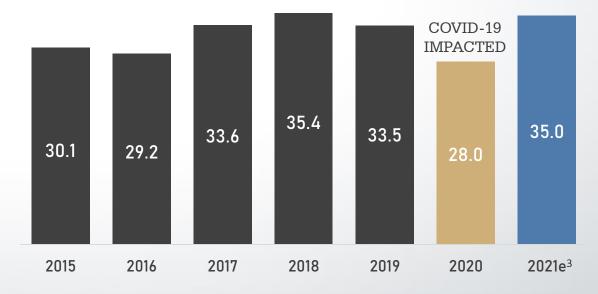

- Highest organic growth in the sector (from royalties and streams)
- ◆ Development company assets benefitting from supportive equity markets and high commodity prices
- ◆ Equity, royalty and stream contributions from three significant Canadian camps (Osisko Development, Osisko Mining, and Falco Resources)
- → Allows Osisko to be disciplined in looking for external growth assets

- Flagship royalty asset
- ◆ Canada's largest gold mine
- ♦ A stable producer at first quartile costs
- Significant additional mine life from newly approved,
 Odyssey underground project

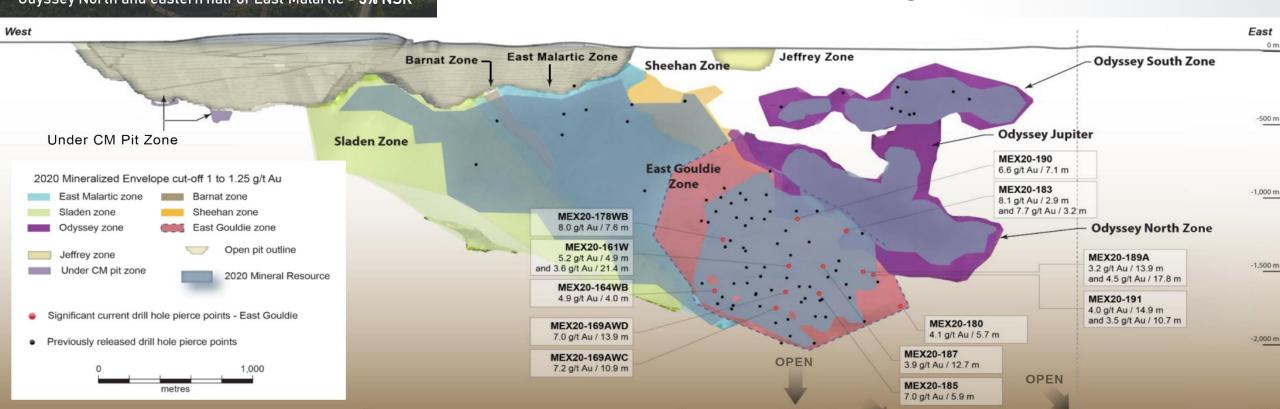

OUNCES DELIVERED TO OSISKO (K oz Au)

- Construction approval of Odyssey underground announced in February along with positive PEA results ⁴
- ◆ Updated resource of 14.5Moz⁴ of gold and growing
- Mine life extension from 2028 to at least 2039⁴
- ◆ Average underground production of 545koz of gold per year from 2029, based on ~50% of current resources⁴
- ★ East Gouldie (70% of mining inventory) remains open with 11 rigs focused on definition and extension drilling⁴

MANTOS BLANCOS

100% Silver Stream
Antofagasta, Chile | Mantos Copper S.A.

EAGLE

- ◆ The mine expansion is expected to increase the throughput of the operation's sulphide concentrator plant from 4.3 Mtpa to 7.3 Mtpa by Q4 2021
- ◆ Expected to increase silver stream deliveries by ~80% and extend mine life to 2035
- ◆ Commercial production declared on July 1, 2020 and ramping up to 210,000 oz Au/yr
- Fourth quarter production reached 42,436 ounces of gold, a 20% increase over the previous quarter
- ◆ Exploration delivering high grade drill results on the Raven target, expanding strike length to 750 meters
- 5% NSR
 Yukon, Canada | Victoria Gold Corp.

 ÉLÉONORE

 2.2-3.5% NSR
 Québec, Canada | Newmont Corporation
- ♦ Steady state in 2021 with guidance of 270,000 ounces of gold production
- Newmont seeking further improvement though aggressive exploration campaign to enhance the life of mine profile

ISLAND GOLD

1.38%-3% NSR Ontario, Canada | Alamos Gold Inc.

- ◆ Updated resource and reserve estimate = 8% increase in reserves and a 40% increase in inferred resources
- ◆ Positive Phase III Expansion Study and proceeding with an expansion of the operation by ~70% to 236,000/yr starting in 2025
- ♦ 16-year mine life, doubling the current mineral reserve life

SASA

100% Silver Stream
Macedonia | Central Asia Metals PLC

- ♦ One of the largest zinc, lead and silver mines in Europe
- ♦ Long mine life with proven history of reserve replacement
- ♦ Ongoing technical work for the Life of Mine study which currently stands at 18 years

GIBRALTAR

100% Silver Stream
British Columbia, Canada | Taseko Mines Limited

- ♦ Second largest open pit copper mine in Canada with at least 18 years of reserves remaining
- Revised mine plan implemented in April significantly reduced
 2020 operating and capital costs

SEABEE

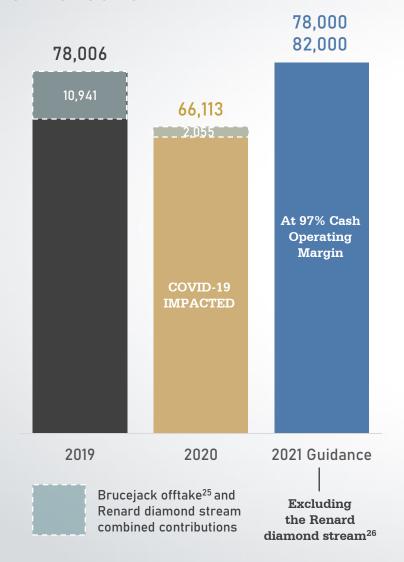

3% NSR Saskatchewan, Canada | SSR Mining Inc.

- ♦ In 2020, the company announced further investment in exploration. Exploration results include drill intercepts of 7.64 meters of 14.75 g/t gold and 2.62 meters of 28.92 g/t gold in the Santoy Gap Hanging Wall
- ♦ New discovery made at Batman Lake including 3.6 meters of 37.95 g/t gold

OSISKO

SUSTAINED GEO GROWTH

GEO PRODUCTION

EAGLE RAMP UP 5% NSR

MANTOS EXPANSION⁵ 100% Ag Stream 6,000 GEOs/Year

SANTANA 3-5% NSR 1,000 GEOs/Year

ERMITANO 2% NSR 1,000 GEOs/Year

SAN ANTONIO 15% Au-Ag Str. 9.000 GEOs/Year

CARIBOO 5% NSR 9,300 GEOs/Year

WINDFALL 2-3% NSR 4,500 GE0s/Year

CERRO DEL GALLO 3% NSR 1,900 GEOs/Year

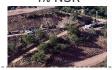

MALARTIC UNDERGROUND 3-5% NSR

HORNE 5 100% Ag Stream 23,000 GEOs/Year

HERMOSA 1% NSR

PINE POINT 2% NSR 4,000 GEOs/Year

UPPER BEAVER 2% NSR 2,400 GEOs/Year

BACK FORTY 18.5% Au, 75% Ag Str. 16,000 GEOs/Year

RENARD 9.6% Diamond Stream

AMULSAR 4.22% Au, 62.5% Ag Str. 10,000 GEOs/Year

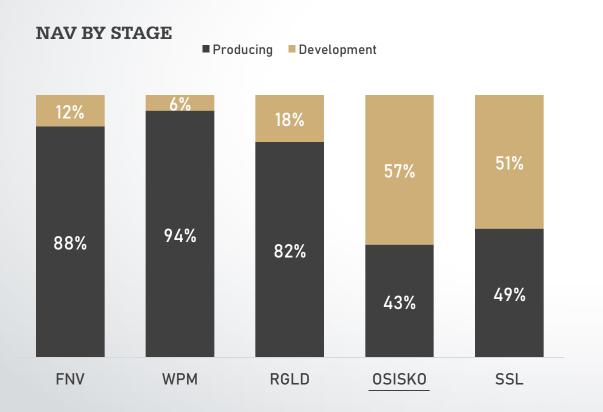

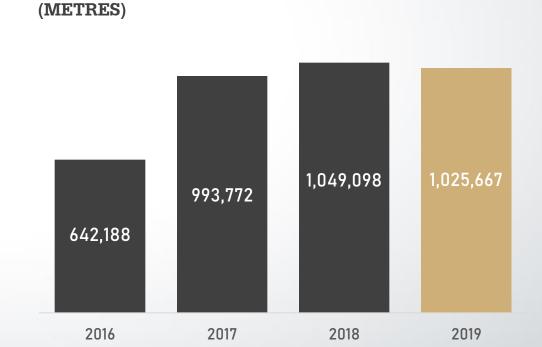

PRODUCING ASSETS PERFORMING WELL AND ENTERING A PHASE OF MAJOR ORGANIC GROWTH⁶

BUILT-IN GROWTH

- → Highest development weighting in peer group maturing at the right time
- ♦ Over 540,000 meters drilled on our producing assets in 2019
- ◆ Royalties or streams on ~25,000 km² in the some of the most important Canadian mining camps

DRILLING ON OSISKO ROYALTY PROPERTIES⁶

OSISKO

GROWTH ASSETS

CARIBOO CAMP

- ♦ 5.9 Moz Au⁷ and growing
- Decades worth of exploration potential over 83km strike
- Satellite production in 2021
- Fast-tracking permitting of main project for mid 2022

SAN ANTONIO

- ♦ High grade 1.05 Moz Au⁸
- Highly-prospective 11,338
 ha land package –
 underexplored at depth
 and along strike
- Reprocessing of tailings in near term while larger project permitted

WINDFALL

- Unique combination of size and high grade with over 6 Moz resource⁹ and growing, all above 1,200m depth
- ◆ Additional 200k metres of drilling in 2021, 30+ drills on site
- Strong support from the Cree First Nation

HORNE 5

- ♦ 6 million GEOs in reserves¹⁰
- Feasibility complete and permitting in progress
- Agreements entered into with Glencore (debenture and offtakes)

ADVANCEMENT OF ~50K GEOS PER ANNUM OF NORTH AMERICAN PRODUCTION POTENTIAL

GROWTH ASSETS (CONT'D)

HERMOSA

- ◆ Over 100Mt at 10.4%
 ZnEq and multi-decade
 mine life
- ◆ Pre-feasibility study scheduled for H1 2021, integrating the Taylor and Clark deposits¹¹
- World-class polymetallic deposit held by major operator

PINE POINT

- Rare combination of size and high grade
- ◆ 12.9 Mt @ 6.29% ZnEq in the indicated category and 37.6 Mt @ 6.80% ZnEq in the inferred category.
- ◆ PEA delivered in 2020 with 30% IRR
- → Improving zinc prices

RENARD

- ♦ \$1B of well-built infrastructure
- Diamond prices rebounding higher than pre-COVID levels
- Argyle shutdown removes ~15% of annual diamond supply

AMULSAR

- Significant mineral resource of 3.47 Moz Au M&I yielding 2.61 Moz of P&P gold reserves
- A valuable gold asset which is more than half built
- ♦ In-country progress is key to unlocking value

TWO HIGH QUALITY BASE METAL PROJECTS

SIGNIFICANT OPTION VALUE ASSETS

RECENT ASSET ADVANCEMENTS

ASSET	ROYALTY	OPERATOR	ASSET UPDATE
Antakori	1.5%-3% NSR	REGULUS	Extension of the mineralized footprint of the project announced on January 7, 2021.
Ambler	1% NSR	TRILOGY SOUTH32	Feasibility study released and seeking federal 404 permit in H2-21.
Bralorne	1.2% NSR	lalisker RESOURCES	Talisker continues to intersect high grade vein intersections on their Bralorne property, but also some thicker bulk mining intervals on the Charlotte zone.
Casino	2.75% NSR	western COPPER AND GOLD	Completing an optimized PEA developing a plan for engineering, field investigations, test work, permitting and community relations activities.
Ermitaño	2% NSR	FIRST MAJESTIC	A PEA will be released by end of Q1 2021. Following receipt of all permits, initial limited production expected in H2/21 with ramp up in early 2022.
Hammond Reef	2% NSR	**	Released initial reserves (3.3 Moz of gold), received environmental approvals and evaluating potential mining scenarios including ore sorting.
Upper Beaver	2% NSR	AGNICO EAGLE	Agnico is expected to provide an updated open pit and underground resource estimate and economic study end of 2021.

RECENT ASSET ADVANCEMENTS (CONT'D)

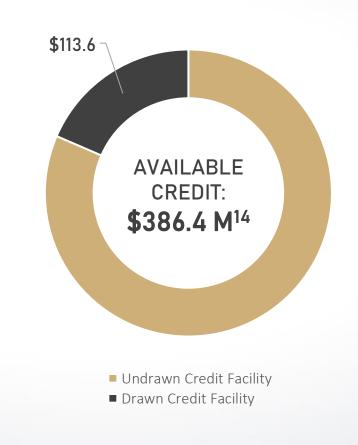

ASSET	ROYALTY	OPERATOR	ASSET UPDATE
Magino	3% NSR	ARGONAUT GOLD	Royalty on small portion of open pit ounces, but more material portion of recent underground drilling success.
Ormaque/ Lamaque	1% NSR	2	In February 2021, maiden inferred resource declared for the Ormaque (part of Lamaque) of 0.8 million ounces (2.62 million tonnes of 9.5 g/t gold).
QMX	2.5% NSR	eldorado gold	Recent acquisition of QMX increases ELD's footprint in the Abitibi region and adds a pipeline of organic opportunities close to Lamaque.
WKP	2% NSR	OCEANAGOLD	Recent results (Jan 2021) announced intersections of additional high grade gold including 23g/t Au and 39g/t Ag over 49m.

ENDNOTES

- 1. Cash gross margin, which represents revenues less cost of sales, is a non-IFRS measure. The Company believes that this non-IFRS generally accepted industry measure provides a realistic indication of operating performance and provides a useful comparison with its peers.
- 2. Based on analyst consensus estimates
- 3. 2021 estimate based on AEM/YRI guidance of 700,000 oz Au
- 4. See Yamana Gold and/or Agnico Eagle press releases dated February 11, 2021.
- Osisko's estimate.
- 6. Based on operators' disclosure.
- 7. Cariboo Gold project resources as at October 5, 2020:
 - ♦ Measured and indicated resources of 3,200 Koz, 21.4 Mt @ 4.6 g/t
 - → Inferred resources of 2,721 Koz, 21,6 Mt @ 3.9 g/t
- 8. San Antonio Gold project resources as at October 5, 2019:
 - ♦ Inferred resources of 1,049 Koz, 27,600 Kt @ 1.2 g/t
- 9. Osisko Mining's mineral resources disclosure as at February 17, 2021:
 - ◆ Measured and Indicated mineral resources of 1,857 Koz, 6,023 Kt @ 9.6 g/t Au
 - ♦ Inf. mineral resources of 4,244 Koz, 16,401 Kt @ 8.0 g/t Au
- 10. Falco Resources' mineral reserves and resources disclosure as at December 31, 2019:
 - → P&P mineral reserves of 5,961 Koz Au Eq., 80.9 Mt @ 2.37 g/t Au Eq.
 - → M&I mineral resources (including reserves) of 7,501 Koz Au Eq., 91.2 Mt @ 2.56 g/t Au Eq.
 - → Inf. mineral resources of 1,736 Koz, 21.5 Mt @ 2.51 g/t Au Eq.
- 11. South32 corporate presentation 2020 BMO Capital Markets Global Metals and Mining Conference
- 12. Osisko Gold Royalties Ltd and its subsidiaries, excluding Osisko Development Corp. and its subsidiaries.
- 13. Osisko Development Corp. and its subsidiaries.
- 14. Corresponds to the guoted price of the investments in a recognized stock exchange as at December 31, 2020.
- 15. Including the C\$100 million accordion
- 16. Factset & Company Reports
- 17. As at September 22, 2019
- 18. As at February 26, 2021
- 19. The "Total Return" is calculated on the sum of the "Equity Value" and the "Royalty/Stream Value", divided by the sum of the "Equity Cost" and "Royalty/Stream Cost", minus 1. It shows the percentage increase (decrease) in value of our total financial commitment to the company from our cost base.
- 20. \$25M already disbursed, \$115M left to total commitment
- 21. Based on management estimate
- 22. Sale done as part of the Orion swap. Cost based on allocation price
- 23. Includes project advancement costs up to ODV spin-out
- 24. Accounts for the roll-over of Falco and Minera Alamos equity positions in Osisko Development
- 25. The Brucejack offtake was sold on September 15, 2019.
- 26. For 2021, GEOs from the Renard diamonds stream are estimated at 8,126; however, Osisko committed to reinvest in 2021 the net proceeds from the stream through the bridge loan facility provided to the operator.
