# Non-GAAP Financial Measures

We present Non-GAAP financial measures which are derived from the statements of operations, cash flow and balance sheets of DXC. These Non-GAAP financial measures include earnings before interest and taxes ("EBIT"), adjusted EBIT, adjusted earnings before interest, taxes, depreciation and amortization ("adjusted EBITDA"), Non-GAAP income from continuing operations before income taxes, Non-GAAP net income attributable to DXC and Non-GAAP basic and diluted EPS, organic revenue growth, free cash flow, Non-GAAP cost of services, Non-GAAP SG&A expense, Non-GAAP depreciation and amortization, and Non-GAAP other income.

We believe EBIT, adjusted EBIT, adjusted EBITDA, adjusted EBIT margin, adjusted EBITDA margin, Non-GAAP income before income taxes, Non-GAAP net income attributable to DXC, Non-GAAP basic and diluted EPS provide investors with useful supplemental information about our operating performance after excluding certain categories of expenses.

We believe organic revenue growth provides investors with useful supplemental information about our revenues after excluding the effect of currency exchange rate fluctuations for currencies other than U.S. dollars in the periods presented, and impact of acquisitions and divestitures. See below for a description of the methodology we use to present organic revenue growth.

One category of expenses excluded from adjusted EBIT and adjusted EBITDA, Non-GAAP income from continuing operations before tax, Non-GAAP net income attributable to DXC and Non-GAAP EPS, incremental amortization of intangible assets acquired through business combinations, may result in a significant difference in period over period amortization expense on a GAAP basis. We exclude amortization of certain acquired intangible assets as these non-cash amounts are inconsistent in amount and frequency and are significantly impacted by the timing and/or size of acquisitions. Although DXC management excludes amortization of acquired intangible assets, primarily customer-related intangible assets, from its Non-GAAP expenses, we believe that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and support revenue generation. Any future transactions may result in a change to the acquired intangible asset balances and associated amortization expense.

Another category of expenses excluded from adjusted EBIT and adjusted EBITDA, Non-GAAP income from continuing operations before tax, Non-GAAP net income attributable to DXC and Non-GAAP EPS, impairment losses, may result in a significant difference in period over period expense on a GAAP basis. We exclude impairment losses as these non-cash amounts, generally an acceleration of what would be multiple periods of expense, have not occurred frequently. Further assets such as goodwill may be significantly impacted by market conditions outside of management's control.

There are limitations to the use of the Non-GAAP financial measures presented in this report. One of the limitations is that they do not reflect complete financial results. We compensate for this limitation by providing a reconciliation between our Non-GAAP financial measures and the respective most directly comparable financial measure calculated and presented in accordance with GAAP. Additionally, other companies, including companies in our industry, may calculate Non-GAAP financial measures differently than we do, limiting the usefulness of those measures for comparative purposes between companies.

Selected references are made to revenues on an "organic basis" so that certain financial results can be viewed without the impact of fluctuations in foreign currency rates and without the impacts of acquisitions and divestitures from "organic basis" financial results, thereby providing comparisons of operating performance from period to period of the business that we have owned during all periods presented. Organic revenue growth is calculated by dividing the year over year change in GAAP revenues attributed to organic growth by the GAAP revenues reported in the prior comparable period. Revenues on an "organic basis" are Non-GAAP financial measures calculated by translating current period activity into U.S. dollars using the comparable prior period's currency conversion rates after excluding the impact of acquisitions and divestitures on revenue in both periods.

DXC does not provide a reconciliation of Non-GAAP financial measures that it discusses as part of its guidance because certain significant information required for such reconciliation is not available without unreasonable efforts or at all, including, most notably, the impact of significant non-recurring items. Without this information, DXC does not believe that a reconciliation would be meaningful. Explanations of Non-GAAP financial measures used herein are provided later in this document.

# Forward-Looking Statements

All statements in this presentation that do not directly and exclusively relate to historical facts constitute “forward-looking statements.” Forward-looking statements often include words such as “anticipates,” “believes,” “estimates,” “expects,” “forecast,” “goal,” “intends,” “objective,” “plans,” “projects,” “strategy,” “target,” and “will” and words and terms of similar substance in discussions of future operating or financial performance. Forward-looking statements include, among other things, statements with respect to our future financial condition, results of operations, cash flows, business strategies, operating efficiencies or synergies, divestitures, competitive position, growth opportunities, share repurchases, dividend payments, plans and objectives of management and other matters. These statements represent current expectations and beliefs, and no assurance can be given that the results described in such statements will be achieved. Such statements are subject to numerous assumptions, risks, uncertainties and other factors that could cause actual results to differ materially from those described in such statements, many of which are outside of our control. Furthermore, many of these risks and uncertainties are currently amplified by and may continue to be amplified by or may, in the future, be amplified by, the ongoing coronavirus disease 2019 (“COVID-19”) pandemic and the impact of varying private and governmental responses that affect our customers, employees, vendors and the economies and communities where they operate. Important factors that could cause actual results to differ materially from those described in forward-looking statements include, but are not limited to: the uncertainty of the magnitude, duration, geographic reach of the COVID-19 crisis, its impact on the global economy and the impact of current and potential travel restrictions, stay-at-home orders, vaccine mandates and economic restrictions implemented to address the crisis; our inability to succeed in our strategic objectives; the risk of liability or damage to our reputation resulting from security incidents, including breaches, and cyber-attacks to our systems and networks and those of our business partners, insider threats, disclosure of sensitive data or failure to comply with data protection laws and regulations in a rapidly evolving regulatory environment, in each case, whether deliberate or accidental; our inability to develop and expand our service offerings to address emerging business demands and technological trends, including our inability to sell differentiated services up the Enterprise Technology Stack; our inability to compete in certain markets and expand our capacity in certain offshore locations and risks associated with such offshore locations such as Russia’s recent invasion of Ukraine and our exit from the Russian market; failure to maintain our credit rating and ability to manage working capital, refinance and raise additional capital for future needs; our indebtedness; the competitive pressures faced by our business; our inability to accurately estimate the cost of services, and the completion timeline of contracts; execution risks by us and our suppliers, customers, and partners; the risks associated with natural disasters; our inability to retain and hire key personnel and maintain relationships with key partners; the risks associated with prolonged periods of inflation; the risks associated with our international operations, such as risks related to currency exchange rates and Brexit; our inability to comply with governmental regulations or the adoption of new laws or regulations, including social and environmental responsibility regulations, policies and provisions; our inability to achieve the expected benefits of our restructuring plans; inadvertent infringement of third-party intellectual property rights or our inability to protect our own intellectual property assets; our inability to procure third-party licenses required for the operation of our products and service offerings; risks associated with disruption of our supply chain; our inability to maintain effective internal control over financial reporting; potential losses due to asset impairment charges; our inability to pay dividends or repurchase shares of our common stock; pending investigations, claims and disputes and any adverse impact on our profitability and liquidity; disruptions in the credit markets, including disruptions that reduce our customers’ access to credit and increase the costs to our customers of obtaining credit; our failure to bid on projects effectively; financial difficulties of our customers and our inability to collect receivables; our inability to maintain and grow our customer relationships over time and to comply with customer contracts or government contracting regulations or requirements; our inability to succeed in our strategic transactions; changes in tax laws and any adverse impact on our effective tax rate; risks following the merger of Computer Sciences Corporation and Enterprise Services business of Hewlett Packard Enterprise Company’s businesses, including anticipated tax treatment, unforeseen liabilities and future capital expenditures; and risks following the spin-off of our former U.S. Public Sector business and its related mergers with Vencore Holding Corp. and KeyPoint Government Solutions in June 2018 to form Perspecta Inc., which was acquired by Peraton in May 2021. For a written description of these factors, see the section titled “Risk Factors” in DXC’s Annual Report on Form 10-K for the fiscal year ended March 31, 2022, and any updating information in subsequent SEC filings.

No assurance can be given that any goal or plan set forth in any forward-looking statement can or will be achieved, and readers are cautioned not to place undue reliance on such statements which speak only as of the date they are made. We do not undertake any obligation to update or release any revisions to any forward-looking statement or to report any events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events except as required by law.

GBS	FY22 Revenue
Analytics & Engineering	~2.1B
Applications & Cloud	~4.0B
Insurance Software & BPS	~1.5B

- Have clarity on actions needed to be executed for GBS and GIS
- GBS has grown consistently for four quarters and is composed of digital offerings that are high value for our customers and DXC
- Engineering is differentiated and helps drive revenue growth for our customers
- GBS revenue growth expected to continue in FY23
- 47% of our total revenue: \$7.6B

# FY23 – GIS Actions

GIS	FY22 Revenue
Security	~0.5B
Cloud Infrastructure & ITO	~5.9B
Modern Workplace	~2.2B

- GIS top priority: improve the financial performance
- Modern Workplace: FY22 improvements drive organic revenue growth and expected to turn positive by end of FY23
- Cloud Infrastructure/ITO focus on:
  - Fixing poor performing contracts
  - Reducing contractor and reducing real estate cost
  - Optimizing the assets of our data centers
- Portfolio shaping to run a company that is higher value to our customers and DXC

- Disciplined capital allocation program

# Driving GIS Forward

**Moving to a High-Quality GIS Business**

# Executing Our Disciplined Capital Allocation Plan

## Capital Deployment Highlights

### # Shares Repurchased in FY22

- \$634M of capital returned to shareholders through buybacks in FY22
- 18.8M shares repurchased or over 7% of shares o/s in FY22
- \$1B self-funded repurchase program announced Q3 FY22
  - \$770M remaining over the next three quarters
  - Expect to have completed repurchase of \$500M of the \$1B by end of June
- Targeting \$5.0B debt and \$2.5B required cash levels
  - Required cash of \$1.8B after sale of German Financial Services Business
- \$500M portfolio shaping initiatives on track to close by Q3 FY23
  - Portfolio shaping will emphasize quality of revenue and cash generation
- Next phase of portfolio shaping will reduce the focus on IT services, and transition DXC to a higher revenue growth and EBIT margin profile

# Governance Checklist

## Remediated the Legacy Material Weakness

Executed 11-point plan to address deficiencies and enhanced our control environment

## Incentive Metrics Revised Based on Shareholder Feedback

Moving long-term incentive targets to free cash flow and relative total shareholder return

Moving short-term incentive targets to organic growth and adjusted EBIT margin

## DXC Will Affirm Its Commitment to Governance in the Upcoming Proxy

Improve pay practices, including addressing one-time or special grants, vesting, and lump sum cash payments for voluntary exits

Improve disclosure associated with compensation decisions and provide incentive performance targets

Note: Changes in assets and liabilities are aggregated and presented in our interim unaudited condensed consolidated statements of cash flows as three line items: "Decrease (increase) in assets," "Decrease in operating lease liability," and "Decrease in other liabilities." The above table disaggregates the three line items on a basis consistent with the presentation in our annual audited financial statements for discussion and analysis purposes only.

Note: Quarterly columns may not foot precisely to the amounts reported under cash flows from operating activities in our quarterly reports on Form 10-Q and related earnings releases due to rounding; no retrospective changes were made to earlier periods.

<sup>(1)</sup> Cash paid for Transaction, Separation and Integration-Related Costs is presented on a cash basis through Q4 FY21, as the company tracked the cash outflows for the purposes of reporting a Non-GAAP adjusted free cash flow metric, which was discontinued in FY21. Beginning in Q1 FY22, TSI quarterly expense is presented as equivalent to the cash paid for TSI as the differences between the two metrics are deemed immaterial.

# Non-GAAP and Other Definitions

**Segment profit:** Segment revenue less costs of services, segment selling, general and administrative, depreciation and amortization, and other income, excluding the movement in foreign currency exchange rates on our foreign currency denominated assets and liabilities and the related economic hedges, restructuring costs, transaction, separation and integration-related costs, amortization of acquired intangible assets, pension and OPEB actuarial and settlement losses and gain on disposition of businesses

**Segment profit margin:** Segment profit as a percentage of segment revenue

**Earnings before interest and taxes (EBIT):** Net income (loss) less income from discontinued operations, net of taxes, interest expense, interest income, and income tax expense (benefit)

**Earnings before interest, taxes, depreciation and amortization (EBITDA):** Net income (loss) less income from discontinued operations, net of taxes, interest expense, interest income, income tax expense (benefit), depreciation, and amortization

**EBIT margin:** EBIT as a percentage of revenue

**Adjusted EBIT:** EBIT excluding restructuring costs, transaction, separation and integration-related costs, amortization expense related to acquired intangible assets, pension and OPEB actuarial and settlement losses and gain on disposition of businesses, and impairments

**Adjusted EBIT margin:** Adjusted EBIT as a percentage of revenue

**Adjusted EBITDA:** EBITDA excluding amortization of intangible assets

**Adjusted EBITDA margin:** Adjusted EBITDA as a percentage of revenue

**Free cash flow:** Cash flows from operating activities excluding capital expenditures for property and equipment, transition and transformation contract costs, and software purchased and developed

**Capital expenditure:** Equal to the sum of purchases of property, equipment, and software, and payments on capital leases, less proceeds from sales of assets

**Organic revenue:** Excludes the impacts of acquisitions and divestitures from financial results on a constant currency basis

**Organic revenue growth:** Calculated by dividing the current period change in organic revenues by GAAP revenues reported in the prior comparable period

# Non-GAAP Adjustments

## Our Non-GAAP adjustments include:

- **Restructuring costs:** Includes costs, net of reversals, related to workforce and real estate optimization and other similar charges.
- **Transaction, separation and integration-related (“TSI”) costs:** Includes costs related to integration, planning, financing and advisory fees and other similar charges associated with mergers, acquisitions, strategic investments, joint ventures, and dispositions and other similar transactions.
- **Amortization of acquired intangible assets:** Includes amortization of intangible assets acquired through business combinations.
- **Gains and losses on dispositions:** Gains and losses related to dispositions of businesses, strategic assets and interests in less than wholly owned entities.
- **Pension and OPEB actuarial and settlement gains and losses:** Pension and OPEB actuarial mark to market adjustments and settlement gains and losses.
- **Debt extinguishment costs:** Costs associated with early retirement, redemption, repayment or repurchase of debt and debt-like items including any breakage, make-whole premium, prepayment penalty or similar costs as well as solicitation and other legal and advisory expenses.
- **Impairment losses:** Impairment losses on assets classified as long-term on the balance sheet.
- **Tax adjustments:** Reflects discrete tax adjustments to impair or recognize certain deferred tax assets and adjustments for changes in tax legislation. Income tax expense of merger and divestitures is separately computed based on the underlying transaction. Income tax expense of all other (non-discrete) Non-GAAP adjustments is computed by applying the jurisdictional tax rate to the pre-tax adjustments on a jurisdictional basis.
