

Enriching lives through innovation

Jefferies Industrials Conference

August 7, 2018

General Disclosure

This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenue or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, business trends and other information that is not historical information. When used in this presentation, the words "estimates," "expects," "anticipates," "projects," "plans," "intends," "believes," "forecasts," or future or conditional verbs, such as "will," "should," "could" or "may," and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, management's examination of historical operating trends and data, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs and projections will be achieved.

The forward-looking statements in this release are subject to uncertainty and changes in circumstances and involve risks and uncertainties that may affect the company's operations, markets, products, services, prices and other factors as discussed in the Huntsman companies' filings with the U.S. Securities and Exchange Commission. Significant risks and uncertainties may relate to, but are not limited to, volatile global economic conditions, cyclical and volatile product markets, disruptions in production at manufacturing facilities, reorganization or restructuring of Huntsman's operations, including any delay of, or other negative developments affecting the ability to implement cost reductions and manufacturing optimization improvements in Huntsman businesses and realize anticipated cost savings, and other financial, economic, competitive, environmental, political, legal, regulatory and technological factors. Any forward-looking statement should be considered in light of the risks set forth under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date made. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

This presentation contains financial measures that are not in accordance with generally accepted accounting principles in the U.S. ("GAAP"), including EBITDA, adjusted EBITDA, adjusted EBITDA from discontinued operations, adjusted net income (loss), adjusted diluted income (loss) per share, free cash flow and net debt. Reconciliations of non-GAAP measures to GAAP are provided in the financial schedules attached to the earnings news release for the relevant period and available on the Company's website at http://ir.huntsman.com/

The Company does not provide reconciliations of forward-looking non-GAAP financial measures to the most comparable GAAP financial measures on a forward-looking basis because the Company is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, (a) business acquisition and integration expenses, (b) merger costs, and (c) certain legal and other settlements and related costs. Each of such adjustments has not yet occurred, are out of the Company's control and/or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information.

Simple Strategy for Significant Value Creation Through 2020

Downstream EBITDA Growth

- Existing core business will grow at well above GDP
- EBITDA expected to grow at high single digits
- EBITDA margin expected to expand to high teens through downstream strategy

Investment Grade Balance Sheet

- Maintain Investment Grade profile and secure Investment Grade rating
- Monetize remaining Venator shares
- Generate >\$1.7 billion of free cash flow

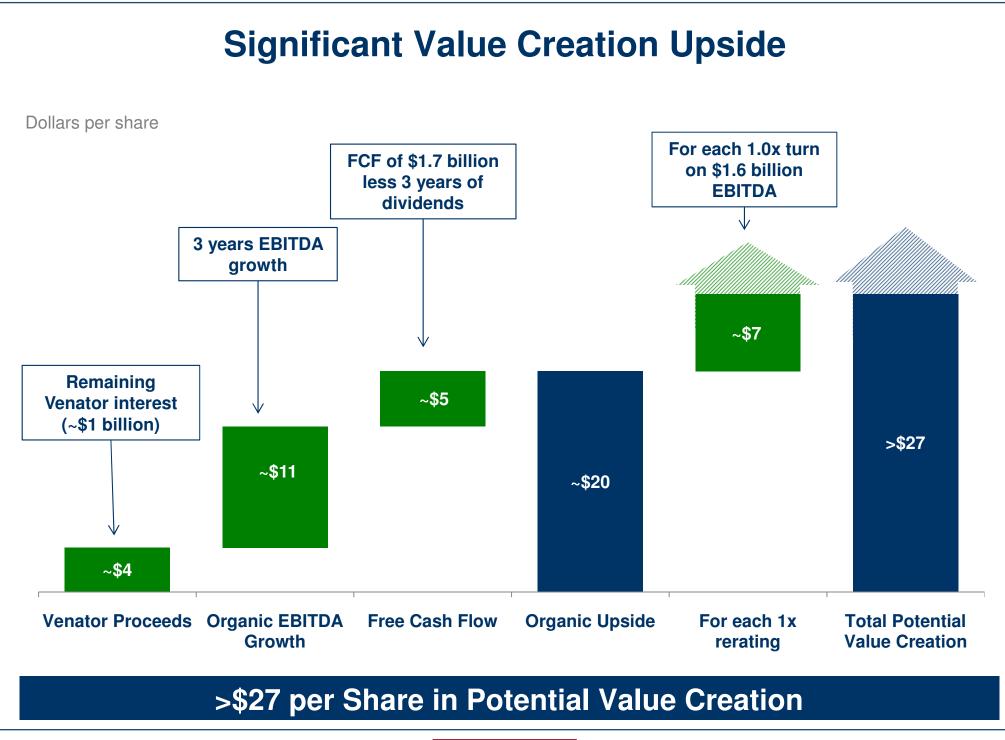

Capital Allocation

- Maintain competitive dividend
- Invest up to \$2.2 billon in downstream growth through bolt-on acquisitions and additional growth capital
- Up to \$1.0 billion of share repurchases supported by Venator monetization and free cash flow

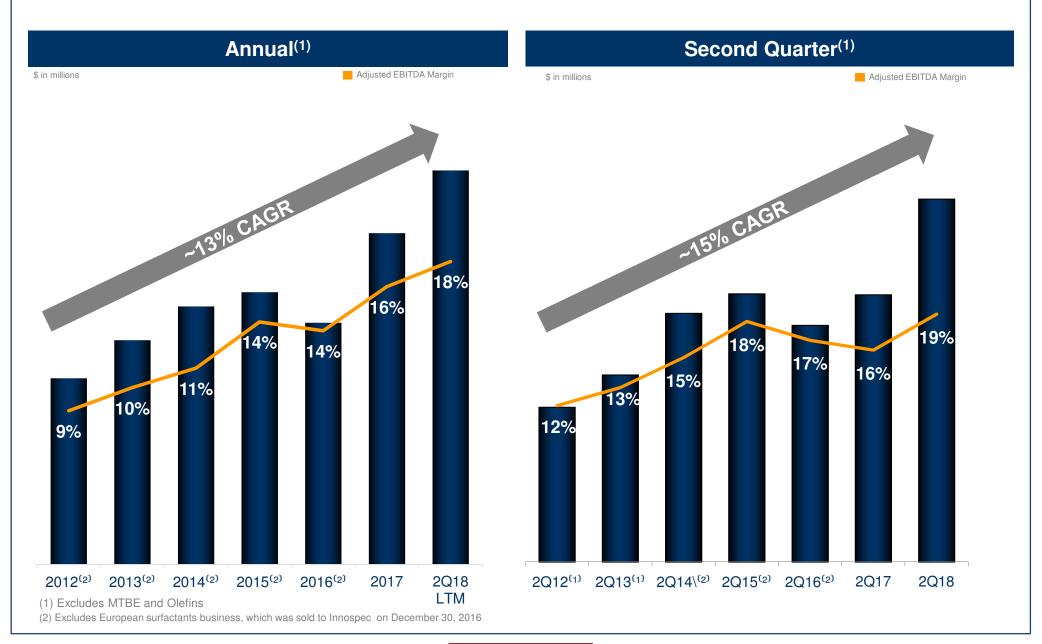

Value Creation

Potential value creation of >\$27/share

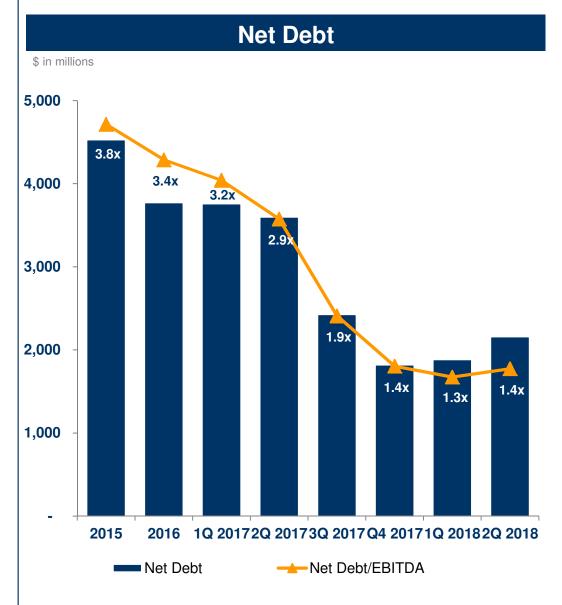

Differentiated Adjusted EBITDA⁽¹⁾

Transformation of Huntsman Balance Sheet

Investment Grade Profile Achieved and Sustainable

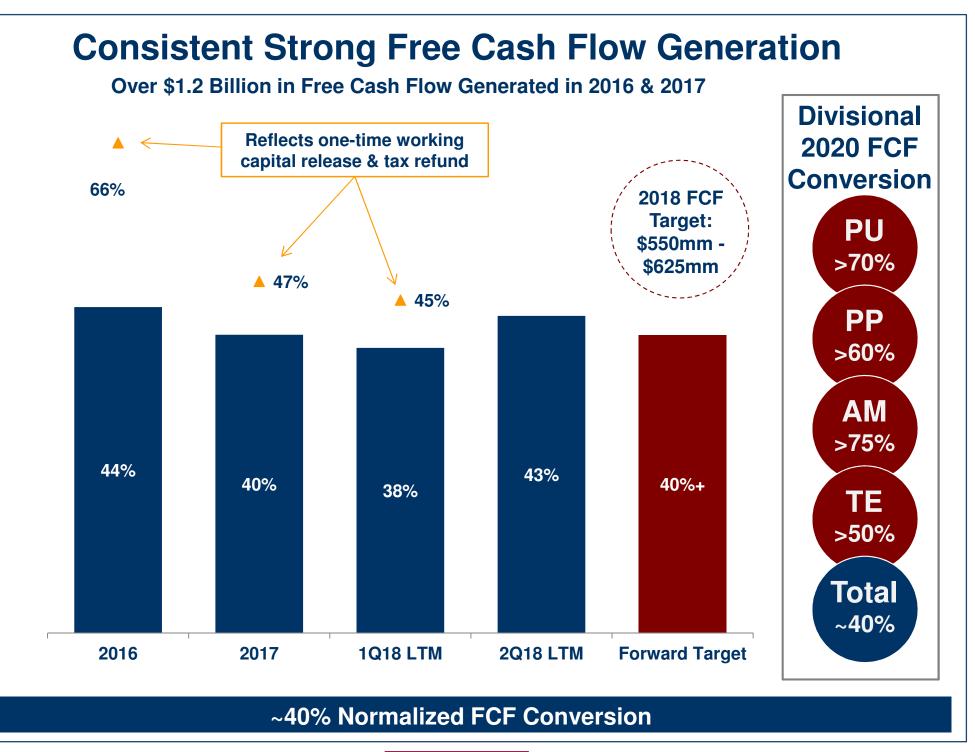

New \$1.2B Investment Grade Revolver

- Unsecured
- 5 year commitment
- Completed May 21st, 2018

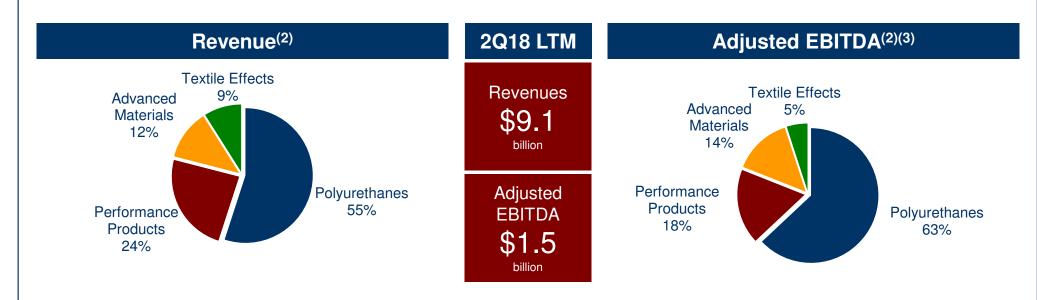

Rating Agency Status – One Notch Below

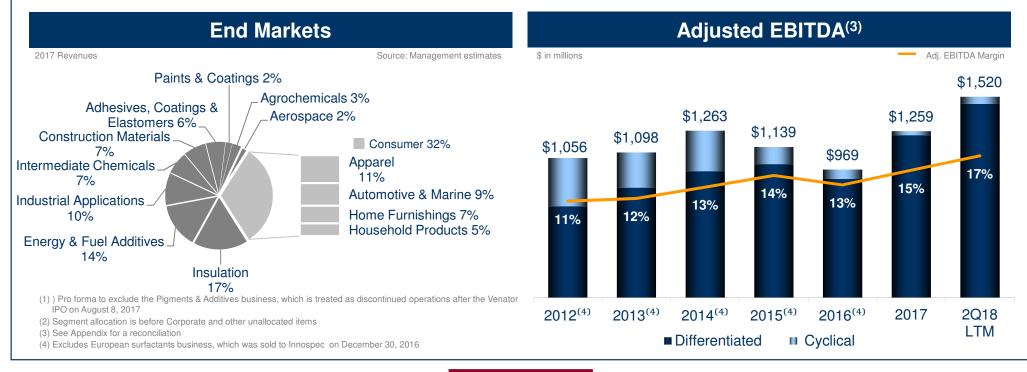

<u>HUNTSMAN</u>

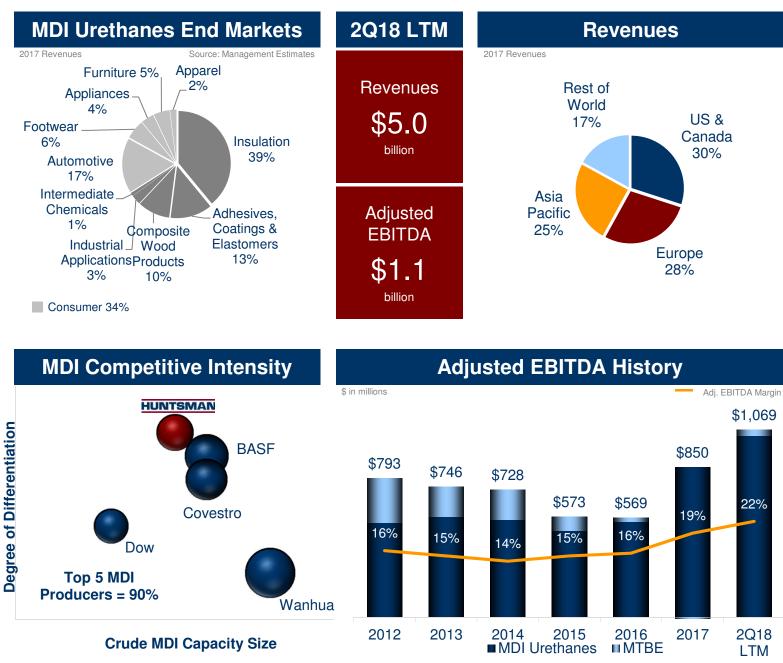

Portfolio Composition⁽¹⁾

Polyurethanes

MDI Urethanes Products

Significant Opportunity to Differentiate

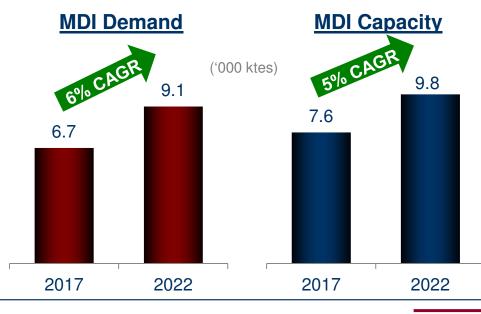

MDI Market Outlook

Industry status

- Current global effective operating rates are ~90%
- Differentiated margins and demand remain strong and stable globally
- Component MDI pricing:
 - China component MDI pricing stabilized in Q2 following decline in Q1
 - European component MDI pricing dropped ~10% in Q2
 - US spot prices came under some pressure in Q2 although region remains tight

Longer-term market outlook remains tight

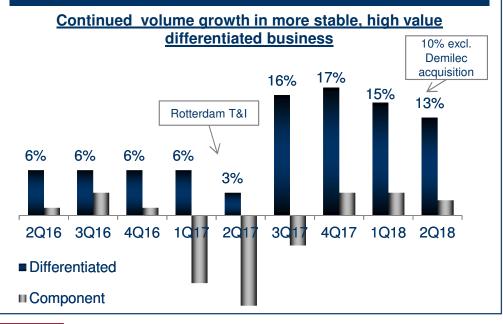

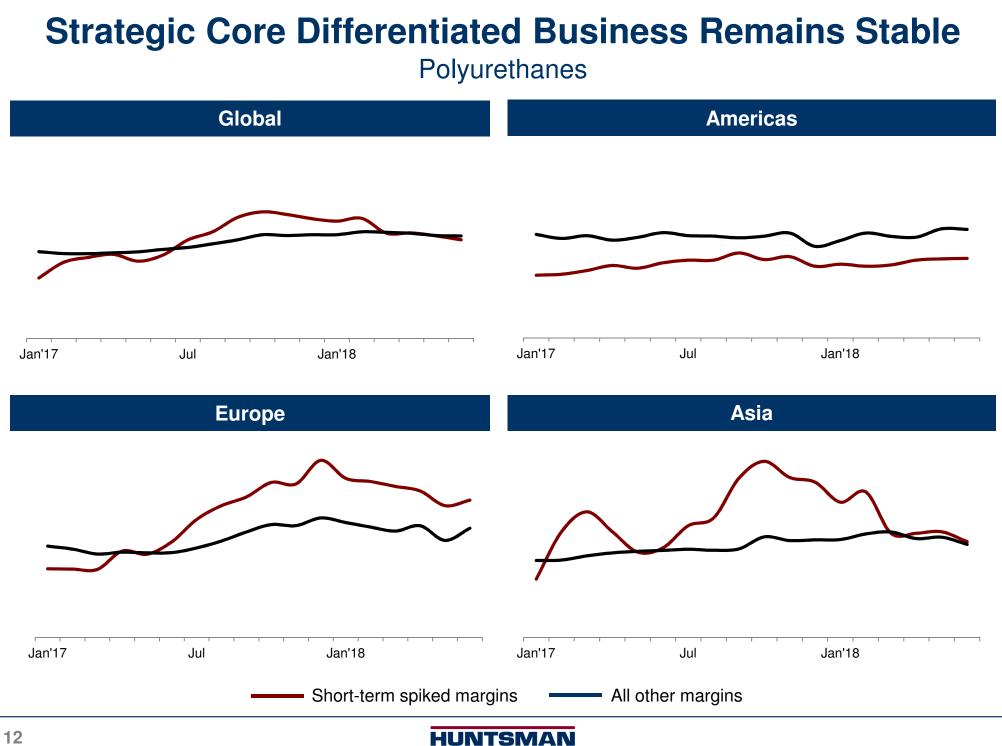

Continued focus on growth in core business

Base EBITDA

Focus on differentiated volume growth

Huntsman Portfolio Composition

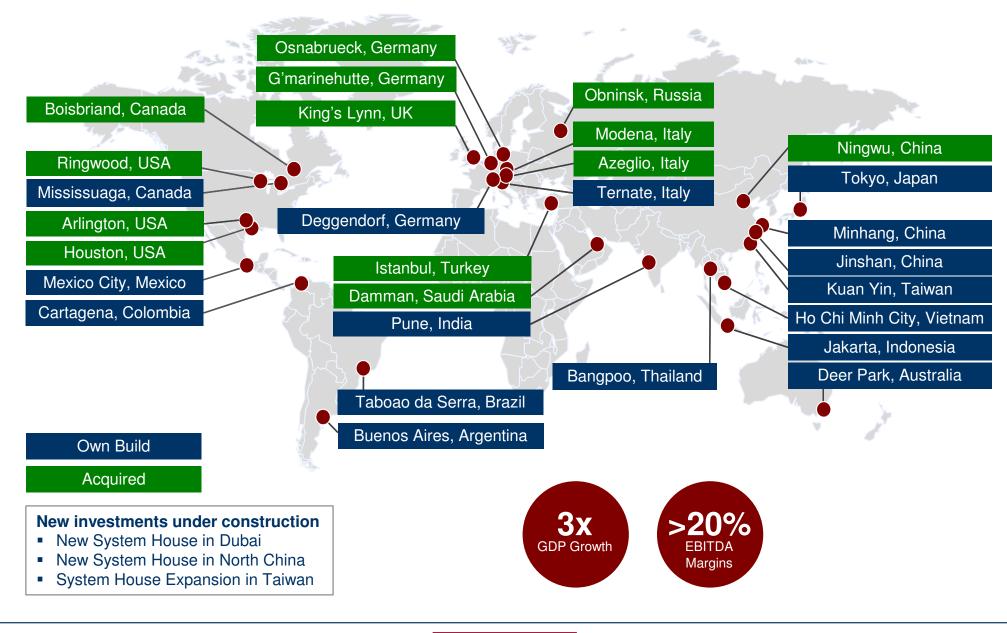

Differentiation is a Continuum

Typical EBITDA Margin Range	15% to 30%	EBITDA Margin Range 10% to 20%							

HUNTSMAN

13

Downstream Footprint Significant Expansion Program

Growth in Insulation with Energy Saving Formulated Systems

MDI Insulation

- · MDI systems provide highest insulation value, air tightness and moisture barriers
- Largest MDI sector growing at 6%-7% per annum
- · Sector requires equivalent of two new world scale MDI plants to meet demand in the next five years
- 40%-50% of all energy used to heat & cool buildings insulation is the most cost effective way of saving energy
- · Huntsman focus on formulated insulation systems, back integrated into both MDI and TEROL polyester technology

Huntsman Insulation Innovation

Global Elastomers Business

Versatile High performance MDI / TPU systems

Global Elastomers ~2000 Ktes MDI Systems Market

Huntsman is a ~\$500 million global business Highly fragmented customer base seeking custom solutions Value pricing reflects need for formulation and innovation support

Footwear

- Accelerate growth to become the number 1 footwear PU company
- ~700 Huntsman SKUs
- >10% Growth (2017-2020)
- >20% EBITDA / revenue

Specialty Elastomers

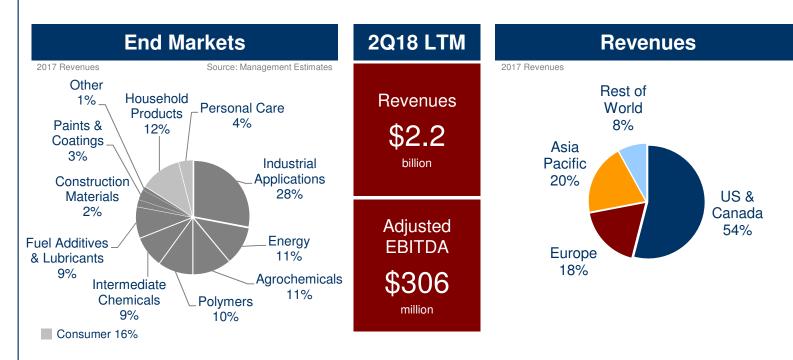

- With our customers deliver high quality sustainable solutions
- ~2,400 Huntsman SKUs
- 10% Growth (2017-2020)
- ~20% EBITDA / revenue

Leverage decades of global elastomer technology and innovation experience

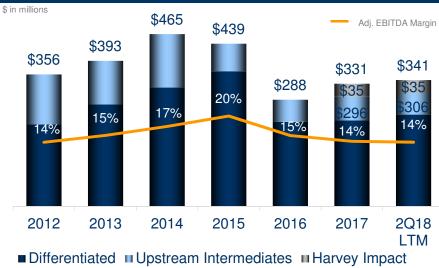

Performance Products

Huntsman Market Share

Product	Market Share	Peers
Amines		
Polyetheramines (Global)	>60%	BASF
Ethyleneamines (Global)	45%	Dow, Tosoh, Delamine
Ethanolamines (Americas)	20%	Dow, Ineos, Oxiteno
Morpholine/DGA (Americas & EMEA)	50%	BASF
Specialty PU Catalysts (Global)	40%	BASF, Evonik, Momentive
Maleic Anhydride (Americas & EMEA)	40%	Lanxess, Flint Hills, Polynt, Bartek

Adjusted EBITDA History⁽¹⁾

(1) Excludes European surfactants business, which was sold to Innospec in 2016

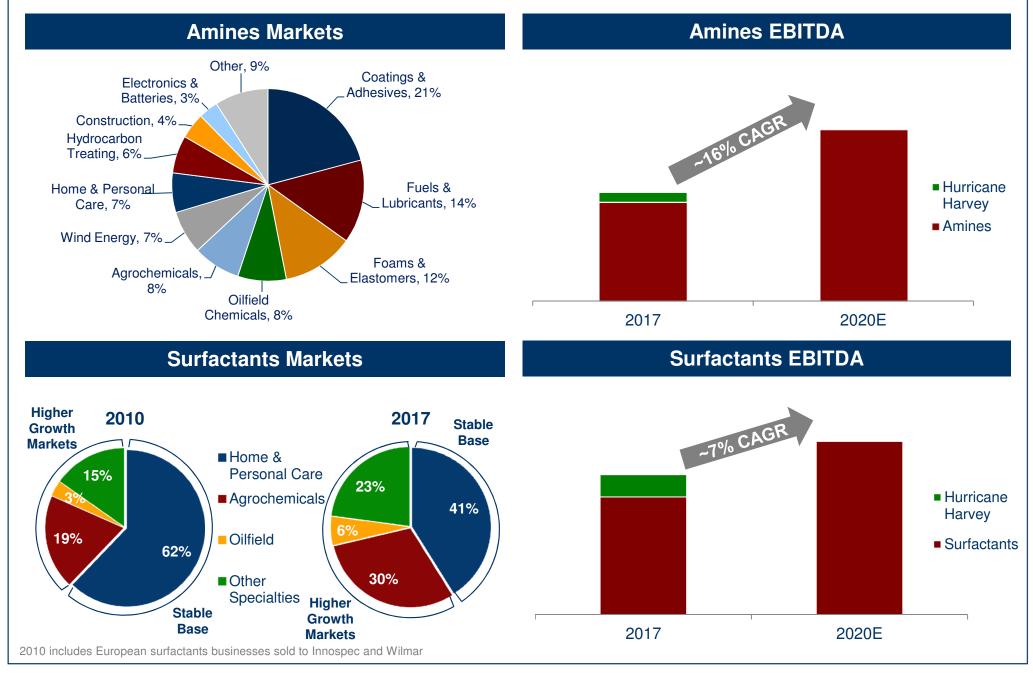

Amines & Surfactants Poised for Growth

Performance Products Innovation

Delivering Functionality to Meet Market Needs

- Marketing-led R&D with extensive customer collaboration
- 160 R&D professionals at seven centers across the globe
- 175 new uses across 20 markets launched annually

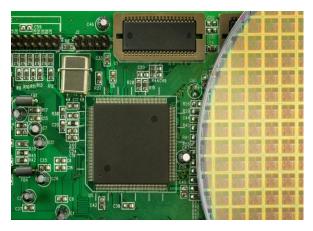

Market-Specific Examples

Improving flow of crude oil

JEFF-FLOW[™] oilfield flow assurance products help maintain flow of crude oil by preventing solids formation and plugging.

Faster computing power

e-Grade[®] high-purity amines for use in semi-conductor manufacturing processes enable production of higher resolution chips. Reducing emissions from fuels and industrial operations

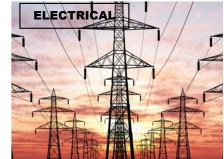

JEFFTREAT[®] and DGA Agent[®] gas treating amines help refineries to more effectively capture sulfur from off gases to reduce atmospheric emissions.

Advanced Materials

Competitive Landscape

Primary Market	Select Competitors
Transportation & Industrial	Henkel, Sumitomo
Electrical & Electronic	Elantas, Xiongrun
Coatings & Construction Additives	Evonik, Allnex, BASF

SLIC/HUN	China	+240 (HUN =200/240)										
Covestro	Germany	+200										
Covestro	China	+140										
K.Mitsui	Korea	+100										
Wanhua	Hungary	+60										
Covestro	Europe	+50										

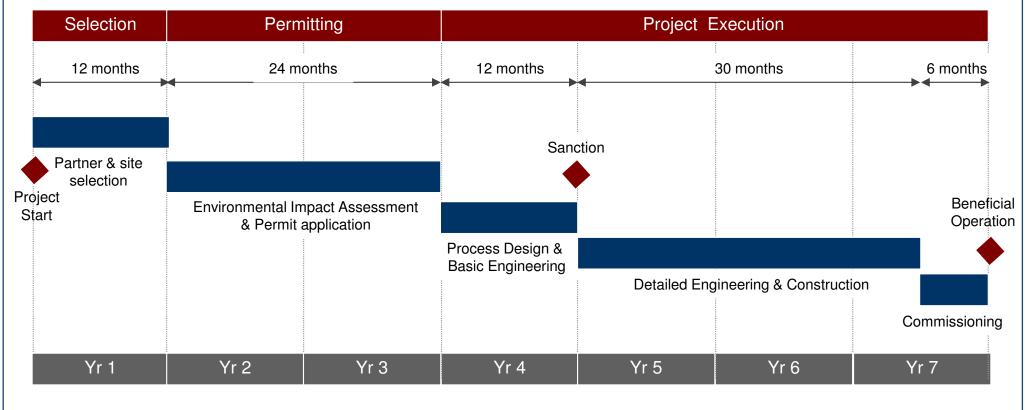

Note: 2022 capacity bar charts to the left include BASF Chonqing and Sadara realization of full capacity.

Note: * Operating capacity Source: Management Estimates

World Scale MDI Plant Timeline

Approximately 7 Years from Project Start to Beneficial Operations

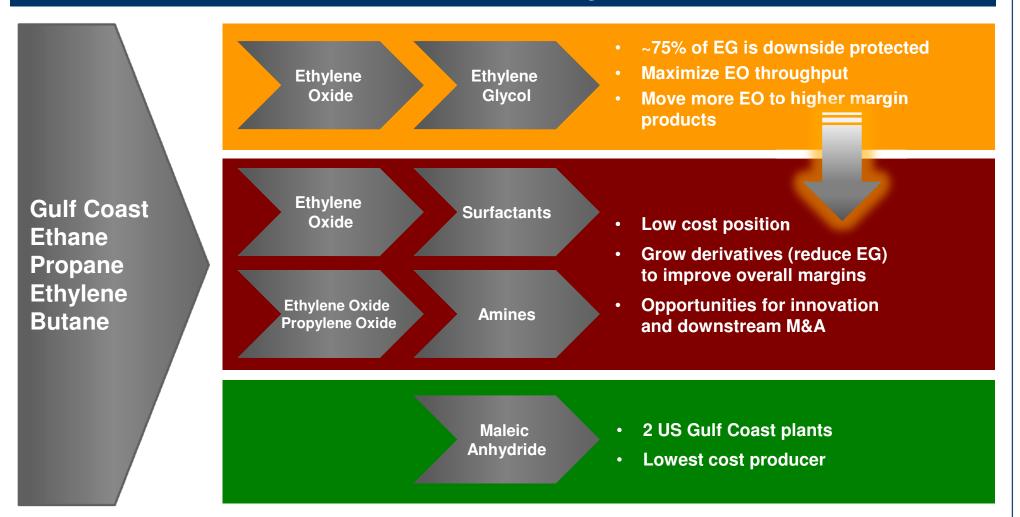

- Indicative timeline for planning, construction and commissioning of a greenfield world scale MDI plant
- Approximately 7 years from project start to plant beneficial operation
- World scale facility typically runs at <80% capacity in first year, takes 2-3 years to optimize production to 100% nameplate

Performance Products Competitively Integrated Value Chain

Gulf Coast Advantage

Two-thirds of global revenue from products produced in Gulf Coast Region
