

First Quarter 2020

Financial & Operating Results

May 7, 2020

Caution regarding forward-looking statements

From time to time, Manulife makes written and/or oral forward-looking statements, including in this presentation. In addition, our representatives may make forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the “safe harbour” provisions of Canadian provincial securities laws and the U.S. Private Securities Litigation Reform Act of 1995.

The forward-looking statements in this presentation include, but are not limited to, statements with respect to our business continuity plans and measures implemented in response to the COVID-19 pandemic and its expected impact on our businesses, operations, earnings and results; the Company’s strategic priorities and 2022 targets for net promoter score, employee engagement, its high potential businesses, expense efficiency and portfolio optimization; and its medium-term targets for core EPS growth, core ROE, leverage ratio and common share dividend payout ratio; our invested asset portfolio strategy and performance; and also relate to, among other things, our objectives, goals, strategies, intentions, plans, beliefs, expectations and estimates, and can generally be identified by the use of words such as “will”, “expect”, “estimate”, “believe”, “plan”, “objective”, “continue”, and “goal”, (or the negative thereof) and words and expressions of similar import, and include statements concerning possible or assumed future results. Although we believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements and they should not be interpreted as confirming market or analysts’ expectations in any way.

Certain material factors or assumptions are applied in making forward-looking statements and actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from expectations include but are not limited to: general business and economic conditions (including but not limited to the performance, volatility and correlation of equity markets, interest rates, credit and swap spreads, currency rates, investment losses and defaults, market liquidity and creditworthiness of guarantors, reinsurers and counterparties); the severity, duration and spread of the COVID-19 outbreak, as well as actions that may be taken by governmental authorities to contain COVID-19 or to treat its impact; changes in laws and regulations; changes in accounting standards applicable in any of the territories in which we operate; changes in regulatory capital requirements applicable in any of the territories in which we operate; our ability to execute strategic plans and changes to strategic plans; downgrades in our financial strength or credit ratings; our ability to maintain our reputation; impairments of goodwill or intangible assets or the establishment of provisions against future tax assets; the accuracy of estimates relating to morbidity, mortality and policyholder behaviour; the accuracy of other estimates used in applying accounting policies, actuarial methods and embedded value methods; our ability to implement effective hedging strategies and unforeseen consequences arising from such strategies; our ability to source appropriate assets to back our long-dated liabilities; level of competition and consolidation; our ability to market and distribute products through current and future distribution channels; unforeseen liabilities or asset impairments arising from acquisitions and dispositions of businesses; the realization of losses arising from the sale of investments classified as available-for-sale; our liquidity, including the availability of financing to satisfy existing financial liabilities on expected maturity dates when required; obligations to pledge additional collateral; the availability of letters of credit to provide capital management flexibility; accuracy of information received from counterparties and the ability of counterparties to meet their obligations; the availability, affordability and adequacy of reinsurance; legal and regulatory proceedings, including tax audits, tax litigation or similar proceedings; our ability to adapt products and services to the changing market; our ability to attract and retain key executives, employees and agents; the appropriate use and interpretation of complex models or deficiencies in models used; political, legal, operational and other risks associated with our non-North American operations; acquisitions or divestitures, and our ability to complete transactions; environmental concerns; our ability to protect our intellectual property and exposure to claims of infringement; and our inability to withdraw cash from subsidiaries.

Additional information about material risk factors that could cause actual results to differ materially from expectations and about material factors or assumptions applied in making forward-looking statements may be found in our 1Q20 Management’s Discussion and Analysis under “Risk Management and Risk Factors Update” and “Critical Actuarial and Accounting Policies”, under “Risk Management”, “Risk Factors” and “Critical Actuarial and Accounting Policies” in our 2019 Management’s Discussion and Analysis, and in the “Risk Management” note to the Consolidated Financial Statements for the year ended December 31, 2019 as well as elsewhere in our filings with Canadian and U.S. securities regulators. The forward-looking statements in this presentation are, unless otherwise indicated, stated as of the date hereof and are presented for the purpose of assisting investors and others in understanding our financial position and results of operations, our future operations, as well as our objectives and strategic priorities, and may not be appropriate for other purposes. We do not undertake to update any forward-looking statements, except as required by law.

Progress update		2022 Target
 Portfolio Optimization	<ul style="list-style-type: none"> Achieved 2022 target in 4Q19, three years ahead of schedule Released an additional \$265 million of capital through portfolio optimization initiatives in 1Q20 Achieved \$5.3 billion of cumulative capital benefits through portfolio optimization initiatives 	Free up \$5 billion in capital
 Expense Efficiency	<ul style="list-style-type: none"> Modest year-over-year core general expense¹ growth of 2% in 1Q20 reflects our disciplined expense culture Expense Efficiency ratio of 60.0% in 1Q20 vs. 49.9% in 1Q19 	<50% efficiency ratio
 Accelerate Growth	<ul style="list-style-type: none"> Highest potential businesses contributed 79% to core earnings in 1Q20, vs. 54% in 1Q19 Extended the bancassurance agreement with PT Bank Danamon Indonesia to 2036 Launched a large-case U.S. retirement plan worth \$2.6 billion with over 100,000 participants in Global Wealth and Asset Management 	2/3 of core earnings from highest potential businesses
 Digital, Customer Leader	<ul style="list-style-type: none"> Supported our customers during the COVID-19 pandemic across all business lines, including extensions on coverage and premium due dates Extended the use of non face-to-face sales processes across most of our businesses in Asia Launched an online cash withdrawal feature, allowing members to have a safe and reliable way to directly access their retirement plans, in our Global Wealth and Asset Management business 	Relationship NPS +30 points
 High Performing Team	<ul style="list-style-type: none"> Appointment of Karen Leggett as Chief Marketing Officer (CMO) Named a Top 100 Diversity Employer in Canada in March by Mediacorp 	Top Quartile employee engagement

Summary

Our priorities have not changed

- Committed to serving our customers while ensuring the health and safety of our employees
- Five strategic priorities are clear and we continue to execute against them
- Remain focused on financial strength and operational resiliency

We are in a position of strength and have the financial flexibility to navigate the downturn

- LICAT ratio of 155%, with \$31 billion of capital above the Supervisory Target
- Leverage ratio of 23%, below medium-term target of 25%
- Robust balance sheet liquidity
- Book Value per Share of \$26.53, increased 14% since 4Q19

We are set up for success when the global economy transitions to recovery

- The fundamental trends underpinning our strategy have not changed
- Our digital transformation is well underway and we are poised to benefit from our digital capabilities during the crisis and also through the recovery as customers seek to engage with companies that have streamlined, digital offerings
- The diversity of our global franchise continues to be a key strength

CFO's remarks

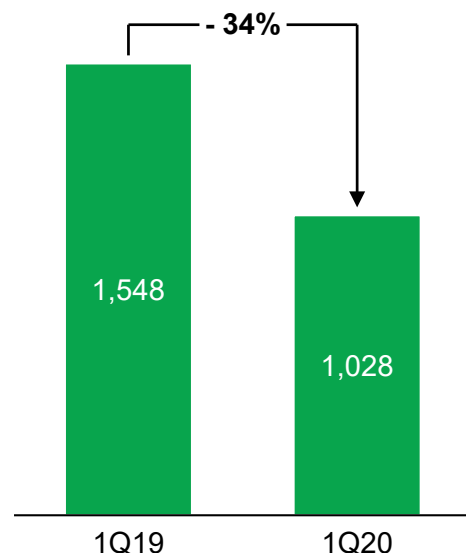

Phil Witherington
Chief Financial Officer

1Q20 financial summary

	(C\$ millions, unless noted)	1Q19	1Q20	Change ²

Income before income taxes	1,811	1,229	2,494	1,890
Income tax (expense) recovery	(263)	(201)	(318)	(594)
Earnings available to shareholders	1,548	1,028	2,176	1,296

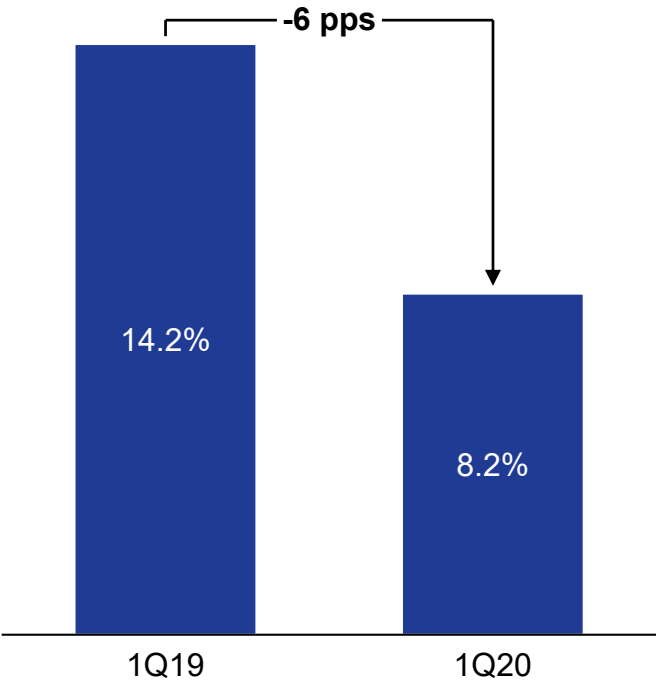

- In-force growth primarily driven by volume growth in Asia
- Lower new business gains driven by lower sales volume in Japan
- Unfavourable policyholder experience driven by Canadian travel insurance and U.S. life insurance; LTC neutral
- Decline in earnings on surplus driven by the mark-to-market losses on seed money investments, partially offset by lower debt expense

Resilient 1Q20 core earnings amidst challenging conditions, notably in Global WAM and Asia

Core earnings
(C\$ millions)

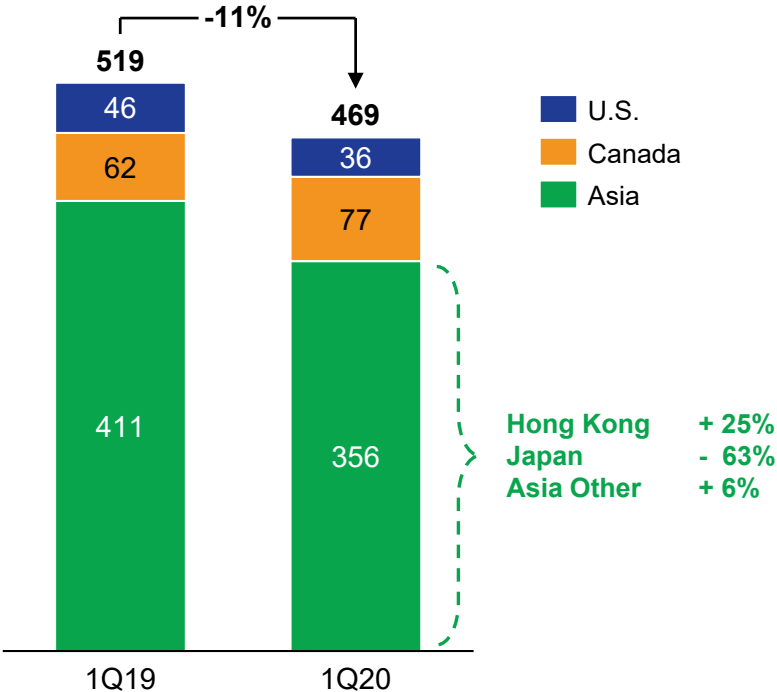

Core ROE
(%)

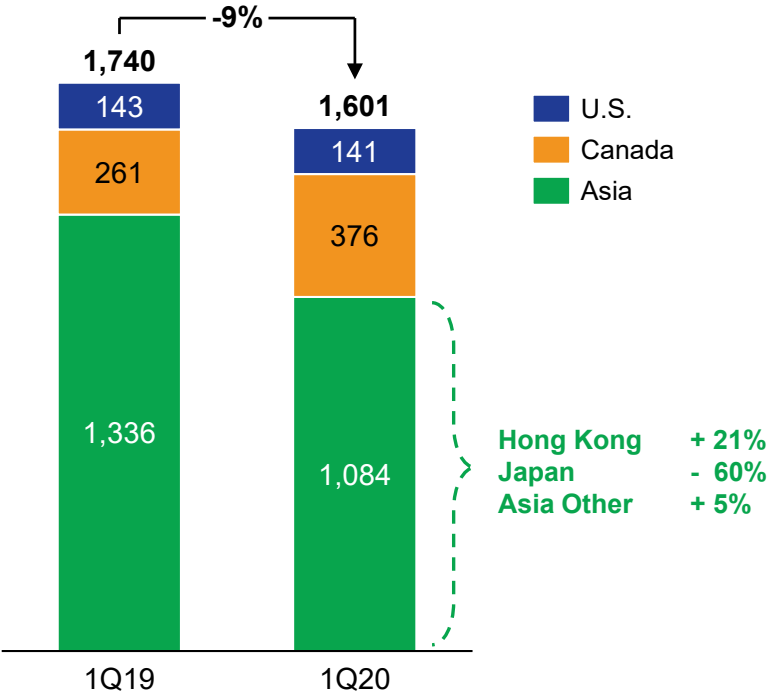

Amid a challenging operating environment, NBV and APE declines were modest

New Business Value (NBV)
(C\$ millions)

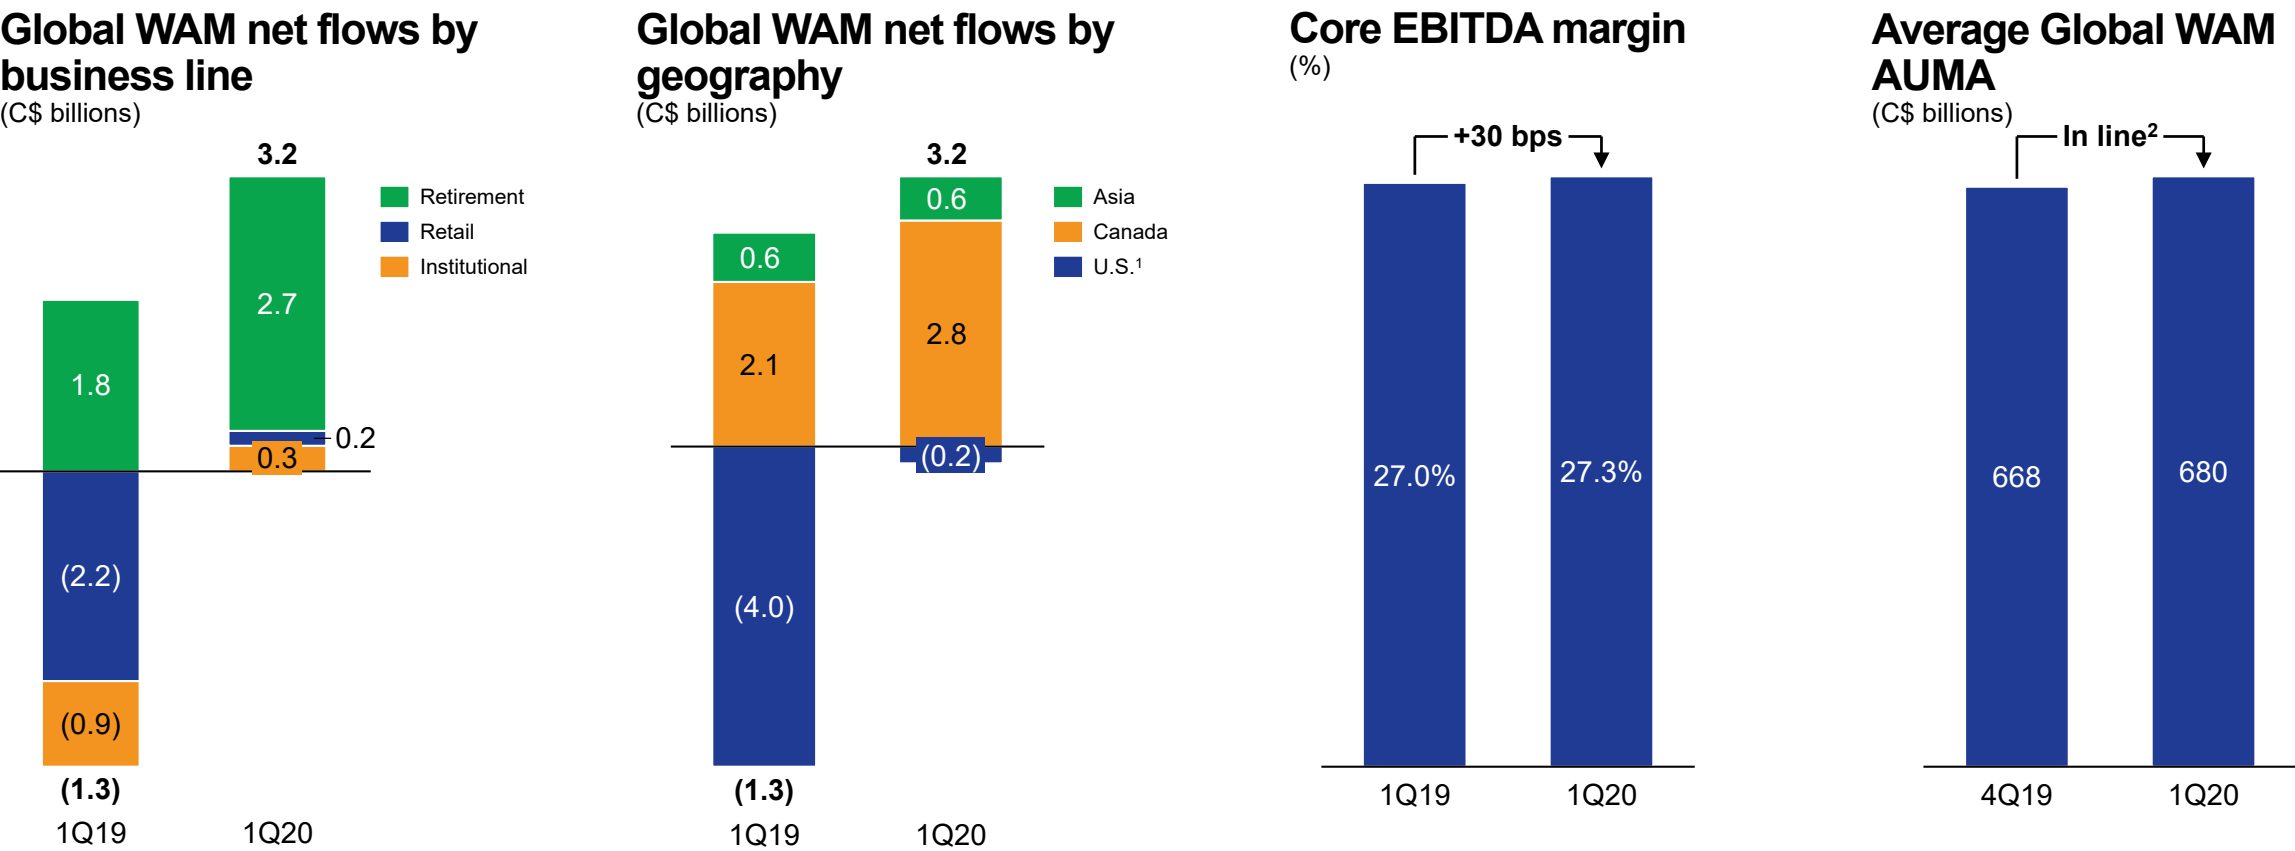

APE sales
(C\$ millions)

- Lower NBV and APE sales in Asia as growth in Hong Kong and Asia Other was more than offset by the impact of tax changes on COLI product sales in Japan in the prior year
- Higher NBV in Canada, driven by higher sales across all business lines and higher APE sales in Canada, primarily driven by individual and group insurance
- Lower NBV in the U.S. primarily due to the impact of lower sales volumes and less favourable business mix and flat APE sales due to an atypically strong 4Q19

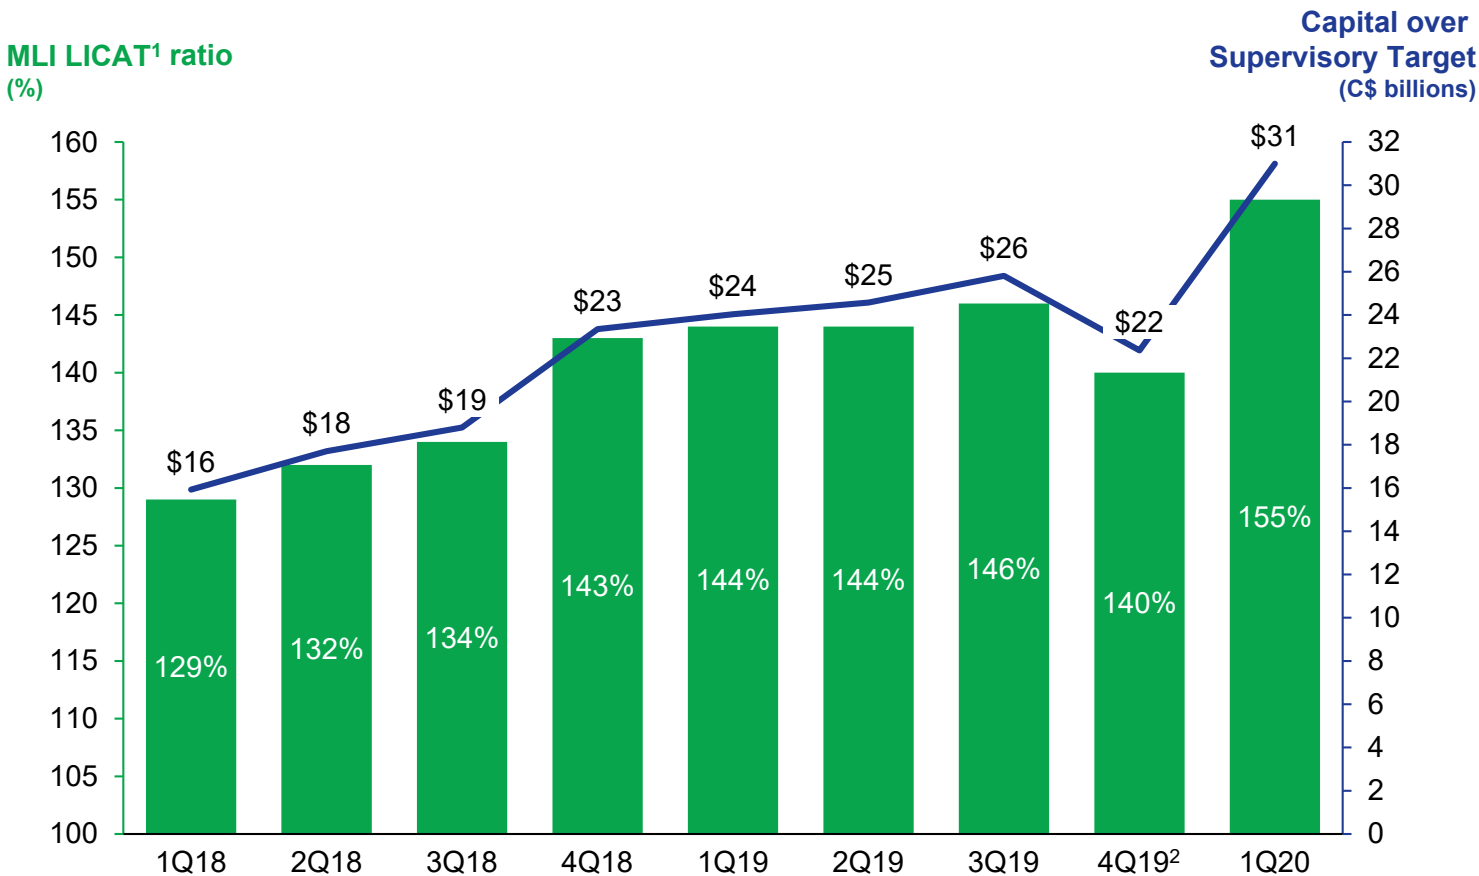

Global WAM generated net inflows of \$3.2 billion with positive contributions from all business lines and stable core EBITDA margins

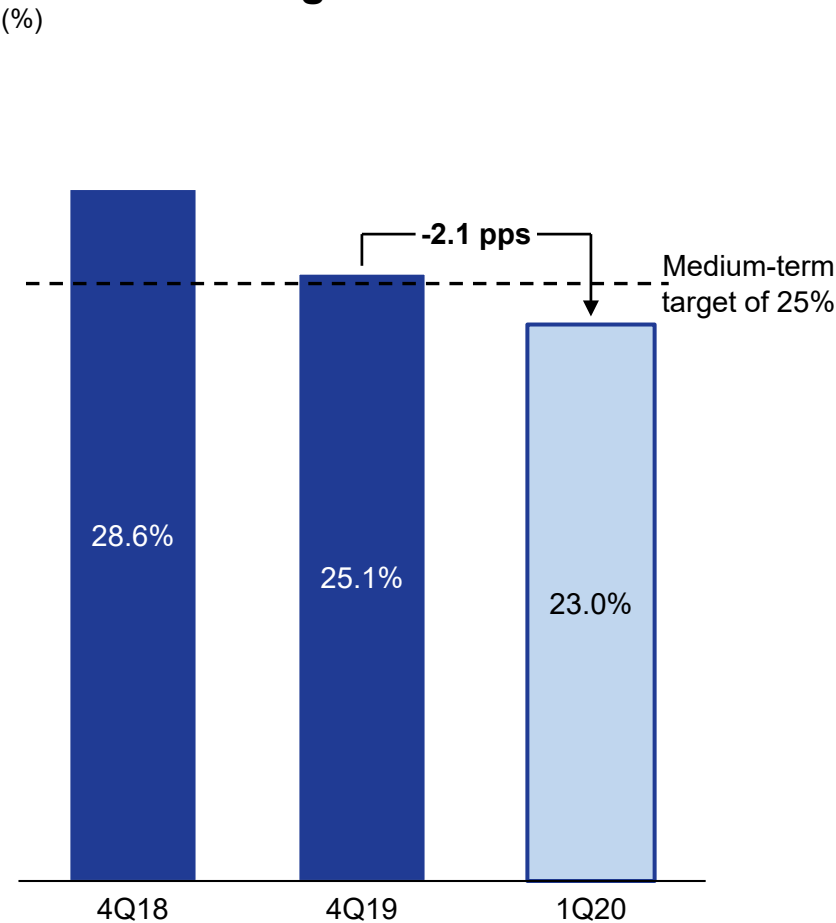

- Achieved 1Q20 net inflows with positive contributions from all business lines, despite higher redemptions in U.S. and Canada retail amid equity market declines in March
- Increase in Core EBITDA margin driven by higher average AUMA, compared to 1Q19, partially offset by lower investment income
- Global WAM average AUMA remained stable, compared to 4Q19, as the unfavourable impact of markets was offset by net inflows

Strong capital position and leverage below target level provides financial flexibility

Capital Metrics

Financial leverage ratio (%)

¹ Life Insurance Capital Adequacy Test (LICAT) Total Ratio of The Manufacturers Life Insurance Company (MLI). ² For LICAT, the 4Q19 ratio reflects the impact of the \$0.5 billion capital redeemed in January 2020 (announced in November 2019) as the LICAT ratio reflects capital redemptions once the intention to redeem has been announced.

We continue to maintain robust balance sheet liquidity

Liquid Asset Summary

(C\$ billions)	1Q20
Cash and Short-term Securities	27
<i>Canadian Government & Agency¹</i>	<i>21</i>
<i>US Government & Agency¹</i>	<i>24</i>
<i>Foreign Government & Agency¹</i>	<i>24</i>
Liquid Government Bonds	69

- ~25% of invested assets are liquid
- Strong liquidity on both consolidated and legal entity levels

Solid progress against financial targets

	2017	2018	2019	1Q20	Medium-Term Target

Expense efficiency ratio	55.4%	52.0%	52.0%	60.0%	<50%
Capital benefits (cumulative)		\$3.0 billion	\$5.1 billion	\$5.3 billion	\$5 billion

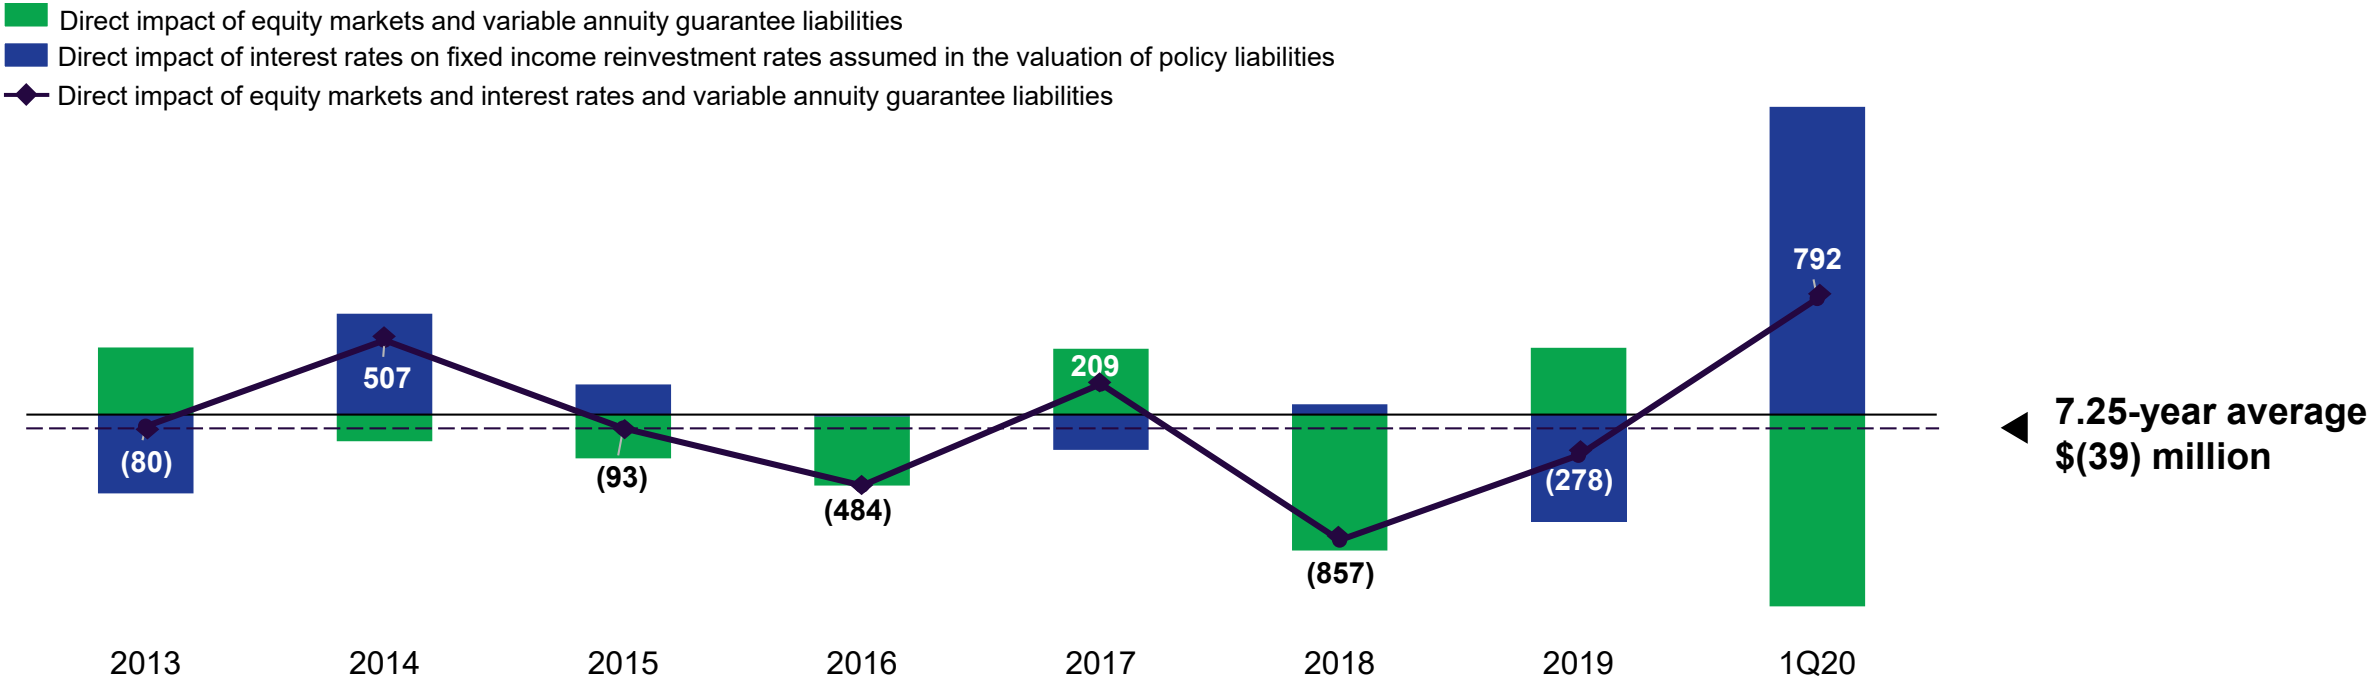

CIO's remarks

Scott Hartz
Chief Investment Officer

Direct impact of equity and interest rate markets largely offset, and each are individually managed within our risk appetite

Direct impact of equity markets and interest rates, and variable annuity guarantee liabilities¹
(\$ millions)

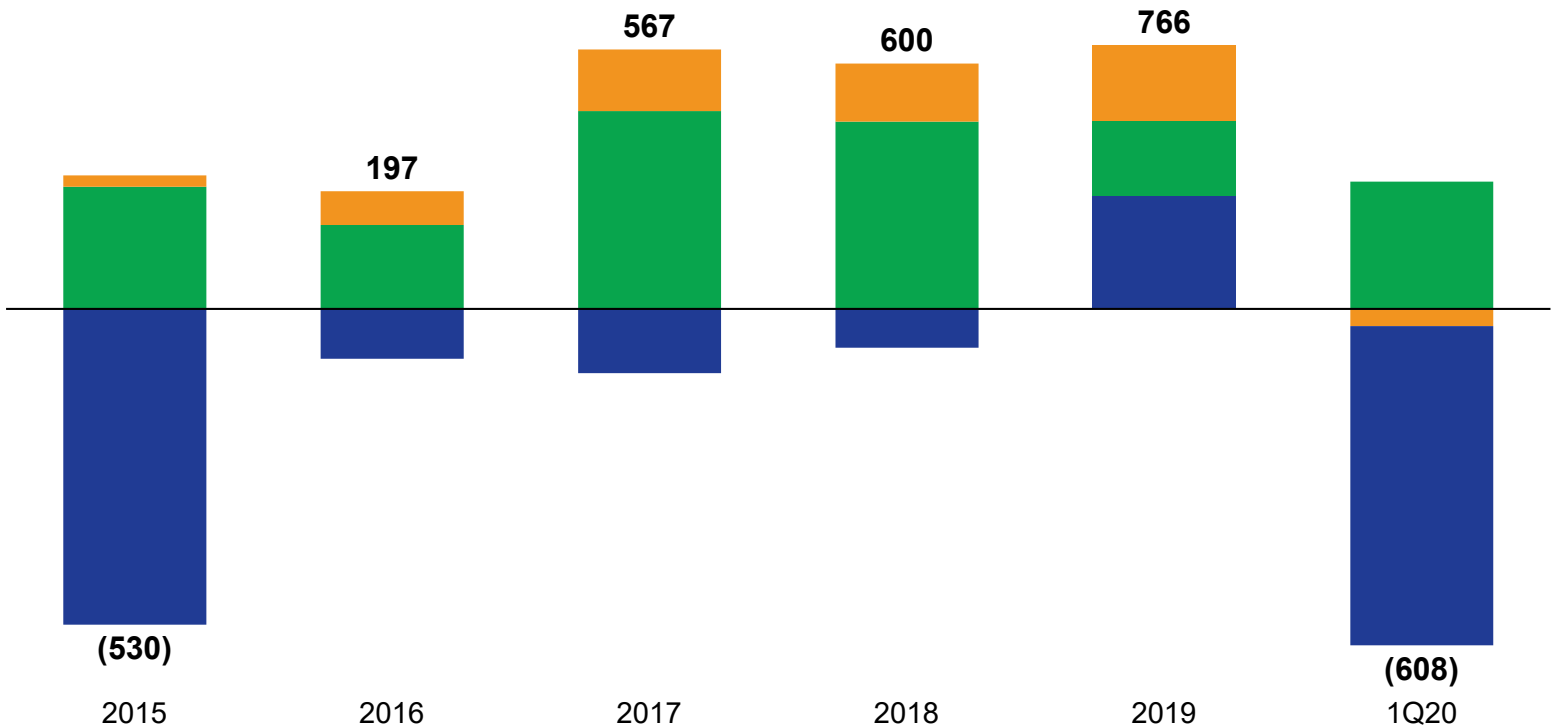

- When there is a large equity market up move, corporate spreads generally narrow and lead to losses, partially offsetting equity market gains (and vice versa)

Strong contributions from fixed income reinvestment and credit experience

Investment-related experience

(\$ millions)

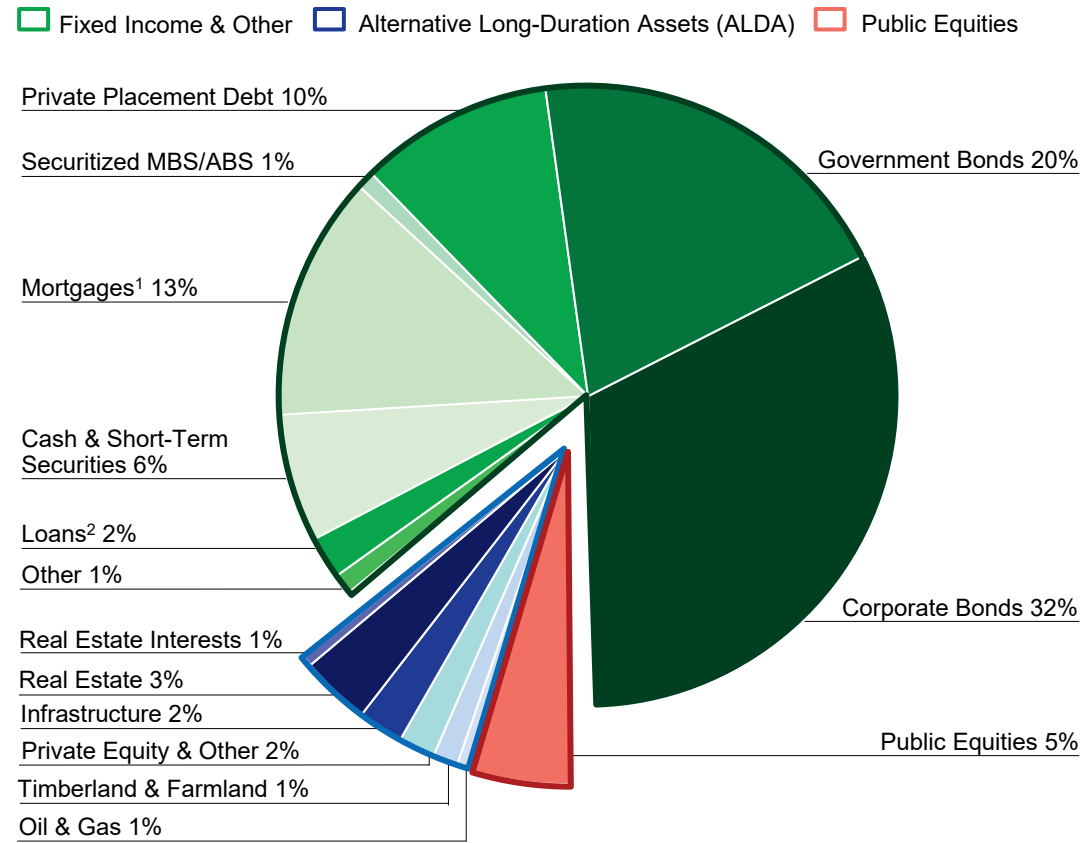

- Credit experience
- Fixed income reinvestment
- ALDA and other

Diversified high quality asset mix avoids risk concentrations

Total invested assets

(C\$405.3 billion, carrying values as of March 31, 2020)

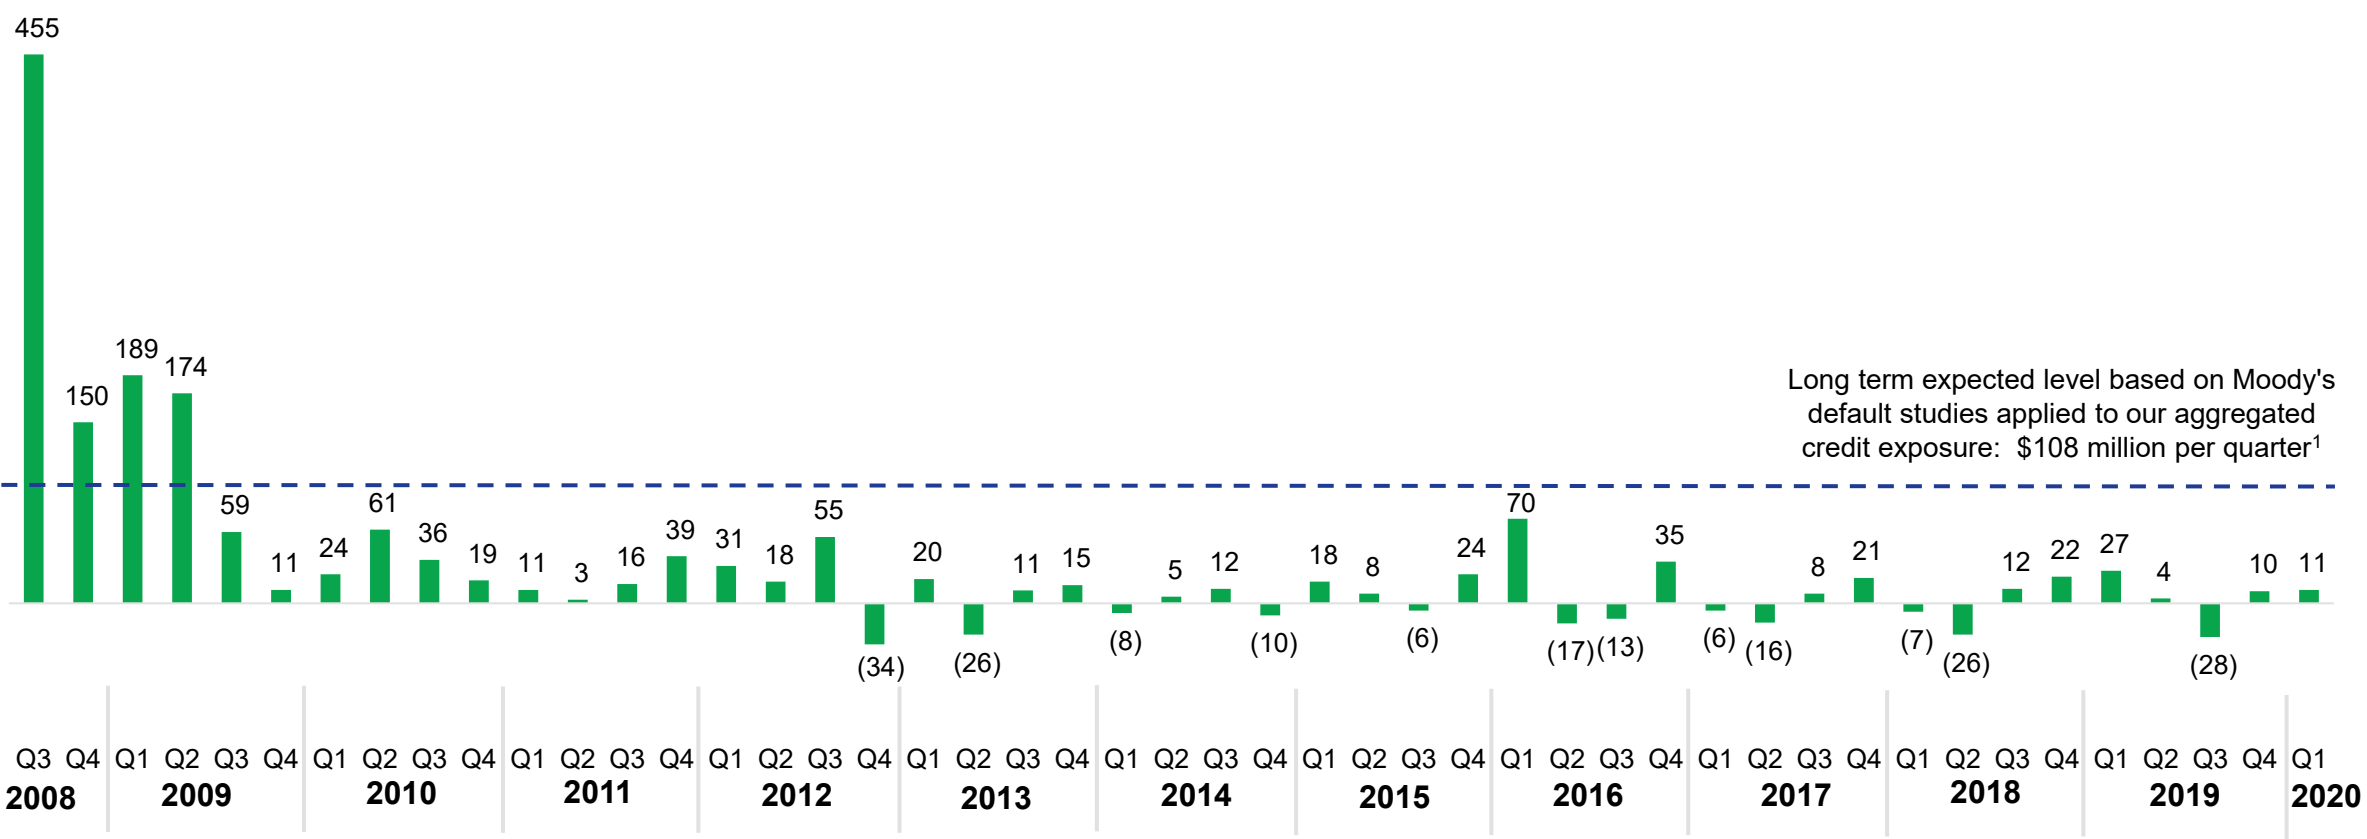

- High quality and diverse asset mix
 - 98% of fixed income assets are investment grade
 - Large holdings in defensive Government and Utility bonds
 - Recent ALDA sell-down has reduced exposure in guaranteed segments
 - No Collateralized Loan Obligations (“CLO”) exposure
- ALDA generates enhanced yield; minimizes need to pursue riskier fixed income strategy
 - Portfolio positioned at the low end of the risk-return spectrum with ~60% in infrastructure and unlevered commercial real estate
- Robust risk management framework
 - Has supported our underwriting and favourable credit quality

Credit Provisions & Impairment Trends: since the Global Financial Crisis, impairments have stayed below current long-term assumptions

Credit Provisions & Impairment Trends

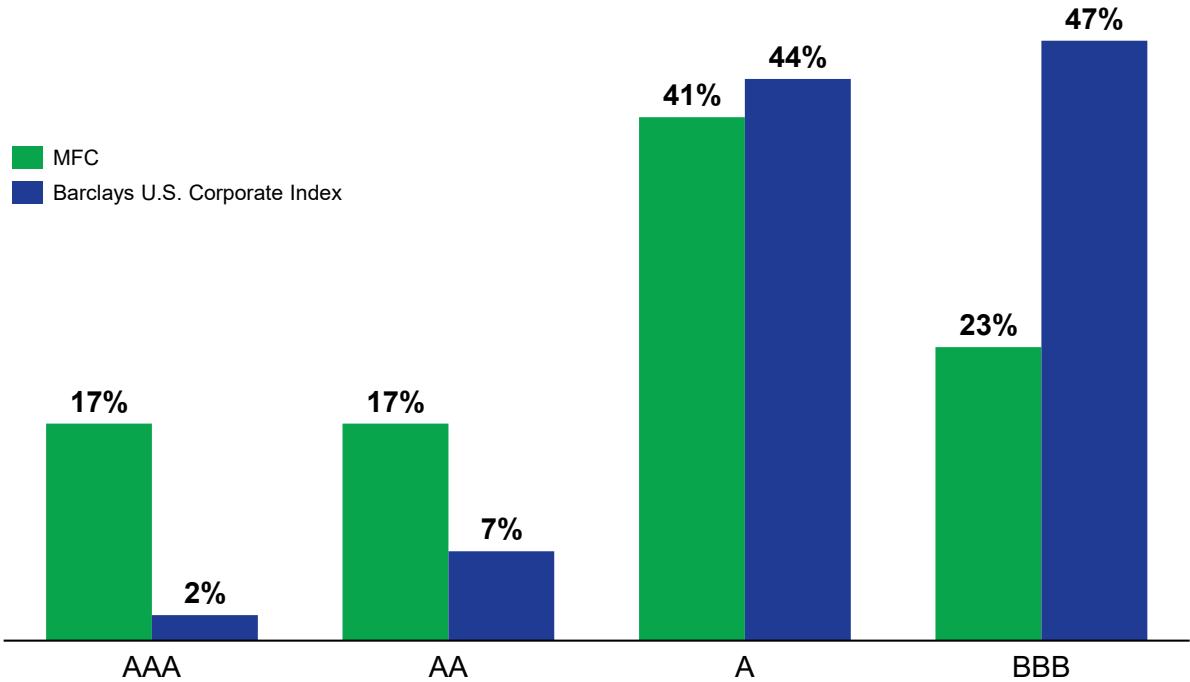

(C\$ millions, Pre-tax)

¹ As at March 31, 2020

High quality fixed income rating allocation relative to industry benchmark

Investment Grade Debt Securities and Private Placements by credit quality¹

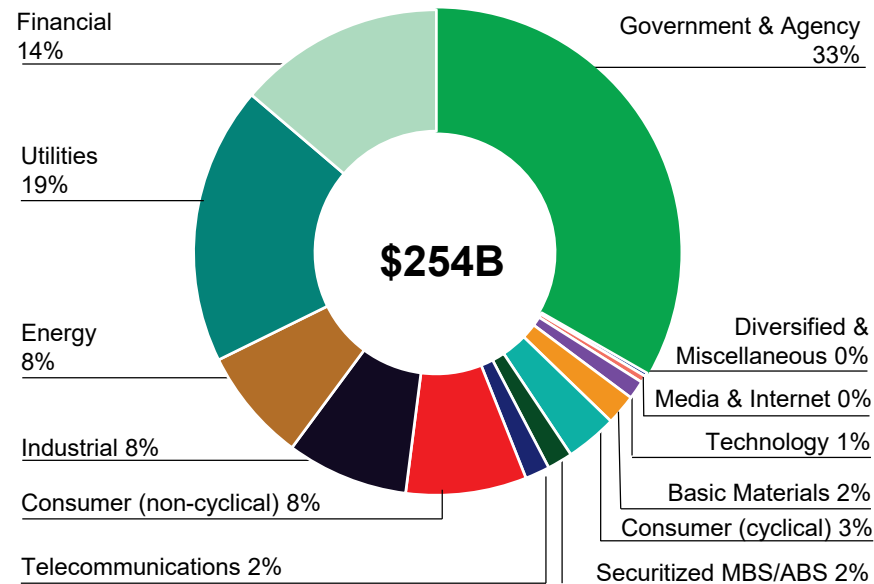

- 98% of our total fixed income portfolio is investment grade with 75% rated A and above
- BBB portfolio is significantly below market weight
- Within Manulife’s BBB portfolio, only 17% is rated BBB-
- Below Investment Grade (BIG) is limited to 2% of the portfolio
 - 19% of BIG holdings are Asia sovereign holdings; assets used to match liabilities in countries in which we conduct business

¹ MFC portfolio reflects our total global portfolio while Barclays’ U.S. Corporate Index is U.S. market only

Debt securities and private placements are well diversified among sectors

Total Debt Securities¹ and Private Placements

(Carrying values as of March 31, 2020)

- No single corporate position represents more than 1% of total invested assets
- We have a diverse asset mix with the largest sectors being Government and Utilities, which are both defensive sectors
 - Consumer cyclicals is limited to 3%
 - MBS/ABS limited to 2% and only in senior tranches
 - No exposure to CLOs
- Average credit rating² for the fixed income portfolio is A- (includes bonds and mortgages)

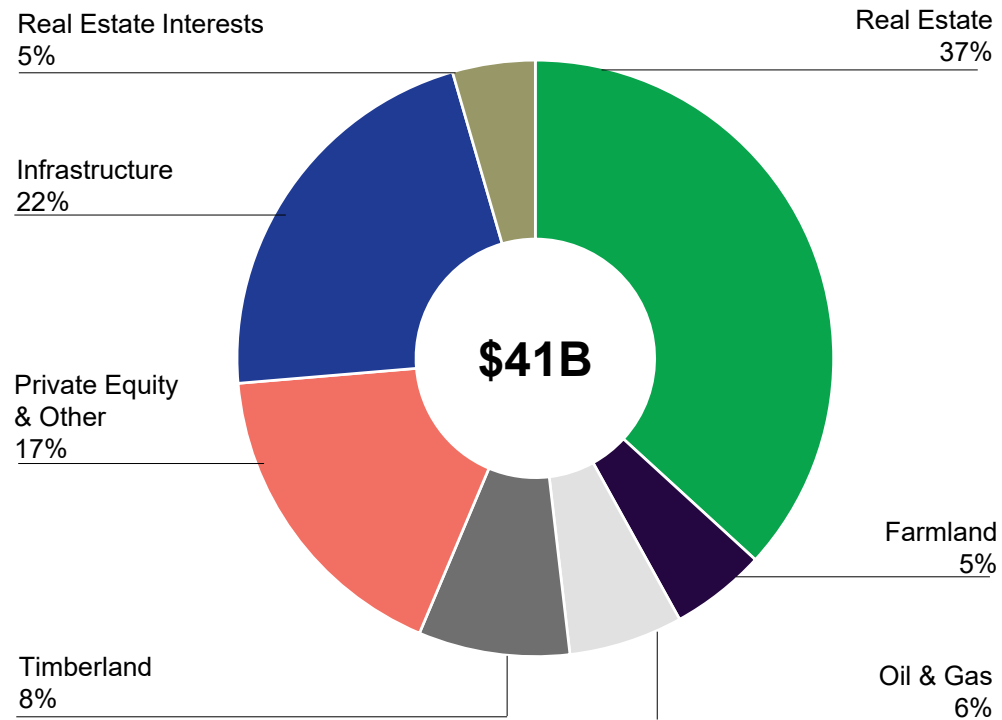

¹ Includes government bonds, corporate bonds and securitized MBS/ABS

² Average credit rating based on an expected loss (EL) weighted average rating which is determined by calculating weighted average EL rate and weighted average term (both weighted by exposure) for the portfolio and then mapping the calculated weighted average EL and weighted average term to the appropriate rating.

ALDA portfolio composition

Alternative Long Duration Assets

(Fair Value, as of March 31, 2020)

- Decades of successful experience investing in broad range of alternative long duration assets.
- We invest at the low end of the risk/return spectrum in each category; we are diversified across six different asset categories
- More than one-third of the portfolio is backing par and pass-through businesses

Energy Fixed Income exposure is well diversified

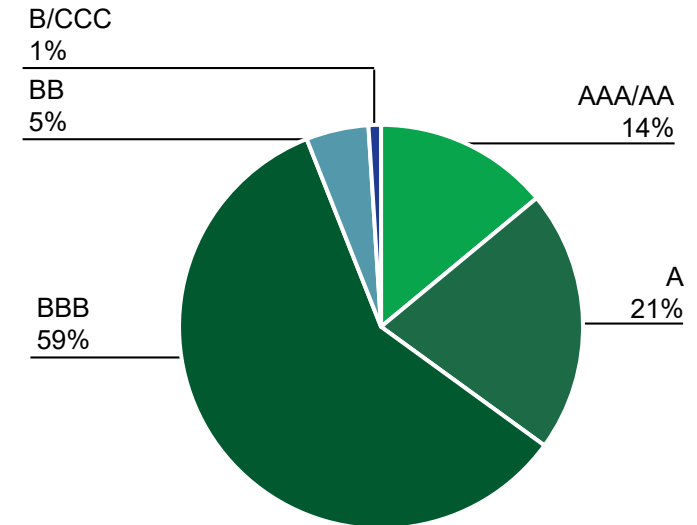

Energy Fixed Income Exposure

(Fair value as of March 31, 2020, C\$ billions)

	\$	%
Midstream (including Pipelines)	7.0	36%
Exploration/Production	5.4	28%
Major/Integrated	3.6	19%
Refining	1.5	8%
Oilfield Services	1.2	7%
Offshore Drilling	0.1	0%
Other	0.4	2%
Total	19.2	100%

- Energy Fixed Income limited to 8% of total debt and private placements (carrying value)
- 94% of the Fixed Income Energy portfolio is investment grade and well diversified by sub-sector
- Midstream is largely natural gas focused and less sensitive to commodity prices
- Major/Integrated is very high quality
- Oilfield services concentrated in large, A rated entities
- Most exposed is the offshore drillers

Fixed Income Energy by Credit Rating

ALDA Oil & Gas exposures are limited

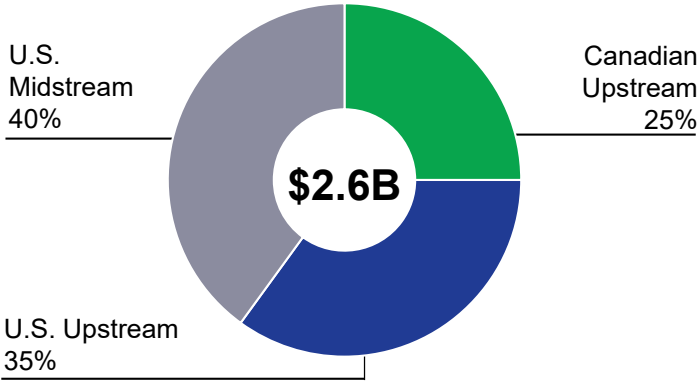

ALDA Oil & Gas Direct Exposure

(Fair value as of March 31, 2020, C\$ billions)

	\$	%
Private Equity	1.9	76%
NAL Resources	0.7	24%
Total	2.6	100%

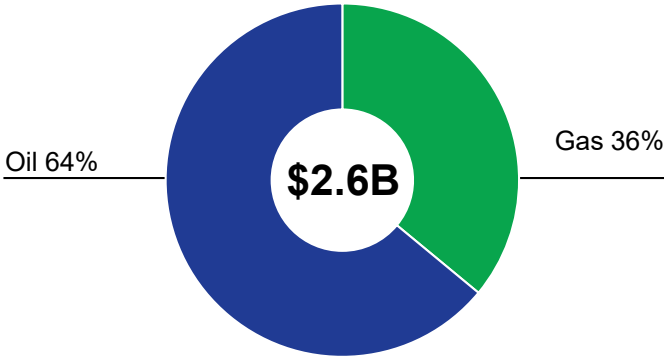

Oil and Gas Interests and Properties

Fair value

Oil and Gas Mix¹

Fair value

- Oil & Gas ALDA holdings represent less than 1% of our total invested asset portfolio
- Long investment track record in the oil and gas industry
- Own an oil & gas production company in Canada, avoiding exploration risk
- Invest in funds and co-invest to drive down fees, in the U.S.
- 40% of portfolio in midstream sector (largely natural gas transmission, storage and processing)

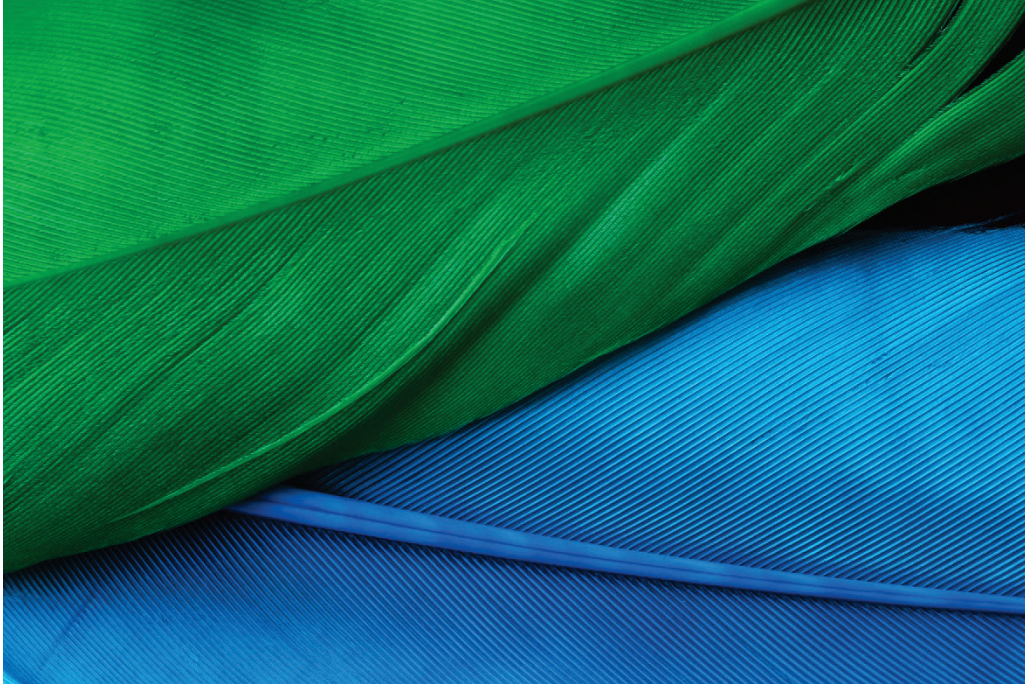

¹ Based on internal estimate

Summary

- Comfortable with our asset portfolio mix, which is built to satisfy long term obligations and to endure significant economic stress
- Employ strong underwriting and risk management framework, a foundation of our strong credit quality
- Fixed income is high quality and defensive, but could endure many downgrades and some defaults in this period
- Alternative long-duration assets are largely unlevered Commercial Real Estate and defensive Infrastructure Equity, but with exposures in Oil & Gas and Private Equity
- Expect some near term declines in ALDA values, but also expect significant recoveries when markets improve
- In this environment we remain cash flow positive and are continuing to invest in high quality names at spreads not seen since the Global Financial Crisis

Question & Answer Session

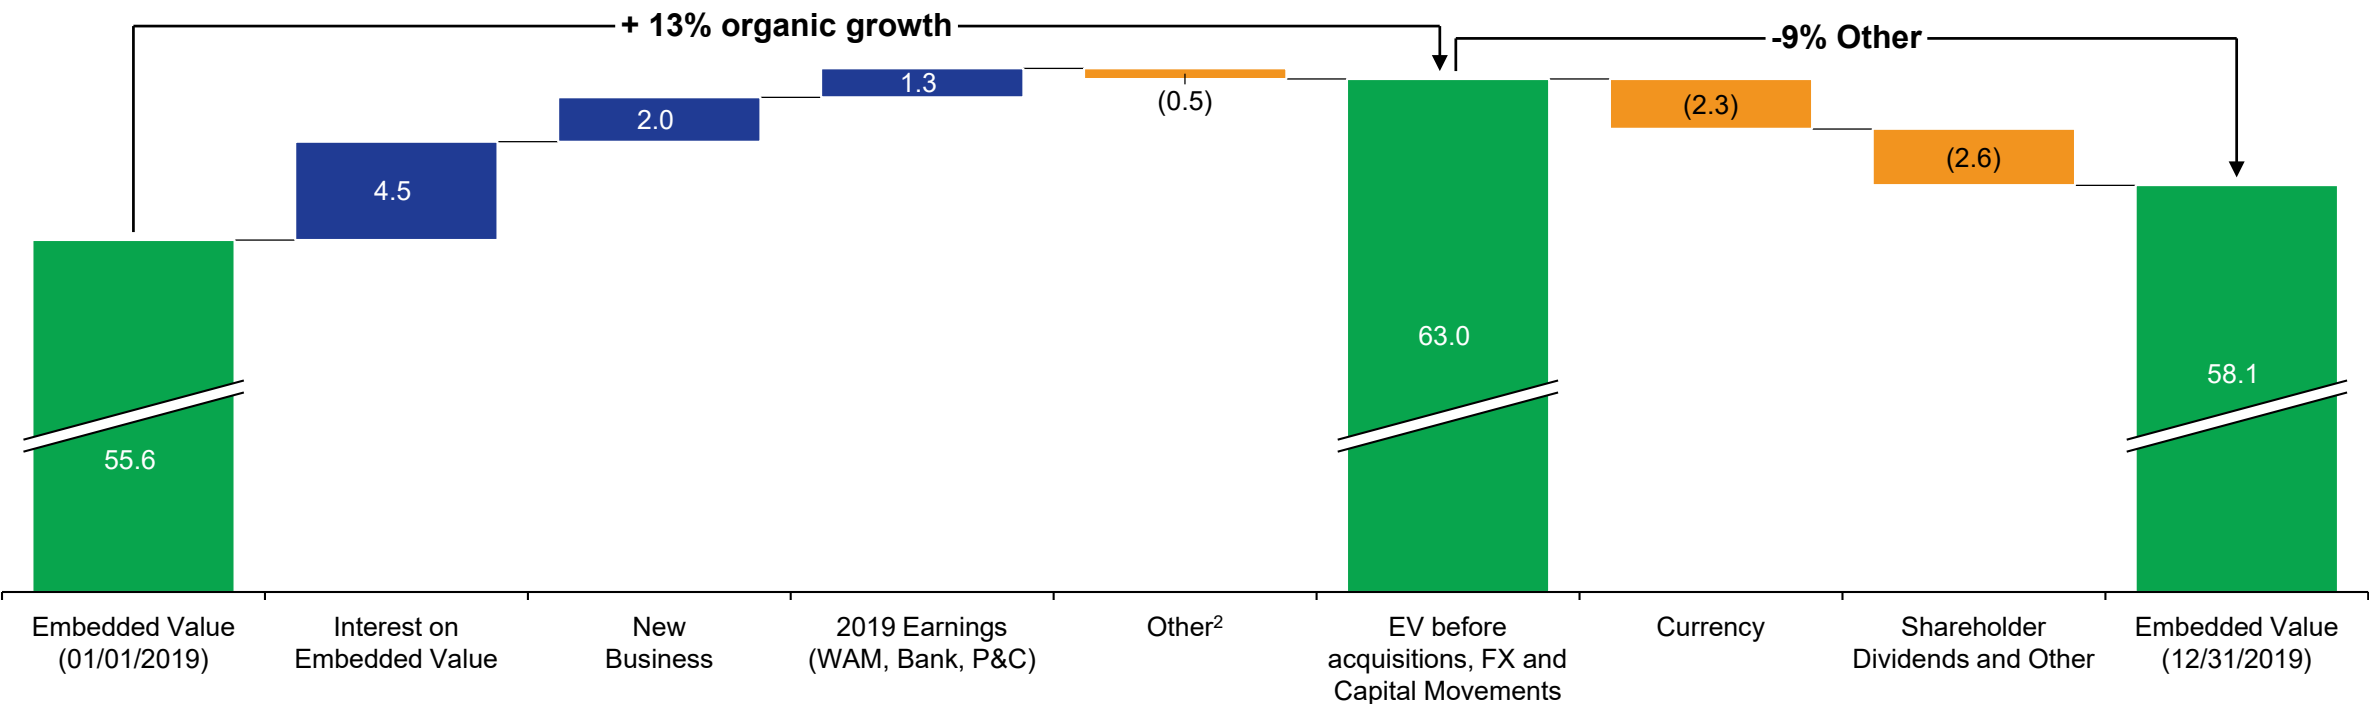

Appendix

- Embedded Value
- Segment Performance
- Assets Under Management and Administration
- Credit Experience
- Earnings Sensitivities

Delivered strong organic growth in embedded value

Embedded Value¹ (C\$ billions)

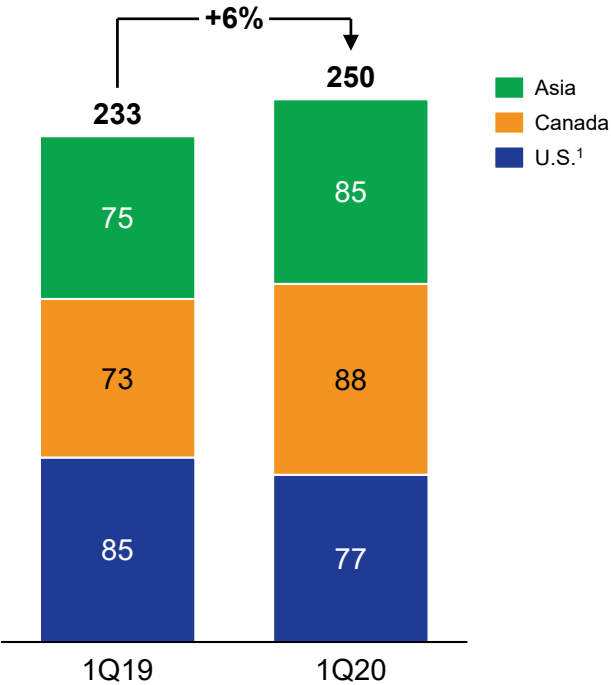

- 13% organic growth in embedded value, above the five-year compound annual growth rate of 11% since 2014
- EV of \$29.79 per share reflects only a portion of the value of Manulife’s businesses¹

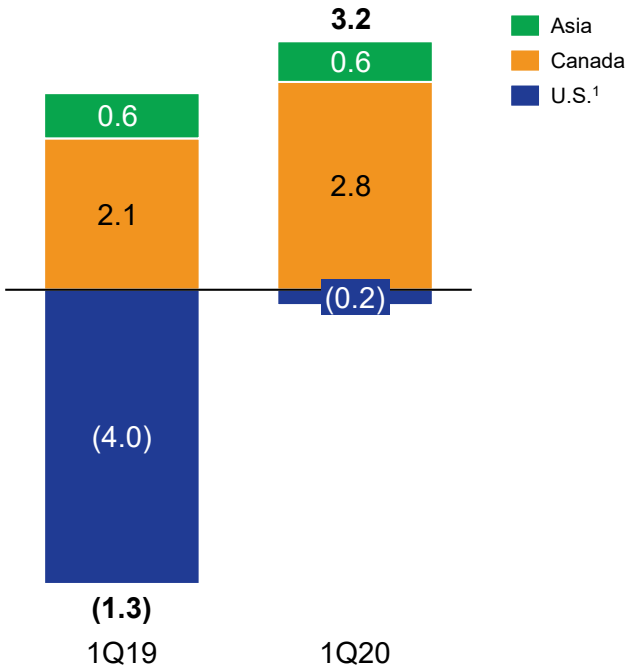

¹ Embedded value does not include any value of in-force related to Global Wealth and Asset Management, the Bank and P&C reinsurance businesses or value of our insurance new business franchise. Embedded value excludes goodwill and intangible assets. ² Includes changes in investment and operating assumptions, changes in investment and operating experience, and unallocated overhead expenses.

Global WAM: Achieved 1Q20 net inflows with positive contributions across all business lines

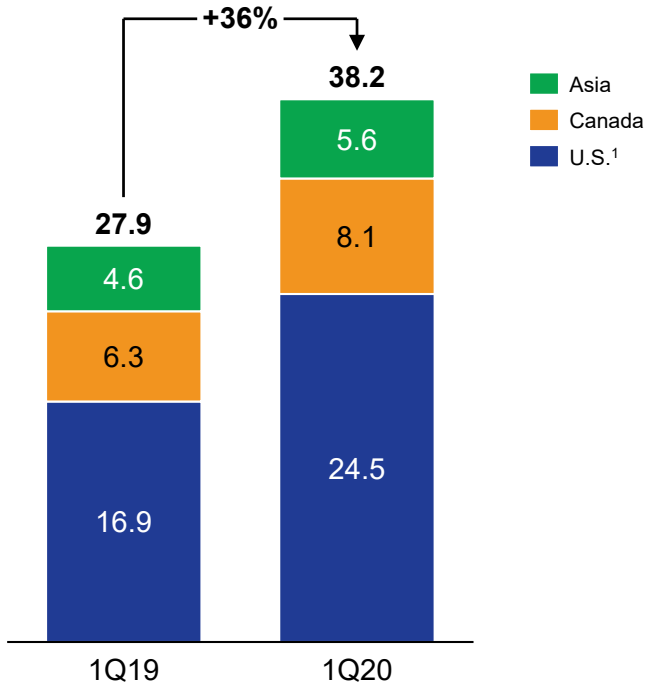

WAM core earnings
(C\$ millions)

WAM net flows
(C\$ billions)

WAM gross flows
(C\$ billions)

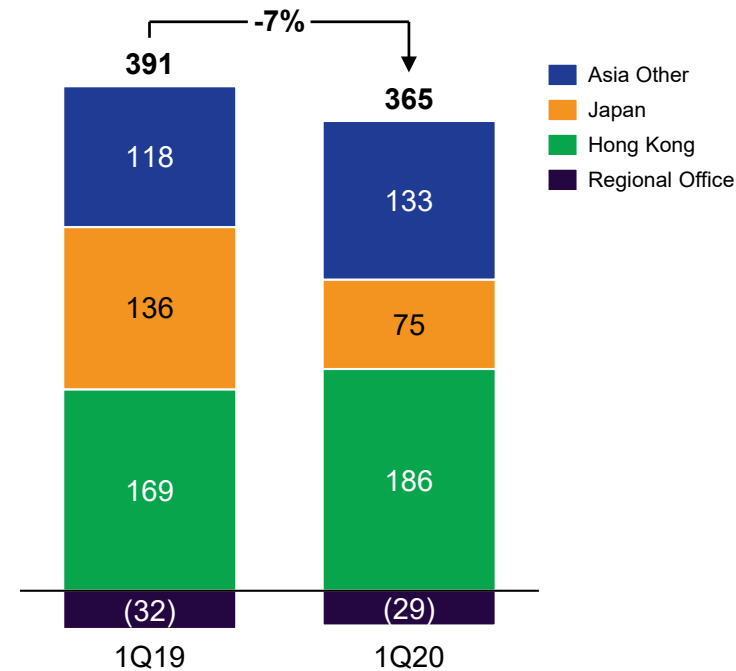

- Increase in core earnings primarily driven by higher average asset levels, partially offset by lower investment income
- Achieved 1Q20 net inflows with positive contributions from all business lines, despite higher redemptions in U.S. and Canada retail amid equity market declines in March
- Generated \$38.2 billion of quarterly gross flows, with double-digit growth across all geographies and business lines

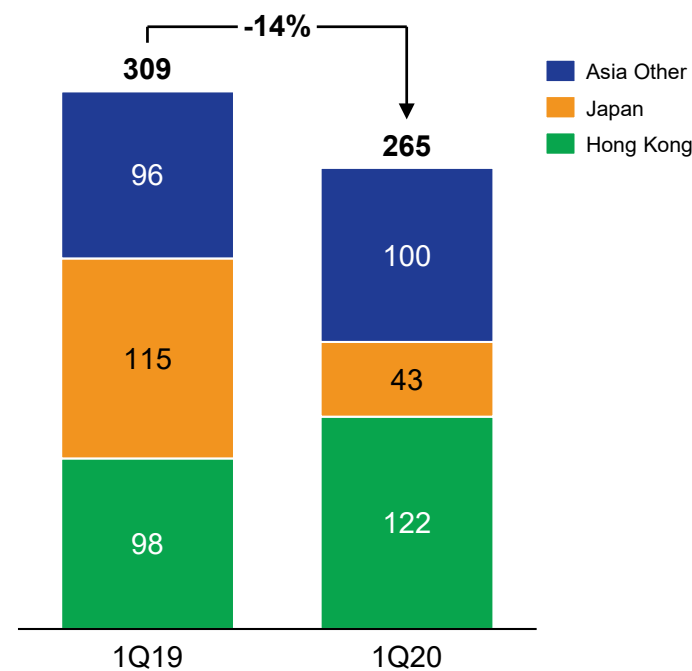

Note: Percentage changes are stated on a constant exchange rate basis, a Non-GAAP measure. See “Performance and Non-GAAP Measures” below. Order of the vertical bars on the chart correspond to the order in the legend.
¹ U.S. business line includes Europe.

Asia: Growth in Hong Kong and Asia Other was more than offset by a decline in Japan

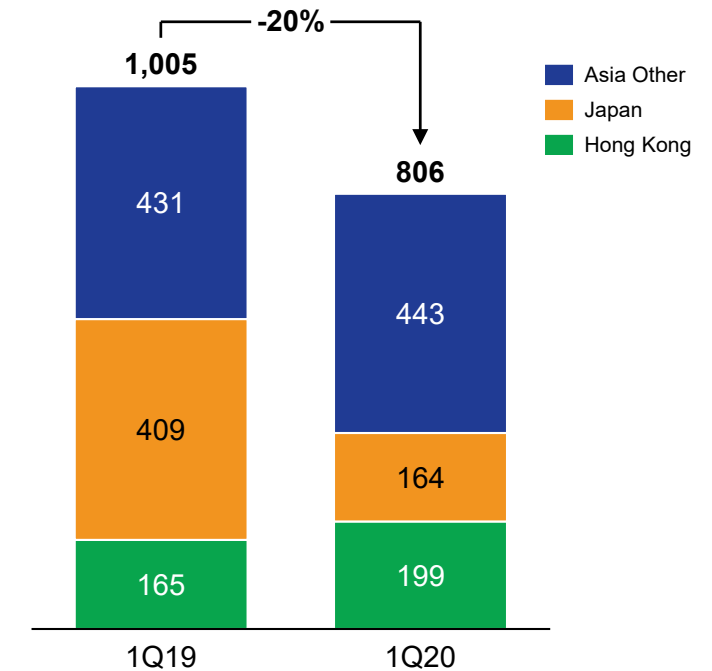

Core earnings
(US\$ millions)

New business value
(US\$ millions)

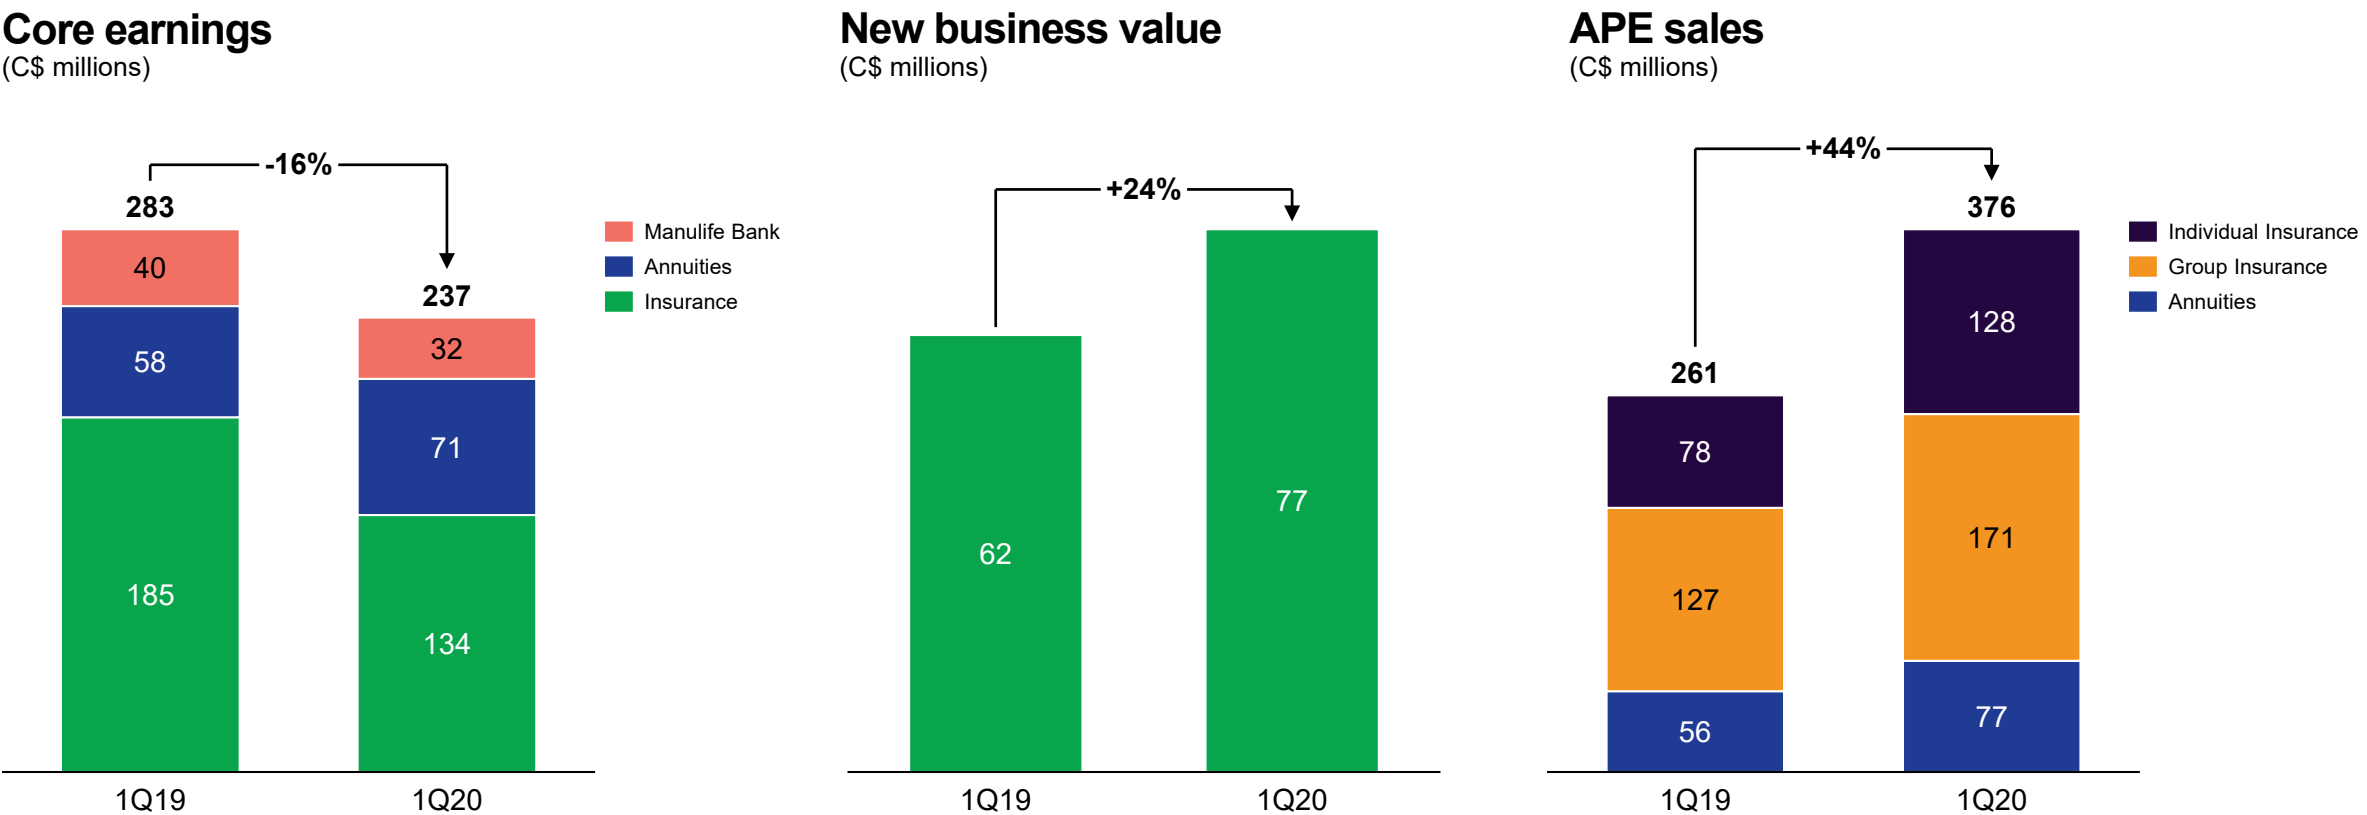

APE sales
(US\$ millions)

- Decrease in core earnings driven by lower new business volumes in Japan, partially offset by in-force business growth across Asia, and improved policyholder experience in Hong Kong (excluding VHIS)
- Lower new business value as growth in Hong Kong and Asia Other was more than offset by a decline in Japan
- Lower APE sales as growth in Hong Kong and Asia Other was more than offset by the impact of tax changes on COLI product sales in Japan

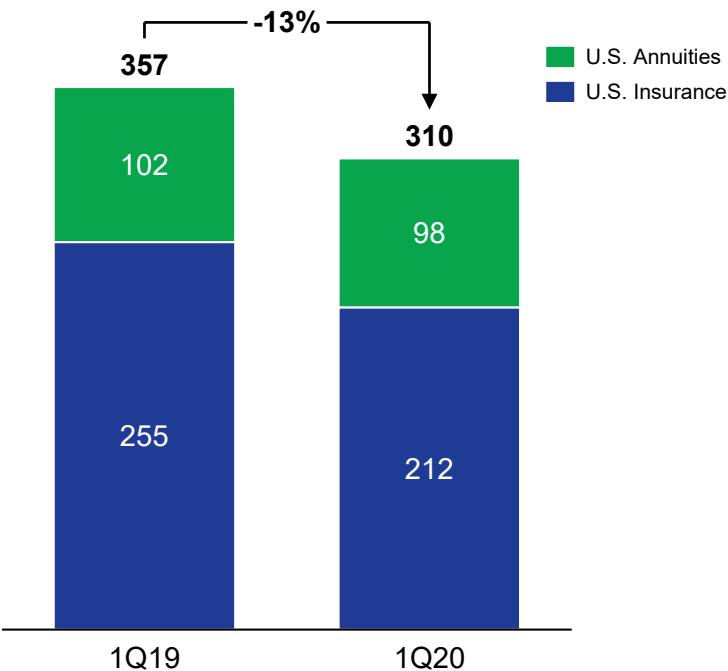

Canada: Strong APE sales driven by individual and group insurance, core earnings declined due to travel claims related to COVID-19

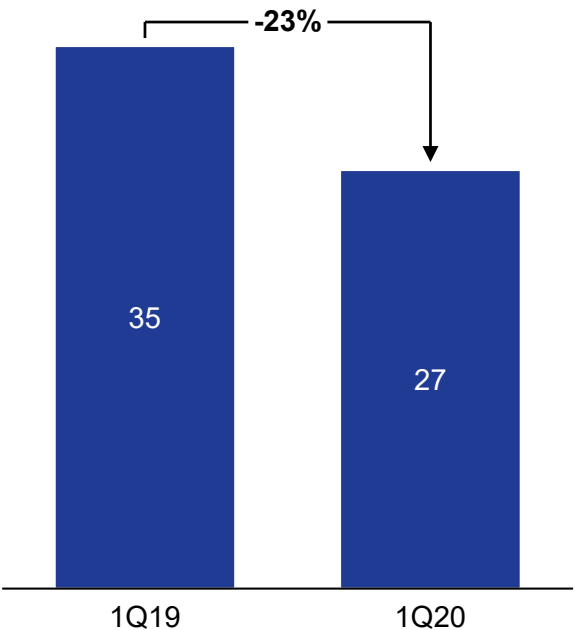

- Decrease in core earnings primarily reflecting unfavourable travel claims experience related to COVID-19
- Increase in new business value primarily driven by higher sales across all business lines
- Higher APE sales driven by higher large-case group insurance sales, individual insurance growth, and increased sales on lower risk segregated funds

U.S.: Resilient core earnings, new business value and APE during the economic downturn

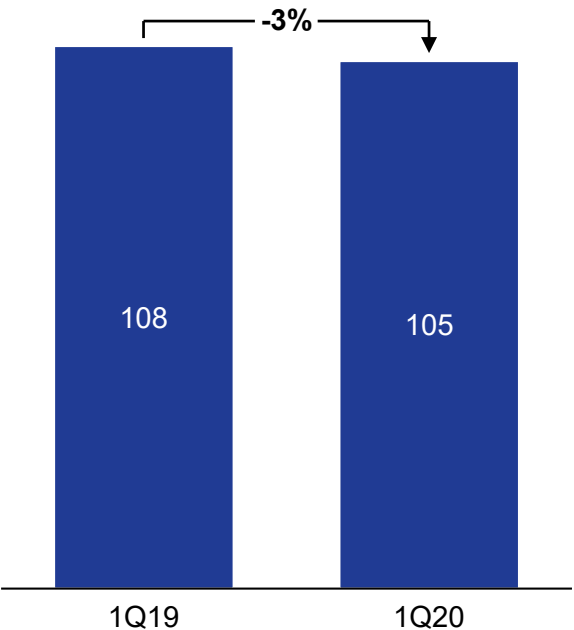

Core earnings
(US\$ millions)

New business value
(US\$ millions)

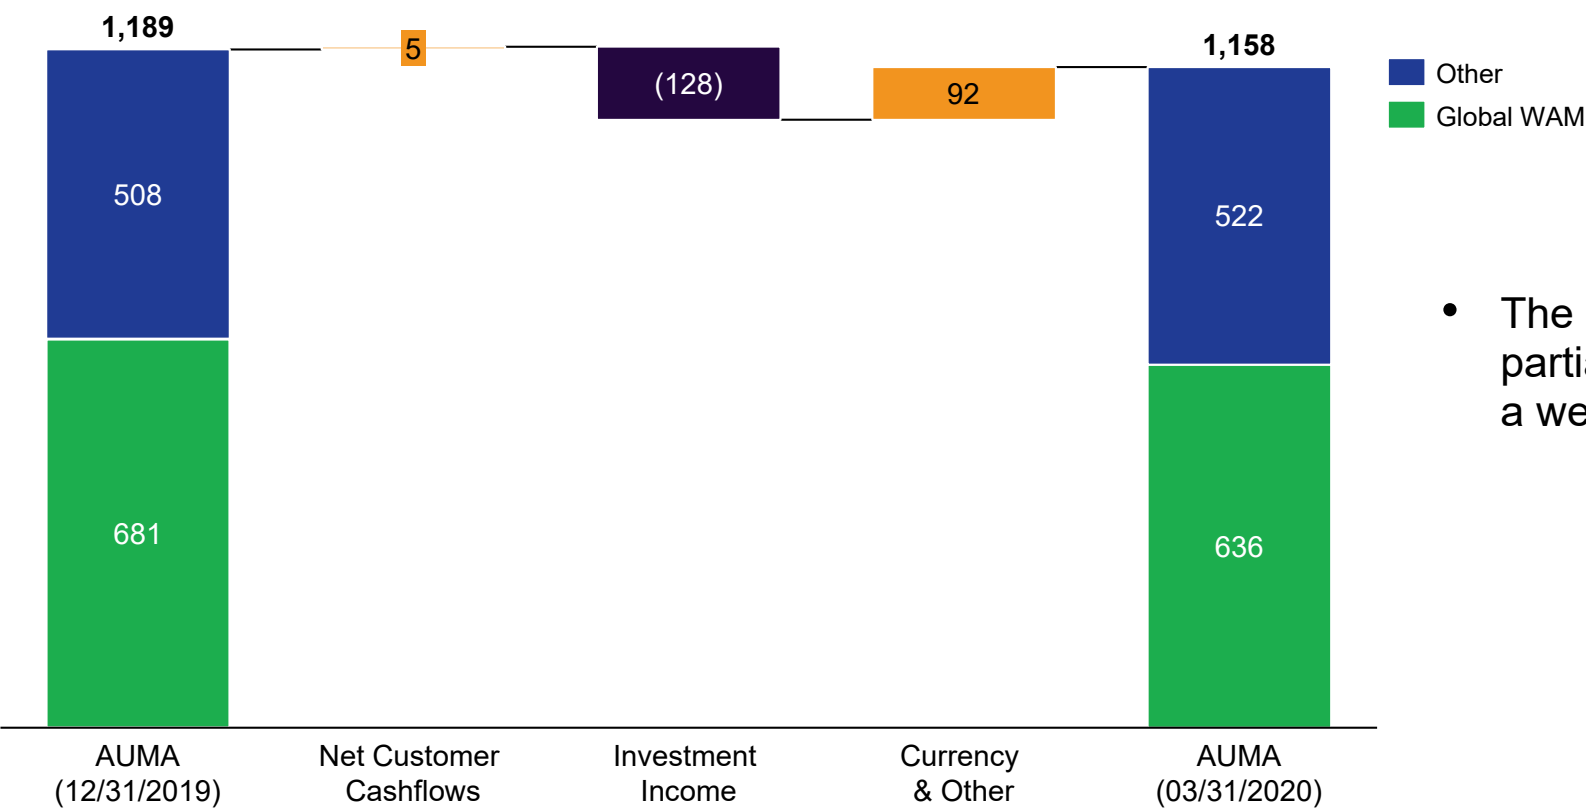

APE sales
(US\$ millions)

- Decrease in core earnings primarily driven by unfavourable life insurance policyholder experience
- Lower new business value primarily due to the impact of lower sales volumes and less favourable business mix
- Lower APE sales as lower variable universal life and domestic protection universal life sales, following regulatory changes in 4Q19, more than offset higher term and international sales

Total company AUMA was stable considering challenging market conditions

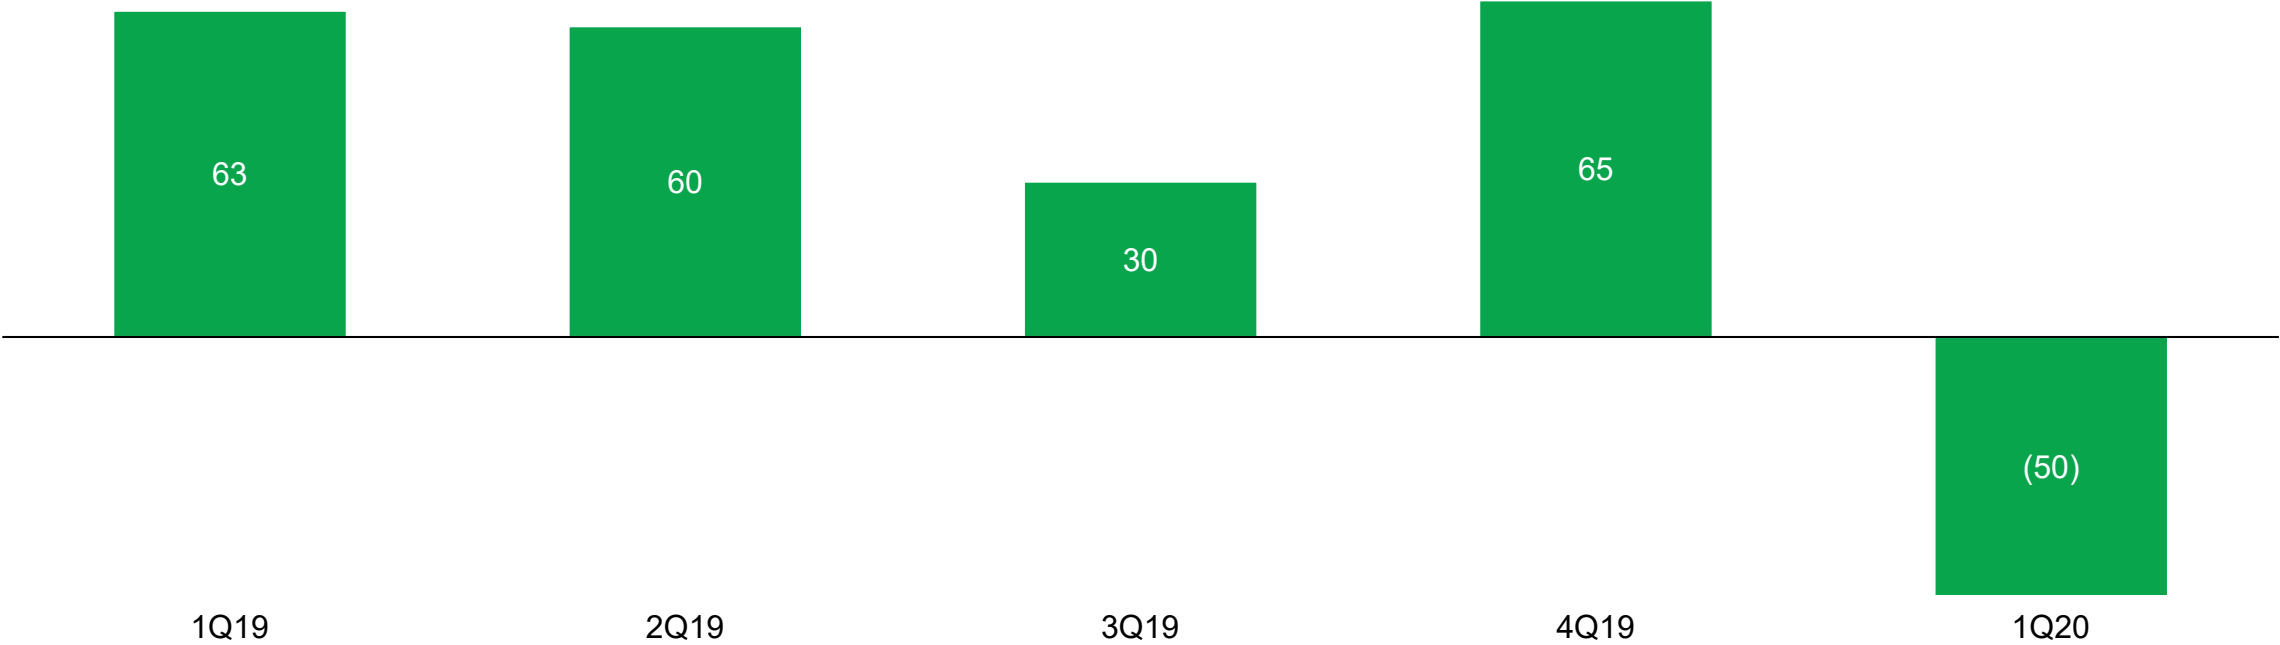

Assets under management and administration (AUMA) (C\$ billions)

- The unfavourable impact of markets was partially offset by the favourable impact of a weaker Canadian dollar

Credit Experience

Net credit experience
(C\$ millions, post-tax)

Interest rate related sensitivities remain well within our risk appetite limits

Potential impact ¹ on net income of an immediate parallel change in “all rates”: (C\$ millions)	4Q19		1Q20	
	-50 bps	+50 bps	-50 bps	+50 bps
Excluding change in market value of AFS bonds held in surplus	\$ (100)	\$ (100)	\$ 300	\$ (300)
From fair value changes in AFS bonds held in surplus, if realized ²	\$ 1,700	\$ (1,600)	\$ 2,200	\$ (2,000)
MLI's LICAT total ratio (change in percentage points) ³	4	(4)	6	(6)

Potential impact ¹ on net income of a parallel change in corporate bond spreads: (C\$ millions)	4Q19		1Q20	
	-50 bps	+50 bps	-50 bps	+50 bps
Corporate spreads	\$ (800)	\$ 800	\$ (900)	\$ 800
MLI's LICAT total ratio (change in percentage points) ³	(7)	5	(5)	2

Potential impact ¹ on net income of a parallel change in swap spreads: (C\$ millions)	4Q19		1Q20	
	-20 bps	+20 bps	-20 bps	+20 bps
Swap spreads	\$ 100	\$ (100)	\$ –	\$ –
MLI's LICAT total ratio (change in percentage points)	nil	nil	nil	nil

¹ All estimated sensitivities are approximate and based on a single parameter. No simple formula can accurately estimate ultimate future impact. Please refer to “Caution related to sensitivities” in our 1Q20 Management's Discussion and Analysis. ² The amount of gain or loss that can be realized on AFS fixed income assets held in the surplus segment depends on the aggregate amount of unrealized gain or loss. ³ In accordance with OFSI guidelines, lower interest rates and/or corporate bond spreads could trigger a switch to a more adverse prescribed interest stress scenario that would increase LICAT capital. Refer to the “Interest Rate and Spread Risk Sensitivities and Exposure Measures” section in our 1Q20 Management's Discussion and Analysis.

Potential impact on net income attributed to shareholders arising from a 10% change in public equity returns^{1,2}

- Direct impact of equity markets: Represents the estimated earnings impact on variable annuity guarantees and general fund equity investments (immediate impact)

Performance and Non-GAAP Measures

Manulife uses a number of non-GAAP financial measures to measure overall performance and to assess each of its businesses.

A financial measure is considered a non-GAAP measure for Canadian securities law purposes if it is presented other than in accordance with generally accepted accounting principles used for the Company's audited financial statements. Non-GAAP measures include core earnings (loss); core ROE; diluted core earnings per common share ("core EPS"); core earnings before income taxes, depreciation and amortization ("core EBITDA"); core EBITDA margin; core investment gains; constant exchange rate basis (measures that are reported on a constant exchange rate basis include percentage growth/declines in net income attributed to shareholders, core earnings, sales, APE sales, gross flows, core EBITDA, new business value and assets under management and administration); capital; embedded value; new business value; new business value margin; sales; APE sales; gross flows; net flows; assets under management and administration; average assets under management and administration and expense efficiency ratio. Non-GAAP financial measures are not defined terms under GAAP and, therefore, are unlikely to be comparable to similar terms used by other issuers. Therefore, they should not be considered in isolation or as a substitute for any other financial information prepared in accordance with GAAP. For more information on non-GAAP financial measures, including those referred to above, see "Performance and Non-GAAP Measures" in our 1Q20 Management's Discussion and Analysis.
