Investor Presentation

MAY 2023

Forward-Looking Statements

This investor presentation, and the related discussion, contains forward-looking statements. These include statements about Host Hotels & Resorts' plans, strategies, financial performance, prospects or future events. Forward-looking statements are not guarantees of future performance. They involve known and unknown risks, uncertainties and assumptions and many of the factors that will determine these items are beyond our ability to control or predict. Consequently, our future results, financial condition and business may differ materially from those expressed in these forward-looking statements. You can find many of these statements by looking or listening for words such as "approximates," "believes," "expects," "anticipates," "intends," "plans," "would," "may" or similar expressions in these slides or in the related discussion. Factors that may cause actual results to differ materially from those contemplated by the forward-looking statements include, but are not limited to, (i) the effect on lodging demand of changes in national and local economic and business conditions, including concerns about U.S. economic growth, an economic recession in the United States or globally, the current high level of inflation, rising interest rates, global economic prospects, consumer confidence and the value of the U.S. dollar; (ii) other changes in national and local economic and business conditions and other factors such as natural disasters and weather, including the impact of Hurricane Ian, pandemics and other public health crises, such as the COVID-19 pandemic, and the occurrence or potential occurrence of terrorist attacks, that will affect occupancy rates at our hotels and the demand for hotel products and services (iii) operating risks associated with the hotel business, including the effect of increasing labor cost; (iv) risks associated with our ability to complete acquisitions and dispositions and develop new properties and the risks that acquisitions and new developments may not perform in accordance with our expectations; (v) our ability to maintain our properties in a first-class manner, including meeting capital expenditures requirements, and the effect of renovations, including temporary closures, on our hotel occupancy and financial results; (vii) our ability to compete effectively in areas such as access, location, quality of accommodations and room rate structures; (viii) risks associated with entering into joint ventures, including the potential for disputes with our partners and the risk that the joint ventures may not perform in accordance with expectations; and (ix) those factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2022 under the heading "Risk Factors," which is available on our website: www.hosthotels.com. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that the expectations will be attained or that any deviation will not be material. All information in this presentation is as of the respective dates provided and the Company undertakes no obligation to update any forward-looking statement to conform the statement to actual results or to changes in the Company's expectations.

This presentation is not an offer to sell or a solicitation of an offer to buy any securities of the Company.

Use of Non-GAAP Financial Measures:

This investor presentation, and the related discussion, also contain certain non-GAAP financial measures, which should be considered only as supplemental to, and not as superior to, financial measures prepared in accordance with generally accepted accounting principles ("GAAP"). Please refer to the Reconciliations & Supplemental Information section of this presentation for a reconciliation of these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP and definitions and calculation methodologies used for other defined terms used in this presentation.

See slide 2 (Forward Looking Statements) for factors that may affect lodging demand.

FBITDA Growth Profile

Targeting \$290 - \$365 million of incremental future stabilized

EBITDA on a 2019 base of \$1.4 billion (as adjusted for

dispositions) through three strategic objectives and acquisitions (see slides 11 and 25 for more detail).

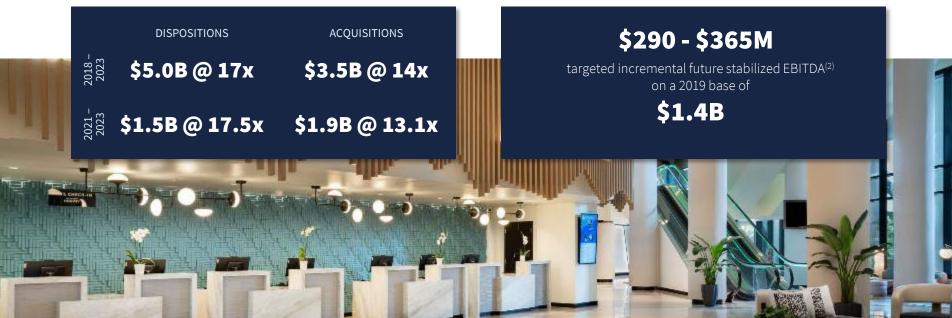

Investment Thesis

Capital Allocation Track Record

Accretive capital recycling since current management team began transitioning the portfolio in 2017.

EBITDA Multiples(1)

MIAMI MARRIOTT BISCAYNE

- Disposition multiples are calculated as the ratio between the sales price (plus estimated avoided capital expenditures over the five years following the disposition, while the 2020 2022 dispositions use 2019 full year results as the TTM are not representative of normalized operations. For 2018 2023 dispositions, combined estimated avoided capital expenditures over the five years following the disposition of the disposition of the disposition and the foreign the disposition of the
- 2) The 2019 base excludes operations for 12 hotels sold between 2020 and 2023. These results are illustrative only and actual results are expected to vary from these targets. See footnotes on slides 11 and 25 for factors that may cause actual results to vary.

COMPANY RESPONSIBILITY **OVERVIEW** UPDATE

Investment Thesis

Strong Balance Sheet

- ► Only investment grade rating among lodging RFITs(1)
- > \$2.3 billion in total available liquidity as of March 31, 2023, including approximately \$203 million of FF&E reserves and \$1.5 billion available under credit facility
- ► Entered the pandemic at 1.6x leverage⁽²⁾ which allowed us to invest opportunistically in the portfolio during a period of reduced demand and deploy capital to acquire assets

Diverse Portfolio

3%

Geographic EBITDA diversification: no market accounts for more than 11% of 2022 All Owned Hotel FBITDA(3)

2022 BUSINESS MIX

ROOM REVENUE

Allows us to leverage multiple fronts:

- Operational benchmarking and analytical capability
- ► Ability to source off-market transactions and close with certainty
- Large, branded portfolio allows us to leverage relationships with operators and implement broad changes efficiently

- A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. Credit ratings are subject to change depending on financial and other factors.
- Host leverage ratio is calculated using Host's credit facility definition. Leverage ratio using GAAP metrics at December 31, 2019, was 4.1x. See Reconciliations and Supplemental Information for reconciliation of the credit facility

No market accounts for more than 13% of 2022 hotel net income. See Reconciliations & Supplemental Information for reconciliations of net income to EBITDA.

Strategic Objectives

REDEFINING THE OPERATING MODEL

SEEKING TO GAIN MARKET SHARE THROUGH COMPREHENSIVE RENOVATIONS

SUPPLEMENTAL INFO

ALLOCATING CAPITAL TO DEVELOPMENT ROI PROJECTS

\$100-\$150M

Represents ~3 – 4% of 2019 All Owned Hotel expenses⁽¹⁾ \$22 - \$37M

Targeted incremental Hotel EBITDA on a stabilized annualized basis based on 2019 performance⁽¹⁾

\$25 - \$35M

Targeted incremental Hotel EBITDA on a stabilized annualized basis⁽¹⁾

OVERVIEW

- Driving efficiencies through the cross-utilization of management functions
- Reducing the fixed component of above-property charges
- Adapting brand standards for greater relevancy and adopting productivity-enhancing technology
- 3 5 points of RevPAR index share gains targeted at 24 renovated assets⁽²⁾
- Includes 16 Marriott Transformational Capital Program (MTCP) renovations plus 8 additional comprehensive renovations from 2018 to estimated completion dates through Q4 2023

Low-to-mid teens cash-on-cash return⁽³⁾ targeted:

- ► AC Hotel Scottsdale North (165-key development)
- Andaz Maui (19 new, 2-bedroom luxury villas)
- Orlando World Center Marriott (OWCM) (60k SF of additional meeting space and 2.3-acre aquatic park)
- ► The Ritz-Carlton, Naples (24 net new keys)

PROGRESS TO DATE

- Our operators have achieved a bulk of the potential long-term cost reductions based on 2019 All Owned Hotel revenues
- ► MTCP 98% complete as of Q1 2023 (15/16 assets)
- See slides 27-34 for more detail
- Some results not yet comparable due to recent completions and competitive set closures
- ► AC Hotel Scottsdale North 5.6x 2022 EBITDA multiple⁽⁴⁾
- Andaz Maui Villas (completed Q2 2021) 2022 RevPAR of \$1,080, +21% ahead of underwriting
- OWCM water park and meeting space expansion (completed Q1 2022) led Hotel to be #1 EBITDA contributor in 2022 at \$90 million, +27% above 2019⁽⁵⁾
- Ritz-Carlton, Naples development on track to open with resort targeted re-opening July 2023
- 1) The target cost reductions and incremental Hotel EBITDA are tied to returning to 2019 business levels and actual savings realized or incremental Hotel EBITDA achieved will be subject to change and there is no guarantee that we will achieve these targets (see slide 2 Forward Looking Statements). Cost reductions may be offset by future growth in expenses such as wages and are subject to negotiation with our hotel managers, while incremental Hotel EBITDA will be affected by the success of our hotel renovations in gaining market share. Incremental net income (loss) at the targeted EBITDA range for the renovations at 24 hotels is estimated to be \$(21) million to \$(6) million and for the four ROI development projects is estimated to be \$17 million to \$27 million. See Reconciliations & Supplemental Information for reconciliations to comparable GAAP measures.
- 2) Index gains targets are being calculated based on 2019 performance levels or trailing twelve months leading up to the beginning of renovation if renovations occurred in 2019.
- 3) Cash on cash returns are calculated as the incremental increase in cash flow from operations as a result of the project, net of FF&E contributions, divided by the investment net of rebates.
- 4) EBITDA is a non-GAAP financial measure. The comparable GAAP metric utilizing 2022 net income is the ratio of the development cost to net income of 7x. See Reconciliations & Supplemental Information for reconciliations to comparable GAAP measures.
- 5) EBITDA is a non-GAAP financial measure. 2022 net income was \$57 million, 19% above 2019. See Reconciliations & Supplemental Information for reconciliations to comparable GAAP measures.

Balance Sheet

Strong credit profile and investment grade balance sheet provides **flexibility** and **optionality**.

DISPOSITIONS

\$1.5B @ 17.5x

ACQUISITIONS

\$1.9B @ 13.1x

Disposition multiples are calculated as the ratio between the sales price (plus estimated avoided capital expenditures over the five years following the disposition dates) and 2019 EBITDA for 2020-2022 dispositions or TTM EBITDA from the disposition date for the 2023 disposition. For 2021 – 2023 dispositions, combined estimated avoided capital expenditures over the five years following the disposition dates totaled \$473 million. The 2021 – 2023 disposition net income multiple is 34x. Acquisition multiples are based on 2019 operations except for Baker's Cay Resort Key Largo, which is based on 2021 forecast operations at acquisition, as the property was under renovation and closed for part of 2019; The Laura Hotel which is based on estimated normalized results that assume results are in-line with the 2019 results of comparable Houston properties, as the property was under renovation and brand in 2021; Alila Ventana Big Sur which is based on 2021 forecast operations at acquisition as the property was under renovation for part of 2019; The Alida, Savannah, which adjusts 2019 results for construction disruption to the surrounding Plant Riverside District and for initial ramp-up of hotel operations; and the Four Seasons Resort and Residences Jackson Hole, which is based on 2022 forecast results at acquisition. Acquisition EBITDA includes an upward adjustment of \$13 million to reflect normalized operations for both The Laura Hotel and The Alida, Savannah. The 2021 – 2023 acquisition net income multiple is 23x. See Reconciliations and Supplemental Information for reconciliations.

2021 - 2023 Hotel Acquisitions Summary

	Price (millions)	Keys	EBITDA Multiple at Acquisition ⁽¹⁾	EBITDA per Key ⁽¹⁾	Stabilized EBITDA Multiple ⁽¹⁾	Stabilization Timeframe Target	Off- Market?
Hyatt Regency Austin	\$161	448	8.8x	\$40,700	7x – 9x	2024-2025	Yes
Four Seasons Resort Orlando at Walt Disney World® Resort	\$610	444	16.8x	\$81,500	12x - 14x	2023-2025	Yes
Baker's Cay Resort Key Largo	\$200	200	14.5x	\$69,000	12x - 14x	2023-2025	Yes
The Laura Hotel	\$65	223	9.2x	\$31,400	7x – 9x	2024-2026	Yes
Alila Ventana Big Sur	\$150	59	9.3x	\$272,900	8x - 10x	2025-2027	Yes
The Alida, Savannah	\$103	173	12.1x	\$49,300	11x - 12x	2024-2025	No
Hotel Van Zandt	\$242	319	13.2x	\$57,200	10x - 12x	2025-2027	No
Four Seasons Resort and Residences Jackson Hole	\$315	125	13.6x	\$185,000	11x - 13x	2026-2028	No
2021 - 2023 Rollup	\$1,874(2)	1,991	13.1x	\$71,000	10x - 12x	-	-

1) We calculate the EBITDA multiple as the ratio of the purchase price to the property's EBITDA and EBITDA per key as the ratio of the property's EBITDA to number of rooms. EBITDA is a non-GAAP measure. The comparable GAAP measures are the ratio of the purchase price to the hotel's net income and the ratio of the property's net income to number of rooms. The comparable GAAP metrics using 2019 net income are as follows: Hyatt Regency Austin, 12x, 12x (stabilized) and \$30,500 per key; The Four Seasons Resort Orlando at Walt Disney World® Resort, 32x, 18x (stabilized) and \$43,500 per key; and Hotel Van Zandt, 40x, 23x (stabilized), and \$19,000 per key. For other 2021 acquisitions, 2021 forecast EBITDA was used instead of 2019 EBITDA due to renovations (see Slide 9, footnote 1 for explanations). The comparable GAAP metrics using 2021 forecast net income for these hotels are as follows: Baker's Cay Resort Key Largo, 23x, 20x (stabilized) and \$43,500 per key; and Alila Ventana Big Sur, 14x, 14x (stabilized) and \$177,500 per key. For the Laura Hotel, the comparable GAAP metrics are 13x, 12x (stabilized) and \$22,000 per key in each case using estimated normalized 2019 net income (see Slide 9, footnote 1). For the Four Seasons Resort and Residences Jackson Hole, the comparable GAAP metrics using 2022 forecast net income are 22x, 20x (stabilized), and \$112,000 per key. Stabilized EBITDA/net income multiple targets are illustrative only and actual results are expected to vary from these targets; see Slides 16 and 17 for steps to be taken to achieve these stabilized results and Slide 2 for factors that may cause results to be materially different from these targets. See Reconciliations & Supplemental Information for reconciliations of net income to EBITDA.

Purchase price includes \$28 million paid for two golf courses on Maui.

^{3) 2017} results include operations for All Owned Hotels as of December 31, 2017. 2022 results include operations for All Owned Hotels as of December 31, 2022.

^{4) 2017} net income per key and 2022 net income per key were \$11,000 and \$15,000, respectively. See Reconciliations & Supplemental Information for reconciliations of net income to EBITDA.

RECENT

HIGHLIGHTS

We are targeting the **stabilized EBITDA multiples** presented on the prior slide by taking the following steps at each asset:

HYATT REGENCY AUSTIN

- Seek to increase revenue penetration through group, business transient and leisure
- Deploy technology solutions we believe will enhance operational efficiency and guest experience
- Collaborate with Hyatt to seek to enhance productivity and processes as recovery continues post Covid
- Reposition F&B offerings and increase breakout meeting space

FOUR SEASONS RESORT ORLANDO AT WALT DISNEY WORLD® RESORT

- ► Eliminate third-party asset manager costs
- ► Membership enhancements and pricing opportunities
- Ancillary revenue opportunities for amenities
- ➤ Seek to improve ADR through rate-focused revenue management strategies
- ► Collaborate with Four Seasons to seek to enhance productivity and processes post Covid

BAKER'S CAY RESORT KEY LARGO

- ➤ Seek to improve F&B spend by enhancing pool service and outlet offerings
- ► Deploy technology solutions we believe will enhance operational efficiencies and guest experience
- Target increased revenue penetration through group and leisure-transient strategy as post Covid recovery continues

THE LAURA HOTEL

- Affiliate the asset with a soft brand
- ► Engage HEI as institutional thirdparty management company
- Lease vacant retail space
- Expand lobby bar to incorporate new outdoor patio
- Deploy technology solutions we believe will enhance revenues, operational efficiency, and guest experience

We are targeting the **stabilized EBITDA multiples** presented on slide 15 by taking the following steps at each asset:

ALILA VENTANA BIG SUR

- ► Seek to close the ADR gap between Ventana and the neighboring Post Ranch Inn
- Seek to improve ancillary revenue for the spa and activities to comparable spend for ultra-luxury resorts
- Open the Sur House restaurant to non-resort guests

THE ALIDA, SAVANNAH

- Seek to close the ADR index gap versus competitive set by targeting incremental demand generators
- ► Lease vacant retail space
- Enhance the F&B outlet experience, particularly at the pool and rooftop venue
- Deploy technology solutions we believe will enhance revenues, operational efficiency, and guest experience

HOTEL VAN ZANDT

- Target increased revenue penetration as recovery continues by capitalizing on growing corporate demand
- ► Strategic change to independent versus branded hotel
- Seek to monetize underutilized space and increase F&B revenues by repositioning offerings
- ► Launched destination amenity fee

FOUR SEASONS RESORT AND RESIDENCES JACKSON HOLE

- Target pricing lift from recentlycompleted comprehensive renovation
- ► Employ aggressive revenue management strategies to maximize leisure pricing
- Seek to grow year-round occupancy through group business in shoulder seasons
- ► Target growth in membership base and spend
- Reposition F&B outlets and public spaces

Resort transient ADR increase in Q1 2023 compared to Q1 2019, or +1% compared to Q1 2022

HOLIDAYS

+10 pts

Greater than 10 point occupancy increases for both MLK, Jr. and President's Day weekends at downtown hotels compared to Q1 2022

Downtown properties drove overall portfolio spring break RevPAR growth of +7% compared to Q1 2022

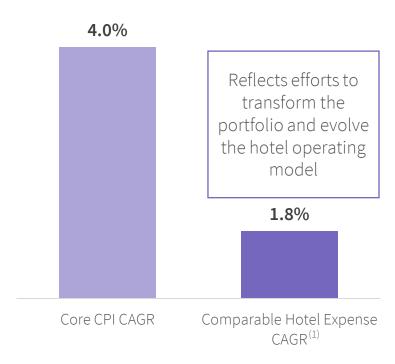

Margin Performance

Through operational and portfolio improvements, our 2022 Comparable Hotel EBITDA margin meaningfully improved compared to 2019 despite lagging occupancy and expense inflation.

In 2023, we expect Comparable Hotel EBITDA margins to be **above 2019** due to closer-to-stable staffing levels, a continued lag in occupancy, and four years of expense inflation.

COMPARABLE HOTEL EBITDA MARGIN DRIVERS

- ➤ Comparable hotel expense CAGR is only 1.8%⁽¹⁾ versus the Core CPI CAGR of 4.0% from 2019-2023E
- ➤ 30.2% midpoint 2023E Comparable Hotel EBITDA Margin, 65 bps above 2019⁽²⁾
- ► Relative to 2019, Comparable Hotel EBITDA Margin in 2023E includes an estimated negative impact of (80) bps from utilities and insurance and (100) bps from wages & benefits⁽³⁾

¹⁾ Comparable hotel expense is a non-GAAP financial measure. Estimated GAAP total expense CAGR is (1)%. See Reconciliations & Supplemental Information for reconciliation of total expense to comparable hotel expense.

²⁾ Comparable Hotel EBITDA Margin is a non-GAAP financial measure. 2019 Comparable Hotel EBITDA margin is 29.6%. The midpoint of full year 2023 forecast operating profit margin is 15.0%, a 40 basis point improvement to 2019 operating profit margin of 14.6%. See Reconciliations & Supplemental Information for reconciliations and items that may affect forecast results, projections, and other estimates. See slide 2 (Forward Looking Statements) for factors that may affect lodging demand.

³⁾ Comparable Hotel EBITDA Margin is a non-GAAP financial measure. Estimated negative impact to operating profit margin is (100) bps from utilities and insurance and (90) bps from wages & benefits.

Growth Opportunities

24

OFFENSIVE ADDITIONS •

Long-Term, Opportunistic Value Creation

Host has a history of creatively extracting value from its existing investments and recycling capital into EBITDA-generating Offensive Additions. Projects highlighted below provided incremental returns and were not underwritten at acquisition.

We evaluate a pipeline of similar projects across our portfolio on an ongoing basis.

NY MARRIOTT MARQUIS LAND PURCHASE \$20M

Purchased land under hotel at attractive pricing and reduced ground lease exposure

NY MARRIOTT MARQUIS RETAIL SALE \$442M

Sold the retail, theatre and signage

PHOENICIAN LAND PARCEL SALES \$90M

Sold land parcels acquired as part of our Phoenician resort acquisition

AC SCOTTSDALE GROUND-UP DEVELOPMENT \$36M

Developed new hotel on underutilized parking lot; 2022 5.6x EBITDA, 56% ahead of underwriting⁽¹⁾

2013 2018 2020 2021 2022

MARRIOTT MARQUIS SAN DIEGO MARINA EXHIBIT HALL

152,000 SF of expanded and modernized group meeting space Significant investment aided in ground lease extension

Offensive Additions target low-tomid-teens cash-on-cash returns

ANDAZ MAUI VILLAS

18 three-bedroom and 1 four-bedroom luxury villas

RITZ-CARLTON NAPLES, TIBURÓN WATERPARK

66,000 SF waterpark including lazy river, slides, splash pad and family pool

0

ORLANDO WORLD CENTER MARRIOTT GROUP MEETING SPACE & WATER PARK

60,000 SF of group meeting space and 80,000 SF waterpark

RITZ-CARLTON NAPLES BEACH RESORT TOWER IN PROGRESS

New tower to include 74 rooms (24 net new keys) and increase suite count 2.6x, from 35 to 92

FUTURE PROJECTS:

Four Seasons Resort Orlando at Walt Disney World® Resort Condominiums | Villas at the Canyon Suites at the Phoenician

EBITDA is a non-GAAP financial measure. The comparable GAAP metric utilizing 2022 net income is the ratio of the development cost to forecast net income of 7x. See Reconciliations and Supplemental Information for reconciliations.

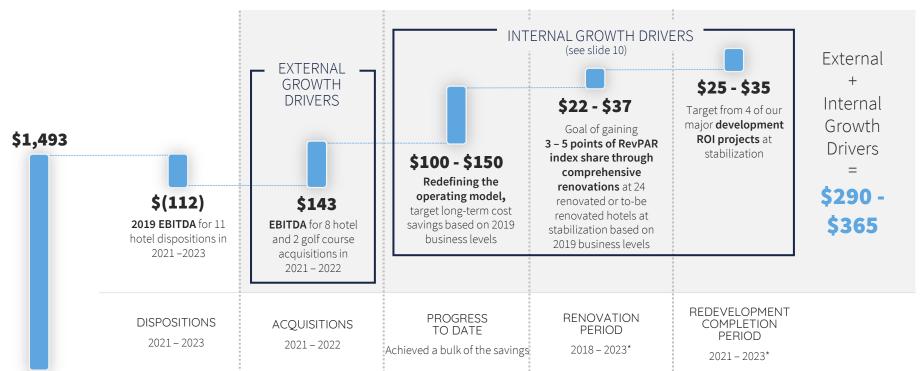

EBITDA Growth Drivers

Our goal is to **meaningfully grow our hotel EBITDA** throughout the current lodging cycle through multiple external and internal growth drivers.

All Owned Hotel EBITDA (\$ millions)(1):

All Owned Hotel

EBITDA Dec 31, 2019⁽²⁾

*targeted stabilization 2-3 years after completion

²⁰¹⁹ Host net income was \$932 million. Combined 2019 net income for the 11 hotel dispositions was \$40 million. Combined acquisition net income for Hyatt Regency Austin, Four Seasons Resort Orlando at Walt Disney World® Resort, Baker's Cay Resort Key Largo, The Laura Hotel, Ka'anapali golf courses, Alila Ventana Big Sur, The Alida, Savannah, Hotel Van Zandt, and Four Seasons Resort and Residences Jackson Hole was \$83 million, using 2019 results except for Baker's Cay and Alila Ventana Big Sur which use 2021E net income, the Laura Hotel and The Alida, Savannah which use estimated 2019 normalized net income, and the Four Seasons Resort and Residences Jackson Hole which uses 2022E net income (see slide 9, footnote 1 for explanations). Incremental net income (loss) at the targeted EBITDA range for the renovations at 24 hotels is estimated to be \$17 million to \$60 million and for the four ROI development projects is estimated to be \$17 million to \$27 million. See slide 11 for qualifications and assumptions for these target EBITDA projections. These results are illustrative only and actual results are expected to vary from these targets, see Slide 2 for factors that may cause results to be materially different from these targets. See Reconciliations of net income to EBITDA.

^{2) 2019} EBITDA for Hotels owned as of December 31, 2020. The timing of a return to this level of EBITDA for these properties is unknown, and will be affected by, among other items, the timing of a return to 2019 revenue levels as well as any inflationary effects on operating costs.

CapEx Investment Comparison

We have been able to **meaningfully invest in our properties** with minimal disruption in 2020-2022 as a result of entering 2020 with low leverage and a large cash balance.

Minimize Disruption

By investing during a time of low demand, we have avoided disruption to operations as demand continues to ramp up

Maximize Competitiveness

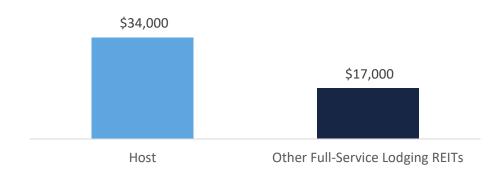

We believe our assets will be better positioned to capitalize on pent-up demand compared to our lodging REIT peers and our hotels' competitive sets

When the 24 comprehensive renovations are complete, the average age of our guestrooms will have decreased by over 25%, and over the next five years, we estimate that less than a quarter of our portfolio will require disruptive guestroom renovations

Capture Share

By having the newest product fully available, our goal is to increase our RevPAR index share with the potential to further drive EBITDA growth

2020-2022 CapEx per Key⁽¹⁾

¹⁾ Calculated as actual 2020, 2021, and 2022 capital expenditures divided by room count on a weighted average basis as provided in filings with the SEC. The full-service lodging REIT group average includes DRH, PEB, PK, RLJ, SHO, and XHR based on their Q4 2020, Q4 2021, and Q4 2022 filings. Host is based on Q4 2020, Q4 2021, and Q4 2020, Q4 2021, and

²⁾ Marriott Transformational Capital Program, a multi-year, comprehensive renovation program for 16 of our Marriott-managed hotels and resorts.

Comprehensive Renovation Case Study

THE DON CESAR

Dramatically perched atop wind-swept dunes with expansive water views in every direction, the fully renovated Don CeSar is the crown jewel of Florida's Gulf Coast. Since 1928, this resort has been a monument to luxury, glamour, and leisure.

THE DON CESAR

GOAL

Underwriting target: 3-5 points of RevPAR index share gain⁽¹⁾ compared to the three-year RevPAR index average prior to renovation

WHAT WE DID

➤ Comprehensive renovations began in September 2019 and finished in December 2020

 Scope of renovations included: guestrooms/ suites, corridors, two restaurants, lobby bar, and a complete refresh of the arrival experience

 Incorporated several ROI projects: new grab & go marketplace, retail, and two-level pool bar; expanded new beach club membership lounge

► Substantially completed during the pandemic with minimal guest and business disruption

STABILIZED RESULTS(2)

RevPAR index share gain of 13.5 points (96.2 2017-2019 avg. vs. 109.7 for December 2022 TTM)

2022 improvements over 2018:

► Transient ADR +73%

► Group room nights +19%

► F&B spend per occupied room +29%

► F&B profit +\$3.7M, F&B margin +530 bps

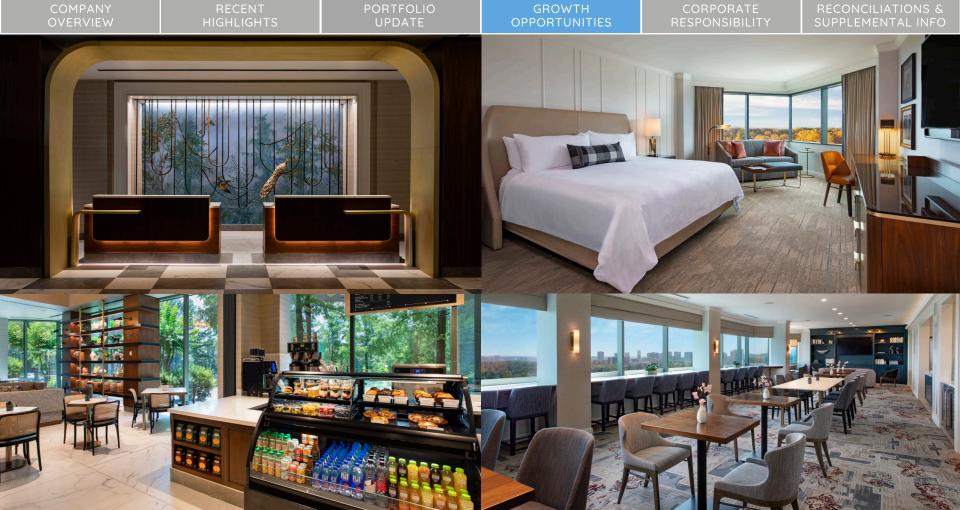

These results are illustrative only and there can be no guarantees that
other projects will result in similar results. See Slide 2 for factors that
may cause results to be materially different from expectations.

MTCP CapEx Case Study

JW MARRIOTT ATLANTA BUCKHEAD

Offering the perfect blend of modern mid-century design, luxury service, and serene elegance in Atlanta's upscale Buckhead neighborhood.

2023 Host Hotels & Resorts, Inc.

29

JW MARRIOTT ATLANTA BUCKHEAD

GOAL

MTCP underwriting target: 3-5 points of RevPAR index share gain⁽¹⁾ compared to the three-year RevPAR index average prior to renovation

WHAT WE DID

▶ MTCP renovations began in June 2020 and finished in October 2020

► Scope of renovations included: guestrooms, suites, and corridors; meeting space; added lobby-level F&B; expanded lobby bar and lounge; lobby and check-in arrival experience

► Continued through the pandemic with minimal guest and business disruption

STABILIZED RESULTS(2)

► RevPAR index share gain of 12.7 points (104.5 2017-2019 avg. vs. 117.2 for December 2022 TTM)

2022 improvements over 2019:

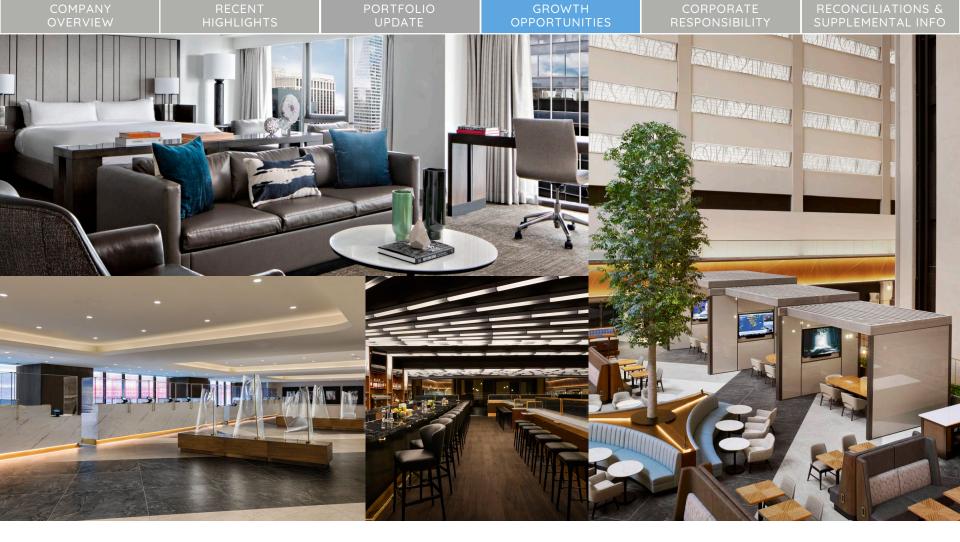

- 1) RevPAR index share is measured relative to hotels' competitive sets using STR data for peers. For more information on how RevPAR index
- may cause results to be materially different from expectations.

MTCP CapEx Case Study

NEW YORK MARRIOTT MARQUIS

The newly renovated New York Marriott Marquis is an iconic fixture of Times Square and brilliantly captures the vibrant energy and spirit of Manhattan.

NEW YORK MARRIOTT MARQUIS

GOAL

MTCP underwriting target: 3-5 points of RevPAR index share gain⁽¹⁾ compared to the three-year RevPAR index average prior to renovation

WHAT WE DID

► MTCP renovations began in January 2019 and finished in August 2021

➤ Scope of renovations included: guestrooms/suites, ballrooms, meeting space, new lobby-level M club lounge, re-concepted Broadway Lounge and Revel & Rye Lobby Bar and Restaurant

► Continued through the pandemic with minimal guest and business disruption

LATEST RESULTS(2)

 RevPAR Index not yet comparable due to competitive set closures

Q1 2023 transient retail rate +21% above 2018

Renovated product is attracting new groups

➤ Over 200k group room nights in 2022 and 2023E; all-time high

➤ 2023E F&B vs. 2018: profit +\$9.5M; F&B margin +1,520 bps

- RevPAR index share is measured relative to hotels' competitive sets using STR data for peers. For more information on how RevPAR index is calculated, see Reconciliations & Supplemental Information.
- 2) These results are illustrative only and there can be no guarantees that other projects will result in similar results. See Slide 2 for factors that may cause results to be materially different from expectations.

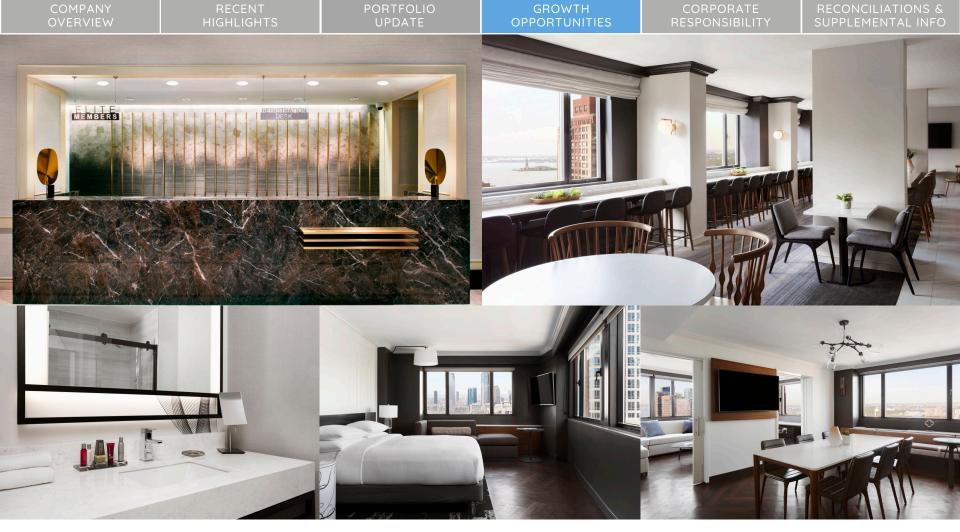

MTCP CapEx Case Study

NEW YORK MARRIOTT DOWNTOWN

Soaring above the city streets, the New York Marriott Downtown has been fully reimagined to reflect the classic-meets-modern appeal of Lower Manhattan.

NEW YORK MARRIOTT DOWNTOWN

GOAL

MTCP underwriting target: 3-5 points of RevPAR index share gain⁽¹⁾ compared to the three-year RevPAR index average prior to renovation

WHAT WE DID

▶ MTCP renovations began in January 2019 and finished in May 2019

► Scope of renovations included: guestrooms/suites, corridors, lobby/arrival experience, and concierge lounge

LATEST RESULTS(2)

► RevPAR index share gain of 9.0 points (96.0 2016-2018 avg. vs. 105.0 for March 2023 TTM)

- ▶ Q1 2023 ADR +24% above 2018
- ► Renovation allowed for replacing discount rates with new, higherrated, high-volume business transient (BT) and group accounts
- Q1 2023 BT revenue up +35% to 2018 driven by record BT demand and rate
- ▶ Q1 2023 group revenue up +15% to 2018

²⁾ These results are illustrative only and there can be no guarantees that other projects will result in similar results. See Slide 2 for factors that may cause results to be materially different from expectations.

ROI CapEx Case Study

RITZ-CARLTON NAPLES, TIBURÓN

Nestled amid rolling greens, tropical palm trees, and a shimmering lake stands a stately country club offering luxury amenities, revitalizing spa treatments, diverse cuisine and golf on two courses certified as an Audubon Cooperative Sanctuary.

ROI CapEx Case Study

RITZ-CARLTON NAPLES, TIBURÓN

GOAL

Distinguish the resort within the marketplace to diversify demand generators and drive operating performance through increased rates and summer occupancy and out-of-room spend

- ➤ Reservoir water park and Ría poolside F&B outlet constructed in 2020-2021
- ➤ Scope of renovations included: added 61k SF water park including lazy river, waterslides, kids pool with splash pad, family pool with private cabanas; new poolside restaurant, bar and kitchen with expanded seating
- ► Continued through the pandemic with minimal guest and business disruption

2022 RESULTS COMPARED TO 2019(1)

- ► Hotel EBITDA \$23 million, +87%⁽²⁾
- ► EBITDA margin +500 basis points⁽²⁾
- TRevPAR +59%
- ► RevPAR +69%
- ► RevPAR index share of 205 compared to 166 in 2019⁽³⁾

- 2) 2022 net income was \$16 million, 104% above 2019, and operating profit margin was 23.3%, 520 basis points above 2019. See Reconciliations & Supplemental Information for reconciliations.
- RevPAR index share is measured relative to hotels' competitive sets using STR data for peers. For more information on how RevPAR index is calculated, see Reconciliations & Supplemental Information.

Corporate Responsibility As the premier lodging REIT and a **sustainability industry leader**, we are committed to creating long-term value through investing responsibly in our business, environment, people, stakeholders and community. Our Corporate Responsibility program is centered around the concept of **responsible investment**—an overarching strategy that guides our focus and actions across our three main themes:

ENVIRONMENTAL STEWARDSHIP

SOCIAL RESPONSIBILITY

GOVERNANCE

ESG HIGHLIGHTS

Continued investments in sustainability toward our emissions reduction target verified by Science Based Targets initiative at the **1.5-degree Celsius level of ambition**

10 LEED-certified hotels, including three LEED Gold hotels as well as Host's corporate headquarters

Third green bond issuance bringing the total raised to \$1.85B to invest in sustainability ROI projects and green building certifications

Amended and restated **credit facility with sustainability-linked incentives** for green building certification and renewable energy

90+ EV chargers installed at over 30 hotels

Participant in CEO Action for Diversity & Inclusion™ and establishment of Diversity, Equity, Inclusion & Belonging (DEIB) program and women's employee resource group

First lodging REIT to sign on to industry 5-Star Promise as an owner to advance safety, non-discrimination and human rights within the hospitality industry

Founding Donor of the Nareit Foundation's Dividends
Through Diversity, Equity & Inclusion (DDEI) Giving
Campaign, which supports charitable and educational
organizations that will help create a more diverse, equitable
and inclusive REIT and publicly traded real estate industry

Launch of second, expanded **Supplier Excellence Survey** in addition to launch of Supplier Diversity Survey to all strategic suppliers

ESG oversight from our Board's Nominating, Governance and Corporate Responsibility Committee

ESG Executive Steering Committee that guides corporate responsibility strategies and engagement with Board

Cross-functional **Corporate Responsibility Advisory Committee**, representing nearly every department at Host

Comprehensive update to our **Enterprise Risk Management (ERM)** assessment

Net Positive: Our 2050 Vision

We are currently working to attain our 2025 performance targets across environmental and social targets in addition to determining the key interim performance targets that will serve as the roadmap to achieving our 2050 vision.

ASPIRE TO NET POSITIVE IMPACT THROUGHOUT OUR VALUE CHAIN

We aim to go beyond net zero impact in our approach to energy, emissions, water, waste and biodiversity conservation.

BUILD ONE OF THE SAFEST, MOST DIVERSE AND MOST RESPONSIBLE SUPPLY CHAINS

Our suppliers are essential partners in achieving our corporate responsibility goals and we will continue to engage and measure their performance across metrics related to safety, diversity, risk management and responsible materials.

BE A CATALYST FOR POSITIVE SOCIAL IMPACT IN OUR INDUSTRY AND COMMUNITIES

Our commitment to corporate citizenship and supporting our communities will remain steadfast and we will expand our involvement in collaborative initiatives to promote regenerative travel.

OWN ONE OF THE MOST RESILIENT PORTFOLIOS

Through sustainable certifications and reducing exposure to climate risks, our hotels contribute to and will be ready for a low carbon future.

BE AN EMPLOYER OF CHOICE AND LEAD WITH A MEASURABLE CULTURE OF DIVERSITY, EQUITY, INCLUSION AND BELONGING

Our people are what set us apart and we strive to build a diverse, inclusive, innovative and engaging workplace for them to grow their careers.

Environmental Stewardship

We are investing in solutions that conserve and restore natural capital to assist Host in mitigating climate change and biodiversity impacts, with the goal of achieving best-in-class returns.

Governance

Our responsible investment strategies are guided by executive and board-level oversight, our EPIC values and ethical standards, and a disciplined approach to risk management and sustainable value creation.

GOVERNANCE HIGHLIGHTS

- **Board Oversight:** Highest level of responsibility for ESG matters formally residing with Nominating, Governance and Corporate Responsibility Committee of our Board of Directors.
- **Best-in-class Governance:** Governed by ESG Executive Steering Committee that guides strategy and engagement, and advised by cross-functional Corporate Responsibility Advisory Committee representing nearly every department at Host.
- ▶ **Stockholder Rights:** Implementation of numerous corporate governance enhancements to strengthen the rights of and to serve the long-term interests of stockholders.
- **Policies:** Code of Business Conduct and Ethics centered around our corporate EPIC values—Excellence, Partnership, Integrity and Community. Maintain a Human Rights Policy, Environmental Policy, Supplier Code of Conduct and Antibribery Compliance Manual as well as conduct annual compliance training for all employees.
- ▶ **Business Intelligence:** Best-in-class Enterprise Analytics platform that uses business intelligence to monitor performance, identify opportunities and manage and mitigate risks, including first-of-itskind joint development agreement with IBM Research.
- **Enterprise Risk Management:** Comprehensive update to our Enterprise Risk Management (ERM) assessment; ERM process overseen by the Board.
- ► **Cybersecurity:** Conduct IT infrastructure testing and ongoing, company-wide cybersecurity training.

Defined Terms

Cap Rate - Capitalization Rate, calculated as Net Operating Income (NOI) divided by sales price. The corresponding metric using GAAP measures is net income divided by sales price.

EBITDA Multiple - Sales price divided by EBITDA. The corresponding metric using GAAP measures is sales price divided by net income.

Investment – Our investment of cash, land or other property.

MTCP - Marriott Transformational Capital Program.

RevPAR Index – RevPAR Index measures a hotel's fair market share of their competitive set's revenue per available room within a given market by dividing the property's RevPAR by the average RevPAR of the competitive set. If a hotel is capturing its fair market share, the index will be 100; if capturing less than its fair market share, a hotel's index will be less than 100; and if capturing more than its fair market share, a hotel's index will be greater than 100. For each property, the market competitive set is based on the set agreed to with the manager and is included within the respective property's management agreement. The competitive set can be used for various purposes, including for determining the hotel general manager's compensation as well as owner's performance based termination rights under the hotel management agreement. Therefore, it represents an arm's length negotiated set of hotels which the parties agree represent the hotel's most direct competition. However, it does not necessarily represent all the hotels against which the hotel competes and may exclude hotels in other segments (e.g., select service hotels) even though those hotels may compete with the hotel for certain customers.

RevPAR - The product of the average daily room rate charged and the average daily occupancy achieved.

ROI – Return on Investment. ROI projects are designed to improve the positioning of our hotels within their markets and competitive set.

Total RevPAR (TRevPAR) – A summary measure of hotel results calculated by dividing the sum of room, food and beverage and other ancillary service revenue by room nights available to guests for the period. It includes ancillary revenues not included within RevPAR.

TTM - Trailing twelve months

Non-GAAP Financial Measures

Included in this presentation are certain "non-GAAP financial measures," which are measures of our historical or future financial performance that are not calculated and presented in accordance with GAAP, within the meaning of applicable SEC rules. They are as follows: (i) FFO and FFO per diluted share (both NAREIT and Adjusted), (ii) EBITDA, (iii) EBITDAre and Adjusted EBITDAre, (iv) Net Operating Income (NOI), and (v) Comparable hotel and All Owned Hotel Property Level Operating Results. Additionally, we have presented our leverage ratio, which is used to determine compliance with financial covenants under our credit facility that are not calculated and presented in accordance with GAAP. The following discussion defines these measures and presents why we believe they are useful supplemental measures of our performance.

A-1 2023 Host Hotels & Resorts, Inc.

NAREIT FFO and NAREIT FFO per Diluted Share

We present NAREIT FFO and NAREIT FFO per diluted share as non-GAAP measures of our performance in addition to our earnings per share (calculated in accordance with GAAP). We calculate NAREIT FFO per diluted share as our NAREIT FFO (defined as set forth below) for a given operating period, as adjusted for the effect of dilutive securities, divided by the number of fully diluted shares outstanding during such period, in accordance with NAREIT guidelines. Effective January 1, 2019, we adopted NAREIT's definition of FFO included in NAREIT's Funds From Operations White Paper – 2018 Restatement. NAREIT defines FFO as net income (calculated in accordance with GAAP) excluding depreciation and amortization related to certain real estate assets, gains and losses from the sale of certain real estate assets, gains and losses from change in control, impairment expense of certain real estate assets and investments and adjustments for consolidated partially-owned entities and unconsolidated affiliates. Adjustments for consolidated partially-owned entities on the same basis.

We believe that NAREIT FFO per diluted share is a useful supplemental measure of our operating performance and that the presentation of NAREIT FFO per diluted share, when combined with the primary GAAP presentation of earnings per share, provides beneficial information to investors. By excluding the effect of real estate depreciation, amortization, impairment expense and gains and losses from sales of depreciable real estate, all of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance, we believe that such measures can facilitate comparisons of operating performance between periods and with other REITs, even though NAREIT FFO per diluted share does not represent an amount that accrues directly to holders of our common stock. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. As noted by NAREIT in its Funds From Operations White Paper – 2018 Restatement, the primary purpose for including FFO as a supplemental measure of operating performance of a REIT is to address the artificial nature of historical cost depreciation and amortization of real estate and real estate-related assets mandated by GAAP. For these reasons, NAREIT adopted the FFO metric in order to promote a uniform industry-wide measure of REIT operating performance.

Adjusted FFO per Diluted Share

We also present Adjusted FFO per diluted share when evaluating our performance because management believes that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. Management historically has made the adjustments detailed below in evaluating our performance, in our annual budget process and for our compensation programs. We believe that the presentation of Adjusted FFO per diluted share, when combined with both the primary GAAP presentation of diluted earnings per share and FFO per diluted share as defined by NAREIT, provides useful supplemental information that is beneficial to an investor's understanding of our operating performance. We adjust NAREIT FFO per diluted share for the following items, which may occur in any period, and refer to this measure as Adjusted FFO per diluted share:

- Gains and Losses on the Extinguishment of Debt We exclude the effect of finance charges and premiums associated with the extinguishment of debt, including the acceleration of the write-off of deferred financing costs from the original issuance of the debt being redeemed or retired and incremental interest expense incurred during the refinancing period. We also exclude the gains on debt repurchases and the original issuance costs associated with the retirement of preferred stock. We believe that these items are not reflective of our ongoing finance costs.
- Acquisition Costs Under GAAP, costs associated with completed property acquisitions that are considered business combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company.
- Litigation Gains and Losses We exclude the effect of gains or losses associated with litigation recorded under GAAP that we consider outside the ordinary course of business. We believe that including these items is not consistent with our ongoing operating performance.
- Severance Expense In certain circumstances, we will add back hotel-level severance expenses when we do not believe that such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back include, but are not limited to, (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an individual hotel that we consider to be incurred in the normal course of business.

In unusual circumstances, we also may adjust NAREIT FFO for gains or losses that management believes are not representative of the Company's current operating performance. For example, in 2017, as a result of the reduction of the U.S. federal corporate income tax rate from 35% to 21% by the Tax Cuts and Jobs Act, we remeasured our domestic deferred tax assets as of December 31, 2017 and recorded a one-time adjustment to reduce our deferred tax assets and to increase the provision for income taxes by approximately \$11 million. We do not consider this adjustment to be reflective of our on-going operating performance and, therefore, we excluded this item from Adjusted FFO.

EBITDA and NOI

Earnings before Interest Expense, Income Taxes, Depreciation and Amortization ("EBITDA") is a commonly used measure of performance in many industries. Management believes EBITDA provides useful information to investors regarding our results of operations because it helps us and our investors evaluate the ongoing operating performance of our properties after removing the impact of the Company's capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization). Management also believes the use of EBITDA facilitates comparisons between us and other lodging REITs, hotel owners that are not REITs and other capital-intensive companies. Management uses EBITDA to evaluate property-level results and EBITDA multiples (calculated as sales price divided by EBITDA) as one measure in determining the value of acquisitions and dispositions and, like FFO and Adjusted FFO per diluted share, it is widely used by management in the annual budget process and for our compensation programs. Management also uses NOI when calculating capitalization rates ("Cap Rates") to evaluate acquisitions and dispositions. For a specific hotel, NOI is calculated as the hotel or entity level EBITDA less an estimate for the annual contractual reserve requirements for renewal and replacement expenditures. Cap Rates are calculated as NOI divided by sales price. Management believes using Cap Rates allows for a consistent valuation method in comparing the purchase or sale value of properties.

EBITDAre and Adjusted EBITDAre

We present EBITDAre in accordance with NAREIT guidelines, as defined in its September 2017 white paper "Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate," to provide an additional performance measure to facilitate the evaluation and comparison of the Company's results with other REITs. NAREIT defines EBITDAre as net income (calculated in accordance with GAAP) excluding interest expense, income tax, depreciation and amortization, gains or losses on disposition of depreciated property (including gains or losses on change of control), impairment expense of depreciated property and of investments in unconsolidated affiliates caused by a decrease in value of depreciated property in the affiliate, and adjustments to reflect the entity's pro rata share of EBITDAre of unconsolidated affiliates.

We make additional adjustments to EBITDAre when evaluating our performance because we believe that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDAre, when combined with the primary GAAP presentation of net income, is beneficial to an investor's understanding of our operating performance. Adjusted EBITDAre also is similar to the measure used to calculate certain credit ratios for our credit facility and senior notes. We adjust EBITDAre for the following items, which may occur in any period, and refer to this measure as Adjusted EBITDAre:

- Property Insurance Gains We exclude the effect of property insurance gains reflected in our consolidated statements of operations because we believe that including them in Adjusted EBITDAre is not consistent with reflecting the ongoing performance of our assets. In addition, property insurance gains could be less important to investors given that the depreciated asset book value written off in connection with the calculation of the property insurance gain often does not reflect the market value of real estate assets.
- Acquisition Costs Under GAAP, costs associated with completed property acquisitions that are considered business combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company.
- Litigation Gains and Losses We exclude the effect of gains or losses associated with litigation recorded under GAAP that we consider outside the ordinary course of business. We believe that including these items is not consistent with our ongoing operating performance.
- Severance Expense In certain circumstances, we will add back hotel-level severance expenses when we do not believe that such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back include, but are not limited to, (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an individual hotel that we consider to be incurred in the normal course of business.

In unusual circumstances, we also may adjust EBITDAre for gains or losses that management believes are not representative of the Company's current operating performance. The last adjustment of this nature was a 2013 exclusion of a gain from an eminent domain claim.

 $Limitations\ on\ the\ Use\ of\ NAREIT\ FFO\ per\ Diluted\ Share, Adjusted\ FFO\ per\ Diluted\ Share, EBITDA,\ EBITDA re\ and\ Adjusted\ Adjusted\ EBITDA re\ and\ Adjusted\$

We calculate EBITDAre and NAREIT FFO per diluted share in accordance with standards established by NAREIT, which may not be comparable to measures calculated by other companies that do not use the NAREIT definition of EBITDAre and FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. In addition, although EBITDAre and FFO per diluted share are useful measures when comparing our results to other REITs, they may not be helpful to investors when comparing us to non-REITs. We also calculate Adjusted FFO per diluted share and Adjusted EBITDAre, which are not in accordance with NAREIT guidance and may not be comparable to measures calculated by other REITs or by other companies. This information should not be considered as an alternative to net income, operating profit, cash from operations or any other operating performance measure calculated in accordance with GAAP. Cash expenditures for various long-term assets (such as renewal and replacement capital expenditures, with the exception of NOI), interest expense (for EBITDA, EBITDAre, Adjusted EBITDAre, and NOI purposes only), severance expense related to significant property-level reconfiguration and other items have been, and will be, made and are not reflected in the EBITDA, EBITDAre, Adjusted EBITDAre, NAREIT FFO per diluted share, Adjusted FFO per diluted share and NOI presentations. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance.

Our consolidated statements of operations and consolidated statements of cash flows in the Company's annual report on Form 10-K and quarterly reports on Form 10-Q include interest expense, capital expenditures, and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measures. Additionally, NAREIT FFO per diluted share, Adjusted FFO per diluted share, EBITDA, EBITDAre, Adjusted EBITDAre and NOI should not be considered as a measure of our liquidity or indicative of funds available to fund our cash needs, including our ability to make cash distributions. In addition, NAREIT FFO per diluted share and Adjusted FFO per diluted share do not measure, and should not be used as a measure of, amounts that accrue directly to stockholders' benefit.

Similarly, EBITDAre, Adjusted EBITDAre, NAREIT FFO and Adjusted FFO per diluted share include adjustments for the pro rata share of our equity investments and NAREIT FFO and Adjusted FFO per diluted share include adjustments for the pro rata share of non-controlling partners in consolidated partnerships. Our equity investments consist of interests ranging from 11% to 67% in eight domestic and international partnerships that own a total of 23 properties and a vacation ownership development. Due to the voting rights of the outside owners, we do not control and, therefore, do not consolidate these entities. The non-controlling partners in consolidated partnerships primarily consist of the approximate 1% interest in Host LP held by outside partners, and a 15% interest held by outside partners in a partnership owning one hotel for which we do control the entity and, therefore, consolidate its operations. These pro rata results for NAREIT FFO and Adjusted FFO per diluted share, EBITDAre and Adjusted EBITDAre were calculated as set forth in the definitions above. Readers should be cautioned that the pro rata results presented in these measures for consolidated partnerships (for NAREIT FFO and Adjusted FFO per diluted share) and equity investments may not accurately depict the legal and economic implications of our investments in these entities.

Comparable Hotel Operating Statistics and Results

Effective January 1, 2023, the Company ceased presentation of All Owned Hotel results and returned to a comparable hotel presentation for its hotel level results. Management believes this provides investors with a better understanding of underlying growth trends for the Company's current portfolio, without impact from properties that experienced closures due to renovations or property damage sustained.

To facilitate a year-to-year comparison of our operations, we present certain operating statistics (i.e., Total RevPAR, RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses, hotel EBITDA and associated margins) for the periods included in our reports on a comparable hotel basis in order to enable our investors to better evaluate our operating performance. We define our comparable hotels as those that: (i) are owned or leased by us as of the reporting date and are not classified as held-for-sale; and (ii) have not sustained substantial property damage or business interruption, or undergone large-scale capital projects in each case requiring closures lasting one month or longer (as further defined below) during the reporting periods being compared.

We make adjustments to include recent acquisitions to include results for periods prior to our ownership. For these hotels, since the year-over-year comparison includes periods prior to our ownership, the changes will not necessarily correspond to changes in our actual results. Additionally, operating results of hotels that we sell are excluded from the comparable hotel set once the transaction has closed or the hotel is classified as held-for-sale.

The hotel business is capital-intensive and renovations are a regular part of the business. Generally, hotels under renovation remain comparable hotels. A large scale capital project would cause a hotel to be excluded from our comparable hotel set if it requires the entire property to be closed to hotel guests for one month or longer.

Similarly, hotels are excluded from our comparable hotel set from the date that they sustain substantial property damage or business interruption if it requires the property to be closed to hotel guests for one month or longer. In each case, these hotels are returned to the comparable hotel set when the operations of the hotel have been included in our consolidated results for one full calendar year after the hotel has reopened. Often, related to events that cause property damage and the closure of a hotel, we will collect business interruption insurance proceeds for the near-term loss of business. These proceeds are included in gain on property insurance and business interruption settlements on our consolidated statements of operations. Business interruption insurance gains related to a hotel that was excluded from our comparable hotel set also will be excluded from the comparable hotel results.

Of the 77 hotels that we owned as of March 31, 2023, 75 have been classified as comparable hotels. The operating results of the following hotels that we owned as of March 31, 2023 are excluded from comparable hotel results for these periods, due to closure of the property:

- Hyatt Regency Coconut Point Resort & Spa (business disruption due to Hurricane Ian beginning in September 2022, closed until November 2022); and
- The Ritz-Carlton, Naples (business disruption due to Hurricane Ian beginning in September 2022, remains closed).

We present comparable hotel revenues, expenses and EBITDA to help us and our investors evaluate the ongoing operating performance of our comparable hotels after removing the impact of the Company's capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization expense). Corporate-level costs and expenses also are removed to arrive at property-level results. We believe these property-level results provide investors with supplemental information about the ongoing operating performance of our comparable hotels. Comparable hotel results are presented both by location and for the Company's properties in the aggregate. We eliminate from our comparable hotel level operating results severance costs related to broad-based and significant property-level reconfiguration that is not considered to be within the normal course of business, as we believe this elimination provides useful supplemental information that is beneficial to an investor's understanding of our ongoing operating performance. We also eliminate depreciation and amortization expense because, even though depreciation and amortization expense are property-level expenses, these non-cash expenses, which are based on historical cost accounting for real estate assets, implicitly assume that the value of real estate assets diminishes predictably over time. As noted earlier, because real estate values historically have risen or fallen with market conditions, many real estate industry investors have considered presentation of historical cost accounting for operating results to be insufficient.

CORPORATE

All Owned Hotel Operating Statistics and Results

To facilitate a quarter-to-quarter comparison of our operations, we typically present certain operating statistics (i.e., Total RevPAR, RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses, hotel EBITDA and associated margins) for the periods included in this presentation on an all-owned hotel basis in order to enable our investors to better evaluate our operating performance of the hotels we owned as of a specific period. "All Owned Hotel" operating statistics and results include the following adjustments: (1) operating results are presented for all consolidated hotels owned as of the end of the stated period, but do not include the results of operations for properties sold or held-for-sale as of the reporting date; and (2) operating results for acquisitions as of the stated period are reflected for full calendar years, to include results for periods prior to our ownership. For these hotels, since the year-over-year comparison includes periods prior to our ownership, the changes will not necessarily correspond to changes in our actual results.

Limitations on Comparable Hotel and All Owned Hotel Property Level Operating Results

Because of the elimination of corporate-level costs and expenses, gains or losses on disposition, certain severance expenses and depreciation and amortization expense, the comparable hotel and all owned hotel operating results we present do not represent our total revenues, expenses, operating profit or net income and should not be used to evaluate our performance as a whole. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our consolidated statements of operations include such amounts, all of which should be considered by investors when evaluating our performance.

A-7 2023 Host Hotels & Resorts, Inc.

We present these hotel operating results on a comparable hotel and all owned hotel basis because we believe that doing so provides investors and management with useful information for evaluating the period-to-period performance of our hotels and facilitates comparisons with other hotel REITs and hotel owners. In particular, these measures assist management and investors in distinguishing whether increases or decreases in revenues and/or expenses are due to growth or decline of operations at comparable hotels (which represent the vast majority of our portfolio) or from other factors. While management believes that presentation of comparable hotel and all owned hotel results is a supplemental measure that provides useful information in evaluating our ongoing performance, these measures are not used to allocate resources or to assess the operating performance of each of our hotels, as these decisions are based on data for individual hotels and are not based on comparable hotel or all owned hotel results in the aggregate. For these reasons, we believe comparable hotel and all owned hotel operating results, when combined with the presentation of GAAP operating profit, revenues and expenses, provide useful information to investors and management.

Credit Facility - Leverage Ratio

Host's credit facility contains certain financial covenants, including allowable leverage, which is determined using earnings before interest expense, income taxes, depreciation and amortization ("EBITDA") as calculated under the terms of our credit facility ("Adjusted Credit Facility EBITDA"). The leverage ratio is defined as net debt plus preferred equity to Adjusted Credit Facility EBITDA. These calculations are based on results for the prior four fiscal quarters giving effect to transactions such as acquisitions, dispositions and financings as if they occurred at the beginning of the period.

Additionally, total debt used in the calculation of our leverage ratio is based on a "net debt" concept, under which cash and cash equivalents in excess of \$100 million are deducted from our total debt balance. Management believes these financial ratios provide useful information to investors regarding our compliance with the covenants in our credit facility and our ability to access the capital markets, in particular debt financing.

Limitations on Credit Facility Credit Ratios

These metrics are useful in evaluating the Company's compliance with the covenants contained in its credit facility. However, because of the various adjustments taken to the ratio components as a result of negotiations with the Company's lenders they should not be considered as an alternative to the same ratios determined in accordance with GAAP. For instance, interest expense as calculated under the credit facility excludes items such as deferred financing charges and amortization of debt premiums or discounts, all of which are included in interest expense on our consolidated statement of operations. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of performance. In addition, because the credit facility ratio components are also based on results for the prior four fiscal quarters, giving effect to transactions such as acquisitions, dispositions and financings as if they occurred at the beginning of the period, they are not reflective of actual performance over the same period calculated in accordance with GAAP.

Forecasts

Our forecast of net income, earnings per diluted share, NAREIT and Adjusted FFO per diluted share, EBITDA, EBITDAre, Adjusted EBITDAre and Comparable Hotel results are forward-looking statements and are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors which may cause actual results and performance to differ materially from those expressed or implied by these forecasts. Although we believe the expectations reflected in the forecasts are based upon reasonable assumptions, we can give no assurance that the expectations will be attained or that the results will not be materially different. Risks that may affect these assumptions and forecasts include the following: potential changes in overall economic outlook make it inherently difficult to forecast the level of RevPAR; the amount and timing of debt payments may change significantly based on market conditions, which will directly affect the level of interest expense and net income; the amount and timing of transactions involving shares of our common stock may change based on market conditions; and other risks and uncertainties associated with our business described herein and in our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K filed with the SEC.

Items that may Affect Forecast Results, Projections and Other Estimates

Certain items included in this investor presentation such as forecast EBITDA for acquired hotels, expected incremental EBITDA from capital expenditure projects, including redevelopment and repositioning of hotels, meeting space and restaurants and estimated internal rate of return (IRR) require the company to make assumptions about the future performance of our hotels that may affect forecast results. In determining these forecasts, we evaluate a number of operating performance metrics, including occupancy, room rate, mix of group and transient customers, as well as market specific estimates of demand drivers. Additionally, based on like hotels in our portfolio, we have estimated costs such as utilities, marketing, general overhead costs, and management fees. For certain of our projects, where we have closed or substantially disrupted current year operations, or where we have changed operators, historical operating data is not predictive of future results and there can be no assurances that we will achieve these forecasts due to potential delays in the renovations, less than expected demand or a slower than expected ramp-up in operations.

See Forward-Looking Statements slide in this presentation for additional risks and uncertainties that may affect forecast results.

The following tables present the calculation of Host's leverage ratio using GAAP measures and as used in the financial covenants of the credit facility (in millions, except ratios):

Debt

⁽¹⁾ Profit margins are calculated by dividing the applicable operating profit by the related revenue amount. GAAP profit margins are calculated using amounts presented in the GAAP Results presented in the above table. Hotel margins are calculated using amounts in the All Owned Hotel Results presented in the above table.

⁽²⁾ For 2022: All Owned Hotel adjustments represent the following items: (i) the elimination of results for perations of our hotels sold or held-for-sale as of December 31, 2022, which operations are included in our condensed consolidated statements of operations as continuing operations and (ii) the addition of results for periods prior to our ownership for hotels acquired as of December 31, 2022. For 2017: All Owned Hotel adjustments represent the following items: (i) the elimination of results of operations of our sold hotels in 2017 and (iii) the addition of results for periods prior to our ownership for hotels acquired in 2017.

⁽³⁾ Consistent with our comparable hotel definitions prior to 2020, corporate level items in 2017 includes the following: (i) corporate and other expenses (ii) gains on insurance settlements and business interruption proceeds, and (iii) the results of our office spaces and other non-hotel income.

2022

Schedule of All Owned Hotel Results for 2022 and 2017 (in millions, except hotel statistics)

The Laura Hotel	223	\$	65	\$ 4.9	\$ 2.1	\$ 7.0	13	9.2	\$	22,000	\$	31,400
Alila Ventana Big Sur	59	\$	150	\$ 10.4	\$ 5.7	\$ 16.1	14	9.3	\$	177,000	\$	272,900
Alida Savannah	173	\$	103	\$ 5.1	\$ 3.4	\$ 8.5	20	12.1	\$	29,500	\$	49,300
Hotel Van Zandt	319	\$	242	\$ 6.1	\$ 12.2	\$ 18.3	40	13.2	\$	19,000	\$	57,200
2021 Acquisitions	1,866	\$	1,531	\$ 68.1	\$ 50.0	\$ 118.1	22	13.0	\$	36,500	\$	63,300
Four Seasons Jackson Hole	125	\$	315	\$ 14.0	\$ 9.2	\$ 23.2	22	13.6	\$	112,000	\$	185,000
2021-2023 Acquisitions ⁽¹⁾	1,991	\$	1,846	\$ 82.1	\$ 59.2	\$ 141.3	22	13.1	\$	41,000	\$	71,000

⁽¹⁾ Acquisitions include seven hotels acquired in 2021 and one hotel acquired in 2022. The Hyatt Regency Austin, Four Seasons Resort Orlando at Walt Disney World® Resort and Hotel Van Zandt use full year 2019 results. Baker's Cay Resort Key Largo and Alila Ventana Big Sur are based on 2021 forecast operations at acquisition, as the hotels experienced renovation disruption and closures in 2019. The Laura Hotel is based on estimated normalized results, which assumes a new manager, brand and operations in line with the 2019 results of comparable Houston properties. The Alida, Savannah is based on estimated normalized 2019 results, adjusting for construction disruption to the surrounding Plant Riverside District and for initial ramp-up of hotel operations. The Four Seasons Resort and Residences Jackson Hole is based on 2022 forecast operations at acquisition. Due to the impact of COVID-19, actual results in 2020 and 2021 are not reflective of normal operations of the hotels. Any forecast incremental increases to net income compared to net income at underwriting would be equal to the incremental increases in Hotel EBITDA. Some operating results are based on actual results from the manager for periods prior to our ownership. Since the operations include periods prior to our ownership, the results may not necessarily correspond to our actual results.

The following table reconciles net income to Hotel EBITDA for the 2021-2023 hotel acquisitions, based on the estimated stabilization date for each hotel (in millions, except for room count and multiples):

eception room count and muttiples,		P	urchase	H	lotel Net	De	Plus: epreciation/	Equals: Hotel	Net income	EBITDA	N	et income	EF	BITDA per

2018-2023 YTD Dispositions (2)	19,045 \$	5,003	\$ 163.4	\$ 169.5	\$ 10.	4 \$ 2.3	\$ 345.6	31x	17x
2021-2023 YTD Dispositions (2)	6,402 \$	1,530	\$ 45.7	\$ 69.1	\$	- \$ ·	\$ 114.8	34x	17.5x

- (1) 2018-2023 Acquisitions include 12 properties and two Ka'anapali golf courses acquired since January 1, 2018, through May 3, 2023. Baker's Cay Resort Key Largo and Alila Ventana Big Sur are based on 2021 forecast operations at acquisition, as the hotels experienced renovation disruption and closures in 2019. The Laura Hotel is based on estimated normalized results, which assumes results are in-line with the 2019 results of comparable Houston properties, as the property was re-opened with a new manager and brand in 2021. The Alida, Savannah is based on estimated normalized 2019 results, adjusting for construction disruption to the surrounding Plant Riverside District and for initial ramp-up of hotel operations. The Four Seasons Resort and Residences Jackson Hole is based on 2022 forecast operations at acquisition. The other seven properties and Ka'anapali golf courses use full year 2019 results. Due to the impact of COVID-19, actual results in 2020 and 2021 are not reflective of normal operations of the hotels. Any forecast incremental increases to net income compared to net income at underwriting would be equal to the incremental increases in Hotel EBITDA. Some operating results are based on actual results from the manager for periods prior to our ownership. Since the operations include periods prior to our ownership, the results may not necessarily correspond to our actual results.
- 2018-2023 Dispositions include the sale of 30 hotels since January 1, 2018, through May 3, 2023, as well as the sale of the European Joint Venture and the New York Marriott Marquis retail, theater and signage commercial condominium units. European Joint Venture balances included in this total represent our approximate 33% previous ownership interest, except for the number of rooms of 4,335, which represents the total room count of the European Joint Venture properties. The 2018, 2019 and 2023 dispositions use trailing twelve-month results from the disposition date, while the 2020, 2021 and 2022 dispositions use 2019 full year results as the TTM is not representative of normalized operations. For 2018-2023 YTD dispositions, combined avoided capital expenditures over the 5 years following the disposition dates totaled \$976 million. For 2021-2023 YTD dispositions, combined avoided capital expenditures over the 5 years following the disposition dates totaled \$473 million.
- (3) Certain items from our statement of operations are not allocated to individual properties, including interest on our senior notes, corporate and other expenses, and the benefit (provision) for income taxes.

The following table reconciles net income to Hotel EBITDA for the 2021-2023 dispositions using 2019 results (in millions):

		2019 Results									
Hotel		Hotel Net Income	Plus: Depreciation	Equals: Hotel EBITDA							
2021-2023 YTD Dispositions	Ś	40.2	72.1	\$ 112.3

The Forecasts are based on the below assumptions:

COMPANY

- All Owned Hotel RevPAR will increase 2.0% to 8.0% compared to 2022 for the low and high end of the forecast range. The forecast at the midpoint assumes Comparable Hotel RevPAR will increase at the midpoint of our guidance of 5.0%.
- · All Owned Hotel EBITDA margins will decrease 360 to 210 basis points for the low and high ends of the forecasted Comparable Hotel RevPAR range, respectively.
- We expect to spend approximately \$600 million to \$725 million on capital expenditures.
- · Assumes no acquisitions or dispositions during the year.
- The Ritz-Carlton, Naples will remain closed due to Hurricane Ian for the first and second quarter.

(1) The insurance gain relates to proceeds received in 2023 related to prior year insurance claims. 2023 Forecasts do not include any gains related to Hurricane lan at this time, as timing of any recognition is uncertain.

- Hyatt Regency Coconut Point Resort & Spa (business disruption due to Hurricane Ian beginning in September 2022, closed until November 2022); and
- The Ritz-Carlton, Naples (business disruption due to Hurricane Ian beginning in September 2022, remains closed).

⁽¹⁾ See "Reconciliation of Net Income to EBITDA, EBITDAre and Adjusted EBITDAre and Diluted Earnings per Common Share to NAREIT and Adjusted Funds From Operations per Diluted Share for 2023 Forecasts" for other forecast assumptions. Forecast comparable hotel results include 75 hotels (of our 77 hotels owned at March 31, 2023) that we have assumed will be classified as comparable as of December 31, 2023. See Key Terms and Statistics for a discussion of comparable hotel results. No assurances can be made as to the hotels that will be in the comparable hotel set for 2023.

⁽²⁾ Non-comparable hotel results, net, includes the following items: (i) the results of operations of our non-comparable hotels, which operations are included in our consolidated statements of operations as continuing operations, and (ii) gains on business interruption proceeds relating to events that occurred while the hotels were classified as non-comparable. The following hotels are expected to be non-comparable for full year 2023:

⁽³⁾ Profit margins are calculated by dividing the applicable operating profit by the related revenue amount. GAAP profit margins are calculated using amounts presented in the unaudited condensed consolidated statements of operations. Comparable Hotel margins are calculated using amounts presented in the following tables, which include reconciliations to the applicable GAAP results:
