Strong integration of sustainable practices across corporate activities

### Environmental

**5%**

emissions reduction target met

### Social

**40%**

of managers are female

### Governance

**43%**

of independent Directors are women

**100%**

energy in multiple principal office locations sourced from renewable power

**87%**

employee satisfaction (2021 annual survey)

**88%**

of Directors are independent (including Chair)

- ▶ Focus on Board refreshment and composition
  - 50%+ of independent Directors elected since 2019
  - 29% of independents are ethnically diverse
  - 2 of 3 Committees led by women
- ▶ ESG factors formally incorporated into incentive determination

Please visit [amg.com/responsibility](http://amg.com/responsibility) for more details.

# Strong and Stable Cash Flows: Significant Capital Available to Deploy into Growth Investments

## Flexible Balance Sheet and Cash Flow Stability

Strong and recurring free cash flow and significant deployment flexibility

Debt structured to match long-dated assets (16-year average duration)

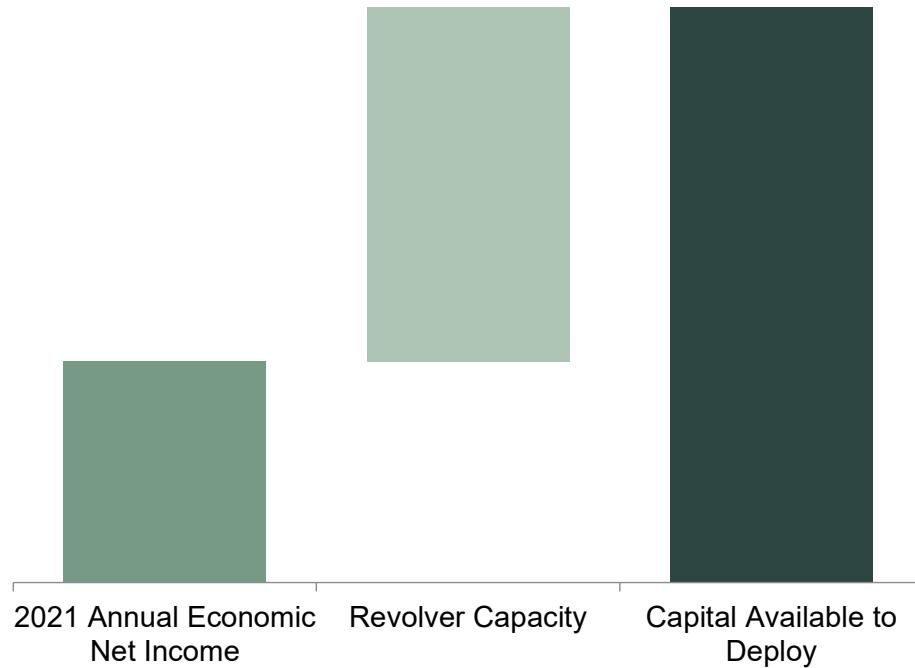

\$1.25 billion credit facility maturing in 2026; no debt maturities until 2024

Strong investment-grade rating (S&P / Moody's: BBB+ / A3)

Proven ability to access capital markets

## Significant Capital Available to Deploy<sup>(1)</sup>

~\$2 billion

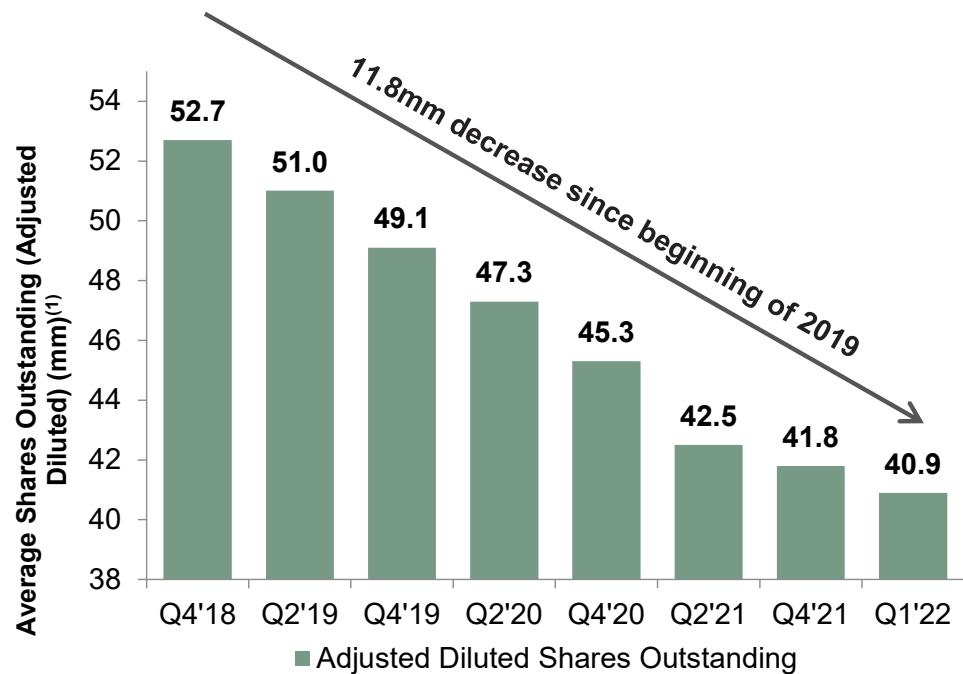

**Combination of flexible balance sheet and significant cash flows enables deployment of capital to generate growth and attractive shareholder returns**

(1) Excludes potential proceeds from BPEA transaction.

# Capital Allocation: Returning Excess Capital to Shareholders

- Highest priority is to invest in growth opportunities to create shareholder value, and then to return excess capital to shareholders
- Significant share repurchases have resulted in adjusted diluted share count reduction of 22%, or 11.8 million shares, since beginning of 2019

## Significant Capital Return

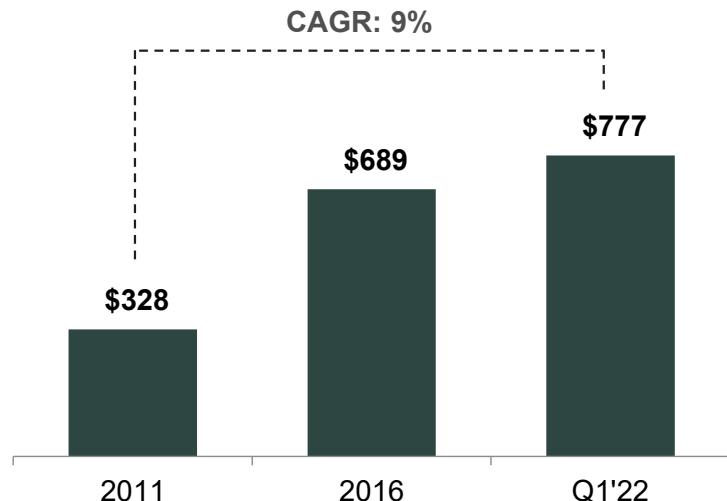

Proven commitment to return excess capital through share repurchases and dividends

(1) See Notes for additional information.

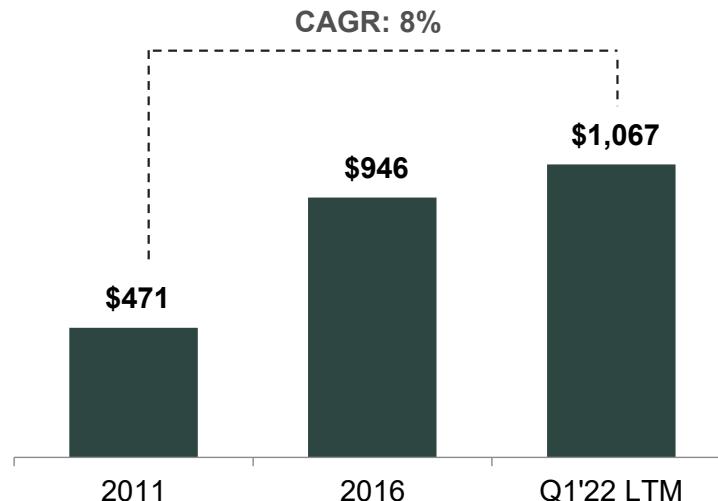

(2) Includes share repurchases and dividends.

# Earnings Growth and Shareholder Value Creation

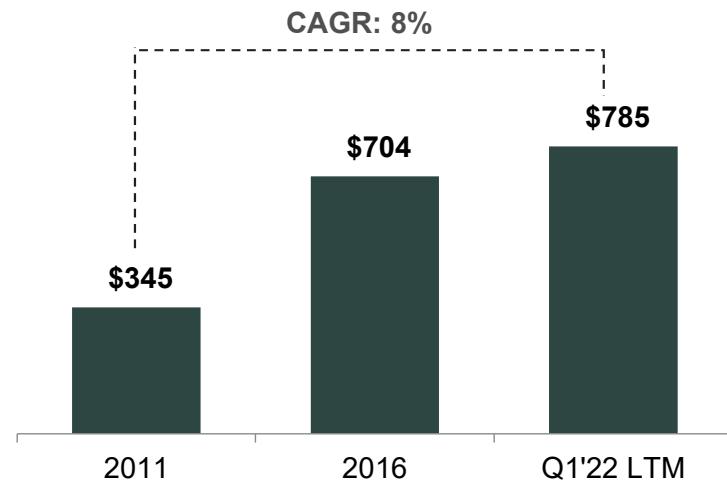

## Assets Under Management (\$bn)

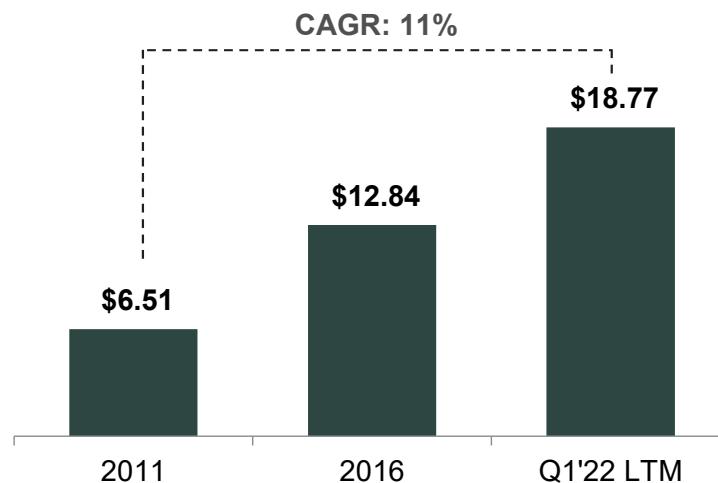

## Adjusted EBITDA (\$mm)

## Economic Net Income (\$mm)

## Economic Earnings Per Share

# Uniquely Positioned to Deliver Long-Term Growth and Shareholder Value

1

## Multiple Growth Drivers:

Diversified market exposures and alpha generation, organic growth, and Affiliate investments all drive growth

2

## Enhanced Stability Through Structure:

Diversified asset base and partnership structure enhance business stability and flexibility to invest for growth

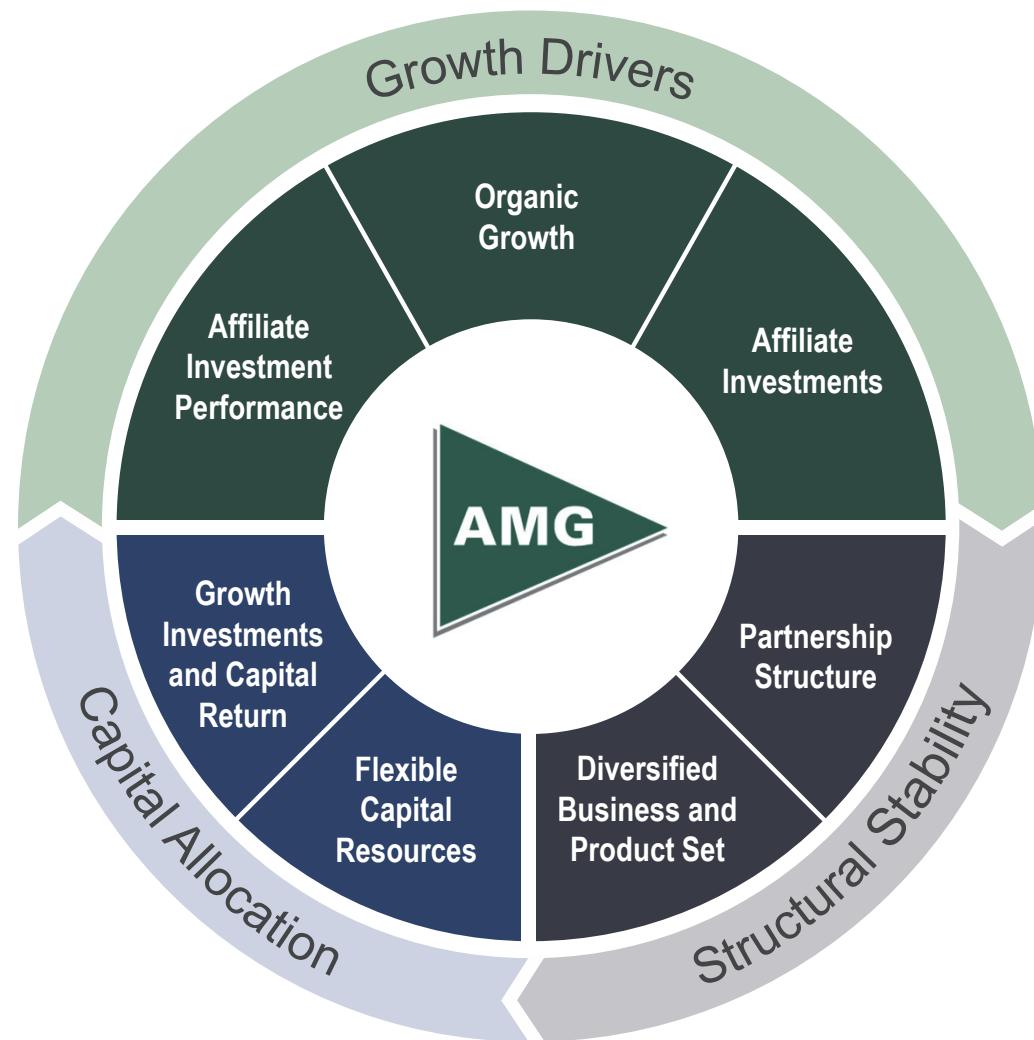

3

## Prudent Capital Allocation:

Disciplined allocation of cash flow supports significant growth investment and efficient capital return

**Earnings Growth and Shareholder Value Creation**

**AMG's unique business model positions the firm for long-term growth and shareholder value creation**

Source: Bloomberg as of 4/29/22. AMG AUM weight as of 3/31/22.

(1) The publicly available data shown above is used by AMG as a convention to approximate the impact of market changes on AMG's assets under management. The market indices represent applicable AUM benchmarks for each strategy, as selected by AMG, and will not be updated intra-quarter to reflect any updates or adjustments by the relevant index providers after 4/29/22. Generally, composites are assigned an equal weighting except for the Multi-Asset category which utilizes a 60% / 40% weighting to the S&P 500 / Barclays Capital Aggregate, respectively. These indices do not reflect AMG's investment performance, or the actual performance of any of AMG's Affiliates or their products, and are not indicative of past results or future performance.

(2) AMG's illiquid alternatives assets under management generally reflects committed capital, which is not impacted by market changes.

# Notes

- 1) Earnings per share (diluted) adjusts for the dilutive effect of the potential issuance of incremental shares of our common stock.

Prior to 2022, we excluded any potential dilutive effect from possible share settlements of Redeemable non-controlling interests as we intend to settle in cash. Upon adoption of Accounting Standard Update 2020-06, Debt with Conversion and Other Options and Derivatives and Hedging - Contracts in Entity's Own Equity ("ASU 2020-06"), we must assume the settlement of all of our Redeemable non-controlling interests using the maximum number of shares permitted under our arrangements. The issuance of shares and the related income acquired are excluded from the calculation if an assumed purchase of Redeemable non-controlling interests would be anti-dilutive to diluted earnings per share.

We had junior convertible securities outstanding during the periods presented and are required to apply the if-converted method to these securities in our calculation of Earnings per share (diluted). Under the if-converted method, shares that are issuable upon conversion are deemed outstanding, regardless of whether the securities are contractually convertible into our common stock at that time. For this calculation, the interest expense (net of tax) attributable to these dilutive securities is added back to Net income (controlling interest), reflecting the assumption that the securities have been converted. Issuable shares for these securities and related interest expense are excluded from the calculation if an assumed conversion would be anti-dilutive to diluted earnings per share.

The following table provides a reconciliation of the numerator and denominator used in the calculation of basic and diluted earnings per share:

|   | <b>Three Months Ended</b> |                 |
|---|---------------------------|-----------------|
|   | <b>3/31/21</b>            | <b>3/31/22</b>  |
| <i>(in millions)</i>  |                           |                 |
| <b>Numerator</b>  |                           |                 |
| Net income (controlling interest)   | \$ 149.9                  | \$ 146.0        |
| Income from hypothetical settlement of Redeemable non-controlling interests, net of taxes | —                         | 11.7            |
| Interest expense on junior convertible securities, net of taxes                           | 4.7                       | 3.8             |
| Net income (controlling interest), as adjusted  | <b>\$ 154.6</b>           | <b>\$ 161.5</b> |
| <b>Denominator</b>  |                           |                 |
| Average shares outstanding (basic)  | 42.6                      | 39.7            |
| Effect of dilutive instruments:   |                           |                 |
| Stock options and restricted stock units  | 0.6                       | 1.2             |
| Hypothetical issuance of shares to settle Redeemable non-controlling interests            | —                         | 4.0             |
| Junior convertible securities   | 2.2                       | 2.0             |
| Average shares outstanding (diluted)  | <b>45.4</b>               | <b>46.9</b>     |

- 2) As supplemental information, we provide non-GAAP performance measures of Adjusted EBITDA (controlling interest), Economic net income (controlling interest), and Economic earnings per share. Management utilizes these non-GAAP performance measures to assess our performance before our share of certain non-cash expenses and to improve comparability between periods.

Adjusted EBITDA (controlling interest) represents our performance before our share of interest expense, income taxes, depreciation, amortization, impairments, certain Affiliate equity expenses, certain gains and losses, including on general partner and seed capital investments, certain non-income based taxes, and adjustments to our contingent payment obligations. We believe that many investors use this non-GAAP measure when assessing the financial performance of companies in the investment management industry.

# Notes (Continued)

Under our Economic net income (controlling interest) definition, we add to Net income (controlling interest) our share of pre-tax intangible amortization and impairments (including the portion attributable to equity method investments in Affiliates), deferred taxes related to intangible assets, and other economic items which include non-cash imputed interest (principally related to the accounting for convertible securities and contingent payment obligations), certain Affiliate equity expenses, and certain gains and losses, including on general partner and seed capital investments. Economic net income (controlling interest) is used by management and our Board of Directors as our principal performance benchmark, including as one of the measures for aligning executive compensation with stockholder value.

Economic earnings per share represents Economic net income (controlling interest) divided by the Average shares outstanding (adjusted diluted). In this calculation, we exclude the potential shares issued upon settlement of Redeemable non-controlling interests from Average shares outstanding (adjusted diluted) because we intend to settle those obligations without issuing shares, consistent with all prior Affiliate equity purchase transactions. The potential share issuance in connection with our junior convertible securities is measured using a "treasury stock" method. Under this method, only the net number of shares of common stock equal to the value of the junior convertible securities in excess of par, if any, are deemed to be outstanding. We believe the inclusion of net shares under a treasury stock method best reflects the benefit of the increase in available capital resources (which could be used to repurchase shares of common stock) that occurs when these securities are converted and we are relieved of our debt obligation.

The following table provides a reconciliation of Average shares outstanding (adjusted diluted):

| <i>(in millions)</i>   | Three Months Ended |         |
|--|--------------------|---------|
|  | 3/31/21            | 3/31/22 |
| Average shares outstanding (diluted)   | 45.4               | 46.9    |
| Hypothetical issuance of shares to settle Redeemable non-controlling interests | —                  | (4.0)   |
| Junior convertible securities  | (2.2)              | (2.0)   |
| Average shares outstanding (adjusted diluted)                                  | 43.2               | 40.9    |

These non-GAAP performance measures are provided in addition to, but not as a substitute for, Net income (controlling interest), Earnings per share, or other GAAP performance measures. For additional information on our non-GAAP measures, see our Annual and Quarterly Reports on Form 10-K and 10-Q, respectively, which are accessible on the SEC's website at [www.sec.gov](http://www.sec.gov).

- 3) The following table presents equity method earnings and equity method intangible amortization and impairments, which in aggregate form Equity method income (net):

| <i>(in millions)</i>                  | Three Months Ended |         |
|---------------------------------------|--------------------|---------|
|                                       | 3/31/21            | 3/31/22 |
| Equity method earnings                | 86.9               | 71.9    |
| Equity method intangible amortization | (35.2)             | (23.3)  |
| Equity method intangible impairments  | —                  | —       |
| Equity method income, (net)           | \$ 51.7            | \$ 48.6 |

- 4) Effective January 1, 2022, the Company adopted ASU 2020-06, which impacted the treatment of our junior convertible securities. The adoption resulted in increases in Debt and beginning Retained earnings of \$101.5 million and \$4.5 million, respectively, and decreases in Additional paid-in-capital and Deferred income tax liability (net) of \$80.6 million and \$25.4 million, respectively.

# Notes (Continued)

## Notes on Disclosed AMG Affiliate Investment Performance

The following is additional information describing the methodology for determining performance of Liquid Alternative, Global Equity, U.S. Equity, and Illiquid Alternative products and the related benchmarks disclosed in this presentation. Product returns are sourced from Affiliates while benchmark returns are generally sourced via third-party subscriptions.

For Liquid Alternative, Global Equity, and U.S. Equity products, performance is reported as the percentage of assets that have outperformed benchmarks across the indicated periods, and excludes market-hedging products. For purposes of investment performance comparisons, products are an aggregation of portfolios (separate accounts, investment funds, and other products) that each represent a particular investment objective, using the most representative portfolio for the performance comparison. Performance is presented for products with a three-, five-, and/or ten-year track record and is measured on a consistent basis relative to the most appropriate benchmarks. Benchmark appropriateness is generally reviewed annually to reflect any changes in how underlying portfolios/mandates are managed. Product and benchmark performance is reflected as total return and is annualized. Reported product performance is gross-of-fees for institutional and high-net-worth separate accounts, and generally net-of-fees across retail funds and other commingled vehicles such as hedge funds.

Multi-Asset and Fixed Income products are excluded from the preceding performance calculations. These products are mainly our wealth management and solutions offerings and are primarily customized toward wealth preservation, estate planning, and liability and tax management. Therefore, they are typically not measured against a benchmark.

For Illiquid Alternative products, performance is reported as the percentage of assets that have outperformed benchmarks on a since-inception internal rate of return basis. Benchmarks utilized include a combination of public market equivalents, peer medians, and absolute returns where benchmarks are not available. For purposes of investment performance comparisons, the latest vintage comparison includes the most recent vehicles and strategies (traditional long-duration investment funds, customized vehicles, and other evergreen vehicles and product structures) where meaningful performance is available and calculable. In order to illustrate the performance of our illiquid product category over a longer period of history, the last three vintages comparison incorporates the latest vintage vehicles and the prior two vintages for traditional long-duration investment funds, as well as additional vehicles and strategies launched during the equivalent time period as the last three vintages of traditional long duration investment funds. Due to the nature of these investments and vehicles, reported performance is typically on a three- to six-month lag basis.

## Notes on Disclosed AUM in Dedicated ESG Strategies

AUM in dedicated ESG strategies consists of Affiliates specializing in ESG investing, investment strategies built on recognized ESG themes or that seek positive social or environmental outcomes alongside investment returns, and products where portfolio composition is altered through specific ESG considerations. AMG's definition may not conform to classifications published by third parties.

## Forward-Looking Statements and Other Matters

Certain matters discussed in this press release may constitute forward-looking statements within the meaning of the federal securities laws. These statements include, but are not limited to, statements related to our expectations regarding the performance of our business, our financial results, our liquidity and capital resources, and other non-historical statements. You can identify these forward-looking statements by the use of words such as "outlook," "guidance," "believes," "expects," "potential," "preliminary," "continues," "may," "will," "should," "seeks," "approximately," "predicts," "projects," "positioned," "prospects," "intends," "plans," "estimates," "pending investments," "anticipates," or the negative version of these words or other comparable words. Actual results and the timing of certain events could differ materially from those projected in or contemplated by the forward-looking statements due to a number of factors, including changes in the securities or financial markets or in general economic conditions, pandemics and related changes in the global economy, capital markets and the asset management industry, the availability of equity and debt financing, competition for acquisitions of interests in investment management firms, uncertainties relating to closing of pending investments or transactions and potential changes in the anticipated benefits thereof, the investment performance and growth rates of our Affiliates and their ability to effectively market their investment strategies, the mix of Affiliate contributions to our earnings, and other risks, uncertainties, and assumptions, including those described under the section entitled "Risk Factors" in our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Such factors may be updated from time to time in our periodic filings with the SEC. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this release and in our filings with the SEC. We undertake no obligation to publicly update or review any forward-looking statements, whether as a result of new information, future developments, or otherwise, except as required by applicable law.

From time to time, AMG may use its website as a distribution channel of material Company information. AMG routinely posts financial and other important information regarding the Company in the Investor Relations section of its website at [www.amg.com](http://www.amg.com) and encourages investors to consult that section regularly.
