CaixaBank cautions that this presentation might contain forward-looking statements concerning the development of our business and economic performance. Particularly, the financial information from CaixaBank Group for the year 2019 related to results from investments has been prepared mainly based on estimates. While these statements are based on our current projections, judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. Such factors include, but are not limited to the market general situation, macroeconomic factors, regulatory, political or government guidelines and trends, movements in domestic and international securities markets, currency exchange rates and interest rates, changes in the financial position, creditworthiness or solvency of our customers, debtors or counterparts.

Statements as to historical performance, historical share price or financial accretion are not intended to mean that future performance, future share price or future earnings for any period will necessarily match or exceed those of any prior year. Nothing in this presentation should be construed as a profit forecast. In addition, it should be noted that although this presentation has been prepared based on accounting registers kept by CaixaBank and by the rest of the Group companies it may contain certain adjustments and reclassifications in order to harmonize the accounting principles and criteria followed by such companies with those followed by CaixaBank. Accordingly, and particularly in the case of Banco Português de Investimento (“BPI”), the relevant data included in this presentation may differ from those included in the relevant financial information as published by BPI.

Glossary (I/IV)

In addition to the financial information prepared in accordance with International Financial Reporting Standards (IFRS), this document includes certain Alternative Performance Measures (APMs) as defined in the guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority on 30 June 2015 (ESMA/2015/1057) (the “ESMA Guidelines”). CaixaBank uses certain APMs, which have not been audited, for a better understanding of the company's financial performance. These measures are considered additional disclosures and in no case replace the financial information prepared under IFRS. Moreover, the way the Group defines and calculates these measures may differ to the way similar measures are calculated by other companies. Accordingly, they may not be comparable. ESMA guidelines define an APM as a financial measure of historical or future performance, financial position, or cash flows, other than a financial measure defined or specified in the applicable financial reporting framework. In accordance with these guidelines, following is a list of the APMs used, along with a reconciliation between certain management indicators and the indicators presented in the consolidated financial statements prepared under IFRS.
