Note: The Company does not provide guidance for the most comparable GAAP financial measures of net loss, total revenues, and property operating and maintenance, or a reconciliation of the forward-looking non-GAAP financial measures of Core FFO per share, AFFO per share, Same Store Core revenue growth, Same Store Core operating expense growth, and Same Store NOI growth to the comparable GAAP financial measures because it is unable to reasonably predict certain items contained in the GAAP measures, including non-recurring and infrequent items that are not indicative of the Company's ongoing operations. Such items include, but are not limited to, impairment on depreciated real estate assets, net (gain)/loss on sale of previously depreciated real estate assets, share-based compensation, casualty loss, non-Same Store revenues, and non-Same Store operating expenses. These items are uncertain, depend on various factors, and could have a material impact on our GAAP results for the guidance period.

Glossary

Core NOI Margin

Core NOI margin for an identified population of homes is calculated by dividing NOI by Core revenues attributable to such population.

Core Revenues

Core revenues for an identified population of homes reflects total revenues, net of any resident recoveries and/or bad debt attributable to such population.

EBITDA

We define EBITDA as net income or loss (computed in accordance with GAAP) before the following items: interest expense; income tax expense; and depreciation and amortization.

Funds from Operations (FFO), Core Funds from Operations (Core FFO) and Adjusted Funds from Operations (AFFO)

FFO, Core FFO, and Adjusted FFO are supplemental, non-GAAP measures often utilized to evaluate the performance of real estate companies. FFO is defined by the National Association of Real Estate Investment Trusts ("NAREIT") as net income or loss (computed in accordance with GAAP) excluding net gains or losses from sales of previously depreciated real estate assets, plus depreciation, amortization and impairment of real estate assets, and adjustments for unconsolidated partnerships and joint ventures.

Legacy Starwood Waypoint Homes (Legacy SWH)

Legacy Starwood Waypoint Homes refers to the homes owned by Starwood Waypoint Homes prior to its merger with Invitation Homes, and the metric definitions used by Starwood Waypoint Homes prior to its merger with Invitation Homes.

Net Operating Income (NOI)

NOI is a non-GAAP measure often used to evaluate the performance of real estate companies. We define NOI for an identified population of homes as rental revenues and other property income less property operating and maintenance expense.

Same Store / Same Store Portfolio

For Invitation Homes (IH), Same Store or Same Store portfolio includes, for a given reporting period, homes that have been stabilized (defined as homes that have (i) completed an upfront renovation and (ii) entered into at least one post-renovation Invitation Homes lease) for at least 90 days prior to the first day of the prior-year measurement period and excludes homes that have been sold and homes that have been designated for sale but have not yet entered into a written sale agreement during such reporting period. IH Same Store portfolios are established as of January 1st of each calendar year. Therefore, any home included in the IH Same Store portfolio will have satisfied the conditions described in clauses (i) and (ii) above prior to October 3rd of the year prior to the first year of the comparison period. We believe presenting information about the portion of our portfolio that has been fully operational for the entirety of a given reporting period and its prior year comparison period provides investors with meaningful information about the performance of our comparable homes across periods and about trends in our organic business.

For Legacy Starwood Waypoint Homes, Same Store or Same Store portfolio includes, for a given reporting period, homes that have been stabilized for at least fifteen (15) months prior to the start of the current measurement period, excluding any homes that have been disposed of, removed from service or returned to the development period for significant renovation.

Total Homes / Total Portfolio

Total homes or total portfolio refers to the total number of homes we own, whether or not stabilized, and excludes any properties previously acquired in purchases that have been subsequently rescinded or vacated.
