Forward Looking Statements

- This presentation contains forward-looking statements. These forward-looking statements include, but are not limited to, all statements other than statements of historical facts contained in this presentation, including, without limitation, those regarding our future financial position and results of operations, our strategy, plans, objectives, goals and targets, future developments in the markets in which we operate or are seeking to operate. In some cases, you can identify forward-looking statements by terminology such as "aim," "anticipate," "believe," "could," "estimate," "expect,", "guidance," "intend," "may," "plan," "predict," "should" or "will" or the negative of such terms or other similar expressions or terminology.

- By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Forward-looking statements speak only as of the date of this presentation and are not guarantees of future performance and are based on numerous assumptions. Our actual results of operations, financial condition and the development of events may differ materially from (and be more negative than) those made in, or suggested by, the forward-looking statements. Except as required by law, we do not undertake any obligation to update any forward-looking statements to reflect events or circumstances after the date hereof or to reflect anticipated or unanticipated events or circumstances.

- Investors should read the section entitled "Item 3.D.—Risk Factors" and the description of our segments and business sectors in the section entitled "Item 4.B. Information on the Company—Business Overview", each in our Annual Report on Form 20-F for the fiscal year ended December 31, 2021, filed with the Securities and Exchange Commission ("SEC"), for a more complete discussion of the risks and factors that could affect us.

- Forward-looking statements include, but are not limited to, statements relating to: expected value, new investments and projects, including their expected development, completion, commercial operations date ("COD"), expected financial and operating performance (including enterprise value to EBITDA multiples), as well as statements with respect to potential acquisitions; expected output capacity, ability to add leverage or capacity, anticipated synergies and market dynamics relating to such investments and projects; the Inflation Reduction Act in the U.S. ("IRA") and tax grants thereunder; our anticipated exposure to current market risks, including the potential impact from foreign exchange rates and interest rates on cash available for distribution ("CAFD"); the impact from potential caps on market prices in the net value of our assets; taxes on electricity companies in Spain; equity investments; estimated returns, CAFD estimates, including per currency, geography, sector and escalation factors; net corporate leverage based on CAFD estimates; debt refinancing; the quality of our off-takers and the performance of our long-term contracts; self-amortizing project debt structure and debt reduction; the use of non-GAAP measures as a useful tool for investors; the possibility to extend asset life; dividends; and various other factors, including those factors discussed under "Item 3.D.—Risk Factors" and "Item 5.A.—Operating Results" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2021 filed with the SEC.

Non-GAAP Financial Information

- This presentation also includes certain non-GAAP financial measures, including Adjusted EBITDA, CAFD, CAFD per share and enterprise value to EBITDA. Non-GAAP financial measures are not measurements of our performance or liquidity under IFRS as issued by IASB and should not be considered alternatives to operating profit or profit for the period or net cash provided by operating activities or any other performance measures derived in accordance with IFRS as issued by the IASB or any other generally accepted accounting principles or as alternatives to cash flow from operating, investing or financing activities. Please refer to the appendix of this presentation for a reconciliation of the non-GAAP financial measures included in this presentation to the most directly comparable financial measures prepared in accordance with IFRS as well as the reasons why management believes the use of non-GAAP financial measures (including CAFD, CAFD per share, Adjusted EBITDA and enterprise value to EBITDA) in this presentation provides useful information to investors.

- In our discussion of operating results, we have included foreign exchange impacts in our revenue and adjusted by providing constant currency growth. The constant currency presentation is not a measure recognized under IFRS and excludes the impact of fluctuations in foreign currency exchange rates. We believe that constant currency information provides valuable supplemental information regarding our results of operations. We calculate constant currency amounts by converting our current period local currency revenue and Adjusted EBITDA using the prior period foreign currency average exchange rates and comparing these adjusted amounts to our prior period reported results. This calculation may differ from similarly titled measures used by others and, accordingly, the constant currency presentation is not meant to be a substitute for recorded amounts presented in conformity with IFRS as issued by the IASB nor should such amounts be considered in isolation.

Atlantica
Sustainable Infrastructure

A Sustainable Infrastructure Company

HIGH DEMAND SECTORS

2,121 MW
Of renewable generation (~73% solar)

77%
Revenue from renewables [3]

1,229 miles

398 MW
of efficient natural gas & Heat

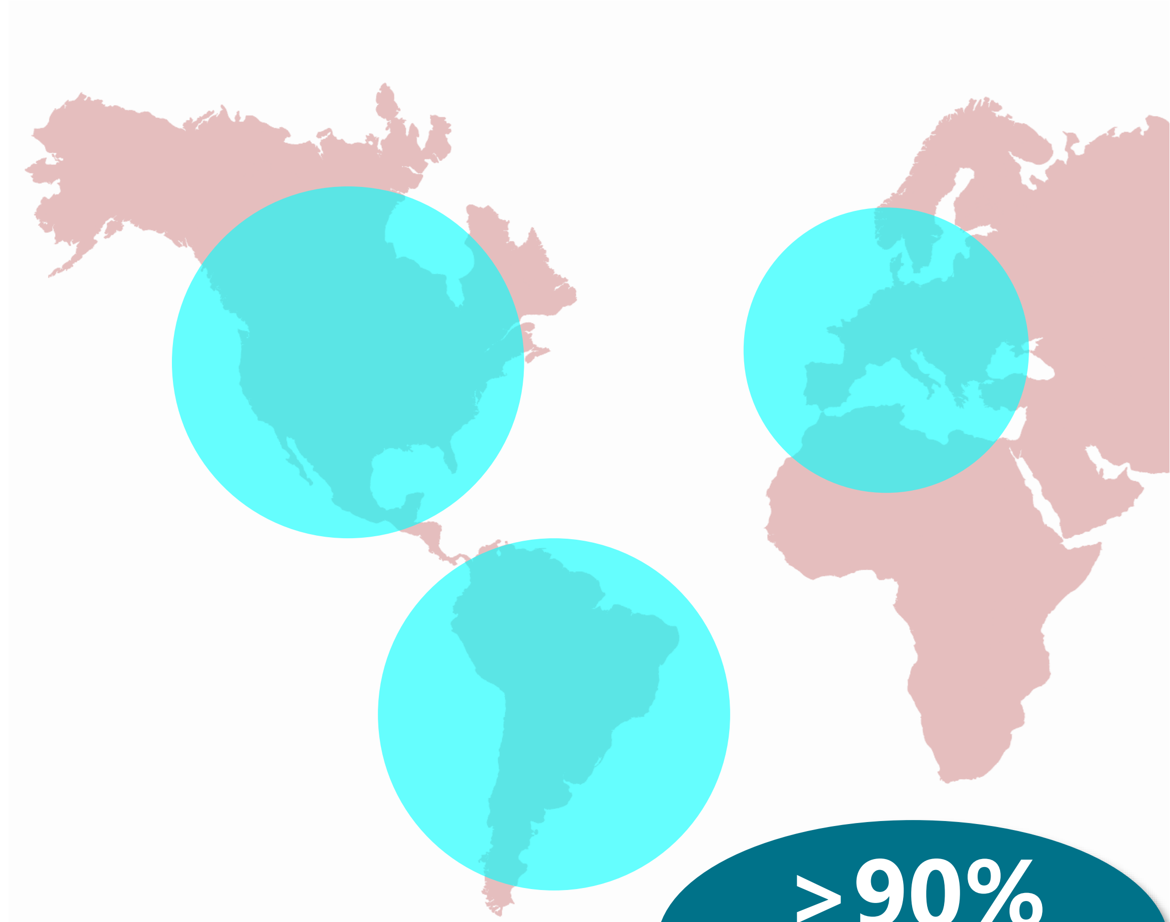
17.5 Mft³/day
of water capacity

41 **Stable**
100% contracted or regulated assets [1]

15 **years**
weighted average contracted life remaining [2]

CORE GEOGRAPHIES

Focus on **North America & Europe** and certain markets in **South America**



>90%
CAFD in USD or hedged[4]

Note: Capacity included in the slide represents total installed capacity in assets owned, regardless of our percentage of ownership in each of the assets, except for the renewable generation and efficient natural gas, which includes our 49% US Wind Portfolio and the 30% share of the investment in Monterrey respectively.
(1) Regulated revenues in Spain and Chile TL3 and non-contracted nor regulated in the case of Chile PV 1.
(2) Represents weighted average years remaining as of September 30, 2022.
(3) For the year 2021.
(4) Euro denominated cash flows from assets in Spain, net of euro-denominated corporate interest payments and general and administrative expenses, are hedged through currency options on a rolling basis 100% for the next 12 months and 75% for the following 12 months.

Atlantica
Sustainable Infrastructure

Value Proposition

Core Strengths

Positioned in sectors with High growth prospects

- Third Party Acquisitions
- Development
- Organic Growth

Stable and predictable long-term cash flow

- Prudent Financing Policy
- Efficient Corporate Structure
- Portfolio of Contracted Assets

An Attractive Total Return Opportunity

Execution of Growth Strategy

+

Attractive Current Dividend Yield

Atlantica Sustainable Infrastructure

Low Risk Diversified Asset Portfolio

LONG-TERM STABLE CASH FLOW

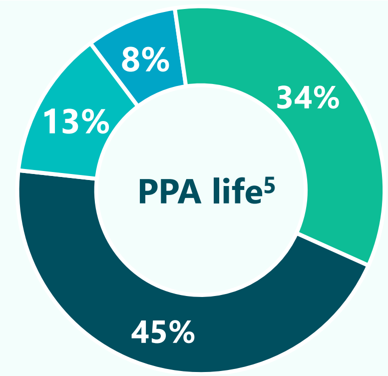
100% Contracted or regulated revenue[1]

15 years Weighted average contracted life remaining[2]

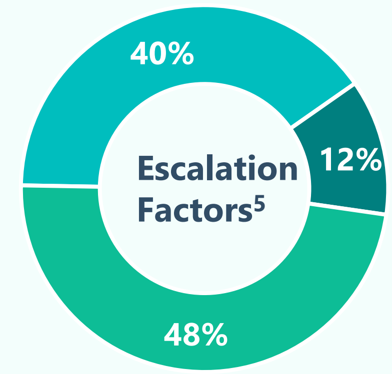
>55% of cash flows non-dependent on natural resources[3]

>90% CAFD in USD or hedged[4]

Minimal Commodity risk



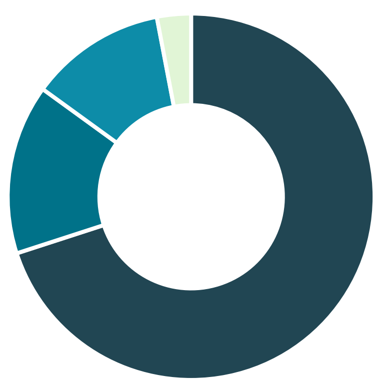
- **8%** 0-10 years
- **34%** 10-14 Years
- **45%** 15-20 Years
- **13%** 20+ Years



- **40%** Indexed to inflation or formula based on inflation
- **12%** Indexed to a fixed number
- **48%** Not indexed

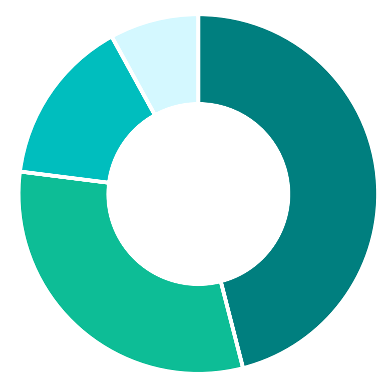
DIVERSIFIED PORTFOLIO[5]

Business Sectors



- **70%** Renewable
- **15%** Efficient Natural Gas
- **12%** Transmission Lines
- **3%** Water

Regions



- **46%** North America
- **31%** Europe
- **15%** South America
- **8%** RoW

CAFD VISIBILITY

- Organic CAFD growth
- Contract life tails in most assets once debt is amortized
- Potential to extend contracted life
- Potential to increase projected CAFD with new investments

(1) Regulated in the case of the Spanish solar assets and Chile TL3 and non-contracted nor regulated in the case of Chile PV 1.
(2) Represents weighted average years remaining as of December 31, 2021.
(3) Based on CAFD estimates for the 2022-2026 period, including the acquisitions announced. as of February 28, 2022. See "Disclaimer – Forward Looking Statements". Cash flows non-dependant on natural resources includes transmission lines, efficient natural gas and heat, water assets and approximately 70% revenues received by our Spanish assets.
(4) Euro denominated cash flows from Spanish assets, net of euro-denominated corporate interest payments and general and administrative expenses, are hedged through currency options on a rolling basis 100% for the next 12 months and 75% for the following 12 months.
(5) Based on CAFD estimates for the 2022-2026 period, including the acquisitions announced as of February 28, 2022. See "Disclaimer – Forward Looking Statements".

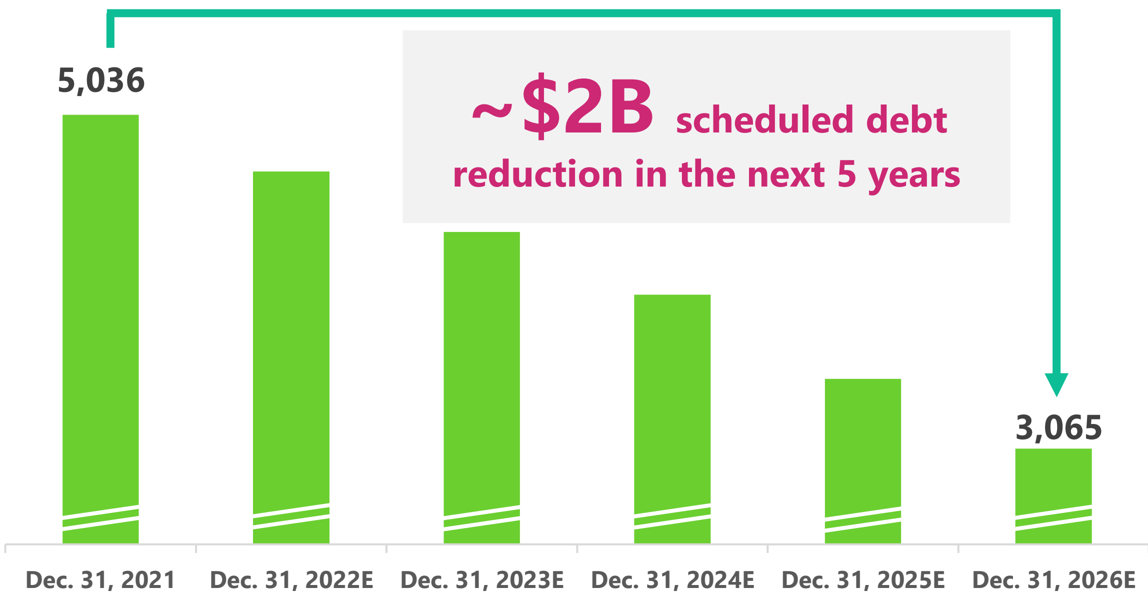
Atlantica
Sustainable Infrastructure

Healthy Balance Sheet with Prudent Financing Strategy and Strong Credit Profile

Conservative Corporate Leverage[1]

- **Net corporate debt** represents ~18% of net consolidated debt
- **Conservative Corporate Leverage**: Net corporate debt CAFD before corporate interest 3.0x as of September 30, 2022[2]
- 83% of Corporate Debt is **Green Financing**
- **Corporate Ratings of BB+ / BB+ (S&P / Fitch)**

Self Amortizing Project Debt Structure (Gross)[3]



- Key principle: **non-recourse project financing** in ring-fenced subsidiaries
- Project debt **self-amortizing** progressively before the end of the contracted life

Foreign Exchange Exposure Risk

- **Natural hedge**: distributions of assets in Europe are partially offset with corporate interest and corporate G&A paid in euros
- **The resulting net euro exposure is hedged through currency options on a rolling basis**:100% for the next 12 months and 75% for the following 12 months
- Small exposure to other currencies

Interest Rate Risk

- >94%[4] of interest rates are **fixed** or hedged

(1) Figures as of September 30, 2022.
(2) Net corporate leverage is calculated as corporate net debt divided by midpoint 2022 CAFD guidance before corporate debt service, which is corporate interest paid by Atlantica
(3) Project debt amortization schedule as of December 31, 2021.
(4) Based on Atlantica's portfolio as of September 30, 2022.

Atlantica Sustainable Infrastructure

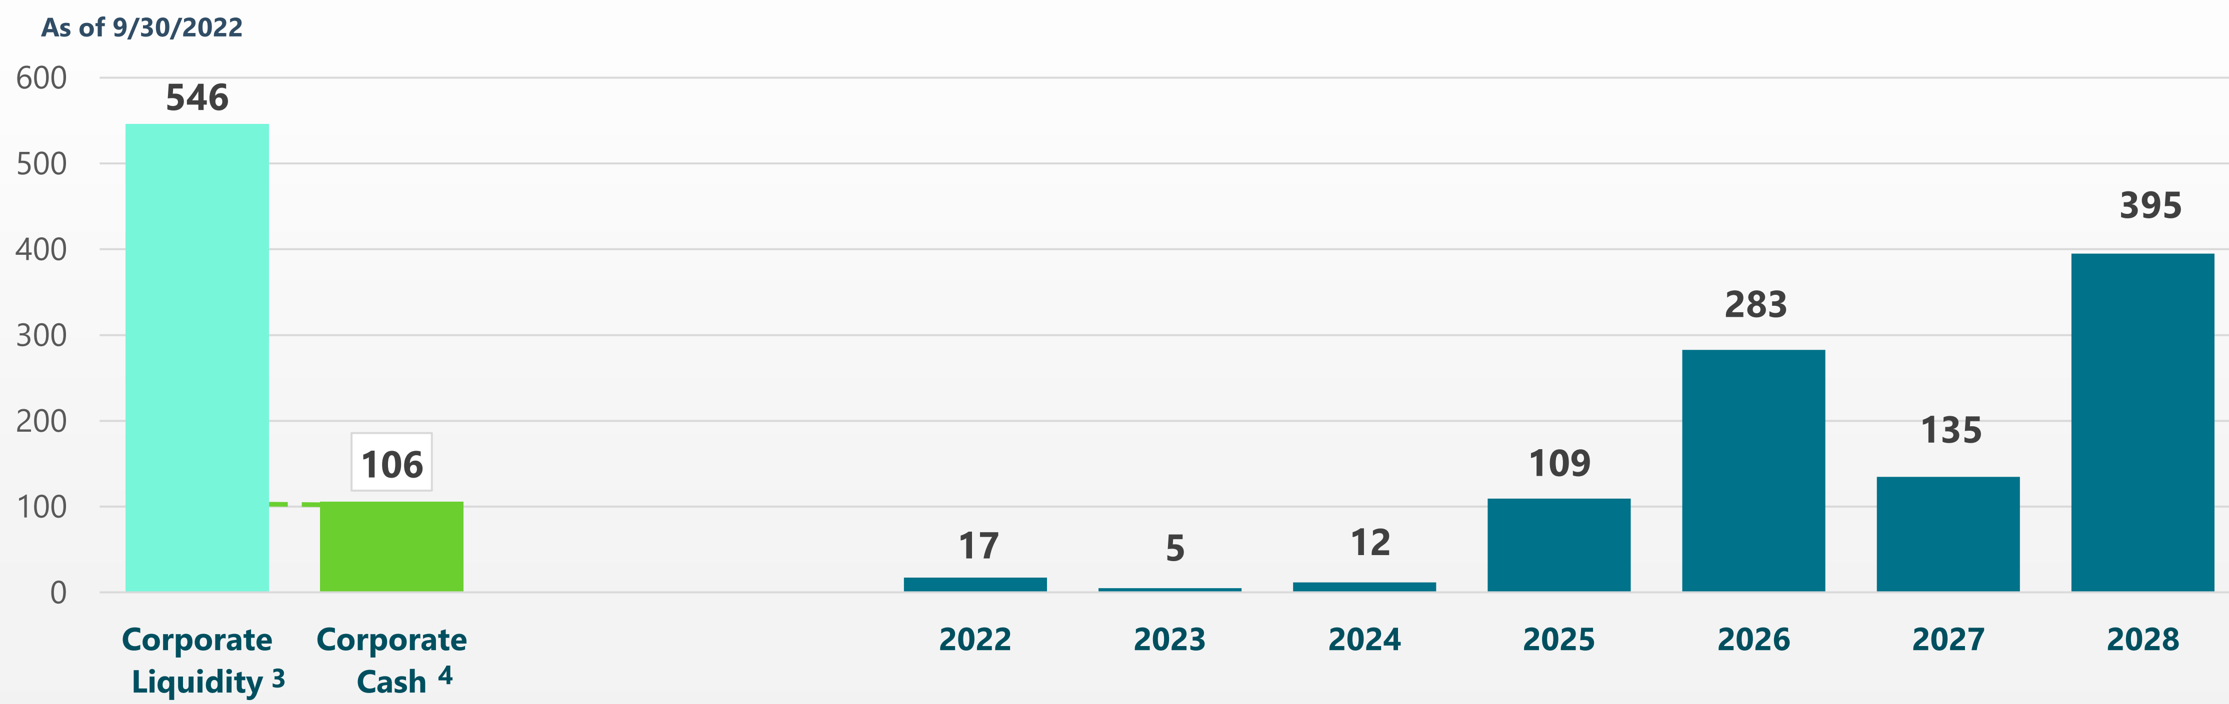
Strong Liquidity and Access to Capital

Strong Corporate Liquidity

$546 million

Corporate Debt Maturities[1]

~4.5 years average maturity[2] of current corporate debt



Secured Sources of Capital

Corporate Cash

$105.8 million of corporate cash as of September 30, 2022

Revolving Credit Facility

$440.0 million available as of September 30, 2022

Retained CAFD

Intention to **retain a portion of CAFD** generated each year

Project Debt

Unlevered contracted cash flow tail enables opportunistic refinancing

(1) Corporate Debt Maturities as of September 30, 2022. Corporate Debt is the indebtedness where Atlantica Sustainable Infrastructure plc. is the primary obligor.
(2) Corporate Debt Maturities as of September 30, 2022
(3) Corporate Liquidity means cash and cash equivalents held a Atlantica Sustainable Infrastructure plc. level plus available capacity under the Revolving Credit Facility as of September 30, 2022.
(4) Corporate Cash corresponds to cash and cash equivalents held at Atlantica Sustainable Infrastructure plc.

Focused on ESG Priorities

Occupational Health and Safety

- ✓ **Maintained key health and safety indicators below sector average:**
  - 1.2 TRIR[1] (vs. sector avg. 1.5)
  - 0.5 LTIR[2] (vs. sector avg. 0.7)
- ✓ **ISO 45001 compliant**
- ✓ **Committed to maintaining a zero- accident culture**

Environment

- ✓ **88% Adjusted EBITDA from low-carbon footprint assets**[3]
- ✓ **Avoided 5.7 million tons of CO_2e in 2021** (Δ6% vs. 2020)[4]
- ✓ **Maintained very low GHG emissions:** 191 gCO_2e/kWh
- ✓ **EU Taxonomy** voluntary **reporting**

Social

- ✓ **25% women and 25% ethnic minority at Board level**
- ✓ **50% of Board committees chaired by women**
- ✓ **Local community investments**

Corporate Governance

- ✓ **Majority of Independent Directors** with **diverse perspectives and expertise**
- ✓ **Board** committees comprised **only by independent members**
- ✓ **Only one class of shares. No special rights**

(1) Total Recordable Incident Rate (TRIR) represents the total number of recordable accidents with and without leave (lost time injury) recorded in the last 12 months per 200,000 worked hours.
(2) Lost Time Injury Rate (LTIR) represents the total number of recordable accidents with leave (lost time injury) recorded in the last 12 months per 200,000 worked hours.
(3) Low-carbon footprint assets including renewable energy, transmission infrastructure, and water assets.
(4) Calculated considering GHG emissions Scope 1 and 2 and energy generation of our power generation assets, both electric and thermal energy. The GHG Equivalences Calculator uses the Avoided Emissions and Generation Tool (AVERT) U.S. national weighted average CO_2 marginal emissions rate to convert reductions of Kilowatt-hours into avoided units of carbon dioxide emissions.

Atlantica
Sustainable Infrastructure

Our Growth Strategy

~ $296 M annual average investment in the last 3 years

Organic 1

- Escalation factors
- Operational improvements
- Expansion of existing assets
- Repowering and hybridization

Development 2

- Partnerships
- In-house

Third Party Acquisitions 3

- Smaller proprietary situations
- Bilateral/ Competitive processes

Diversified Sources of Growth

GROWTH UPDATE

~$150 Million in New Investments

Announced in November 2022

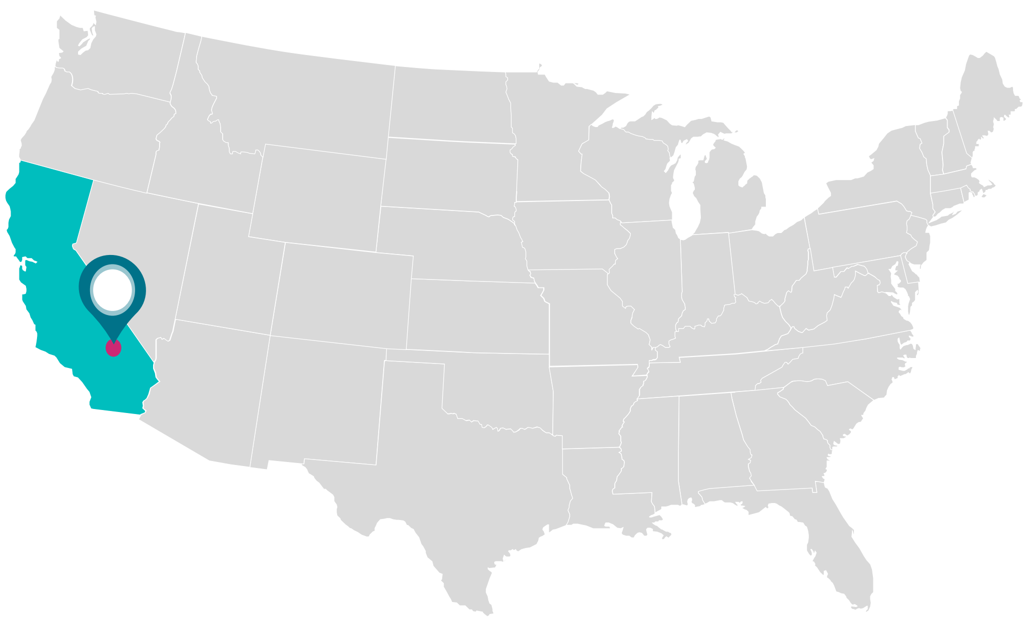
Storage	▪ 100 MWh battery system with expected COD in 2024
Solar PV	▪ Acquired 73 MW in operation[1] and intend to add 100 MWh of batteries in 2023 ▪ Exclusivity agreement to co-invest in an 80 MW PV portfolio starting construction
Others	▪ Expansion of existing transmission line, under construction[2] ▪ Repayment of a higher cost non-recourse debt tranche

(1) 35% ownership through our renewable energy platform. 73 MW represents total installed capacity in the asset.
(2) Substation and a 2.4-mile transmission line in Peru connected to our ATN transmission line as previously announced.

GROWTH UPDATE

Inflation Reduction Act as a Growth Opportunity

First Project: Battery Storage Asset at our Coso Plant



- Developing and preparing to start construction of a battery storage system located inside our Coso geothermal plant in California
- Capacity: 100 MWh (4 hours)
- COD expected in 2024
- First project of a pipeline in the Southwest that includes 6 projects with a total 300 MW of PV and over 2,000 MWh of storage

Investment Highlights

- ✓ **Attractive market for storage**
- ✓ **Synergies with existing assets**
- ✓ **ITC (IRA)**
- ✓ **Option to include leverage in the future**
- ✓ **10x EV[1] / EBITDA[2]**

(1) Enterprise value means the expected investment of Atlantica in this battery storage system.
(2) Expected 2025 EBITDA of the Coso Battery Storage Project. See reconciliation on page 32.

GROWTH UPDATE

First Investment in PV + Batteries

~73 MW
PV plant in Chile
+
Additional investment in Batteries
(~100 MWh)

- Acquired through our renewable energy platform in Chile
- Plant in operation
- Batteries are expected to capture additional capacity revenues, as well as one of the highest daily price spreads

Investment Highlights

- ✓ **Attractive market for storage**
- ✓ **Synergies with other existing assets in Chile**
- ✓ **Strong operational track-record**
- ✓ **6x EV[1] / EBITDA[2]**

(1) Enterprise value means the investment of Atlantica in this Chile PV 3 plant.
(2) Average EBITDA for the years 2021 and 2020 of the Chile PV 3 plant. See reconciliation on page 32.

Atlantica
Sustainable Infrastructure

Other Investments closed in 2022

Chile TL4

- 63 miles
- Long-term PPA in US$
- Inflation escalator
- Equity investment: ~$40 million
- 11.7x EV/EBITDA

Italy PV 3 & 4

- 2.5 MW and 3.6 MW PV Portfolios respectively
- 10-year Feed in Tariff
- Equity investment: $7.7 million

PV plants under construction (Investment: $40 million)

Albisu

- 10 MW in Uruguay
- 15-year corporate PPA
- Inflation escalator
- Expected COD: Q4 2022

La Tolua & Tierra Linda

- 20 MW and 10 MW in Colombia
- 15-year PPA
- Inflation escalator
- Expected COD: Q1 2023

Atlantica
Sustainable Infrastructure

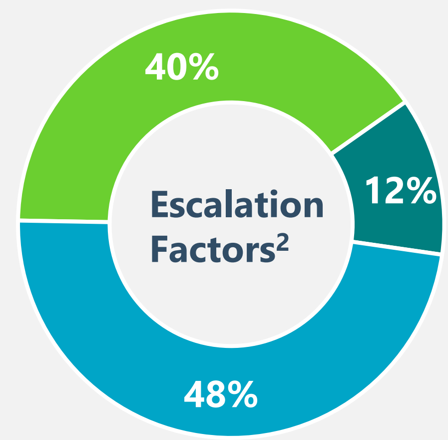
RISK MITIGATION STRATEGY

Limited Exposure to Current Market Risks

Limited Impact from Euro FX on CAFD

- **Natural hedge: distributions of assets in Europe are partially offset with corporate interest and corporate G&A paid in euros**
- **The resulting net euro exposure is hedged through currency options on a rolling basis:** 100% for the next 12 months and 75% for the following 12 months
- **After month 24: 2-3% potential impact on CAFD calculated as the difference of net euro exposure converted at current rate and at average hedged rate for 2022[1]**

~50% of the Portfolio with Indexed Revenue



- **40%** Indexed to inflation or formula based on inflation
- **12%** Indexed to a fixed number
- **48%** Not indexed

Interest Rate Risk Highly Covered

An increase of 100bp in reference interest rates would have an impact on CAFD of ~1.5%[3]

Regulated Assets in Europe

- **No expected impact from potential caps on market prices on the net value of our assets**
- **Taxes on energy companies announced in Spain not expected to be applicable**

(1) Calculated as the average net euro exposure expected for the years 2024-2027 multiplied by the difference between our average euro/dollar hedged rate for 2022 and the euro/dollar rate as of October 31, 2022, and dividing the result by the midpoint CAFD 2022 Guidance.
(2) Based on CAFD estimates for the 2022-2026 period as of February 28, 2022, including the acquisitions announced as of November 9, 2022. See "Disclaimer – Forward Looking Statements".
(3) Expected annual impact calculated on existing debt as of September 30, 2022, with interest rates as of October 31, 2022, divided by the midpoint CAFD 2022 Guidance.

Atlantica
Sustainable Infrastructure

HIGHLIGHTS

6.2% CAFD Growth in 9M 2022

US$ in million (except CAFD per share)	First 9 Months			
	2022	2021	Δ Reported	Δ Excluding FX impact & non-recurrent project
Revenue	858.4	940.4	(8.7)%	4.9%[2]
Adjusted EBITDA[1]	630.6	634.1	(0.6)%	4.3%[2]
CAFD	179.0	168.5	6.2%	
CAFD per share[3]	1.57	1.52	3.0%	

(1) Adjusted EBITDA previously excluded share of profit/(loss) of associates carried under the equity method and did not include depreciation and amortization, financial expense and income tax expense of unconsolidated affiliates (pro-rata of our equity ownership) (which is equivalent to our pro-rata share of Adjusted EBITDA from unconsolidated affiliates) and now includes it (see reconciliation on page 30). Prior periods have been presented accordingly.
(2) Compared to the first nine months of 2021, on a constant currency basis and adjusted for the consolidation of a non-recurrent Rioglass solar project in the first nine months of 2021.
(3) Calculated by dividing CAFD for the period by weighted average number of shares for the period (see reconciliation on page 31).

Atlantica
Sustainable Infrastructure

Main Takeaways

1. **Atlantica is an Attractive Sustainable Infrastructure Company that Operates in a Large and Growing Addressable Global Market**

2. **High-Quality Diversified Asset Portfolio with Stable Contracted Cash Flow Profile**

3. **Prudent Financing Policy and Solid Credit Profile**

4. **Differentiated Sustainable Strategy and Proven Environmental, Social and Governance ("ESG") Credentials**

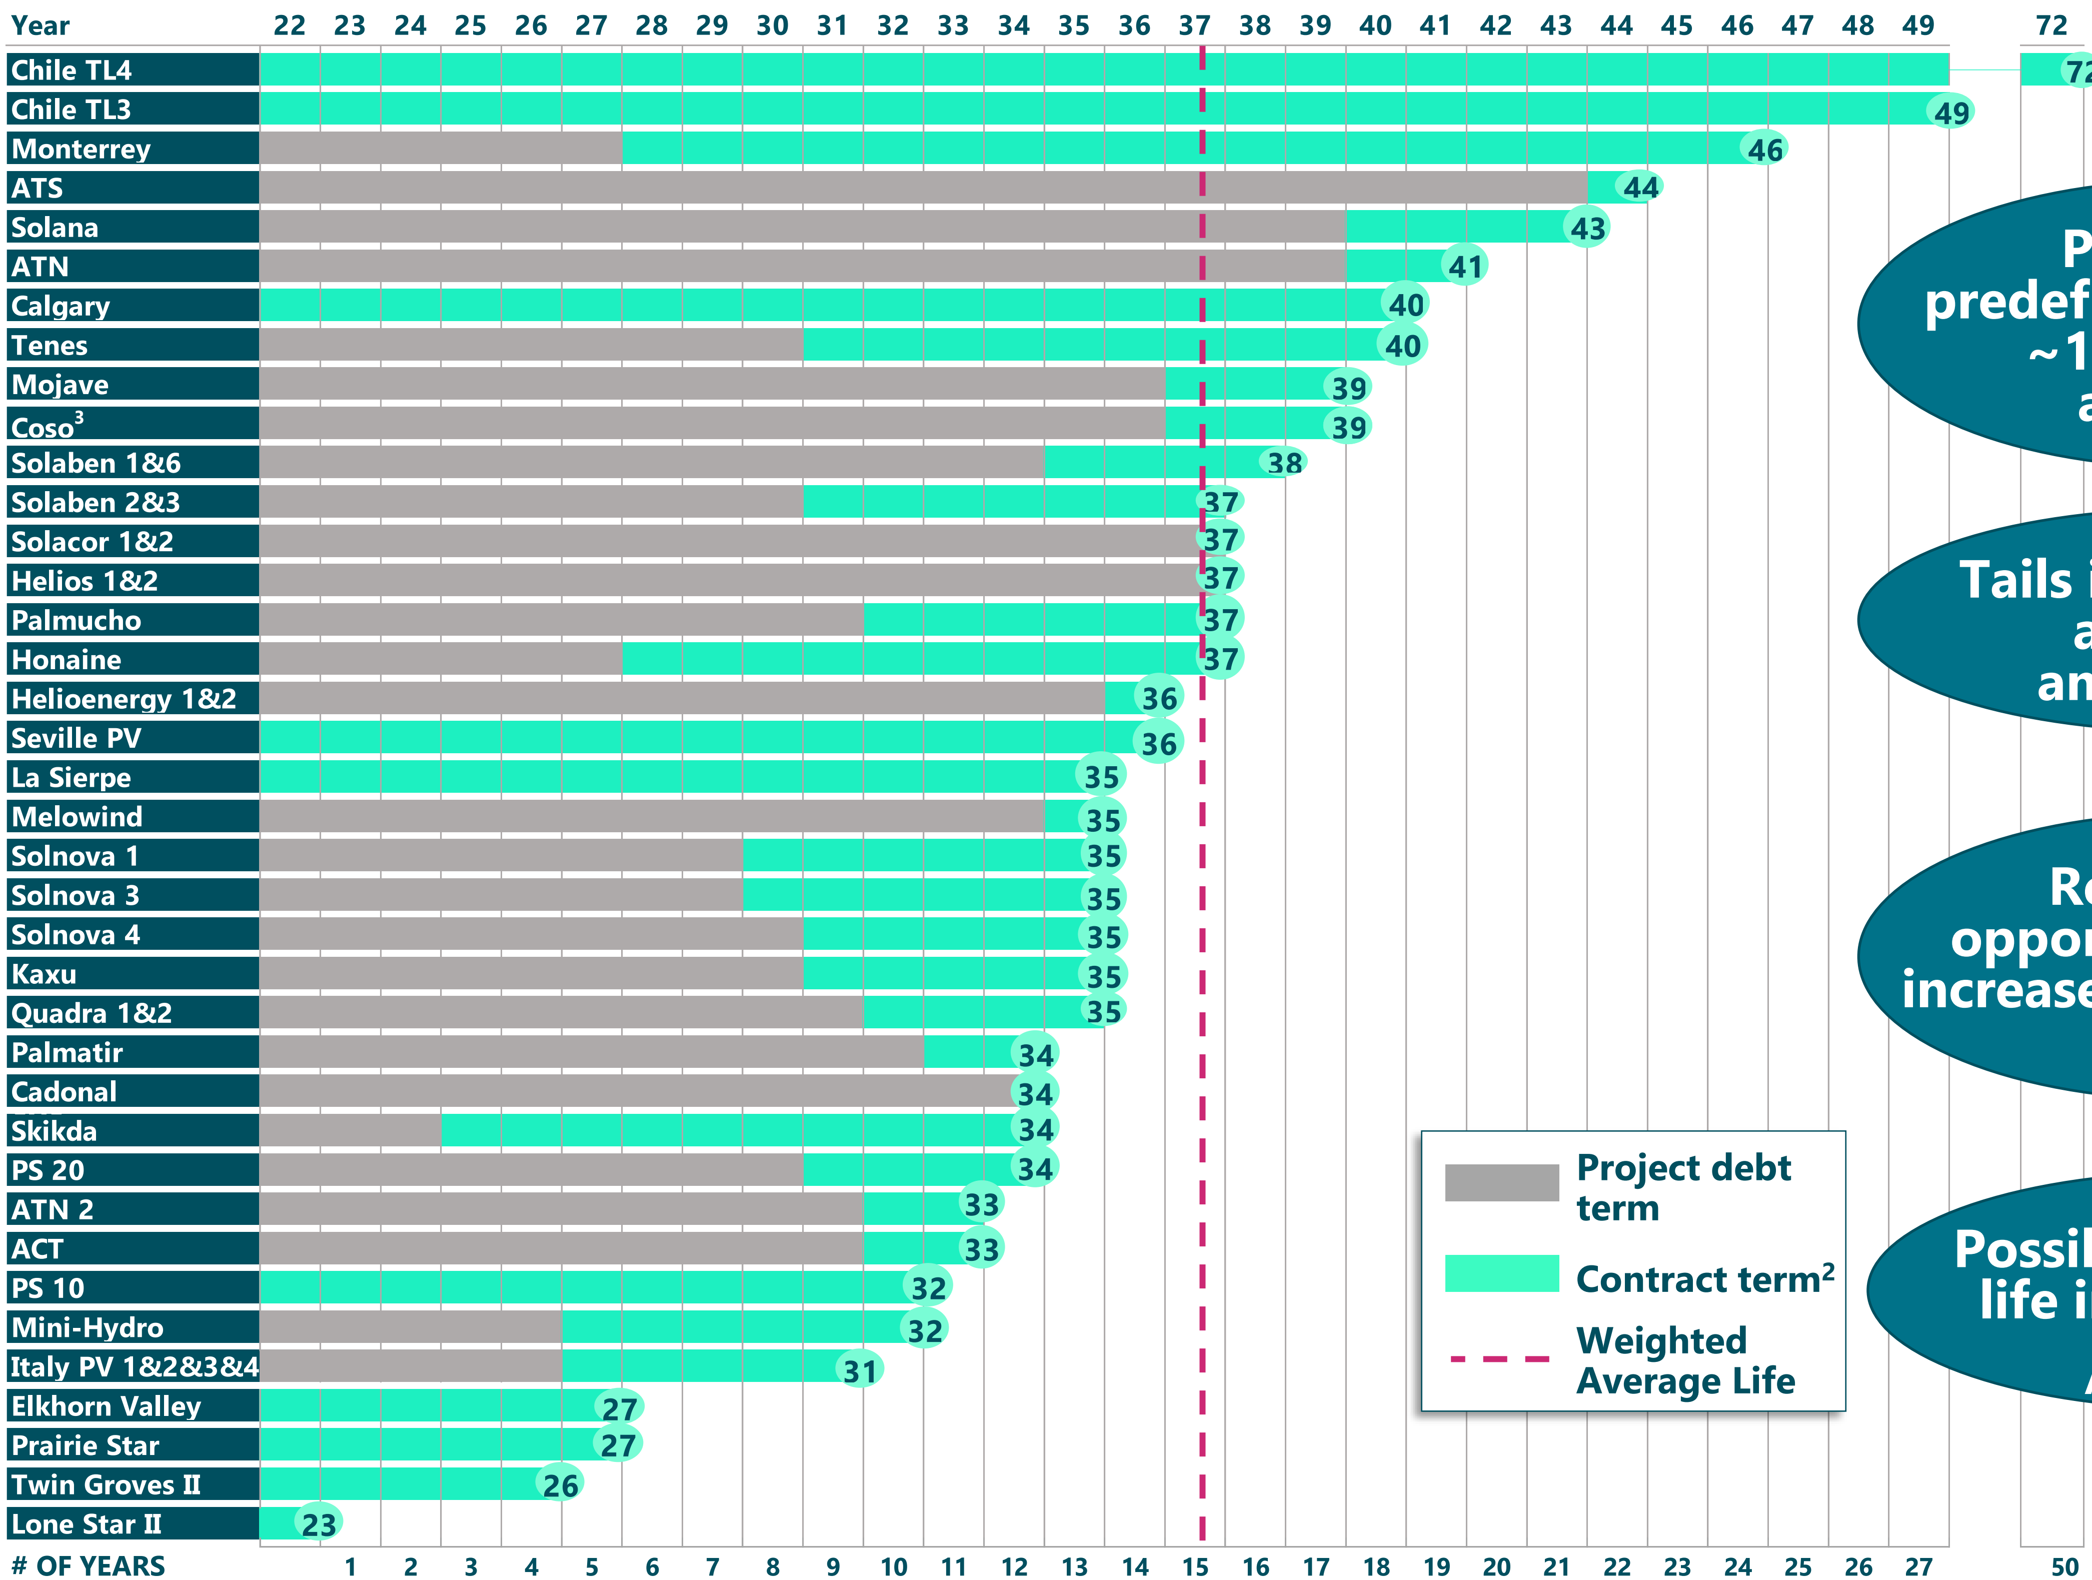
5. **Visible Pipeline of Accretive Growth Opportunities**

Appendix

Atlantica Sustainable Infrastructure

LONG-TERM STABLE CASH FLOW

Portfolio of Assets



PPAs with predefined prices for ~15 years on average[1]

Tails in most assets after debt amortization

Refinancing opportunities could increase CAFD in earlier years

Possibility to extend life in many assets (excluding ATN and ATS)

(1) Represents weighted average years remaining as of September 30, 2022.
(2) Regulation term in the case of Spain and Chile TL3.
(3) From the total amount of $211 million project debt, $74 million are progressively repaid following a theoretical 2036 maturity, with a legal maturity in 2027. The remaining $137 million are expected to be refinanced in or before 2027.

(1) Represents total installed capacity in assets owned or consolidated at the end of the period, regardless of our percentage of ownership in each of the assets, except for Vento II, for which we have included our 49% interest.
(2) Includes 43 MW corresponding to our 30% share in Monterrey and 55 MWt corresponding to thermal capacity from Calgary District Heating since May 14, 2021.
(3) Includes 49% of Vento II production since its acquisition. Includes curtailment in wind assets for which we receive compensation.
(4) GWh produced includes 30% share of the production from Monterrey.
(5) Availability refers to the time during which the asset was available to our client totally or partially divided by contracted or budgeted availability, as applicable.

(1) Capacity factor ratio represents actual electrical energy output over a given period of time divided by the maximum possible electrical energy output assuming continuous operation at full nameplate capacity over that period. Historical Capacity Factors are calculated from the date of entry into operation or the acquisition of each asset. Some capacity factors are not indicative of a full period of operations.
(2) Includes Chile PV 1 since Q2 2020, Chile PV 2 since Q1 2021 and Chile PV 3 since Q3 2022.
(3) Includes curtailment production in wind assets for which we receive compensation.

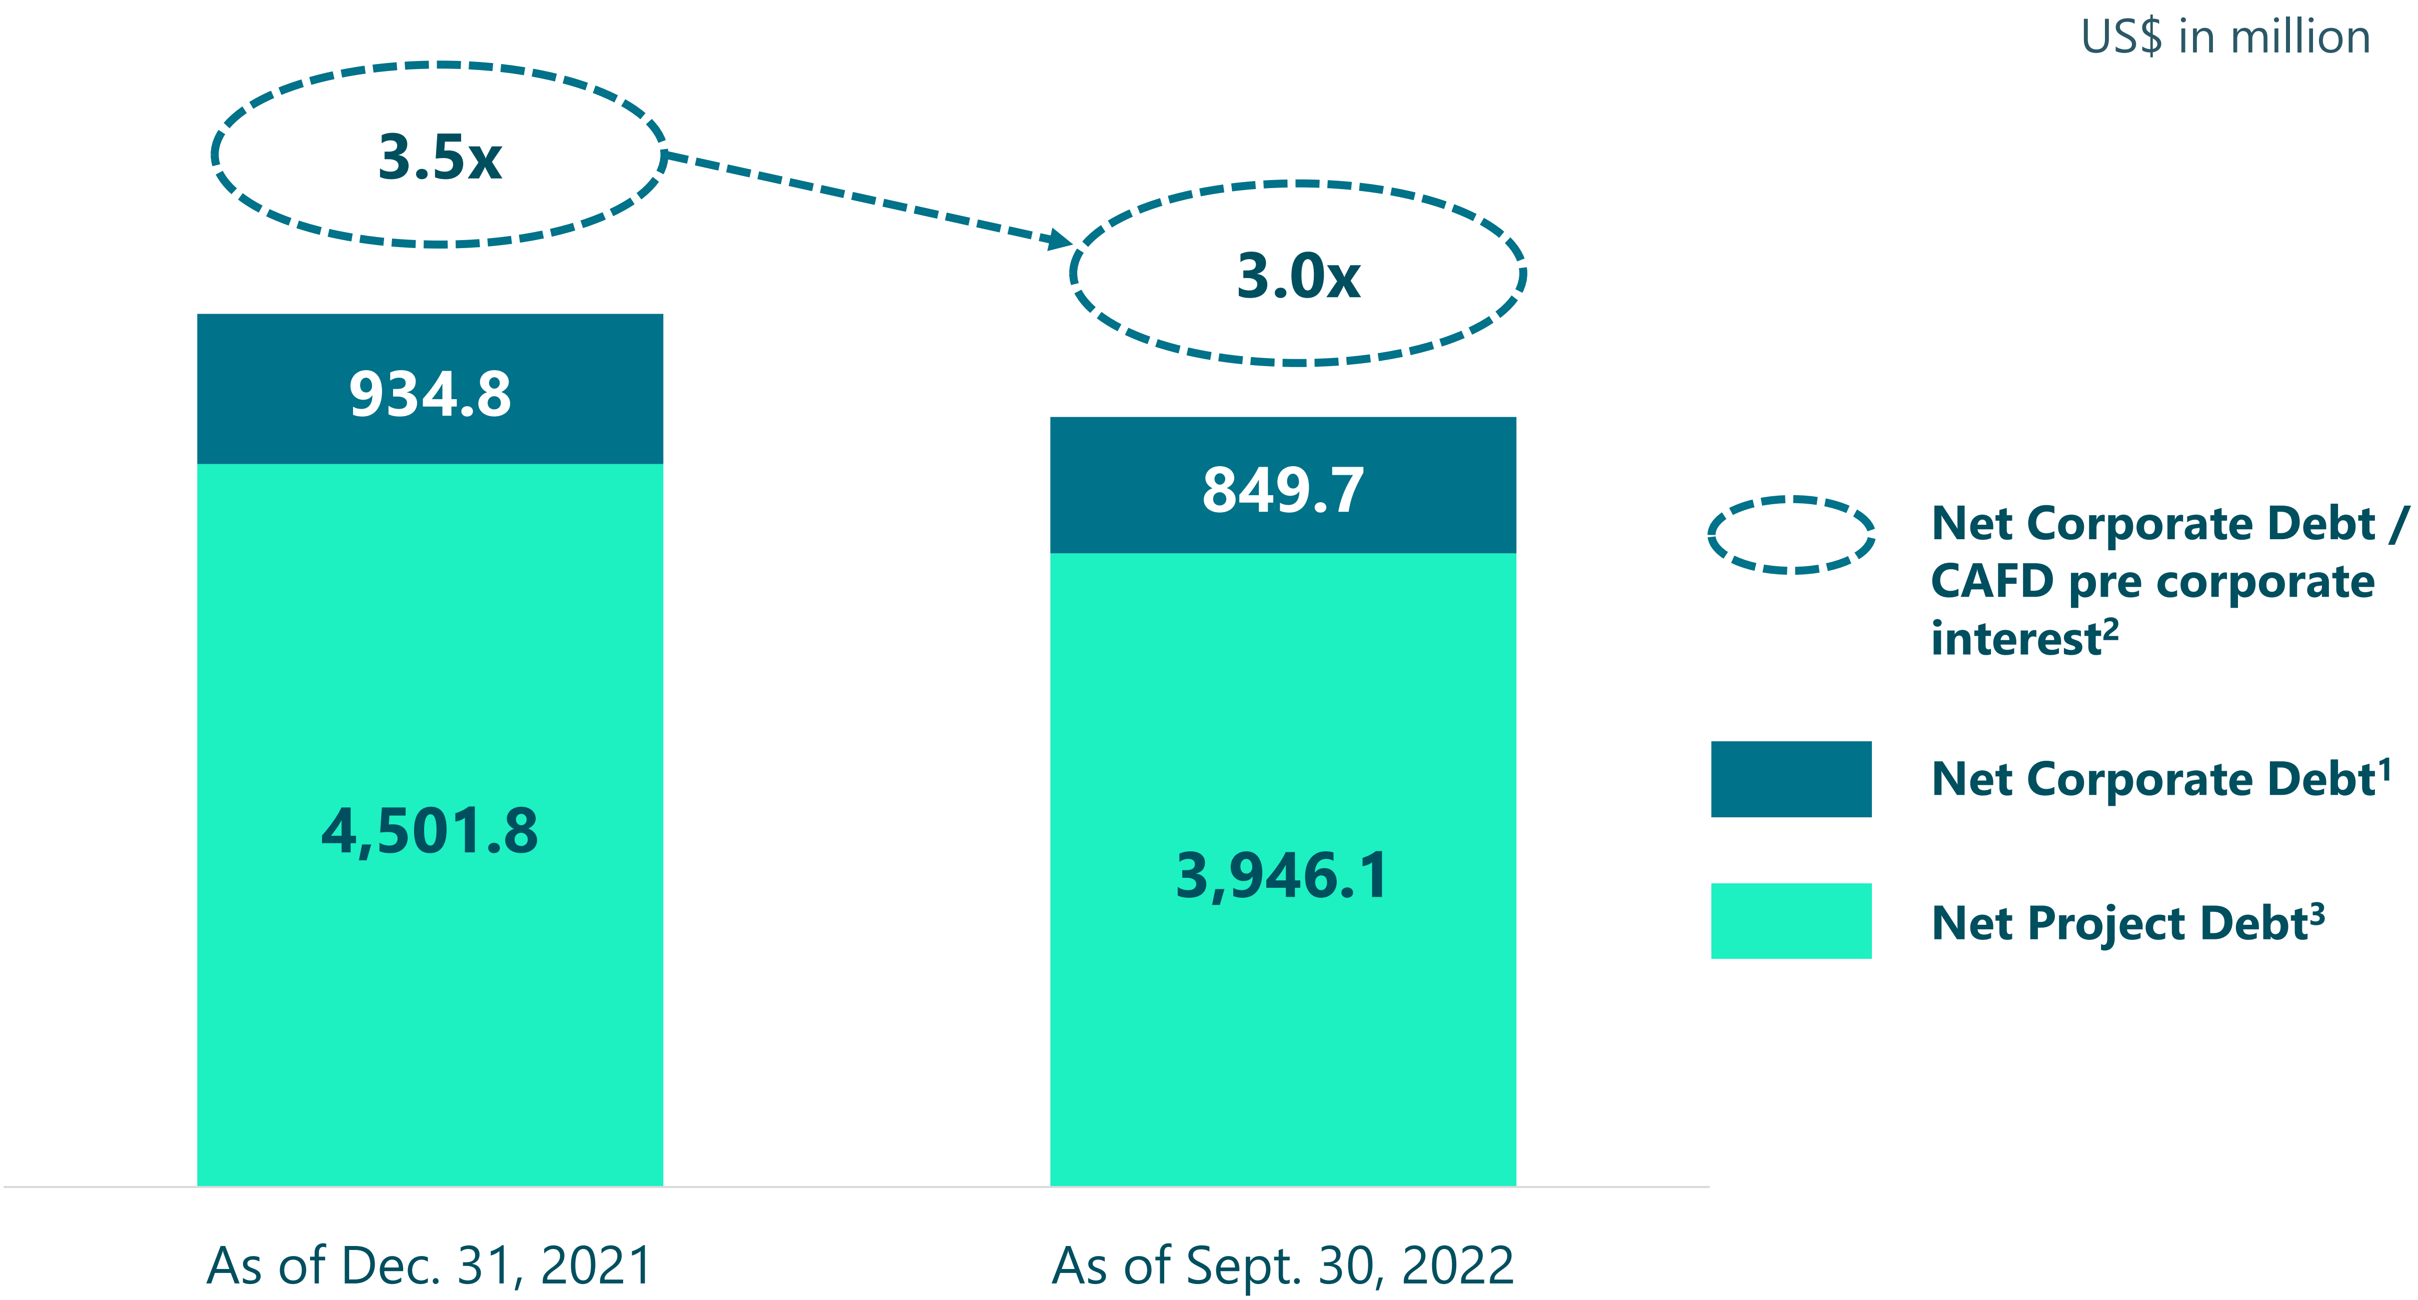
NET DEBT

Net Corporate Debt to CAFD pre corporate interest at 3.0x



(1) Net corporate debt is calculated as long-term corporate debt plus short-term corporate debt minus cash and cash equivalents at Atlantica's corporate level.
(2) Net corporate leverage is calculated as net corporate debt divided by midpoint 2022 CAFD guidance before corporate debt service. CAFD pre-corporate debt service is calculated as CAFD plus corporate debt interest paid by Atlantica.
(3) Net project debt is calculated as long-term project debt plus short-term project debt minus cash and cash equivalents at the consolidated project level.

(3) As of September 30, 2022, letters of credit with face value in an amount equal to $10 million were outstanding and $440 million were available under the Revolving Credit Facility. The latter has a total limit of $450 million.
(4) Other facilities include the Commercial Paper Program, accrued interest payable and other debt.
(5) Senior unsecured notes dated July 17, 2020, exchangeable into ordinary shares of Atlantica, cash, or a combination of both, at Atlantica’s election.
(6) Senior secured notes dated April 1, 2020, of €290 million.
(7) Senior unsecured note facility dated July 8, 2020, of €140 million.
(8) Green Senior Unsecured Notes dated May 18, 2021, of $400 million.

NON-GAAP FINANCIAL INFORMATION

Reconciliation of Non-GAAP Measures

- Our management believes Adjusted EBITDA, CAFD, CAFD per share, and enterprise value to EBITDA are useful to investors and other users of our financial statements in evaluating our operating performance because such measures provide investors with additional tools to compare business performance across companies and across periods. Adjusted EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired. Our management believes CAFD and CAFD per share are relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors and is useful to investors in evaluating our operating performance because securities analysts and other interested parties use such calculations as a measure of our ability to make quarterly distributions. In addition, CAFD is used by our management team for determining future acquisitions and managing our growth. Our management uses Adjusted EBITDA, CAFD and CAFD per share as measures of operating performance to assist in comparing performance from period to period and aims to use them on a consistent basis moving forward. They also readily view operating trends as a measure for planning and forecasting overall expectations, for evaluating actual results against such expectations, and for communicating with our board of directors, shareholders, creditors, analysts and investors concerning our financial performance.
- Our management believes enterprise value to EBITDA is a useful valuation tool widely used by investors when evaluating transactions as it compares the investment's value to its earnings before interest, taxes, depreciation, and amortization.
- We present non-GAAP financial measures because we believe that they and other similar measures are widely used by certain investors, securities analysts and other interested parties as supplemental measures of performance and liquidity. The non-GAAP financial measures may not be comparable to other similarly titled measures employed by other companies and they may have limitations as analytical tools. These measures may not be fit for isolated consideration or as a substitute for analysis of our operating results as reported under IFRS as issued by the IASB. Non-GAAP financial measures and ratios are not measurements of our performance or liquidity under IFRS as issued by the IASB. Thus, they should not be considered as alternatives to operating profit, profit for the period, any other performance measures derived in accordance with IFRS as issued by the IASB, any other generally accepted accounting principles or as alternatives to cash flow from operating, investing or financing activities. Some of the limitations of these non-GAAP measures are:
  - they do not reflect our cash expenditures, future requirements for capital expenditures or contractual commitments;
  - they do not reflect changes in, or cash requirements for, our working capital needs;
  - they may not reflect the significant interest expense, or the cash requirements necessary, to service interest or principal payments, on our debts;
  - although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often need to be replaced in the future and Adjusted EBITDA, CAFD, CAFD per share, and enterprise value to EBITDA do not reflect any cash requirements that would be required for such replacements;
  - some of the exceptional items that we eliminate in calculating Adjusted EBITDA reflect cash payments that were made, or will be made in the future; and
  - the fact that other companies in our industry may calculate Adjusted EBITDA, CAFD, CAFD per share, and enterprise value to EBITDA differently than we do, which limits their usefulness as comparative measures.
- We define Adjusted EBITDA as profit/(loss) for the period attributable to the parent company, after previously adding back loss/(profit) attributable to non-controlling interest, income tax expense, financial expense (net), depreciation, amortization and impairment charges of entities included in our consolidated financial statements and depreciation and amortization, financial expense and income tax expense of unconsolidated affiliates (pro-rata of our equity ownership). Until September 30, 2021, Adjusted EBITDA excluded equity of profit/(loss) of associates carried under the equity method and did not include depreciation and amortization, financial expense and income tax expense of unconsolidated affiliates (pro-rata of our equity ownership). Prior periods have been presented accordingly. CAFD is calculated as cash distributions received by the Company from its subsidiaries minus cash expenses of the Company, including debt service and general and administrative expenses. CAFD per share is calculated by dividing CAFD for the period by weighted average number of shares for the period.
- We define enterprise value to EBITDA as an investment's enterprise value divided by its earnings before interest, taxes, depreciation, and amortization.

NON-GAAP FINANCIAL INFORMATION

Reconciliation of Non-GAAP Measures

- Information presented as the pro-rata share of our unconsolidated affiliates reflects our proportionate ownership of each asset in our property portfolio that we do not consolidate and has been calculated by multiplying our unconsolidated affiliates' financial statement line items by our percentage ownership thereto. Note 7 to our consolidated financial statements as of and for the period ended September 30, 2022 includes a description of our unconsolidated affiliates and our pro rata share thereof. We do not control the unconsolidated affiliates. Multiplying our unconsolidated affiliates' financial statement line items by our percentage ownership may not accurately represent the legal and economic implications of holding a noncontrolling interest in an unconsolidated affiliate. We include pro-rata share of depreciation and amortization, financial expense and income tax expense of unconsolidated affiliates because we believe it assists investors in estimating the effect of such items in the profit/(loss) of associates carried under the equity method (which is included in the calculation of our Adjusted EBITDA) based on our economic interest in such unconsolidated affiliates. Each unconsolidated affiliate may report a specific line item in its financial statements in a different manner. In addition, other companies in our industry may calculate their proportionate interest in unconsolidated affiliates differently than we do, limiting the usefulness of such information as a comparative measure. Because of these limitations, the information presented as the pro-rata share of our unconsolidated affiliates should not be considered in isolation or as a substitute for our or such unconsolidated affiliates' financial statements as reported under applicable accounting principles.

Reconciliation of CAFD and Adjusted EBITDA to Profit for the period attributable to the Company

(in thousands of U.S. dollars)	For the three-month period ended September 30		For the nine-month period ended September 30
