Additional information and factors concerning these risks, uncertainties and assumptions can be found in K-C's and Kenvue's respective filings with the SEC, including the risk factors discussed in K-C's and Kenvue's most recent Annual Reports on Form 10-K, as updated by their Quarterly Reports on Form 10-Q and future filings with the SEC. Important Note about Combined and Non-GAAP Financial Information

The projected financial information for the combined businesses of K-C and Kenvue is based on management's estimates, assumptions and projections and has not been prepared in conformance with the applicable requirements of Regulation S-X relating to pro forma financial information, and the required pro forma adjustments have not been applied and are not reflected therein. This information is provided for illustrative purposes only and should not be considered in isolation from, or as a substitute for, the historical financial statements of K-C or Kenvue. Various factors could cause actual future results to differ materially from those currently estimated by management, including, but not limited to, the risks described above and in each of K-C's and Kenvue's respective filings with the SEC.

This communication also includes certain financial measures not calculated in accordance with U.S. generally accepted accounting principles ("GAAP"), such as adjusted EBITDA and estimates of cost and revenue synergies. Non-GAAP financial measures have limitations as an analytical tool and are not meant to be considered in isolation from, or as a substitute for, the comparable GAAP measures. There are limitations to non-GAAP financial measures because they are not prepared in accordance with GAAP and may not be comparable to similarly titled measures of other companies due to potential differences in methods of calculation and items being excluded. K-C and Kenvue caution you not to place undue reliance on these non-GAAP financial measures.
