

Jacobs Fiscal Third Quarter Earnings Results

August 1, 2022

Disclaimer

Forward-Looking Statement Disclaimer

Certain statements contained in this presentation constitute forward-looking statements as such term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such statements are intended to be covered by the safe harbor provided by the same. Statements made in this press release that are not based on historical fact are forward-looking statements. When used herein, words such as “expects,” “anticipates,” “believes,” “seeks,” “estimates,” “plans,” “intends,” “future,” “will,” “would,” “could,” “can,” “may,” and similar words are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements regarding our expectations as to our future growth, prospects, financial outlook, and business strategy for fiscal 2022 or future fiscal years, including our expectations for our fiscal year 2022 to 2024 organic targets; fiscal 2022 adjusted cash conversion; our fourth quarter adjusted EPS, adjusted EBITDA, revenue growth, adjusted operating profit to net revenue, CMS operating profit margin, and G&A expenses; our fourth quarter and fiscal 2023 gross margins; PA Consulting’s fourth quarter operating profit and revenue growth; and the impact of foreign currency translation on our fiscal 2022 financial outlook. Although such statements are based on management’s current estimates and/or expectations, and currently available competitive, financial, and economic data, forward-looking statements are inherently uncertain, and you should not place undue reliance on such statements as actual results may differ materially. We caution the reader that there are a variety of risks, uncertainties and other factors that could cause actual results to differ materially from what is contained, projected or implied by our forward-looking statements. Such factors include our ability to execute on our newly-announced three-year corporate strategy, including our ability to invest in the tools needed to fully implement our strategy, competition from existing and future competitors in our target markets, our ability to achieve the cost-savings and synergies contemplated by our recent acquisitions within the expected time frames and to successfully integrate acquired businesses while retaining key personnel, the impact of the COVID-19 pandemic, including the emergence and spread of variants of COVID-19, and any resulting economic downturn on our results, prospects and opportunities, measures or restrictions imposed by governments and health officials in response to the pandemic, the timing of the award of projects and funding under the Infrastructure Investment and Jobs Act, financial market risks that may affect the Company’s funding obligations under defined benefit pension and postretirement plans, as well as general economic conditions, including inflation and the actions taken by monetary authorities in response to inflation, changes in interest rates, foreign currency exchange rates, changes in capital markets, and geopolitical events and conflicts, among others. The impact of such matters includes, but is not limited to, the possible reduction in demand for certain of our product solutions and services and the delay or abandonment of ongoing or anticipated projects due to the financial condition of our clients and suppliers or to governmental budget constraints or changes to governmental budgetary priorities; the inability of our clients to meet their payment obligations in a timely manner or at all; potential issues and risks related to a significant portion of our employees working remotely; illness, travel restrictions and other workforce disruptions that have and could continue to negatively affect our supply chain and our ability to timely and satisfactorily complete our clients’ projects; difficulties associated with retaining key employees or hiring additional employees; and the inability of governments in certain of the countries in which we operate to effectively mitigate the financial or other impacts of the COVID-19 pandemic on their economies and workforces and our operations therein. The foregoing factors and potential future developments are inherently uncertain, unpredictable and, in many cases, beyond our control. For a description of these and additional factors that may occur that could cause actual results to differ from our forward-looking statements, see the discussions contained under Item 1 - Business; Item 1A - Risk Factors; Item 3 - Legal Proceedings; and Item 7 - Management’s Discussion and Analysis of Financial Condition and Results of Operations in our most recently filed Annual Report on Form 10-K, and the discussions contained under Part I, Item 2 - Management’s Discussion and Analysis of Financial Condition and Results of Operations; Part II, Item 1 - Legal Proceedings; and Part II, Item 1A - Risk Factors, in our most recently filed Quarterly Report on Form 10-Q, as well as the Company’s other filings with the Securities and Exchange Commission. The Company is not under any duty to update any of the forward-looking statements after the date of this presentation to conform to actual results, except as required by applicable law.

Non-GAAP Financial Measures

To supplement the financial results presented in accordance with generally accepted accounting principles in the United States (“GAAP”), we present certain non-GAAP financial measures within the meaning of Regulation G under the Securities Exchange Act of 1934, as amended. These measures are not, and should not be viewed as, substitutes for GAAP financial measures. More information about these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found at the end of this presentation. Reconciliation of fiscal year 2024 organic targets for net revenue, adjusted operating profit margin expansion, adjusted operating profit growth, and adjusted return on invested capital, adjusted EPS and adjusted EBITDA for fourth quarter fiscal 2022, and fiscal year 2022 adjusted EBITDA and adjusted cash conversion to the most directly comparable GAAP measure is not available without unreasonable efforts because the Company cannot predict with sufficient certainty all of the components required to provide such reconciliation, including with respect to the costs and charges relating to transaction expenses, restructuring and integration and other non-recurring or unusual items to be incurred in such periods.

Pro Forma Figures

During this presentation, we may discuss comparisons of current period results to prior periods on a pro forma adjusted basis. Prior fiscal periods are presented as if acquisitions and the PA Consulting investment had occurred prior to the comparable periods, as adjusted for the exclusion of restructuring and other related charges and transaction expenses and other adjustments described on the Non-GAAP Financial Measures slides as the end of this presentation. We believe this information helps provide additional insight into the underlying trends of our business when comparing current performance against prior periods.

Today's agenda

Overview

- Strategy and performance update
- PA Consulting review
- Social value impact

Lines of business review

- Critical Mission Solutions
- People & Places Solutions
- PA Consulting

Financial review

- Q3 Fiscal 2022 results
- Balance sheet and cash flow
- Portfolio visibility

Outlook & Summary

Kibiraro Bridge Construction performed by Jacobs and Bridges to Prosperity June 12-24, 2022. Jacobs' team of 11 volunteers travelled to Kigali, Rwanda to work with the local community to build an 80-meter suspended bridge as a safer, all-weather replacement for a flood-prone footbridge. The Jacobs team volunteered their time and fundraising to support the cause: our first Jacobs-sponsored Bridges to Prosperity bridge; the operation was funded through a grant from Collectively, our global giving platform for employees.

Jacobs: Challenging today. Reinventing tomorrow.

Strategy: Boldly Moving Forward

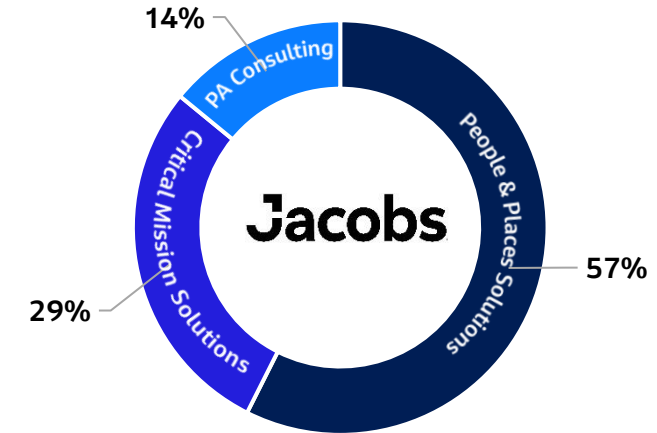

- Culture of inclusion, innovation and inspiration creates competitive advantage
- Diverse sector exposure with recurring revenue provides substantial visibility
- Climate Response, Consulting & Advisory and Data Solutions key accelerators
- Robust organic growth results in healthy balance sheet and strong cash flow

Track record of execution

- Q3 net revenue increased 8% y/y and up 11% in constant currency (cc)
- Adjusted EBITDA up 13% y/y and up 16% y/y cc with margin of 11.4%
- Q3 backlog increased to \$28B, up 10% y/y and up 13% in cc
- PA Consulting Q3 revenue growth of 8.5% y/y and 22% in GBP

Q3 2022 Line of Business Operating Profit

Net Revenue TTM As Reported (\$ in Billions)

Backlog As Reported (\$ in Billions)

Collaborating for a successful partnership

PA Consulting KPIs		Current				Status Update
	Culture and Talent	Number of partners up >20% since investment	Key new hires across operations, research, technology & sales	Launched Women in Leadership Program	Leadership team now 50% women	
	PA Financial Performance	Weighted pipeline up >40% vs prior year	YTD FY22 revenue up 20% in constant currency		YTD FY22 OP margin 21%	
	Operations and Strategy	Launching IP monetization		US growth: new leadership and expanding portfolio		
	Revenue Synergies	~18 joint Jacobs and PA wins		Significant opportunities in Health & Life Sciences, Energy & Utilities and Consumer Products		

Advisory Services accelerating our positive social impact

Our teams are motivated by a common desire to create a better future for all.

Improving healthcare for families

In collaboration with PA, on behalf of a confidential Life Sciences client we are developing a state-of-the-art gene cell therapy facility which will impact the lives of families needing this healthcare.

Jacobs is also developing one of the world's first true healthcare digital twins enabling improvements to patient safety in emergency departments across the US.

Connecting communities

Jacobs was recently appointed as the Great British Railway Transition Team, a critical element of the UK rail reform program to meet the future needs of passengers while tackling decarbonizing the network.

We are partnered with PA, to provide connectivity solutions which support Hampshire's ambitions for economic growth and inclusive communities

Forestry protection

Together with PA we are implementing a monitoring and evaluation framework for England's tree planting program as part of our work with the Department of Environment, Forestry and Rural Affairs.

We're also combining forces with PA to help PG&E underground 10K miles of electrical cables and mitigate future forest fires in California.

Impacting air quality for all

PA is working with Jacobs to help a consortium of investors acquire a stake in the largest green hydrogen business in the Western US. PA will help the clients navigate the multimillion-dollar investment decision. Supporting the move to cleaner energy.

Critical Mission Solutions

Strong base of recurring revenue; new business pipeline margin-accretive

- Multi-year enterprise contracts provide long-term stability
- High-value solutions and efficient cost structure driving margin expansion
- 24-month new business pipeline remains strong at ~\$25B; \$10B awaiting award

Strategy aligned to critical national security, space and energy priorities

- Aligned to high priority areas in space, digital modernization, data, cyber, all-source intelligence, energy transition, environmental restoration, and 5G networks
- Positioned to grow through technology-enabled solutions such as strategic data utilization, space sensors, robotics and intelligent asset management
- NASA JETS II win represents double-digit increase in ceiling value
- 4G network deployment remains strong and 5G growth still in early ramp phase

Recent customer wins

- \$3.9B engineering and science contract for NASA Johnson (Q4 booking)
- \$500M cyber and operational tech services IDIQ for a classified client
- 5G telecom geographic expansion for AT&T in Mid-Atlantic and Western states
- Jacobs/Multiconsult JV to plan Norway's nuclear facility decommissioning

Critical Mission Solutions Snapshot

People & Places Solutions

Deep domain expertise + data-driven solutions + global scale

- Impact of expertise at scale driving differentiated solutions
- Global delivery model benefiting capacity demands and talent utilization
- Transformational projects that leverage our global delivery excellence

Climate Change + Global Infrastructure Modernization + Supply Chain

- Climate, decarbonization and social value gaining momentum across sectors
- U.S. infra pipeline converting into wins with continued grant support
- New research and development leading advancements in the water sector
- \$53B U.S. CHIPS bill incentivizes investment in U.S. semiconductors

Recent customer wins

- Major design for Danish biotech company to address diabetes and obesity
- Advising clean energy transition policies with Asia Development Bank
- Reimagining health care as PM for University of Iowa Hospitals and Clinics
- Streetlight analytics win with CO2 emissions with California Air Quality Board
- Transitioning one of world’s largest bus fleets to zero emissions
- Strengthening western US water supply with New Mexico Water Utility Authority

People & Places Solutions Snapshot (Net Revenue Q3 2022)

U.S. / International	65% / 35%
Public / Private Sector	62% / 38%
Reimbursable and Lower Risk Fixed Price Services	~94%
Talent Force	~37k

PA Consulting

Unique combination of outcome-driven strategic and digital consulting

- End-to-end innovation by combining strategists, scientists and digital experts
- Deep industry expertise across a diverse set of sectors and customers

Bringing Ingenuity to Life to build a positive human future

- Purpose-driven strategy to address our clients' biggest challenges
- Well positioned for growth in various macro-economic scenarios
- Proprietary technology offerings
 - Oakdoor - cyber appliance for segmented network security
 - iPredict - AI system for predicting failures in critical electricity distribution
 - Pulpac – exclusive development partnership for sustainable packaging

Recent customer wins

- Growth strategy creation for Green Boom, an oil spill start up
- Innovating cell and gene therapy manufacturing with Ori Biotech
- Collaboration to rethink plastic waste for Cambridge University NHS Hospitals and Mid and South Essex Foundation Trust
- Digitizing and improving customer experience at Trafikverket, the Swedish Transport Authority

Fiscal 2022 Q3 results

Revenue up 7% y/y, Net Revenue up 8% y/y and up 11% pro forma in constant currency

GAAP Operating Profit (OP) of \$266M and OP Margin of 6.9%

Adj. OP of \$327M up 4% and up 8% in constant currency; Net Revenue Adj. OP Margin of 10.3%

GAAP Net Earnings from Continuing Operations of \$196M

GAAP EPS from Continuing Operations of \$1.52, includes \$0.08 benefit from sale of WatchGuard investment reflected in other income, impacted by:

- \$(0.27) of expense net of NCI related to the amortization of acquired intangibles
- \$(0.04) of transaction related costs
- \$(0.02) restructuring and other related costs
- \$(0.01) tax adjusted to align to effective tax rate

Adj. EPS of \$1.86 up 13% y/y,

Adjusted EBITDA of \$363M, up 13% y/y and up 16% in constant currency

Adjusted EBITDA was 11.4% as a percentage of Net Revenue

Q3 revenue book-to-bill 1.1x

Improving pediatric care for all

“Through our collaboration with the American Academy of Pediatrics, we developed a national registry of pediatric data – transforming healthcare for the nation’s children. Our involvement in projects like this enables us to directly support the work being done to tackle health issues such as high rates of child obesity or high infant mortality rates.”

Nilesh Chandra
PA Consulting Healthcare Expert

Segment financials

Putting people first

"Our approach to traffic data analysis, using StreetLight data analytics, enables cities to prioritize their investment in the areas where they can have the biggest impact – like Pittsburgh, where they are making their streets safer for pedestrians and cyclists."

Laura Schewel, PhD
Streetlight Data Founder

Balance sheet and cash flow

Continued strong cash flow generation

- Q3 cash flow from operations (CFFO) (\$249M) and FCF¹ of (\$281M); includes net one-time cash impacts of \$490M related to \$480 Inpex legal matter and other items
- Quarterly DSO of up half a day compared to Q3 FY21
- On track to achieve >100% FY22 adj. FCF to adj. net income

Balance sheet strength affords capital deployment

- Executed \$200M of share repurchases during Q3
- Q4 dividend of \$0.23/share and increase of 10% y/y, to be paid August 26, 2022

Robust cash flow enables financial flexibility

- Q3 cash and equivalents of \$1.1B and gross debt of \$3.6B; net debt of \$2.5B resulting in 1.8x of net debt to FY22E adjusted EBITDA
- Even with \$480M Inpex legal matter settlement and \$200M+ of capital deployment, gross leverage only increased <0.2x

Q3 Leverage Metrics (\$ billions)	FY22 Q3
Q3 Net Debt Position	\$2.5B
Q3 net debt to adjusted FY22E EBITDA	1.8x*
Fixed/Floating Mix	40%/60%
Weighted average interest rate	2.4%

Biomimicry and nature-based solutions

"We are drawing on principles of biomimicry as we design our cities and communities. I am especially proud of our work at Tyndall Airforce Base where we are applying nature-based solutions for dune management and other measures in collaboration with the Nature Conservancy and the US Army Corps of Engineers."

Monte Wilson
Global Market Director, Cities & Places

Outlook & Summary

Updating Fiscal 2022 Outlook

- Diverse portfolio with significant recurring revenue provides ability to grow under multiple economic scenarios
- Expect fiscal fourth quarter adjusted EBITDA of \$340M to \$360M and adjusted EPS of \$1.75 to \$1.85
- Since providing original fiscal 2022 outlook in November, FX translation impacted revenue by ~\$320M, adjusted EBITDA by ~\$40M and adjusted EPS by ~\$0.20
- Remain committed to double-digit multi-year earnings growth driven by accelerating revenue, strong backlog and robust global sales pipeline, consistent with our strategic accelerators

Additional Metrics

\$ Billions	
Q4 fully diluted average share count	129M
FY22 effective tax rate	~22%
Annual CAPEX	~1% of net revenue

Enhancing city living

“We continue to drive social value through our Simetrica-Jacobs partnership. Our work for the city of Edinburgh identified \$350M of wellbeing benefits alone, including decreased congestion and improved public spaces to deliver the council's vision of a vibrant and people-focused capital city.”

Donald Morrison
SVP & General Manager Europe

**Challenging today.
Reinventing tomorrow.**

Our passion and commitment to take immediate action on climate change comes from our leadership and our 55,000 employees who, together, are pushing the limits of what's possible by creating sustainable solutions that leave no one behind.

We do things right.

We challenge the accepted.

We aim higher.

We live inclusion.

Jacobs – Company Overview

- Jacobs provides a full spectrum of professional services to solve the world’s most critical problems by turning abstract ideas into realities that transform the world for good
- Deep global domain knowledge – applied together with the latest advances in technology – are why customers large and small choose to partner with Jacobs
- Jacobs operates in three segments: Critical Mission Solutions (CMS) and People & Places Solutions (P&PS), its majority investment in PA Consulting

Employees: 55,000
~\$6B of ESG related revenue

¹ Excludes PA Consulting
²Fiscal year 2018 net revenue and adjusted EBITDA includes CH2M as if it closed at beginning of the fiscal year 10/1/2017 vs 12/7/2017

Office of Global Climate Response and Environmental, Social & Governance (ESG)

Energy Transition

- Clean energy generation
- Grid modernization & energy storage
- Water-energy nexus

Decarbonization

- Clean & smart mobility
- Net zero buildings & campuses
- Business & industrial decarbonization

Adaptation & Resilience

- Climate risk & vulnerability assessments
- Asset & infrastructure resilience
- Disaster planning, response & recovery

Natural Resource Stewardship

- Integrated water management
- Nature-based solutions
- Circular economy

ESG Business Transformation

- Sustainable business strategies
- Social value & equity
- Governance

Climate Response

Climate change: the greatest challenge and opportunity of our generation

"With our future in the balance, the planning, commitments and sustainability steps we take today are critical to leading the world to a more climate-resilient existence for generations to come."

Jan Walstrom
SVP, Office of Global Climate Response & ESG

Delivering sustainable solutions

Member of Dow Jones Sustainability™
North America Index
Nature-based Solutions

Sidmouth Amphitheatre, UK: in partnership with Devon County Council and SWH, Jacobs transformed a stormwater management design project to create the added benefit of an environmentally-sensitive, climate-resilient asset, which also functions as a performance and community space.

Sustainable Master Planning

Patrón, Mexico: in partnership with PA Consulting, Jacobs developed a framework for sustainable facility modernization and operations that incorporates circular economy solutions for de-risking the Hacienda Patrón tequila distillery supply chain and helping the company achieve net-zero waste and carbon reduction goals.

Net Zero Campus

Sandia National Laboratories, CA: roadmap and technical planning with Brightworks at Sandia's Livermore campus to achieve net zero GHG emissions and net zero energy consumption, including a conceptual model that allows critical infrastructure to operate in "island mode" powered by emission free sources, including storage.

Climate Risk Reporting

Dŵr Cymru Welsh Water: Jacobs applied the Task Force on Climate-Related Financial Disclosures (TCFD) framework to enable Welsh Water to undertake their own assessment of physical and transitional climate-related financial risks and opportunities, supporting the utility's transition to a net zero future.

Nuclear Decommissioning

Norsk Nukleær Dekommisjonering: a joint venture between Jacobs and Multiconsult Norge AS has been selected to plan the decommissioning of Norway's nuclear fuel and materials testing reactor at Halden and the JEEP-II neutron scattering facility at Kjeller.

Environmental Restoration

Air National Guard, Burlington, VT: Jacobs received the General Thomas D. White Restoration Award for remedial measures at six restoration program sites, including the design and build of a time-critical treatment system to minimize migration of PFAS to offsite groundwater.

Clean Energy Permitting

Multi-national Renewable Energy Company: environmental permitting for wind, solar and geothermal projects across California, Oregon, Washington, Wyoming, Nevada, Arizona, Hawaii, Alaska, and Montana.

Energy & Carbon Consulting

NHS Scotland: Jacobs, in conjunction with Energy Systems Catapult, is providing energy and carbon consulting service to NHS, the publicly funded healthcare system in Scotland, to meet its major healthcare facility net-zero targets.

Environmental, Social & Governance Summary

A sustainable business model aligning purpose and vision with both growth and positive impact:

- Fully integrates purpose with profit and operationalizes sustainability across all aspects of our business
- Drives how we can have the largest positive impact for society as a business
- Leverages Jacobs' full suite of solutions to play a key role in advancing a net zero economy
- Achieved industry leading ISS Prime Status for our ESG corporate rating
- FY21 annualized ESG related revenue ~\$6 billion or > 45% of the company's revenue
- Jacobs supports governmental clients in the delivery of critical missions which keep their citizens safe from nuclear attack, prevent large scale war, and defend their global allies and partners. Jacobs does this by assisting governmental organizations to safely deliver their mission-critical infrastructure and tailored solutions in complex environments around the world.
- Jacobs does not manufacture nuclear warheads nor nuclear weapons components.

Sector description

Markets	Definitions
Infrastructure	<p>Addresses global national governments' focus on modernizing aging infrastructure and post-pandemic economic stimulus. As an example, over 80% of the \$550B US Infrastructure Investment and Jobs Act is aligned with our Infrastructure markets (Water, Transportation, Telecom), with a further ~12% aligned with other Jacobs markets (Energy & Environment, Advanced Manufacturing).</p> <p><i>Capitalizes on Jacobs' advanced design, engineering, program management, urban and transportation planning, scientific and technology services.</i></p>
National Security	<p>Encompasses solutions for public and private sector institutions, systems, and programs that serve to create, secure, and defend national interests and infrastructure against foreign and domestic threats across multiple domains.</p> <p><i>Leverages Jacobs leading capabilities and deep expertise in cyber, intelligence, defense, analytics, geospatial technology, and threat protection.</i></p>
Advanced Manufacturing	<p>Captures the supercycle in electronics in response to the global supply chain disruption affecting the full range of specialized manufacturing sectors.</p> <p><i>Differentiating capabilities include Jacobs' highly advanced design and engineering in the electrification ecosystem, data centers, and semiconductor manufacturing – deployed through a global integrated delivery platform.</i></p>
Health & Life Sciences	<p>Underpinned by the aging population and ever-increasing health equity and access concerns, this market focuses on the growth of digital health and need for increased speed-to-market of new medicines – resulting in increased contract manufacturing to respond to demand for enhanced health system readiness.</p> <p><i>Jacobs' deep subject matter expertise across diverse scientific, infrastructure, environmental and digital domains in biopharmaceutical manufacturing, health governance, health infrastructure, and operations advisory provides market differentiation and distinct competitive advantage.</i></p>
Energy & Environment	<p>Centered on responding to global challenges driven by climate change, urbanization, resource scarcity, digital proliferation and energy security, including the global energy diversification and transition efforts by both public and private sector clients in response to the shift from fossil fuel to clean and renewable energy sources.</p> <p><i>As the world's largest environmental consulting firm – and backed by decades of cross-market delivery in natural sciences and engineering – Jacobs is at the forefront of solving the planet's most critical environmental challenges from impact assessment and natural systems modeling to remediation and compliance.</i></p>
Cities & Places	<p><i>Recognizes the need for holistic, balanced urban and placemaking solutions around the globe.</i></p> <p><i>Jacobs integrates and leverages data, technology, mobility and connectivity to improve economic and social equity, and overall resiliency of cities and communities, and includes combined domain expertise from strategic planning, architecture, design, engineering, natural sciences, and the arts.</i></p>
Space	<p>Represents an industry at an inflection point: government and private sector space agencies worldwide are experiencing widespread industry disruption and innovation.</p> <p><i>Jacobs delivers high-end solutions for remote sensing and earth observation, intelligence gathering, communications and navigation, and space-enabled science and exploration through its decades of experience and capabilities in scientific, engineering, and technology innovation.</i></p>

Use of Non-GAAP financial measures and operating metrics

Net revenue is calculated excluding pass-through revenue of the Company's People & Places Solutions segment from the Company's revenue from continuing operations. Adjusted net earnings from continuing operations, adjusted EPS from continuing operations, adjusted operating profit and adjusted operating profit margin are calculated by (i) excluding costs and other charges associated with restructuring activities implemented in connection with the acquisitions of CH2M, John Wood Group nuclear business, BlackLynx, Buffalo Group and StreetLight Data, the strategic investment in PA Consulting, the sale of the ECR business and other related cost reduction initiatives, which included involuntary terminations, costs associated with co-locating offices of acquired companies, separating physical locations of ECR and continuing operations, professional services and personnel costs, expenses relating to certain commitments and contingencies relating to discontinued operations of the CH2M business, including the final settlement charges relating to the Legacy CH2M Matter, net of previously recorded reserves; (ii) excluding the costs and other charges associated with our Focus 2023 transformation initiatives, which included costs and charges associated with the re-scaling and repurposing of physical office space, voluntary employee separations, contractual termination fees and related expenses (the amounts referred in (i) and (ii) are collectively referred to as the "Restructuring and other charges"); (iii) excluding transaction costs and other charges incurred in connection with closing of Buffalo Group, BlackLynx and StreetLight Data acquisitions and the strategic investment in PA Consulting, including advisor fees, change in control payments, certain consideration amounts for PA Consulting that were required to be treated as post-completion compensation expense given retention related requirements applicable to the distribution of such funds to PA Consulting employees, and impacts resulting from the non-cash purchase accounting adjustment related to the investment in PA Consulting to reflect a change in the preliminary purchase price allocation for the redeemable non-controlling interests, the impact of the quarterly adjustment to the estimated future payout of contingent consideration to the sellers in connection with acquisitions, certain equity based compensation expenses associated with PA Consulting's benefit programs, and similar transaction costs and expenses (collectively referred to as "transaction costs"); (iv) adding back amortization of intangible assets; (v) the removal of fair value adjustments and dividend income related to the Company's investments in Worley and C3 stock and certain foreign currency revaluations relating to ECR sale proceeds; (vi) excluding charges resulting from the revaluation of certain deferred tax assets/liabilities in connection with tax rate increases in the United Kingdom during fiscal 2021; (vii) charges associated with the impairment of our investment in AWE; (viii) charges to interest expense associated with one-time deal related bank fees; (ix) certain non-routine income tax adjustments for the purposes of calculating the Company's annual non-GAAP effective tax rate to facilitate a more meaningful evaluation of the Company's current operating performance and comparisons to the Company's operating performance in other periods; and (x) other income tax adjustments associated with the pre-tax income adjustments above. Adjustments to derive adjusted net earnings from continuing operations, and adjusted EPS from continuing operations are calculated on an after-tax basis.

Adjusted EBITDA, and the resulting calculation of adjusted EBITDA margin, is calculated by adding income tax expense, depreciation expense and adjusted interest expense, and deducting interest income from adjusted net earnings from continuing operations. Free cash flow is calculated using the reported statement of cash flows, provided from operations less additions to property and equipment. Adjusted cash conversion is the ratio of adjusted free cash flow to adjusted net earnings from continuing operations (calculated as previously described). Adjusted free cash flow is calculated by taking cash flow from operations, subtracting capital expenditures, and then adjusting for other one-time charges and receipts to the extent such items are not included in adjusted net earnings from continuing operations. The Company's year-over-year revenue growth rate is presented on a constant currency basis, which provides information on the percentage change in revenue assuming that foreign currency exchange rates have not changed between the prior and current periods. For purposes of constant currency calculations, we use the prior period average exchange rates as applied to the current period reported amounts.

We believe that the measures listed above are useful to management, investors and other users of our financial information in evaluating the Company's operating results and understanding the Company's operating trends by excluding or adding back the effects of the items described above and below, the inclusion or exclusion of which can obscure underlying trends. Additionally, management uses such measures in its own evaluation of the Company's performance, particularly when comparing performance to past periods, and believes these measures are useful for investors because they facilitate a comparison of our financial results from period to period.

This presentation also contains certain operating metrics which management believes are useful in evaluating the Company's performance. We regularly monitor these operating metrics to evaluate our business, identify trends affecting our business, and make strategic decisions. Backlog Revenue is the total dollar amount of revenues we expect to record in the future as a result of performing work under contracts that have been awarded to us. Backlog Gross Profit is the gross profit associated with the backlog contract. Book-to-bill ratio is an operational measure representing the ratio of change in revenue backlog since the prior quarterly reporting period plus reported revenue for the reporting period to the reported revenues for the same period.
