

2017 Investor Presentation

Q4

Arto

ARGO GROUP

Forward-Looking Statements

This presentation may include forward-looking statements, both with respect to Argo Group and its industry, that reflect our current views with respect to future events and financial performance. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as "expect," "intend," "plan," "believe," "do not believe," "aim," "project," "anticipate," "seek," "will," "likely," "assume," "estimate," "may," "continue," "guidance," "objective," "outlook," "trends," "future," "could," "would," "should," "target," "on track," and similar expressions of a future or forward-looking nature. All forward-looking statements address matters that involve risks

and uncertainties, many of which are beyond Argo Group's control.

Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements. We believe that these factors include, but are not limited to, the following:

1) unpredictability and severity of catastrophic events; 2) rating agency actions; 3) adequacy of our risk management and loss limitation methods; 4) cyclicalities of demand and pricing in the insurance and reinsurance markets; 5) statutory or regulatory developments including tax policy, reinsurance and other regulatory matters; 6) our ability to implement our business strategy; 7) adequacy of our loss reserves; 8) continued availability of capital and finance; 9) retention of key personnel; 10) competition; 11) potential loss of business from one or more major insurance or reinsurance brokers; 12) our ability to implement, successfully and on a timely basis, complex infrastructure, distribution capabilities, systems, procedures, and internal controls, and to develop accurate actuarial data to support the business and regulatory and reporting requirements; 13) general economic and market conditions (including inflation, volatility in the credit and capital markets, interest rates, and foreign currency exchange rates); 14) the integration of businesses we may acquire or new business ventures we may start;

15) the effect on our investment portfolios of changing financial market conditions including inflation, interest rates, liquidity and other factors; 16) acts of terrorism or outbreak of war; and 17) availability of reinsurance and retrocessional coverage, as well as management's response to any of the aforementioned factors.

In addition, any estimates relating to loss events involve the exercise of considerable judgments and reflect a combination of ground-up evaluations, information available to date from brokers and pedants, market intelligence, initial tentative loss reports, and other sources. The actuarial range of reserves and management's best estimate is based on our then-current state of knowledge including explicit and implicit assumptions relating to the pattern of claim development, the expected ultimate settlement amount, inflation and dependencies between lines of business. Our internal capital model is used to consider the distribution for reserving risk around this best estimate and predict the potential range of outcomes. However, due to the complexity of factors contributing to the losses and preliminary nature of the information used to prepare these estimates, there can be no assurance that Argo Group's ultimate losses will remain within the stated amount.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors included in our most recent reports on Form 10-K and Form 10-Q and other documents of Argo Group on file with or furnished to the U.S. Securities and Exchange Commissions ("SEC"). Any forward-looking statements made in this presentation are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Argo Group will be realized, or even if substantially realized, that they will have the expected consequences to, or effects on, Argo Group or its business or operations. Except as required by law, Argo Group undertakes no obligation to update publicly or revise forward-looking statements, whether as a result of new information, future developments or otherwise.

Leading Specialty Platform

Argo Franchise Overview

- **Global underwriter of specialty insurance and reinsurance**
- **Strategically located in major insurance centers**
 - New York
 - Atlanta

Portfolio Rationalization

Argo has maintained a track record of making thoughtful decisions to improve performance within existing product lines; Below are examples of prior portfolio rationalization that is now evident in financial results

Differentiated Approach to Digital Innovation

Through iterative tech product development, investments and partnerships, we leverage advancements in digital technology to enhance customer intimacy, increase automation, improve risk selection and enter new markets.

How we are organized

- Cross-functional product squads, each focused on solving a particular user-focused pain point
- Squads are comprised of product owners, engineers, data scientists, and designers
- Early-stage investment team with investing, operating, and industry expertise

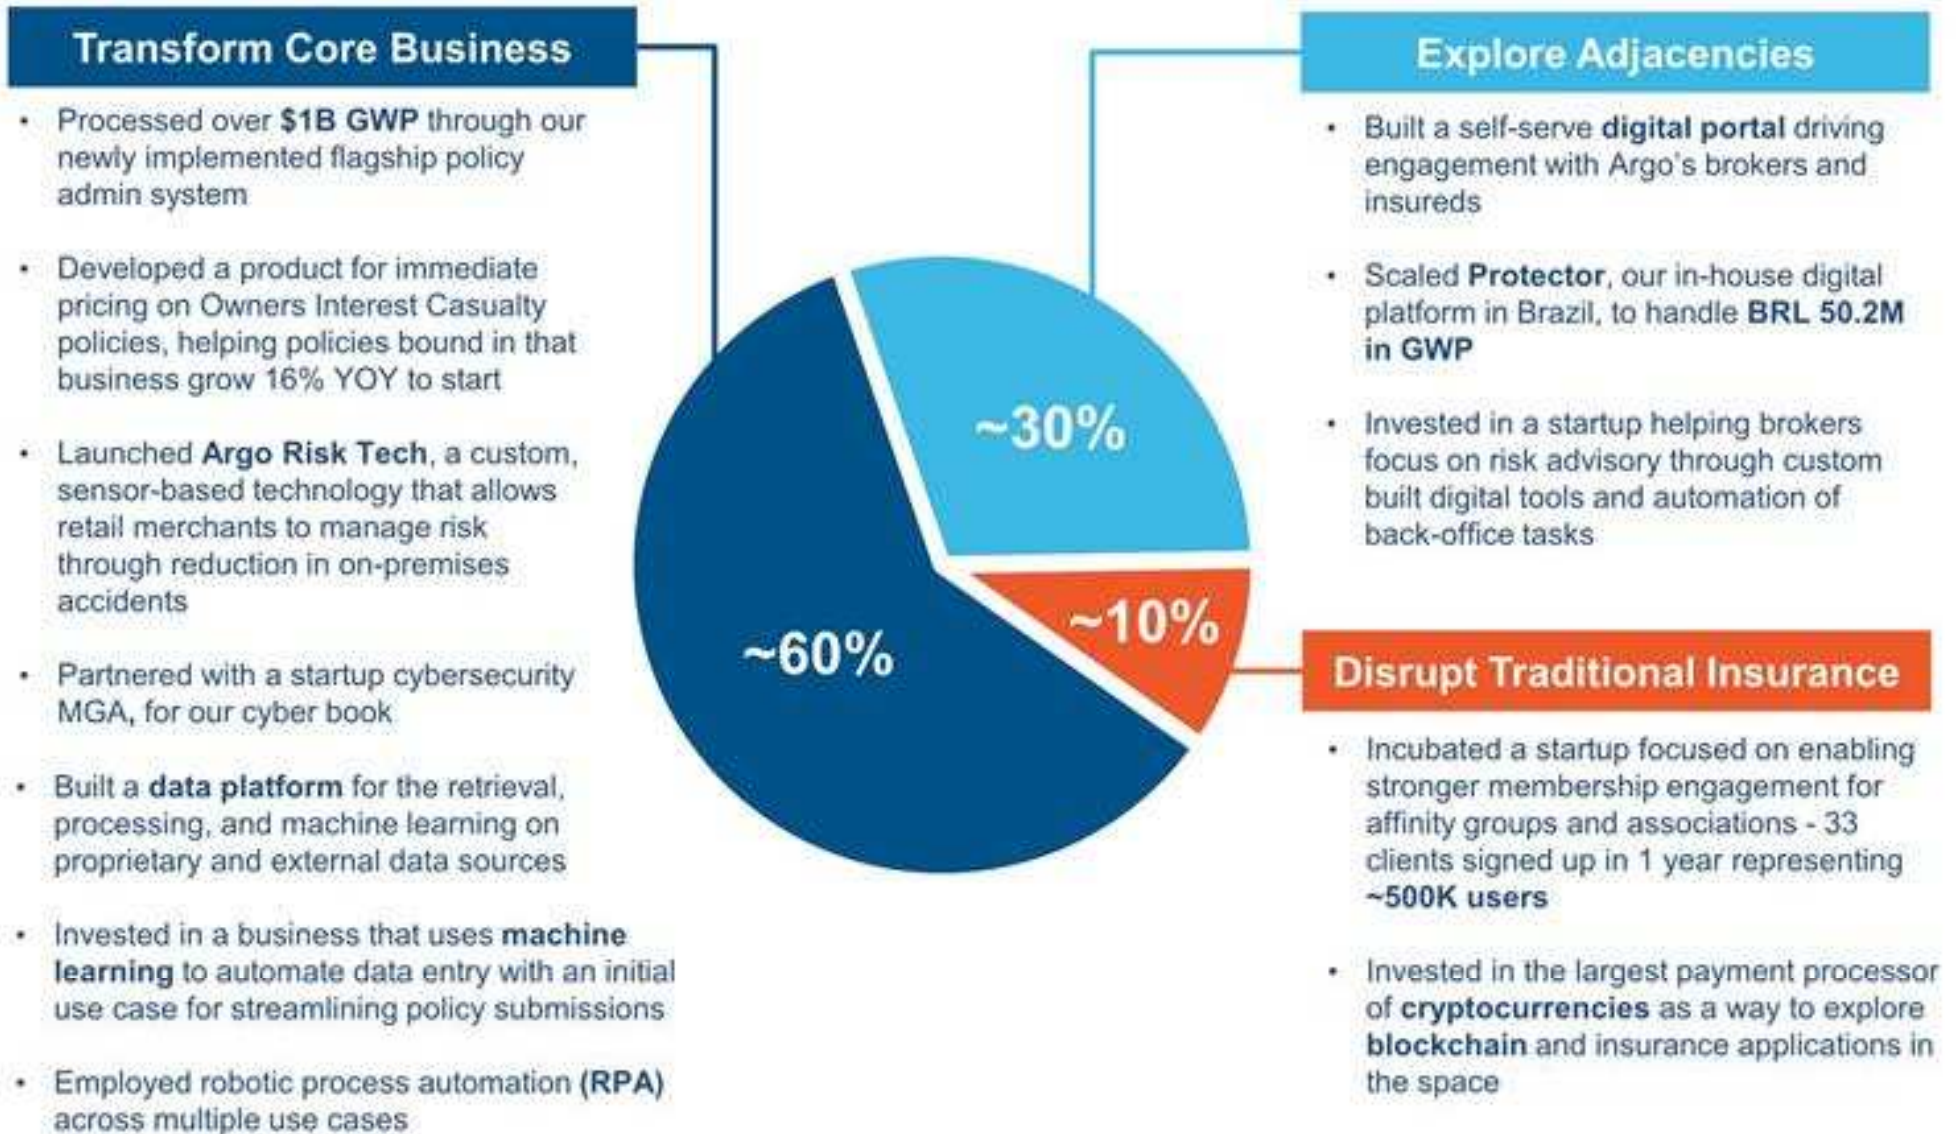

How we work

- Hypothesis-driven, iterative approach to building digital products
- Prioritize opportunities that can generate 2x-10x return on invested capital
- Decisions grounded in a bottom-up, internally developed thesis on how technology will impact the commercial insurance ecosystem
- Partner with and invest in external ventures that can further enable our Digital approach

What we aim to achieve

- Leverage new data sources, machine learning, and predictive analytics to enable faster and smarter underwriting
- More efficiently, with regards to both time and cost, connect to distribution partners digitally
- Automate internal processes and workflows
- Explore emerging tech-enabled categories

2017 Peer CAT Losses Summary

Argo Pro Forma: represents 2018's single coordinated reinsurance program – inwards and outward – which significantly reduces volatility

Resulting losses reduced from \$126M to \$81M on a pro forma basis

Note: Peers shown include relevant companies that have reported 2017 full year results

Superior Loss Ratios Compared to Peers

Continued focus on cycle management and underwriting discipline has provided Argo Group with best in class loss ratios

Argo Group

Peer Median

Source: SNL Financial

Note: Argo 2017 loss ratio includes 8.1% CAT losses. Peer Group consists of: Alleghany, American Financial, AmTrust (Q3'17), Arch Capital, Asper, Axis, Baldwin & Lyons, Global Indemnity, Hallmark (Q3'17), Hanover, James River, Market, Navigators, RLI, Selective, Validus and W.R. Berkley.

Long-Term Favorable Reserve Development

\$392⁽¹⁾ million of cumulative favorable development since 2005 reflects Argo Group's prudent reserving philosophy

(1) Excludes Q1 adverse development of \$4.5 million from the Ogden rate change and \$4.9 million from late reported Hurricane Matthew claims

Active Capital Management

Through share repurchases and dividends, Argo has returned \$574 million of capital to shareholders from 2010 through 2017

- **Management has prudently repurchased shares at a meaningful discount to book value**

- Repurchases have exceeded the amount of shares issued in PXRE transaction (8.2 million¹ shares were issued at 1.35x book value)
- Transactions have been accretive to book value

- **February 2018, Argo announced a 15% stock dividend**

	2010	2011	2012	2013	2014	2015	2016	2017	2010-2017 Total

Stock Price Performance – Last 3 Years

Source: SNL Financial (as of 3/1/18).

Note: Peer Group consists of: Alleghany, American Financial, AmTrust, Arch Capital, Aspen, Axis, Baldwin & Lyons, Global Indemnity, Hallmark, Hanover, Markel, Navigators, RLI, Selective, Validus and W.R. Berkley

Well Positioned for Value Creation in 2018 and Beyond

We believe that Argo Group will generate substantial value for new and existing investors

Operations

- Results of underwriting discipline evident operating results
- Best in class loss ratios
- Incremental underwriting margin and yield improvements as well as a balanced investment portfolio should favorably impact ROE going forward
- Continue to employ and attract some of the best talent both in the insurance and technology industries
- Integration of Ariel Re complete and expected to yield benefits across Argo's platform
- Continue to develop and deploy latest technologies to solve meaningful pain points

Capital

- Moderate financial leverage
- Strong balance sheet with 13 years of overall redundant loss reserves
- Strong track record of disciplined capital management and opportunistic M&A strategy

Valuation

- Compelling investment case, trading at a price/book of 1.0x versus peers at 1.4x
- Stock trading at a discount to peers notwithstanding similar returns
 - Argo's four year average ROE is 8.1% versus peer average of 8.0%¹

(1) Peer Group consists of: Alleghany, American Financial, Amtrust, Arch Capital, Aspen, Axis, Baldwin & Lyons, Global Indemnity, Hallmark, Hanover, James River, Markel, Navigators, RLI, Selective, Validus and W.R. Berkley
