What Are The Risks?

All investments involve risks, including possible loss of principal. Fixed income securities involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. **Changes in the credit rating of a bond**, or in the credit rating or financial strength of a bond's issuer, insurer or guarantor, may affect the bond's value. An investor may be subject to the federal **Alternative Minimum Tax**, and state and local taxes may apply. These and other risks are discussed in the fund's prospectus.

- a. The total annual operating expenses are as of the fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.
- b. Performance quotations for this class reflect the following methods of calculation: a) For periods prior to the fund's Advisor Class inception date, a restated figure is used based on the fund's oldest share class, Class A1 performance, excluding the effect of Class A1's maximum initial sales charge but reflecting the effect of the Class A1 Rule 12b-1 fees; and for periods after the fund's Advisor Class inception date, actual Advisor Class performance is used, reflecting all charges and fees applicable to that class.
- c. Effective 09/10/2018 Class A shares closed to new investors, were renamed Class A1 shares, and a new Class A share with a different expense structure became available.
