

LPL FINANCIAL HOLDINGS INC. Q2 2023 INVESTOR PRESENTATION

July 27, 2023

Notice to Investors: Safe Harbor Statement

Statements in this presentation regarding LPL Financial Holdings Inc.'s (together with its subsidiaries, the "Company") future financial and operating results, growth, priorities, business strategies, capabilities, and outlook, including forecasts and statements relating to the Company's future advisory and brokerage asset levels and mix, organic asset growth, market share, deposit betas, core G&A* expenses (including outlook for 2023), service offerings, operating margin, Gross Profit* benefits, EBITDA* benefits, target leverage ratio, client cash balances and yields, service and fee revenue, investments, acquisitions (including Liquidity & Succession transactions), capital returns, planned share repurchases, the anticipated closing of pending transactions, and the amount and timing of the onboarding of acquired or recruited brokerage and advisory assets, as well as any other statements that are not related to present facts or current conditions or that are not purely historical, constitute forward-looking statements. They reflect the Company's expectations and objectives as of July 27, 2023 and are not guarantees that the expectations or objectives expressed or implied will be achieved. The achievement of such expectations and objectives involves risks and uncertainties that may cause actual results, levels of activity or the timing of events to differ materially from those expressed or implied by forward-looking statements. Important factors that could cause or contribute to such differences include: difficulties and delays in onboarding acquired or recruited assets; changes in general economic and financial market conditions, including retail investor sentiment; changes in interest rates and fees payable by banks participating in the Company's client cash programs, including the Company's strategy and success in managing client cash program fees; changes in the growth and profitability of the Company's fee-based offerings; fluctuations in the levels of advisory and brokerage assets, including net new assets, and the related impact on revenues; effects of competition in the financial services industry and the success of the Company in attracting and retaining financial advisors and enterprises; whether the retail investors served by newly-recruited advisors choose to move their respective assets to new accounts at the Company; the effect of current, pending and future legislation, regulation and regulatory actions, including disciplinary actions imposed by federal and state regulators and self-regulatory organizations; the costs of settling and remediating issues related to regulatory matters or legal proceedings, including actual costs of reimbursing customers for losses in excess of our reserves; changes made to the Company's services and pricing, and the effect that such changes may have on the Company's Gross Profit* streams and costs; the execution of the Company's plans and its success in realizing the synergies, expense savings, service improvements and efficiencies expected to result from its initiatives, acquisitions and programs; the failure to satisfy the closing conditions applicable to pending transactions; and the other factors set forth in the Company's most recent Annual Report on Form 10-K, as may be amended or updated in the Company's Quarterly Reports on Form 10-Q or other filings with the Securities and Exchange Commission. Except as required by law, the Company specifically disclaims any obligation to update any forward-looking statements as a result of developments occurring after July 27, 2023 and you should not rely on statements contained herein as representing the Company's view as of any date subsequent to July 27, 2023.

THIS PRESENTATION INCLUDES DATA AS OF JUNE 30, 2023, UNLESS OTHERWISE INDICATED.

Notice to Investors: Non-GAAP Financial Measures

Management believes that presenting certain non-GAAP financial measures by excluding or including certain items can be helpful to investors and analysts who may wish to use this information to analyze the Company's current performance, prospects and valuation. Management uses this non-GAAP information internally to evaluate operating performance and in formulating the budget for future periods. Management believes that the non-GAAP financial measures and metrics discussed herein are appropriate for evaluating the performance of the Company. **Specific Non-GAAP financial measures have been marked with an asterisk (*) within this presentation. Reconciliations and calculations of such measures can be found in the appendix of this presentation.**

Adjusted EPS is defined as adjusted net income, a non-GAAP measure defined as net income plus the after-tax impact of amortization of other intangibles and acquisition costs, divided by the weighted average number of diluted shares outstanding for the applicable period. The Company presents adjusted net income and adjusted EPS because management believes that these metrics can provide investors with useful insight into the Company's core operating performance by excluding non-cash items and acquisition costs that management does not believe impact the Company's ongoing operations. Adjusted net income and adjusted EPS are not measures of the Company's financial performance under GAAP and should not be considered as alternatives to net income, earnings per diluted share or any other performance measure derived in accordance with GAAP. For a reconciliation of net income and earnings per diluted share to adjusted net income and adjusted EPS, please see the appendix of this presentation.

Gross profit is calculated as total revenue less advisory and commission expense; brokerage, clearing and exchange expense; and market fluctuations on employee deferred compensation. All other expense categories, including depreciation and amortization of property and equipment and amortization of other intangibles, are considered general and administrative in nature. Because the Company's gross profit amounts do not include any depreciation and amortization expense, the Company considers gross profit to be a non-GAAP financial measure that may not be comparable to similar measures used by others in its industry. Management believes that gross profit can provide investors with useful insight into the Company's core operating performance before indirect costs that are general and administrative in nature. For a calculation of gross profit, please see the appendix of this presentation.

Core G&A consists of total expense less the following expenses: advisory and commission; depreciation and amortization; interest expense on borrowings; brokerage, clearing and exchange; amortization of other intangibles; market fluctuations on employee deferred compensation; loss on extinguishment of debt; promotional (ongoing); employee share-based compensation; regulatory charges; and acquisition costs. Management presents core G&A because it believes core G&A reflects the corporate expense categories over which management can generally exercise a measure of control, compared with expense items over which management either cannot exercise control, such as advisory and commission, or which management views as promotional expense necessary to support advisor growth and retention, including conferences and transition assistance. Core G&A is not a measure of the Company's total expense as calculated in accordance with GAAP. For a reconciliation of the Company's total expense to core G&A, please see the appendix of this presentation. The Company does not provide an outlook for its total expense because it contains expense components, such as advisory and commission, that are market-driven and over which the Company cannot exercise control. Accordingly a reconciliation of the Company's outlook for total expense to an outlook for core G&A cannot be made available without unreasonable effort.

EBITDA is defined as net income plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles. The Company presents EBITDA because management believes that it can be a useful financial metric in understanding the Company's earnings from operations. EBITDA is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP. For a reconciliation of net income to EBITDA, please see the appendix of this presentation.

Credit Agreement EBITDA is defined in, and calculated by management in accordance with, the Company's amended and restated credit agreement ("Credit Agreement") as "Consolidated EBITDA," which is consolidated net income (as defined in the Credit Agreement) plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles, and is further adjusted to exclude certain non-cash charges and other adjustments, including unusual or non-recurring charges and gains, and to include future expected cost savings, operating expense reductions or other synergies from certain transactions. The Company presents Credit Agreement EBITDA because management believes that it can be a useful financial metric in understanding the Company's debt capacity and covenant compliance under its Credit Agreement. Credit Agreement EBITDA is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP. For a reconciliation of net income to Credit Agreement EBITDA, please see the appendix of this presentation.

THIS PRESENTATION INCLUDES DATA AS OF JUNE 30, 2023, UNLESS OTHERWISE INDICATED.

LPL investment highlights

- 1 Industry leader in the advisor-mediated marketplace with scale and structural tailwinds
- 2 Horizontal expansion strategy with a goal of meeting all ~300,000 advisors where they are
- 3 Significant capacity to invest in vertical integration capabilities that enhance the advisor value proposition and drive growth
- 4 Resilient business model with natural hedges to market volatility
- 5 Disciplined expense management, enabling operating leverage
- 6 Capital-light business model with flexible allocation framework

LPL overview

Who we are

- We serve the advisor-mediated marketplace as the largest independent broker-dealer in the U.S. and a top custodian
- We provide advisors with the front-, middle- and back-office support they need to serve the large and growing market for comprehensive financial advice

**#1 Independent
Broker-Dealer**

Financial Planning Magazine

#3 RIA Custodian

Cerulli Associates

**Fortune 500
Company**

What we do

- **We serve advisors and enterprises so they can...**
 - Help their clients achieve life's goals and dreams
 - Run thriving businesses
- **We deliver...**
 - Value-added capabilities that help advisors and enterprises provide differentiated experiences for their clients
 - Personalized solutions from flexible and compelling affiliation models, to services that help advisors and enterprises run extraordinary businesses
 - Liquidity & Succession capabilities for advisors seeking to transition their business

Who we serve

~22,000 Advisors

\$1.2T+ Assets

- **Independent Advisors:** 12,000+
- **Independent RIA:** ~6,100 (~550 firms)
- **Enterprise Services:** 3,500+ (~1,100 enterprises)
- **Advisor channel:** \$937B
- **Enterprise channel:** \$303B

Our mission and vision

Mission

We take care of our advisors so they can take care of their clients

Vision

Become the leader across the advisor-mediated marketplace

We are providing value-added capabilities that drive our market expansion

Horizontal expansion strategy

Meet advisors and enterprises where they are in the evolution of their business by providing flexible solutions to help them design the perfect offering for their clients

Expand the addressable market through multiple affiliation models, positioning LPL to serve all 300,000 advisors in the advisor-mediated marketplace

Flexibility

Vertical integration strategy

Deliver advisors and enterprises end-to-end solutions that are higher quality, better integrated, easier to use, and more cost-efficient

Provide value-added capabilities that empower advisors and enterprises to:

- Give great advice to differentiate & win
- Run high-performing businesses

Capabilities

Foundation:

Infrastructure that supports scalability, flexibility, and resiliency is core to our value proposition

To execute on our strategic priorities, we organize our efforts into five strategic plays

Horizontal expansion strategy

PLAY
1

Advisor Channel

Empower advisors to create the practice that best fits their aspirations and investors

PLAY
2

Enterprise Channel

Be the destination and strategic partner of choice for enterprises delivering wealth management

Vertical integration strategy

PLAY
3

Core Foundation

Provide an industry-leading integrated service and technology platform

PLAY
4

Value Expansion

Deliver expanded capabilities and products for an enhanced client and investor experience

PLAY
5

Business and Advice Services

Deepen participation with clients through services that help them run thriving businesses and deliver enhanced advice

Enablers:

Empower the organization to innovate, collaborate, and thrive as we deliver on the promises we make to our clients

Our horizontal expansion strategy enables us to meet all ~300,000[†] advisors where they are

[†] 2021 Cerulli Broker-Dealer Marketplace

We are a market leader in independent advisor channels, with a growing opportunity in the employee channel

Growing advisor opportunity

- Initially, we served advisors in the **independent market**, where advisors own and operate their businesses
 - We expand our market leadership through continued enhancements to capabilities and competitive pricing
- By building on what we already do well, we've unlocked the ability to support a broader set of advisors: **Strategic Wealth, Independent Employee and Enhanced RIA**
 - To power these new models, we embedded a new layer of services that extends our vertical integration, while also enhancing the overall client experience
- This combination has expanded our opportunity to serve all segments of the advisor-mediated market

Value proposition

Flexible Models	- Traditional Independent Model - Strategic Wealth - Independent Employee - Enhanced RIA
Differentiated Economics	- Compelling ongoing economics - Transition assistance - Lower technology costs and fees
Complete Book Ownership	Advisors have complete ownership of their practice
Value-added capabilities	- Technology and operating platform - Integrated products and solutions - Compliance and risk management
Business Services	- Portfolio of services to help advisors run thriving businesses - Solve the most compelling problems facing advisors

Organic NNA has driven the majority of advisor asset growth

We provide a compelling value proposition for enterprises to outsource their wealth business

Growing enterprise opportunity

- Initially, we focused on **financial institutions** as our primary opportunity for outsourced wealth management
- As we onboarded several financial institutions in recent years, we've built a number of new capabilities and continue to innovate based on learnings from those onboardings
- In doing so, we've exposed new opportunities to serve **broader enterprises, expanding our addressable market from \$1T to \$5T**
- To capitalize on this opportunity, there are additional capabilities we are building
- Our value proposition resonates for enterprises outsourcing for the first time or looking to upgrade their existing provider

Value proposition

Accelerate Growth

- Enhanced client experience
- Attract new advisors
- Improved capacity to invest in the business

Reduce Cost and Risk

- Operational efficiency and technology:** outsourced back-and middle-office support
 - Can lead to ~10 point improvement in operating margin[†]
- Regulatory and risk reduction:** transferred regulatory and compliance risk

Seamless Conversion Process

- Minimize business disruption through integration and operational support
- Dedicated onboarding team with experience transitioning several large enterprises to our platform

Enterprise economics

Attractive Margins

- Due to size and asset mix, Gross Profit ROA for Large Enterprises is typically ~15 bps+
- The lower ROA is factored into our TA underwriting process
- Given our scale, there is also a **lower cost to serve** enterprises
- Overall, new enterprise partnerships are **in-line with our broader margins**

Organic NNA has driven the majority of enterprise asset growth

Extending our vertical integration by solving for the needs of advisors at every stage of their practice

Life cycle of an advisor

Our operating platform delivers industry-leading flexibility and integrated workflows

Lead with choice and flexibility

- Promote optionality by integrating a broad array of third-party tools
- Design and deliver proprietary capabilities as needed

Guide advisors to best-fit solutions

- Leverage unique expertise to match advisors to the right capabilities
- Guide advisors and enterprises to solutions optimized for cost

Streamline integrated workflows

- Make it easy for advisors to execute seamlessly across our ecosystem
- Provide access to practice management insights to drive advisor growth

Our Services Group is an innovation engine and driver of organic growth...

Deepening our vertical integration

Helping advisors and enterprises deliver on their value proposition

New Store Sales

- Enabling **\$8B** in 2022 Recruited AUM⁽⁴⁾
- Expanding our addressable markets by supporting new affiliation models
- Attracting new advisor and enterprise profiles

Same Store Sales

- **~2x** faster growth among users of our Services Group vs. those that don't
- Supporting advisors and enterprises to acquire more new end-clients
- Giving advisors and enterprises the tools to deepen relationships with existing clients

Retention

- **~1.5x** higher NPS scores among users of our Services Group vs. those that don't
- Increasing client asset retention
- More likely to recommend LPL

...and has grown to ~5,200 subscriptions, with broad adoption across our diverse services

Planning & Advice Services

- Digital and employee-powered solutions that help advisors and enterprises expand the breadth and depth of their advice
- Helps advisors and enterprises increase marketplace differentiation while limiting additional complexity and risk
- Plans can average ~\$1,000 per month
- Current Portfolio: Paraplanning
- Recently Launched: Tax Planning
- In Development: High Net Worth Services

Business Services

Business Optimizers

- Digital solutions that provide risk mitigation and business continuity services to support business operations and succession planning
- Lower revenue and lower cost since they deliver digital capabilities
- Subscriptions average \$100+ per month
- Current Portfolio: M&A Solutions, Digital Office, Resilience Plan and Assurance Plan
- In Development: Digital Marketing

Professional Services

- Digital and employee-powered solutions that provide expertise to increase business-level growth and operational efficiency
- Higher revenue and higher cost due to full support from an LPL team
- Subscriptions average \$1,500+ per month
- Current Portfolio: CFO Solutions, Marketing Solutions, Admin Solutions, Advisor Institute and Bookkeeping
- Recently Launched: Partial Book Sales
- In Development: CFO Essentials

Services Group Subscriptions

Services Group Advisor Count

126	485	1,167	2,266	3,039	3,506
-----	-----	-------	-------	-------	-------

† Subscriptions are the number of advisors using the service

We provide a range of services to advisors and enterprises, strengthening their business while enhancing our returns

We have seen a favorable mix shift in our platforms

Key points

- **Brokerage**: Asset growth is driven by Enterprises, where asset mix is primarily brokerage
- **Advisory**: Assets are shifting from brokerage to advisory, as end-clients seek greater levels of support from advisors
 - Prior to enterprises, we are shifting towards advisory at ~2%+ per year
 - ~75% of new client flows are in advisory
- **New Models**: Strategic Wealth & Independent Employee models increase support for advisors and expand our addressable market
- **Centrally Managed**: Platforms can create additional value within advisory
 - Outsourcing portfolio design and management can free up advisors' time to serve clients and grow their business
- **Services Group**: Support advisors and enterprises through an expanded set of offerings and a subscription model

We are advancing our capabilities to enhance our value proposition and drive growth

Investment areas of focus

Accelerate Growth Initiatives	Invest in key growth initiatives to drive market expansion and market share
Enhance Advisor and Enterprise Experience	Invest in key moments of the advisor and enterprise experience to help them provide great advice and run thriving businesses
Expand Services Portfolio	Invest in incubating, accelerating and launching new services that address advisors' and enterprises' most pressing needs
Strengthen Foundational Infrastructure	Invest in people, technology and data to strengthen our foundation and support our growth
Reduce Cost to Serve	Invest in automation, digitization and workflow optimization to drive operational efficiencies

† Prior to NPH and AdvisoryWorld
‡ 2019 Core G&A* growth is based on the Company's total 2018 Core G&A*
§ Prior to Waddell & Reed
§§ 2022 Core G&A* growth is based on the Company's total 2021 Core G&A*

Increasing overall investment levels to drive organic growth...

...with a focus on Technology

We continued to drive solid organic growth with a net new asset growth rate of ~8% for the past year

Total Organic Net New Assets⁽⁹⁾ (\$B)

Organic Net New Advisory Assets⁽¹⁰⁾ (\$B)

Organic Net New Brokerage Assets⁽¹⁰⁾ (\$B)

† Prior to Q4 2021, net new assets and net new assets growth rates exclude the assets of Waddell & Reed

We benefit from rising market levels and interest rates, and our business model has natural hedges to market volatility

Macro benefits

Market Levels (S&P 500)

Rising market levels drive growth in assets and related revenues including advisory fees, trailing commissions, and sponsor revenues

Interest Rates

Rising interest rates benefit our client cash yields

Annual Gross Profit* Impact

~\$10M

Per 1% change in market levels

~\$35M⁽¹¹⁾

Per 25bps change in short-term rates

Natural offsets to market declines

Cash Sweep Balance

Increased risk and volatility in the market drives higher cash sweep balances

Transaction Volume

Increased risk and volatility in the market drives additional portfolio rebalancing activity and higher transaction volumes

As equity markets declined in 1H 2022, cash balances increased by ~\$13B, which translates to a ~\$550M benefit annually⁽¹²⁾

Transaction revenue increased ~\$7M sequentially in Q1 2022

Our client cash balances are largely operational and as a percent of client assets, have been stable across rate cycles

Client Cash Balances⁽¹³⁾ (\$B)

Client cash as a % of assets has averaged ~5%†

- Our client cash balances are largely operational
 - Typically small balances used for rebalancing, paying advisory fees, and customer withdrawals
 - This is reflected in the low client cash balances, which average ~5% or ~\$7K per account
- The primary factor that moves that % of client cash up or down is market sentiment rather than rate seeking behavior
 - When clients are fully deployed in the market, the ratio has gone as low as ~4%, like we saw in 2019 and in the current market
- In Q2 2023, cash was 4.0% of client assets
 - Cash balances declined in the quarter, driven by net buying of \$32B

† Since the start of the last interest rate cycle in Q4'16

We generate compelling economics on client cash balances

Client Cash Balances⁽¹³⁾ (\$B)

Average Yields (in bps)						
ICA Sweep	184	240	133	100	185	286
DCA Sweep	183	211	53	24	125	266
MM Sweep	73	73	22	3	30	32
CCA ⁽¹⁵⁾	188	208	56	15	149	373
Total Client Cash	172	216	117	75	153	269

Note: Totals may not foot due to rounding

† Assumes change based on Q2 2023 end of period cash balances. Gross Profit* benefit is measured relative to a Fed Funds target range of 0 to 25 bps.

Annual potential Gross Profit* benefit from rising interest rates

- Over the last interest rate cycle, our deposit beta averaged ~15%
 - Deposit betas averaged ~2.5% over the first 4 hikes, after that betas averaged 25%
- This cycle, deposit betas were consistent on the first 100 bps, and favorable on subsequent hikes
 - This cycle to-date, our deposit betas have averaged ~15%
- Applying historical deposit betas to our current cash balances would yield:
 - ~\$35M of Annual Gross Profit* per subsequent rate adjustment, at a ~25% deposit beta

Estimated Interest Rate Sensitivity based on current balances [†]

□ Fed Funds rate target range as of July 27, 2023

Fixed rate balances increased to ~60% of the ICA portfolio, reducing our sensitivity to movement in short-term interest rates

ICA Balances, including Overflow (\$B)

Variable balances are primarily indexed to Fed Funds

- Our variable ICA balances declined in the quarter, driven by net buying of \$32B
- Most variable balances are indexed to Fed Funds + a spread (~10 to ~15 bps)
- Currently, new variable contracts are averaging Fed Funds plus 20 to 30 bps

Fixed rate ICA balances are ~60% of the ICA portfolio

- Management target range for the ICA portfolio is 50-75% fixed rate contracts

Maturing Contracts (\$B)
as of end of Q2 2023

Year	Maturing Contracts (\$B)	Maturing Yield† (bps)
2023	\$2.5	~330
2024	\$6.5	~250
2025	\$5.4	~330
2026	\$3.4	~330
2027	\$1.4	~420
2028	\$2.8	~420

Overflow balances provide capacity when balances spike

- Historically, when ICA balances exceeded our fixed and variable contract capacity, we utilized money market overflow contracts
- Given improved bank deposit demand and the launch of CCA, we no longer have any money market overflow balances

In 2023, the environment is creating an opportunity to accelerate investments to advance our strategic priorities

Long-term cost strategy

- Deliver operating leverage in core business
- Prioritize investments that drive additional growth
- Drive productivity and efficiency
- Adapt cost trajectory as environment evolves

2023 Core G&A* context

- Our most recent 2023 Core G&A* plans were for a range of \$1,335M to \$1,370M
- Given our strong levels of organic growth, and the variable costs associated with supporting that growth, we are raising the low end of our 2023 outlook range by \$10M
- This translates to an updated 2023 Core G&A* range of \$1,345M to \$1,370M

Recent expense trajectory, prior to acquisitions

Core G&A* outlook

1H 2023	\$663M
1H 2023 Annualized	\$1,326M
2023 Outlook	\$1,345M to \$1,370M

Our capital management strategy is focused on driving growth and maximizing shareholder value

Our capital management principles

- **Disciplined capital management to drive long-term shareholder value**
- **Maintain a strong and flexible balance sheet**
 - Flexible debt structure to support capital allocation
- **Prioritize investments to support and drive organic growth**
 - Recruiting to drive net new assets
 - Capital to support advisor and enterprise growth and advisor M&A
 - Investments in capabilities to attract new assets, advisors and enterprises
- **Capitalize on opportunistic M&A**
 - Remain prepared for attractive opportunities
 - Facilitate advisor monetization and transitions through Liquidity & Succession solutions
- **Return excess capital to shareholders**
 - Share repurchases
 - Dividends

Dynamic capital allocation framework

Due to our improved earnings profile, we lowered our target leverage range

Balance Sheet Principles

- Maintain a strong balance sheet that can absorb market volatility while having the capacity to invest for growth
- A **long-term target leverage range of 1.5x to 2.5x** positions our balance sheet well over a range of economic cycles and strikes the right balance between preserving balance sheet strength and investing for growth
- We are willing to operate temporarily above or below our target range if conditions warrant
- At the top end of our target leverage range, we have the capacity to deploy up to ~\$4.7B⁽¹⁶⁾ of additional capital
- We maintain a management target of at least \$200 million in Corporate Cash⁽¹⁷⁾⁽¹⁸⁾

Leverage Ratio⁽¹⁾

We have significant capital deployment capacity...

Capital Deployment Capacity

...And we have continued to return capital to shareholders

Share Repurchases and Dividends (\$M)

[†] Increased share repurchase authorization by \$2.0B as of 09/21/2022, which we started to utilize in 2023

We see potential for consolidation given fragmented markets

Addressable markets for advisor channel †

Highly fragmented markets create opportunity for additional consolidation †

Growth potential from consolidation

- Our scale, capabilities, and economics give us **competitive advantages in M&A** in independent markets and employee channels
- The **independent markets are fragmented** with consolidation opportunities
- Rising cost and complexity is making it **harder for smaller players** to compete
- We believe consolidation can drive value** by adding scale, increasing our capacity to invest in capabilities, and creating shareholder value

† Estimated market sizing based on 2021 Cerulli reports. See endnote 3 for additional detail.

‡ Traditional Independent and Employee Channel sizing: Small (<\$10B); Medium (\$10B - <\$50B); Large (>\$50B)

§ RIA sizing: Small (<\$250M); Medium (\$250M - <\$1B); Large (>\$1B)

Recent acquisitions† have added scale in our traditional markets, accelerated our expansion into new markets, and added new capabilities

† Includes both closed and pending acquisitions

We're delivering new liquidity and succession capabilities for advisors seeking to transition

Background: Solving a need in the marketplace

- ~1/3 of advisors are expected to retire or leave the industry over the next decade – representing **\$8.5T** of AUM[†]
- Historically, advisors' options were limited:
 - Sell to a larger aggregator that may pay an enhanced price, but take control from the advisor
 - Transact with a local advisor, but often at a below-market price

Our response: New Liquidity & Succession solutions

New LPL capability to buy practices from advisors seeking a pathway to retirement, looking to free themselves from entrepreneurial burdens, and / or looking for monetization

- ✓ **Economics** – Allows advisor to monetize their business through a market-competitive transaction
- ✓ **Support** – Empowers advisors through a fully dedicated support model, allowing advisors to rededicate their time and energy to client service
- ✓ **Transition** – Transitions ownership of the business to successor advisors over time

Direct acquisition lifecycle example

Building foothold in marketplace with strong initial returns

- Enhancing strategic value – by training successor advisors, **deepening the connection with LPL** – and reorienting the practice towards growth
- To date, we have completed **15 deals**, with **8** additional expected to close in 2H 2023
- Good use of capital — purchase multiples consistent with our M&A framework **~6-8x EBITDA**
- Based on closed transactions and our pipeline, **average deal size of ~\$10-20M**

As we continue to invest and increase our scale, we enhance our ability to drive further growth

We are focused on executing our strategy and delivering results

Net Income to EBITDA* and Credit Agreement EBITDA*

EBITDA* and Credit Agreement EBITDA* are non-GAAP financial measures. Please see a description of EBITDA* and Credit Agreement EBITDA* under “Non-GAAP Financial Measures” on page 3 of this presentation for additional information.

Below are reconciliations of the Company's net income to EBITDA* and Credit Agreement EBITDA* for the periods presented herein:

\$ in millions	Q2'23 LTM	2022	2021	2020	2019	2018
Net income	\$1,176	\$846	\$460	\$473	\$560	\$439
Interest expense on borrowings	154	126	104	106	130	125
Provision for income taxes	383	266	141	153	182	153
Depreciation and amortization	220	200	151	110	96	88
Amortization of other intangibles	97	88	79	67	65	60
EBITDA	\$2,030	\$1,525	\$936	\$909	\$1,033	\$866
Credit Agreement adjustments	133	114	214	52	48	103
Credit Agreement EBITDA	\$2,163	\$1,639	\$1,151	\$961	\$1,081	\$969
Total debt	3,020	2,738	2,839	2,359	2,415	2,381
Total corporate cash	325	459	237	280	204	300
Credit Agreement Net Debt	\$2,694	\$2,279	\$2,602	\$2,079	\$2,211	\$2,081
Leverage Ratio	1.25x	1.39x	2.26x	2.16x	2.05x	2.15x

Note: Totals may not foot due to rounding

Reconciliation

Adjusted EPS* and Adjusted Net Income*

Adjusted EPS* and adjusted net income* are non-GAAP financial measures. Please see a description of adjusted EPS* and adjusted net income* under “Non-GAAP Financial Measures” on page 3 of this presentation for additional information.

Below are the following reconciliations of net income and earnings per diluted share to adjusted net income* and adjusted EPS* for the periods presented herein:

	Q2'23 LTM		2022		2021		2020		2019		2018	
\$ in millions, except per share data	Amount	Per Share	Amount	Per Share	Amount	Per Share	Amount	Per Share	Amount	Per Share	Amount	Per Share
Net income / earnings per diluted share	\$1,176	\$14.70	\$846	\$10.40	\$460	\$5.63	\$473	\$5.86	\$560	\$6.62	\$439	\$4.85

Regulatory charges	32	33	29	29	32	32
Core G&A	\$1,288	\$1,192	\$1,058	\$925	\$868	\$819

\$ in millions	2021	2018
Core G&A	\$1,058	\$819
NPH-related Core G&A	-	65
AdvisorWorld-related Core G&A	-	2
Waddell & Reed-related Core G&A	59	-
Total Core G&A prior to acquisitions	\$999	\$752

Note: Totals may not foot due to rounding

Endnotes

- (1) The Company calculates its leverage ratio as total debt less total corporate cash, divided by Credit Agreement EBITDA for the trailing twelve months.
- (2) Other employee channels include National & Regional B/D, Insurance B/D, and Retail bank B/D channels. Independent channels include independent B/D, Hybrid RIA, and Independent RIA channels.
- (3) Estimated market sizing based on 2021 Cerulli reports, unless otherwise noted. Below are reconciliations of each market:

Traditional Market	RIA Market	Employee Channel	Enterprise Channel
Independent B/D	Hybrid RIA	National & Regional B/D	Insurance B/D
	Independent RIA	Wirehouse	Bank Trust
		(-) Adj. to avoid double-counting Boutique B/D	Product Manufacturers*
			Boutique B/D*
			Retail bank B/D
			(-) Adj. to Retail bank B/D: Chase & Wells Fargo

* Estimated market sizing based on LPL estimates. Product Manufacturers defined as fund companies with an adjacent traditional wealth management business serving individuals. Boutique B/D defined as National & Regional B/Ds with less than \$50B AUM, which we view as an Enterprise market opportunity

- (4) Represents the estimated total advisory and brokerage assets expected to transition to the Company's broker-dealer subsidiary, LPL Financial LLC ("LPL Financial"), associated with advisors who transferred their licenses to LPL Financial during the period. The estimate is based on prior business reported by the advisors, which has not been independently and fully verified by LPL Financial. The actual transition of assets to LPL Financial generally occurs over several quarters and the actual amount transitioned may vary from the estimate.
- (5) 2022 is prior to M&A- and enterprise-related onboarding spend in technology.
- (6) Consists of brokerage assets serviced by advisors licensed with LPL Financial.
- (7) Consists of total assets on LPL Financial's corporate advisory platform serviced by investment advisor representatives of LPL Financial or Allen & Company of Florida, LLC ("Allen & Company") and total assets on LPL Financial's independent advisory platform serviced by investment advisor representatives of separate investment advisor firms ("Independent RIAs"), rather than of LPL Financial.
- (8) Consists of advisory assets in LPL Financial's Model Wealth Portfolios, Optimum Market Portfolios, Personal Wealth Portfolios, and Guided Wealth Portfolios platforms.
- (9) In April 2020, the Company updated its definition of net new assets to include dividends plus interest, minus advisory fees. Unless otherwise noted, net new assets figures for periods prior to Q2 2020 appearing in this presentation have been recast using the updated definition.
- (10) Consists of total client deposits into advisory or brokerage accounts (including advisory or brokerage accounts serviced by Allen & Company advisors) less total client withdrawals from advisory or brokerage accounts, plus dividends, plus interest, minus advisory fees. The Company considers conversions from and to brokerage or advisory accounts as deposits and withdrawals, respectively. Annualized growth is calculated as the current period organic net new advisory or brokerage assets divided by preceding period total advisory or brokerage assets, multiplied by four.
- (11) Assumes change based on Q2 2023 end of period ICA balances, presented on page 22.
- (12) Annual benefit measured in total revenue. Based on variable client cash balances indexed to Fed Funds.
- (13) During the second quarter of 2022, the Company updated its definition of client cash balances to include client cash accounts and exclude purchased money market funds. Client cash accounts include cash that clients have deposited with LPL Financial that is included in Client payables in the condensed consolidated balance sheets. Prior period disclosures have been updated to reflect this change as applicable.
- (14) Calculated by dividing revenue for the period by the average balance during the period.
- (15) Calculated by dividing interest income earned on cash held in the Client Cash Account (CCA) for the period by the average CCA balance, excluding cash held in CCA that has been used to fund margin lending, during the period. The remaining cash is primarily held in cash segregated under federal or other regulations in the condensed consolidated balance sheets.
- (16) Calculated using the summation of the following components: (1) corporate cash available to use above \$200M management target range, (2) the additional leverage capacity above current leverage times trailing twelve month Credit Agreement EBITDA, and (3) the additional leverage capacity from an M&A opportunity at a 6x purchase multiple for which capital was deployed up to 2.5x leverage.
- (17) Management's corporate cash target covers approximately 18 months of principal and interest due on corporate debt.
- (18) Corporate cash, a component of cash and equivalents, is the sum of cash and equivalents from the following: (1) cash and equivalents held at LPL Holdings, Inc., (2) cash and equivalents held at regulated subsidiaries as defined by the Company's Credit Agreement, which include LPL Financial, Financial Resources Group Investment Services, LLC and The Private Trust Company, N.A., in excess of the capital requirements of the Company's Credit Agreement (which, in the case of LPL Financial and Financial Resources Group Investment Services, LLC, is net capital in excess of 10% of their aggregate debits, or five times the net capital required in accordance with Exchange Act Rule 15c3-1) and (3) cash and equivalents held at non-regulated subsidiaries.
- (19) Additional leverage capacity is assumed to be generated by acquired EBITDA* from an M&A opportunity at a 6-8x purchase multiple for which capital was deployed up to 2.5x leverage.
- (20) Consists of total advisory and brokerage assets under custody at LPL Financial and Waddell & Reed, LLC. As of June 30, 2023, there were no assets under custody at Waddell & Reed.
- (21) During the first quarter of 2023, the Company updated its presentation of employee deferred compensation to be consistent with its presentation of advisor deferred compensation. As a result, gains or losses related to market fluctuations on advisor and employee deferred compensation plans are presented in the same line item as the related increase or decrease in compensation expense for purposes of Management's Statements of Operations. This change has not been applied retroactively as the impact on prior periods was not material.
- (22) Acquisition costs include the costs to setup, onboard and integrate acquired entities. The below table summarizes the primary components of acquisition costs for the periods presented:

\$ in millions	Q2'23 LTM	2022	2021
Professional services	\$8.7	\$12.0	\$18.7
Compensation and benefits	10.1	20.6	36.4
Promotional	0.9	2.3	14.3
Other	1.4	1.3	7.0
Acquisition costs	\$21.1	\$36.2	\$76.4
