INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This presentation, and oral statements made with respect to information contained in this presentation, may include certain forward-looking statements regarding our views with respect to our business, operations, loss reserves, strategy, investment portfolio, economic model, and our expected performance for future periods, as well as the insurance market and industry conditions. These statements are intended as “forward-looking statements” under the Private Securities Litigation Reform Act of 1995. Actual results may materially differ from those set forth in the forward-looking statements. You may identify forward-looking statements by the use of words such as “believe,” “expect,” “plan,” “intend,” “anticipate,” “estimate,” “predict,” “potential,” “may,” “should,” “could,” “will” or other words or expressions of similar meaning, although not all forward-looking statements contain such terms.

Forward-looking statements involve significant risks and uncertainties, including risks of changing and uncertain economic conditions, the success of implementing our business strategies, the adequacy of our loss reserves, ongoing and future regulatory developments disrupting our business, lengthy and unpredictable litigation, risks relating to our acquisitions, increasing competitive pressures, loss of key personnel, risks relating to our active underwriting businesses, the performance of our investment portfolio and liquidity, and other factors detailed in our Annual Report on Form 10-K for the year ended December 31, 2022 and our other reports filed from time to time with the Securities and Exchange Commission (“SEC”).

Any forward-looking statement you see or hear during the presentation reflects Enstar Group Limited’s current views with respect to future events and is subject to these and other risks, uncertainties and assumptions. If any of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The date of this presentation is listed on the cover page and Enstar does not undertake to update or keep it accurate after such date.

NON-GAAP FINANCIAL MEASURES

In addition to our key financial measures presented in accordance with GAAP, this presentation includes other non-GAAP financial measures that we use to manage our business, compare our performance against prior periods and against our peers, and as performance measures in our incentive compensation programs.

These non-GAAP financial measures provide an additional view of our operational performance over the long-term and allow investors the opportunity to analyze our results in a way that is more aligned with the manner in which our management measures our underlying performance.

The presentation of these non-GAAP financial measures, which may be defined and calculated differently by other companies, is used to enhance the understanding of certain aspects of our financial performance. It is not meant to be considered in isolation, superior to, or as a substitute for the directly comparable financial measures prepared in accordance with GAAP. Refer to slides 22 through 24 of this presentation for further details regarding our non-GAAP measures and reconciliations of these measures to the most directly comparable GAAP measure.

1. Investable Assets is the sum of total investments, cash and cash equivalents, restricted cash and cash equivalents and funds held.

THE ENSTAR EFFECT

For most insurance companies, claims experience is an expense item.

For Enstar, driving superior claims outcomes is a major competitive advantage

LOSS RESERVE OUTPERFORMANCE

Enstar Loss Reserve Outperformance vs US P&C Industry^{1,2}
Five Years Ended 2021

Enstar delivered 2.7% better net loss reserve outcomes on our Run-off segment

Enstar 2022 Year-End Loss Reserves³
(\$ in billions)

1. We calculated the change in estimates of net ultimate losses for the last 5 calendar years divided by average net loss reserves on our three largest lines of business within our Run-off segment (General Casualty, Workers' Compensation and Asbestos & Environmental), as well as in aggregate for the Run-off segment, and compared the results to the total of the Combined US P&C Industry (source: US Annual Statements through SNL). To remove any potential distortions due to mix of accident years, we have matched the industry reserves' accident-year-weighting to match Enstar's.

2. The weighted average reduction in estimates of net ultimate losses divided by average net loss reserves by line of business for the five-year period ended 2021 was as follows: i) General Casualty – Enstar (0.7)%, Industry (3.2)%; ii) Workers' Compensation – Enstar 10.3%, Industry 4.4%; iii) Asbestos & Environmental – Enstar 0.4%, Industry (8.1)%; and iv) Total Run-off – Enstar 3.4%, Industry 0.7%.

3. Net OLR and IBNR loss reserves and ALAE for Enstar's Run-off segment.

HISTORY OF ENHANCING BOOK VALUE

29 year history operating in run-off space

115 total acquisitive transactions completed to date

5-YEAR ROE AND ADJUSTED ROE*

Targeting long-term Adjusted ROE low to mid-teens**

* Non-GAAP measure; refer to slides 22 to 24 for reconciliation to the applicable GAAP financial measure.

** Adjusted ROE is a Non-GAAP measure. Due to trading accounting elections on certain of our investment assets, ROE calculated in accordance with GAAP includes the impact of net realized and unrealized gains (losses) on fixed maturity investments and funds held-directly managed, which can be material. Consequently, ROE calculated in accordance with GAAP is interest rate sensitive and will have greater variability than our Adjusted ROE. As such, reconciliation of Adjusted ROE to ROE calculated in accordance with GAAP is not accessible on a forward-looking basis because we believe that it is not possible without unreasonable effort to provide with reasonable accuracy an expected range for the impact of net realized and unrealized gains (losses) on fixed maturity investments and funds held-directly managed. However, given that unrealized fixed income losses reduced our GAAP equity base in 2022, we expect our annual average ROE calculated in accordance with GAAP will be higher than our annual average Adjusted ROE until our unrealized fixed income losses recover, subject to the potential impact of future net realized and unrealized losses.

CAPACITY FOR GROWTH

Well-funded as of 31 December 2022

NON-GAAP MEASURES

Non-GAAP Measure	Definition	Purpose of Non-GAAP Measure over GAAP Measure
<u>Adjusted return on equity (%)</u>	Adjusted operating income (loss) attributable to Enstar ordinary shareholders divided by adjusted opening Enstar ordinary shareholder's equity	Calculating the operating income (loss) as a percentage of our adjusted opening Enstar ordinary shareholders' equity provides a more consistent measure of the performance of our business by enabling comparison between the financial periods presented.
Adjusted operating income (loss) attributable to Enstar ordinary shareholders (numerator)	<p>Net earnings (loss) attributable to Enstar ordinary shareholders, adjusted for:</p> <ul style="list-style-type: none"> -net realized and unrealized (gains) losses on fixed maturity investments and funds held-directly managed, -change in fair value of insurance contracts for which we have elected the fair value option ⁽¹⁾, -amortization of fair value adjustments, -net gain/loss on purchase and sales of subsidiaries (if any), -net earnings from discontinued operations (if any), -tax effects of adjustments, and -adjustments attributable to noncontrolling interests 	<p>We eliminate the impact of net realized and unrealized (gains) losses on fixed maturity investments and funds-held directly managed and the change in fair value of insurance contracts for which we have elected the fair value option, as:</p> <ul style="list-style-type: none"> • we typically hold most of our fixed income securities until the earlier of maturity or the time that they are used to fund any settlement of related liabilities which are generally recorded at cost; and • removing the fair value option improves comparability since there are limited acquisition years for which we elected the fair value option. <p>Therefore, we believe that excluding their impact on our earnings improves comparability of our core operational performance across periods.</p>
Adjusted opening Enstar ordinary shareholders' equity (denominator)	<p>Opening Enstar ordinary shareholders' equity, less:</p> <ul style="list-style-type: none"> -net unrealized gains (losses) on fixed maturity investments and funds held-directly managed, -fair value of insurance contracts for which we have elected the fair value option ⁽¹⁾, -fair value adjustments, and -net assets of held for sale or disposed subsidiaries classified as discontinued operations (if any) 	<p>We include fair value adjustments as non-GAAP adjustments to the adjusted operating income (loss) attributable to Enstar ordinary shareholders as they are non-cash charges that are not reflective of the impact of our claims management strategies on our loss portfolios.</p> <p>We eliminate the net gain (loss) on the purchase and sales of subsidiaries and net earnings from discontinued operations, as these items are not indicative of our ongoing operations.</p> <p>We use this non-GAAP measure in our incentive compensation program.</p>

⁽¹⁾ Comprises the discount rate and risk margin components.
