- (1) Gross Par and Net Par include capital appreciation bonds ("CABS") which are reported at the par amount at the time of issuance of the insurance policy. Accretion of the CABS would increase the related gross and net par by \$217 million and \$214 million, respectively at December 31, 2020.
- (2) Net Par and Net Principal & Interest are net of reinsurance.
- (3) Subject to Act No. 5-2017, as amended, also known as the Financial Emergency and Fiscal Responsibility Act of 2017, which declares an emergency period that has been subsequently re-extended until June 30, 2021, from its prior December 31, 2020 deadline. Pursuant to Act 5-2017, all executive orders issued under Act No. 21-2016 (as amended, known as the Puerto Rico Emergency Moratorium and Financial Rehabilitation Act), shall continue in full force and effect until amended, rescinded or superseded. Also subject to the Priority Debt Provision under Section 8 of Article VI of the Constitution of the Commonwealth of Puerto Rico, commonly known as the "clawback provision".
- (4) Certain Pledged Revenues for Highway and Transportation Revenue Bonds such as Toll Revenues and Investment Earnings are not subject to the Priority Debt Provision.
- (5) Both the Gross and Net Principal & Interest do not reflect an interest rate increase from 5.5% to 10%, resulting from the lack of a remarketing, on a \$60 million Ambac-insured 7/1/2035 security issued by the PR Public Building Authority. Should a remarketing not occur before the maturity of the bonds, both the Gross and Net Principal & Interest would increase by \$39.3 million.
- (6) As of December 31, 2020 ever-to-date net claims paid, including commutation payments, net of subrogation received and reinsurance are \$594.5 million. In January 2021, Ambac made net claim payments totaling \$22.8 million on Ambac-insured Bonds.

Forward Looking Statement

In this presentation, we have included statements that may constitute “forward-looking statements” within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as “estimate,” “project,” “plan,” “believe,” “anticipate,” “intend,” “planned,” “potential” and similar expressions, or future or conditional verbs such as “will,” “should,” “would,” “could,” and “may,” or the negative of those expressions or verbs, identify forward-looking statements. We caution readers that these statements are not guarantees of future performance. Forward-looking statements are not historical facts but instead represent only our beliefs regarding future events, which may by their nature be inherently uncertain and some of which may be outside our control. These statements may relate to plans and objectives with respect to the future, among other things which may change. We are alerting you to the possibility that our actual results may differ, possibly materially, from the expected objectives or anticipated results that may be suggested, expressed or implied by these forward-looking statements. Important factors that could cause our results to differ, possibly materially, from those indicated in the forward-looking statements include, among others, those discussed under “Risk Factors” in our most recent SEC filed quarterly or annual report.

Any or all of management’s forward-looking statements here or in other publications may turn out to be incorrect and are based on management’s current belief or opinions. Ambac’s actual results may vary materially, and there are no guarantees about the performance of Ambac’s securities. Among events, risks, uncertainties or factors that could cause actual results to differ materially are: (1) the highly speculative nature of AFG’s common stock and volatility in the price of AFG’s common stock; (2) Ambac’s inability to realize the expected recoveries, including RMBS litigation recoveries, included in its financial statements which would have a materially adverse effect on Ambac Assurance Corporation’s (“AAC”) financial condition and may lead to regulatory intervention; (3) failure to recover claims paid on Puerto Rico exposures or realization of losses in amounts higher than expected; (4) increases to loss and loss expense reserves; (5) inadequacy of reserves established for losses and loss expenses and possibility that changes in loss reserves may result in further volatility of earnings or financial results; (6) uncertainty concerning the Company’s ability to achieve value for holders of its securities, whether from AAC and its subsidiaries or from transactions or opportunities apart from AAC and its subsidiaries, including new business initiatives relating to the specialty property and casualty program insurance business, the managing general agency/underwriting business, or related businesses; (7) potential of rehabilitation proceedings against AAC; (8) increased fiscal stress experienced by issuers of public finance obligations or an increased incidence of Chapter 9 filings or other restructuring proceedings by public finance issuers, including an increased risk of loss on revenue bonds of distressed public finance issuers due to judicial decisions adverse to revenue bond holders; (9) our inability to mitigate or remediate losses, commute or reduce insured exposures or achieve recoveries or investment objectives, or the failure of any transaction intended to accomplish one or more of these objectives to deliver anticipated results; (10) insufficiency or unavailability of collateral to pay secured obligations; (11) credit risk throughout Ambac’s business, including but not limited to credit risk related to residential mortgage-backed securities, student loan and other asset securitizations, public finance obligations and exposures to reinsurers; (12) the impact of catastrophic environmental or natural events, including catastrophic public health events like the COVID-19 pandemic, on significant portions of our insured and investment portfolios; (13) credit risks related to large single risks, risk concentrations and correlated risks; (14) the risk that Ambac’s risk management policies and practices do not anticipate certain risks and/or the magnitude of potential for loss; (15) risks associated with adverse selection as Ambac’s insured portfolio runs off; (16) Ambac’s substantial indebtedness could adversely affect its financial condition and operating flexibility; (17) Ambac may not be able to obtain financing or raise capital on acceptable terms or at all due to its substantial indebtedness and financial condition; (18) Ambac may not be able to generate the significant amount of cash needed to service its debt and financial obligations, and may not be able to refinance its indebtedness; (19) restrictive covenants in agreements and instruments may impair Ambac’s ability to pursue or achieve its business strategies; (20) adverse effects on operating results or the Company’s financial position resulting from measures taken to reduce risks in its insured portfolio; (21) disagreements or disputes with Ambac’s insurance regulators; (22) default by one or more of Ambac’s portfolio investments, insured issuers or counterparties; (23) loss of control rights in transactions for which we provide insurance due to a finding that Ambac has defaulted; (24) adverse tax consequences or other costs resulting from the characterization of the AAC’s surplus notes or other obligations as equity; (25) risks attendant to the change in composition of securities in the Ambac’s investment portfolio; (26) adverse impacts from changes in prevailing interest rates; (27) our results of operation may be adversely affected by events or circumstances that result in the impairment of our intangible assets and/or goodwill that was recorded in connection with Ambac’s acquisition of 80% of the membership interests of Xchange; (28) risks associated with the expected discontinuance of the London Inter-Bank Offered Rate; (29) factors that may negatively influence the amount of installment premiums paid to the Ambac; (30) market risks impacting assets in the Ambac’s investment portfolio or the value of our assets posted as collateral in respect of interest rate swap transactions; (31) risks relating to determinations of amounts of impairments taken on investments; (32) the risk of litigation and regulatory inquiries or investigations, and the risk of adverse outcomes in connection therewith, which could have a material adverse effect on Ambac’s business, operations, financial position, profitability or cash flows; (33) actions of stakeholders whose interests are not aligned with broader interests of the Ambac’s stockholders; (34) system security risks, data protection breaches and cyber attacks; (35) changes in accounting principles or practices that may impact Ambac’s reported financial results; (36) regulatory oversight of Ambac Assurance UK Limited (“Ambac UK”) and applicable regulatory restrictions may adversely affect our ability to realize value from Ambac UK or the amount of value we ultimately realize; (37) operational risks, including with respect to internal processes, risk and investment models, systems and employees, and failures in services or products provided by third parties; (38) Ambac’s financial position that may prompt departures of key employees and may impact its ability to attract qualified executives and employees; (39) fluctuations in foreign currency exchange rates could adversely impact the insured portfolio in the event of loss reserves or claim payments denominated in a currency other than US dollars and the value of non-US dollar denominated securities in our investment portfolio; (40) disintermediation within the insurance industry that negatively impacts our managing general agency/underwriting business; (41) changes in law or in the functioning of the healthcare market that impair the business model of our accident and health managing general underwriter; and (42) other risks and uncertainties that have not been identified at this time.
